## Bone and Vegetable Broth for Babies

Hygienically BOTTLED by Brand's  
... contains all the goodness of  
bone stock and fresh vegetables

THANKS to the excellent advice being given by clinics and nurses, more and more mothers are learning the importance of starting their babies on bone and vegetable broth at four months.

When you are advising mothers about the first semi-solids for Baby, remember that Brand's Bone & Vegetable Broth is broth in its most nutritious form. Home-made broths vary in the amount of goodness they contain. Brand's is a stock made from bone, carrot, spinach, beet and parsley. All the natural goodness of the vegetables and bone stock is preserved, and the broth is hygienically packed in glass jars. The mineral content (38 mgs. calcium and

28 mgs. phosphorus each per ounce) is always the same.

Other varieties of Brand's Baby Foods are Strained Carrots, Strained Spinach and Strained Prunes. 10½d. a jar from chemists and grocers.

## IN THE MANAGEMENT OF NEPHROPTOSIS

Spencer Abdominal  
Supporting Corset

### SPENCER IS SUGGESTED AS THE SUPPORT OF CHOICE BECAUSE:

Each Spencer is individually designed, cut and made for each patient. Thus you are assured of individualized control.

When prescribed for nephroptosis with symptoms, a Spencer provides localized abdominal support properly correlated with back support to hold kidneys in position favourable to treatment. Improved posture, better body mechanics result. When desired, a suitable pad is incorporated in the abdominal support.

In a Spencer, the inner abdominal support is non-elastic. By means of straps of strong surgical webbing it is instantly adjusted from outside without disturbing the corset.

## Rutin in Capillary fragility

Rutin is a crystalline glycoside obtained from the leaves and flowers of buckwheat. Recent reports attribute to Rutin the property of reducing capillary fragility when this is abnormally raised.

In our research laboratories a limited quantity has been isolated from buckwheat grown in this country and is available in the form of tablets.

Rutin A & H is suggested for administration in haemorrhagic conditions due to increased capillary fragility or permeability, especially when this condition is associated with hypertension, nutritional deficiency or toxic effects of drugs.

## Peptic Ulcer and hypovitaminosis C

It has been shown experimentally that there exists a relation between peptic ulcer and hypovitaminosis C. Clinically it has been found that a considerable proportion of patients with low vitamin C reserves suffered from gastric or duodenal ulcer. Whether lowered vitamin C intake due to restricted dietary is always the cause of hypovitaminosis, or whether the hypovitaminosis is an ætiological factor in ulcer formation, is not yet determined.

Tests at various hospitals, employing two to three fluid ounces of 'Ribena' Blackcurrant Syrup daily, clearly showed that in acute cases of peptic ulcer, or cases of fairly recent standing, the supplement of blackcurrant juice accelerated disappearance of symptoms and of X-ray evidence of ulcer. Cases of hæmatemesis did particularly well on 'Ribena' therapy.

**VASOCONSTRICTION

BACTERIOSTASIS  
FOR HOURS**

Indicated in nasal and sinus infections, particularly those secondary to the common cold ; also in nasopharyngitis

The minute size of the 'Mickraform' sulphathiazole crystals in 'Sulfex' is an important advantage. Approximately 1/1000 the mass of the ordinary crystals, they spread over the nasal mucosa in a fine, even film which does not quickly wash away but remains on infected areas and provides prolonged bacteriostasis hour after hour. The 'Paredrinex' ensures prompt decongestion for ventilation and drainage, and also renders the infected areas more accessible to the sulphathiazole.

## SevenSeaS is vitamins plus

Popular belief always credited Cod Liver Oil with nutritional values over and above those of the Vitamin A and D that it contains in abundance. Recent scientific research has justified an ancient belief in yet another specific direction.

Unsaturated fats (and Cod Liver Oil is more unsaturated than any other edible oil or fat) are often deficient in normal diets. They have special values in promoting general health and particularly the proper nutrition and health of the skin.

The method of preparation of SevenSeaS at sea from sea-fresh livers ensures that the delicate unsaturated fatty acids of the oil are presented in an undamaged and readily digestible form. A daily teaspoonful of SevenSeaS provides unsaturated fatty acids at the recommended minimum level of approximately 1% of the calorie intake.

Current rationing difficulties make the prescription of SevenSeaS of still greater value.

For sustained control of gastric hyperacidity

## NOVASORB

(Hydrated Magnesium Trisilicate)

Novasorb provides for sustained control over gastric hyperacidity without producing an alkaline condition in the stomach. It thus presents a desirable improvement over the older antacids, where control is limited to the immediate reaction and where continued administration of excess alkali may induce alkalosis.

**High adsorptive properties**

**Will not give rise to alkalosis**

**With suitable doses, does not destroy peptic activity**

**A safe antacid for general use**

The Novasorb brand of hydrated magnesium trisilicate was developed and introduced by Evans Fine Chemical Works and is based on original observations and clinical trials. (*Brit. med. J.*, 1936, 1, 143, 205 and 254).

