

Scientific Dependability

THE high dependability of PYREX Brand Scientific Glassware is in itself a guarantee of safety in the important work connected with research and routine tests.

The fact that the co-efficient of expansion of PYREX Brand Glassware is as low as 3.2×10^{-5} per degree C. makes it possible for us to produce every piece of Scientific Glassware much stronger and more robust in character than that of ordinary composition, able not only to withstand sudden extremes of temperature, but also to resist the physical shocks of everyday usage.

That's why you can rely on PYREX Brand.

clinical efficiency

The germicidal efficiency of 'Dettol' remains high even in the presence of blood, pus and wound debris. This property, coupled with its wide margin of safety, makes 'Dettol' invaluable for use in emergencies, not only by you, but in the less qualified hands of others who in emergency might have to render first aid.

The Most Significant Sex Study Ever Made

Sexual Behavior in the Human Male

By KINSEY, POMEROY and MARTIN

Based on Surveys made by Members of the Staff of Indiana University and supported by the National Research Committee for Research on Problems of Sex by means of funds contributed by the Medical Division of the Rockefeller Foundation.

Scientists in a great variety of fields have been following with tremendous interest the research conducted during the past nine years by Dr. Alfred C. Kinsey and his staff at Indiana University.

These authors have brought biologic, medical, psychologic, psychiatric and sociologic viewpoints to bear upon a problem that involves all five fields. Drawing material from upper level groups as carefully as it does from the more poorly educated and the economically lower levels, this survey represents one of the most extensive uses yet to be made of social stratification as a tool for analysing problems in the human species in these and many other cognate fields.

No present-day aspect of human biology stands in more need of scientific knowledge and courageous humility than that of sex. Without hesitation, therefore, all who are acquainted with this study are pronouncing it to be the most useful research of its kind ever to be conducted.

With a Preface by ALAN GREGG, M.D., Director, Division of Medical Sciences, Rockefeller Foundation. 804 pages. 173 charts, 159 tables. Price 32s. 6d.

A list of Contents will be gladly supplied on request.

When patients need more VITAMIN C

In the many cases where supplementary Vitamin C is called for, Rose Hip Syrup is an excellent choice. It is extremely palatable, simple to administer, and is readily tolerated by patients of all ages.

Scott & Turner's Rose Hip Syrup provides an ample intake of Vitamin C in all scorbutic and sub-scorbutic conditions—loss of weight, proneness to infection, anorexia and disordered blood picture. It is made from freshly-gathered rose hips which are exceptionally rich in ascorbic acid, and is prepared in accordance with the Ministry of Health standard (200 mgs. ascorbic acid per 100 mls.).

With its added sugar syrup, Scott & Turner's Rose Hip Syrup is pleasantly sweet. It may be given undiluted, or diluted with water or milk; or added to porridge, cereals and milk puddings. A dessertspoonful contains approximately 25 mgs. ascorbic acid. From chemists only, 1/9 per 6-oz. bottle.

Sample bottle for clinical trial on request.

the **NEW** analgesic...

First reports on the use of 'Physeptone' in general practice indicate that an outstanding advance has been made in the treatment of severe pain. With few exceptions, it may with advantage replace morphine, to which it is equal or superior in analgesic effect. 'Physeptone' does not unduly depress respiration, constipate, or induce narcosis or mental apathy; it may be given continuously for long periods without diminution of effect.

'Physeptone' is available in ampoules of 10 mgm. in 1 c.c. in boxes of 12 at 9/-, plus 2/3 purchase tax. For oral administration it is available as 'Tabloid' brand compressed products, 5 mgm., in bottles of 25 at 4/6, plus 1/1½ purchase tax; and bottles of 100 at 16/10, plus 4/2½ purchase tax (SUBJECT TO PROFESSIONAL DISCOUNT).

IMPORTANT: 'Physeptone' was brought under the Dangerous Drugs Act and Regulations on January 1st, 1948.