It is in the theatre that these hands are so fascinating to watch, especially when the crucial moment arrives and the suture is inserted. The success of the operation depends upon the reliability of the suture used. For it to snap or fail in any way must be unthinkable. This is the doctrine of the Ethicon organisation, largest makers of sutures. The meticulous care taken in testing ligatures and sutures for tensile strength, true diameter and sterility is well repaid, as Ethicon products are used and trusted everywhere.

in 3 convenient forms

A LOCOL, the well-known brand of Colloidal Aluminium Hydroxide, is now obtainable as a stable and palatable cream, thus presenting, with Alocol Powder and Alocol Tablets, three convenient ways of administering Alocol to meet every condition and preference.

Alocol Cream—equally with Alocol Powder and Tablets—is a most effective antacid for the neutralisation of hyperacidity in the treatment of dyspepsia, peptic ulcer and other conditions which irritate the gastric tract.

**Alocol Cream—like Alocol Powder & Tablets—has these Advantages:**

- Owing to its high reactivity it quickly neutralises excess acidity.
- It has a reserve of neutralising power and can thus control for a prolonged period the gastric acidity at the level most conducive to healing.
- It does not produce alkalisation nor a condition of alkalosis.

ALOCOL CREAM is supplied in bottles of 9 fl. oz.

ALOCOL CREAM. FORMULA—Alocol 6.0 parts approx.; Glycerin 5.0 parts; Ol. Menh. Pip. 0.005 parts; Aq. Chlorof. 4.0 parts; Aq. Dest. to 100.0 parts. The normal dose is 1 to 3 teaspoonfuls between meals and at bed-time.

## COMBINED PROTECTION WITH 3 INJECTIONS

By the use of 'Wellcome' brand Diphtheria-Pertussis Prophylactic D.P.P., children may be immunised against the two diseases in a course of three injections. The product contains Diphtheria Prophylactic A.P.T. plus Whooping Cough Vaccine (Alum Precipitated). Immunisation with 'Wellcome' Diphtheria Prophylactic A.P.T. has markedly reduced the incidence of and mortality from diphtheria. Although Whooping Cough Vaccine does not confer a degree of immunity comparable with that induced by diphtheria prophylactics, wide experience amongst clinicians indicates its value in reducing the incidence and severity of the disease.

# THE PRACTITIONER'S CARD-INDEX GUIDE TO TREATMENT

Prepared and edited by medical specialists  
experienced in medical publishing

*The System that Never Grows Old*

This system of treatment is unique in that the rapid advances in medical knowledge will never render it out of date.

The wide range of modern medical treatment is covered in a card-index eminently suitable for the physician's desk.

The subject matter is revised every three months, under the supervision of a Board of medical specialists, in the light of the latest world's medical literature, and practical experience.

These quarterly revisions can be incorporated in the Index in a few moments.

One complete Index, with an addendum comprising a useful list of modern Pharmaceutical specialities, is supplied in a handsome metal cabinet. The initial cost of £5 5s. includes the first four quarterly replacements. Subsequently the cost of the replacement service is £2 2s. per annum.

## APPOINTMENTS

### ARAB LEGION TRANSJORDAN SURGEON TO THE ARAB LEGION

Applications are invited from registered medical practitioners (male) for the post of Surgeon to the Arab Legion. Successful candidates will be required to undertake full surgical responsibility, and preference will be given to candidates with the F.R.C.S. Three months leave (with passage paid) is granted every two years to the United Kingdom and passage is paid to Transjordan on first joining. Salary varies from £848 per annum, single and unaccompanied, to £1,460 married and unaccompanied. Salary is liable to local income tax only (at present 4%). Applications, accompanied by recent testimonials, should be sent to Senior Medical Officer, Arab Legion, Transjordan, from whom further particulars may be obtained.

### UNIVERSITY OF SYDNEY CHAIR OF PHARMACOLOGY

\* The Senate will shortly proceed to the appointment to the newly established Chair of Pharmacology. The duty of the Chair includes tuition in Pharmacology to senior medical students and the direction of tuition in Materia Medica and allied Pharmaceutical subjects to Pharmacy and Science students. The Senate will be glad to hear, before June 30, 1948, from anyone who would like to be considered for the appointment. The salary will be at the rate of £1,500 (Australian) per annum. To this salary the University adds a yearly sum equal to 10% by way of contribution to the Sydney University Professorial Superannuation System under which there is a retirement provision on the lines of F.S.S.U.; the Professor's own contribution to the system will be at the rate of 5% of his salary. In addition, the Professor will be entitled to receive a pension of £400 per annum upon retirement after attaining the age of 60 years. In order to encourage research and to maintain the standards of teaching in his Department, one year's sabbatical leave may be granted on full pay every seven years or thereabouts. Travelling expenses will be paid as arranged at time of appointment; generally speaking they will cover first class steamer fare in the case of a successful applicant coming from abroad.—G. Dale, Registrar.