DILAUDID

KNOLL BRAND

dihydromorphinone

"Dilaudid" (Knoll) brand dihydromorphinone is an improved morphine preparation with an analgesic action five times as great as morphine, but with a considerably weaker hypnotic effect. The euphoric element is largely subdued and the risk of addiction correspondingly lowered. Tolerance is greatly improved, an increase of dosage rarely necessary. The effect on peristalsis is only slight and much less persistent than in the case of morphine

DICODID

KNOLL BRAND

dihydrocodeinone

"Dicodid" (Knoll) brand dihydrocodeinone exerts a specific and selective action on the cough centre; in these respects it occupies a place midway between that of morphine and codeine. Better tolerated than morphine, it also interferes very much less with expectoration, the absence of any notable constipating effect is responsible for the use of "Dicodid" as a post-operative analgesic

Unique Vitamin Content

The use of exceptional quality oils and careful blending have resulted in a 50% emulsion which contains, in each fluid ounce, 30,000 I.U. vitamin A and 3,000 I.U. vitamin D, a potency equivalent to that of a 100% high grade cod liver oil.

The stable, superfine droplet of Crookes Emulsion has followed from advances in colloidal chemistry and recent developments in the scientific preparation of emulsions. The droplet size is $2-3\mu$ which, together with the exceptional palatability of the emulsion, favours ease of administration and subsequent absorption.

'GENATOSAN' DERMATOLOGICAL CREAMS

'Genatosan' Dermatological Creams present a range of twenty formulæ incorporated into water-miscible bases. Thus Dermatological Cream No. 8 contains Salicylic Acid 3%, Benzoic Acid 5%; it is an improved form of Whitfield's ointment, indicated in epidermophytosis and other fungous affections of the skin.

The special non-greasy ointment bases featured in the series ensure rapid penetration into the skin and do not impede free heat radiation, so that the irritation frequently caused by the heating effect of fatty ointment bases is absent.

Convenience in use—the creams are easily washed off skin or clothing—is a factor in encouraging the patient to persevere with treatment.

Vitamin Therapy - its uses and limitations

In pursuit of protein

So accustomed have we become to thinking of Bemax mainly as a rich natural source of the vitamin B complex that its high protein content is not always fully appreciated.

Compare, for example, the *protein* content of bacon and Bemax. The 2-oz. bacon ration should provide, in a week, about 6.2 grammes of first-class protein. One daily tablespoonful of Bemax will

provide, in the same period, more than 30 grammes of *first-class* protein.

A comparison of *calories* shows about 133 for bacon and about 350 for Bemax.

So the nutritional value of Bemax comprises even more than its well-known vitamin content and for those who are able to supplement their diet with Bemax no lowering of the protein intake need occur.

Bemax stabilised cereal embryo

1 oz. of Bemax provides approximately :—

vitamin B ₁	0.45 mg.	vitamin E	8.0 mg.	protein	30%
vitamin B ₂		manganese	4.0 mg.	available carbohydrate	39%
(riboflavine)	0.3 mg.	iron	2.7 mg.	fibre	2%
nicotinic acid	1.7 mg.	copper	0.45 mg.	calorific value	104
vitamin B ₆	0.45 mg.

IN THYROID DEFICIENCY

Comparatively minor degrees of thyroid deficiency may produce symptoms reminiscent of more serious conditions,

e.g. *dry skin, brittle nails, lustreless hair (suggestive of myxoedema); irritability, suspiciousness, lack of concentration (suggestive of schizophrenia); recurrent corneal ulcer, obesity (suggestive of lowered metabolism).*

Small doses (starting at one tablet daily) of 'Elityran' are usually adequate to restore the balance. 'Elityran' therapy is notably free from palpitations and other by-effects.

LAXATIVES for CHILDREN

To aid the Physician in choosing a laxative for children, we give the chief characteristics of Andrews. The dosage is easily adjusted according to age. Andrews is pleasant-tasting, and children accept it readily. Its laxative action is mild, and is due to the presence of magnesium sulphate and other salts in balanced proportion which increase the fluid content of the bowel by osmotic action and so lead to easy non-gripping evacuation. Andrews has a soothing effect on the stomach, stimulates the bile-flow and generally aids digestive processes. It is also useful as a gastric sedative in bilious attacks. Andrews has no costive reaction when discontinued.

PRE-NATAL DIET and the course of PREGNANCY

The normal functioning of the reproductive organs during pregnancy depends, among other things, upon the plentiful intake of vitamins and minerals.

Medical opinion is gaining ground that there is an increased need for Vitamin B in late pregnancy and the early puerperium. Its administration during the period before childbirth has resulted in less vomiting and nausea and in marked improvement in the nutritional value of the breast milk. In order to assure the building of the foetal bones *in utero* and afterwards during breast-feeding, the importance of Vitamin D and of calcium and phosphorus is also established.

In Supavite Capsules the practitioner has at hand a combination of these and other essential vitamins and minerals in a scientifically balanced form of particular value in maternity cases.

'OXYAIR'

LIGHT WEIGHT PLASTIC OXYGEN MASK

The mask combines maximum comfort to the patient with lightness in weight and low resistance to breathing. The translucence of the material from which it is made enables the doctor or nurse to observe through the mask itself whether the patient is breathing through the nose or mouth, the colour of the lips, and any squeezing or pinching of soft tissues, etc. The mask is so designed that it is impossible for the neck of the reservoir bag to become closed even when the patient is in a reclining position.

throat irritants.

Five protective layers go to make up the filter tip of every du Maurier cigarette. Three layers of white vegetable tissue with alternate layers of fine cellulose protect the membranes from the irritant action of pyridine bases and other non-volatile bodies. Although no shred of tobacco can pass the lips and no unfiltered smoke can impinge on the tongue, the du Maurier tip allows the full flavour and fragrance of finely selected tobacco to pass unimpaired

APPOINTMENTS

HIS MAJESTY'S COLONIAL SERVICE COLONIAL MEDICAL SERVICE

The Colonial Medical Service offers an interesting career and provides unique opportunities for applying medical science in territories which are undergoing rapid development. There are immediate openings in many parts of the Colonial Empire and applications are invited from both men and women doctors who are British subjects and possess qualifications registrable in the United Kingdom. Medical Officers are usually appointed in the first instance for general duties. This implies all-round ability with a balanced outlook upon both preventive and curative medicine. Officers are also required for public health duties, in which case the D.P.H. or some experience of health work is necessary. Ample opportunities exist for field investigation, while officers with special aptitude are encouraged to obtain such higher qualifications as will enhance their value to the Service. Officers are from time to time seconded or appointed to medical laboratories in the larger territories. In the West African territories improved salary scales and conditions of service have recently been introduced. In most of the other territories the terms of service are being actively reviewed, and meanwhile temporary cost-of-living allowances are being paid over and above the existing salaries. At present initial basic salaries, i.e. irrespective of any cost-of-living allowance and of any credit that may be allowable for war service or professional experience, vary between £600 and £925 according to locality. There are, in addition, numbers of super-scale posts in the administrative and specialist grades which are normally filled by promotion within the Service. Free passages for an officer and wife are generally provided both on first appointment and when travelling on leave of absence. Where Government quarters are provided a small rent is usually payable. Good leave conditions and an adequate pension scheme are in force. The Colonial Medical Service is a unified service and members are eligible for transfer from one territory to another, either with or without promotion. Selected candidates may be required to take a course in tropical medicine either before proceeding overseas (in which case they would receive an allowance) or on first leave. Candidates for permanent service must have been born on or after January 1, 1907. Contract appointments are also available in certain territories for doctors born before this date. Further particulars may be obtained from, and applications should be addressed to, the Director of Recruitment (Colonial Service), Colonial Office, 15, Victoria Street, London, S.W.1.

KINGSTON GENERAL HOSPITAL Kingston, Ontario, Canada INTERNSHIPS

Applications are invited for Internships from recent graduates. Kingston General Hospital is the teaching hospital of 500 beds, attached to Queen's University Medical School. Interns are ordinarily drawn from this source, but as a result of the adjustment of courses following the war, there will be no graduates from Queen's University this year. Eight posts are vacant (male or female) from July 1, 1948, to July 1, 1949. Maintenance, board and laundry are provided and an honorarium of \$25.00 per month. There is a special travel expense provision for interns coming from a distance. Applications should be sent to the Superintendent, Kingston General Hospital, Kingston, Ontario, Canada.

MINISTRY OF HEALTH INDUSTRIAL MEDICAL OFFICER

Applications are invited from medical practitioners with experience in industrial medicine for appointment to a Medical Interviewing Committee which is being established in Preston to examine disabled persons and advise the Disablement Resettlement Service of the Ministry of Labour and National Service. Fee payable for session of 14 to 24 hours at 12s. 6d. plus 10s. 6d. if appointed as Chairman. Applications and requests for further information should be made to the Senior Medical Officer, Ministry of Health, Regional Offices, Sunlight House, Quay Street, Manchester, 3.

DEPARTMENT OF HEALTH FOR SCOTLAND HAIRMYRES HOSPITAL East Kilbride, Lanarkshire ASSISTANT SURGEON

Applications are invited for appointment as Assistant Surgeon at Hairmyres Hospital, East Kilbride, Lanarkshire, salary £750 per annum non-resident or £650 living-in. The appointment is subject to one month's notice by either party. Forms of application from the Department of Health for Scotland (Room 103), St. Andrew's House, Edinburgh, 1.

DOWN COUNTY HEALTH COMMITTEE SIX DIVISIONAL MEDICAL OFFICERS

Applications are invited for the above-mentioned whole-time appointments from registered medical practitioners, who must also be registered in the medical register as holding a Diploma in Sanitary Science, Public Health or State Medicine. Applicants must have had not less than two years' experience in general Public Health duties in a whole-time capacity as a Medical Officer of Health, Deputy Medical Officer of Health or Assistant Medical Officer of Health under a Local Authority in accordance with the Health Authorities (Qualifications and Duties of Medical Officers) Regulations (Northern Ireland), 1948, and/or must be otherwise qualified in accordance with the above Order. The salaries for the positions will be £960 per annum, rising by annual increments of £40 (first increment payable as from April 1, 1949) to £1,160, inclusive of cost-of-living bonus, plus travelling expenses on the County Council scale of 5d. per mile, and the posts are superannuable on a non-contributory basis in accordance with the Superannuation Acts relating to Local Government in Northern Ireland. The precise boundaries of the Divisional Areas (which will have a population of 30,000 to 40,000) have not yet been finally determined, but these will be formally approved prior to the attendance of applicants for interview, and the opportunity will then be afforded to applicants to state their preference (if any) for individual areas. The positions have arisen in consequence of the re-organization of the Public Health Services in Northern Ireland, and the successful applicants will be required (*inter alia*):—(a) to reside in the Division to which they are appointed; (b) to act under the direction of the County Medical Officer of Health as Assistant County Medical Officer within the Division; and (c) to act as Medical Officer of Health to the various Borough, Urban, and Rural Districts within the Division. Details of the conditions of appointment and particulars of the Qualifications Order above referred to may be obtained from Dr. J. B. McKinney, County Medical Officer of Health, at the under-mentioned address. Other things being equal, preference will be given to ex-Service candidates possessing the required qualifications. Applications to be lodged with the undersigned not later than Monday, February 23, 1948.—J. C. Pantridge, Secretary, 17, Ocean Buildings, Donegall Square East, Belfast.

NORTHERN IRELAND COUNCIL FOR ORTHOPAEDIC DEVELOPMENT (INC.) ORTHOPAEDIC SURGEON

The Northern Ireland Council for Orthopaedic Development (Inc.) invites applications for the post of Orthopaedic Surgeon. The applicant, after appointment, will be required to undergo a course of training at an approved Orthopaedic Centre. Applicant must hold the Fellowship of one of the Royal Colleges of Surgeons and furnish evidence of general surgery experience. Salary offered, £650 to £900 per annum, depending on qualifications. After training, applicant will be required to take up work under the direction of the Northern Ireland Council for Orthopaedic Development (Inc.) and to confine his practice to that of Orthopaedic surgery. Applications should be submitted before March 15, 1948, to the Organizing Secretary, Northern Ireland Council for Orthopaedic Development (Inc.), 18 May Street, Belfast.

ARAB LEGION TRANSJORDAN SURGEON TO THE ARAB LEGION

Applications are invited from registered medical practitioners (male) for the post of Surgeon to the Arab Legion. Successful candidates will be required to undertake full surgical responsibility, and preference will be given to candidates with the F.R.C.S. Three months leave (with passage paid) is granted every two years to the United Kingdom and passage is paid to Transjordan on first joining. Salary varies from £848 per annum, single and unaccompanied, to £1,460 married and unaccompanied. Salary is liable to local income tax only (at present 4%). Applications, accompanied by recent testimonials, should be sent to Senior Medical Officer, Arab Legion, Transjordan, from whom further particulars may be obtained.

UNIVERSITY OF BRISTOL RADIOLOGICAL REGISTRARS

The University of Bristol in conjunction with the Bristol Royal Hospital invites applications for two non-resident posts of Radiodiagnostic Registrars. The appointments are for one year and renewable. The salary will be on a scale from £500 to £750 per annum, according to qualifications and experience. Applications, giving full names, age, qualifications, details of education and experience, together with the names of not more than three referees, and copies of not more than three recent testimonials, should reach the undersigned, on or before March 1, 1948.—Winifred Shapland, Secretary and Registrar, The University of Bristol, Bristol, 8.

UNIVERSITY OF SYDNEY CHAIR OF PHARMACOLOGY

The Senate will shortly proceed to the appointment of the newly established Chair of Pharmacology. The duty of the Chair includes tuition in Pharmacology to senior medical students and the direction of tuition in Materia Medica and allied pharmaceutical subjects to Pharmacy and Science students. The Senate will be glad to hear, before June 30, 1948, from anyone who would like to be considered for the appointment. The salary will be at the rate of £1,500 (Australian) per annum. To this salary the University adds a yearly sum equal to 10% by way of contribution to the Sydney University Professorial Superannuation System under which there is a retirement provision on the lines of F.S.S.U.; the Professor's own contribution to the system will be at the rate of 5% of his salary. In addition, the Professor will be entitled to receive a pension of £400 per annum upon retirement after attaining the age of 60 years. In order to encourage research and to maintain the standards of teaching in his Department, one year's sabbatical leave may be granted on full pay every seven years or thereabouts. Travelling expenses will be paid as arranged at time of appointment; generally speaking they will cover first class steamer fare in the case of a successful applicant coming from abroad.—G. Dale, Registrar.

UNIVERSITY OF BRISTOL DIAGNOSTIC RADIOLOGIST

The University of Bristol, in conjunction with the Bristol Royal Hospital, invites applications for the post of Diagnostic Radiologist. The Royal Hospital is a teaching hospital, associated with the Bristol University Medical School, and is also a School for Radiographers. A salary at the rate of £1,250 per annum will be payable and the candidate appointed will be permitted to engage in limited private practice in the Royal Hospital, for which he will be remunerated on the B.M.A. Scale. Candidates who should possess a higher qualification in Radiology should submit applications, stating age, nationality, full details of education and experience, and copies of three recent testimonials, together with the names of three referees, to the undersigned not later than March 1, 1948.—Winifred Shapland, Secretary and Registrar, The University of Bristol, Bristol, 8.

BOROUGH OF WILLESDEN WHOLE-TIME ASSISTANT MEDICAL OFFICER OF HEALTH

The Council invite applications for the appointment of a whole-time Assistant Medical Officer of Health in the Health Department. The duties include Maternity and Child Welfare work, School Medical work, control of infectious diseases, the supervision of the work of health visitors and such other duties as the Council or the Medical Officer of Health may require to be undertaken. The appointment is terminable by three months' notice on either side, is subject to the provisions of the Local Government Superannuation Act, 1937, to the regulations governing officers of the Council and to satisfactory medical examination. A four weeks' course in Obstetrics and Gynaecology has been arranged for July 19 to August 13, 1948. It will be conducted in the Edinburgh Royal Infirmary and the Simpson Memorial Maternity Pavilion by the Senior Staff and the Clinical Teaching Staff, and will consist of approximately 80 hours lectures, operating sessions, clinical work and pathological demonstrations. The class will be limited to a minimum of 12 and a maximum of 20. Only those with considerable postgraduate experience in Obstetrics and Gynaecology should apply as the course is intended for those wishing to specialize and is not a General Refresher Course. Fee 20 guineas.

INTERNAL MEDICINE

The course lasting 12 weeks, suitable for graduates wishing a refresher course, or to specialize in Medicine, which begins on Monday, April 12, 1948, is full. A similar class commences on October 4, 1948. These courses consist of 300 hours instruction comprising lectures, clinical demonstrations and ward visits. Fee 30 guineas.

GENERAL SURGERY

The five months' course of Postgraduate Surgery arranged to start on Monday, March 29, 1948, is full. A similar course will begin on Monday, October 18, 1948, and is suitable for surgeons requiring a refresher course in the current outlook on General Surgery, or for graduates preparing to specialize in Surgery; approximately 280 hours of instruction are provided. Fee 35 guineas.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

The Twelfth General Fortnight Refresher Course, primarily to demobilized Medical Officers (Class II) and for Insurance Practitioners, will commence at 9 a.m. on Monday, May 3, 1948. 20 hours are devoted to lectures covering a wide range of subjects, with emphasis on recent advances in treatment, 50 hours are allotted to clinical demonstrations and ward visits. A similar course may be held in September, 1948. Fee for graduates not claiming expenses from Government sources, 10 guineas.

PAEDIATRICS AND OPHTHALMOLOGY

Short courses of instruction in Paediatrics and Ophthalmology are run in conjunction with the courses in Medicine and Surgery. They are primarily intended for those who wish additional experience in these subjects. A small fee is charged and the numbers are limited.

Applications for enrolment to Director of Postgraduate Studies, University New Buildings, Edinburgh, 8. Applicants for courses in Obstetrics and Gynaecology, Internal Medicine and Surgery, should supply particulars of qualifications and postgraduate experience.

AVAILABLE *Now* **GELUSIL**

* TRADE MARK REG.

ANTACID TABLETS... *the new combined antipeptic*

Gelusil* Antacid Tablets provide magnesium trisilicate and a uniquely stable alumina gel which is virtually impervious to hydrochloric acid in physiological concentration and so does not change into non-protective, soluble, constipating aluminium chloride. Thus, constipation, the primary drawback so common to alumina gel therapy, is practically eliminated in Gelusil during the treatment of peptic ulcer and alimentary hyperacidity.

Gelusil Antacid Adsorbent Tablets are individually wrapped in moisture-proof cellulose film in boxes of 50 tablets. Each tablet contains $7\frac{1}{2}$ grains of magnesium trisilicate and partially dehydrated, non-reactive aluminium hydroxide gel (Warner) corresponding to 4 grains of aluminium hydrate.