### BERKSHIRE EDUCATION COMMITTEE ASSISTANT SCHOOL MEDICAL OFFICER

Applications are invited from registered medical practitioners for the above appointment. The person appointed will be required to execute, under the direction of the County and School Medical Officer, the medical inspection of children in public primary and secondary schools and such other work as may be prescribed. He/she will be required to devote his/her whole time to the duties. The salary will be at the rate of £650 per annum, rising by annual increments of £25 to £850 per annum, plus cost-of-living bonus. The appointment will be subject to the provisions of the Local Government Superannuation Act, 1937. Possession of a car is essential and travelling expenses will be paid according to County Council scale. Preference will be given to candidates already approved by the Minister of Education under Regulation 53 of the Handicapped Pupils and School Health Service Regulations, 1945. The successful candidate will be required to undergo a medical examination and to produce his/her birth certificate. The appointment will be subject to three calendar months' notice on either side. Canvassing, either directly or indirectly, will be a disqualification. Candidates for any appointment under the Council shall, when making application, disclose in writing to the Clerk whether or to their knowledge they are related to any member of or the holder of any senior office under the Council. Forms of application may be obtained from the School Medical Officer, 11, Abbot's Walk, Reading, and should be returned within 14 days of the appearance of this notice, together with copies of three testimonials.—H. J. C. Neobard, Clerk of the Council, Shire Hall, Reading.

## EDINBURGH POSTGRADUATE BOARD FOR MEDICINE

### OBSTETRICS AND GYNAECOLOGY

A four weeks' course in Obstetrics and Gynaecology has been arranged for July 19 to August 13, 1948. It will be conducted in the Edinburgh Royal Infirmary and the Simpson Memorial Maternity Pavilion by the Senior Staff and the Clinical Teaching Staff, and will consist of approximately 80 hours lectures, operating sessions, clinical work and pathological demonstrations. The class will be limited to a minimum of 12 and a maximum of 20. Only those with considerable postgraduate experience in Obstetrics and Gynaecology should apply as the course is intended for those wishing to specialize and is not a General Refresher Course. Fee 20 guineas.

### INTERNAL MEDICINE

The course lasting 12 weeks, suitable for graduates wishing a refresher course, or to specialize in Medicine, which begins on Monday, April 12, 1948, is full. A similar class commences on October 4, 1948. These courses consist of 300 hours' instruction comprising lectures, clinical demonstrations and ward visits. Fee 30 guineas.

### GENERAL SURGERY

The five months' course of Postgraduate Surgery arranged to start on Monday, March 29, 1948, is full. A similar course will begin on Monday, October 18, 1948, and is suitable for surgeons requiring a refresher course in the current outlook on General Surgery, or for graduates preparing to specialize in Surgery, approximately 280 hours of instruction are provided. Fee 35 guineas.

### REFRESHER COURSE FOR GENERAL PRACTITIONERS

The Twelfth General Fortnight Refresher Course, primarily for demobilized Medical Officers (Class II) and for Insurance Practitioners, will commence at 9 a.m. on Monday, May 3, 1948. 20 hours are devoted to lectures covering a wide range of subjects, with emphasis on recent advances in treatment. 50 hours are allotted to clinical demonstrations and ward visits. A similar course may be held in September, 1948. Fee for graduates not claiming expenses from Government sources, 10 guineas.

### PAEDIATRICS AND OPHTHALMOLOGY

Short courses of instruction in Paediatrics and Ophthalmology are run in conjunction with the courses in Medicine and Surgery. They are primarily intended for those who wish additional experience in these subjects. A small fee is charged and the numbers are limited.

Applications for enrolment to Director of Postgraduate Studies, University New Buildings, Edinburgh, 8. Applicants for courses in Obstetrics and Gynaecology, Internal Medicine and Surgery, should supply particulars of qualifications and postgraduate experience.

## For Parous Women

WHILE Tampax—both in principle and in application—has enjoyed the approval of members of the Medical Profession for many years now, the need of an additional product of greater absorbency has been stressed—particularly for use by parous women.

This need is now fulfilled by Super Absorbent Tampax No. 2, designed to cater for a heavy flow.

With a 40% increase in absorptive capacity, this new Tampax No. 2 makes available to many thousands more women the complete freedom, comfort and hygiene of which the name "Tampax" is symbolic. Available in America for some years, only shortage of raw materials and machinery during the War period prevented its manufacture in this country.

For normal requirements, the original Regular Tampax No. 1 is completely adequate.

*Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymeneal aperture would cause difficulty in insertion and withdrawal.*

Sanitary Protection **TAMPAX** Worn Internally

has won the approval of Doctors everywhere

If you require a sample packet of Super Absorbent Tampax No. 2 or Regular Tampax No. 1, please write to: Medical Inquiries, Tampax Limited, 110 Jermyn Street, London, S.W.1.

MAKE SURE OF  
YOUR NEW CAR!

In the difficult days, when basic petrol is suspended and a greater proportion of British made cars is destined for export, you should immediately register your new car requirements with us. This course will enable us to have the model you desire allocated to you at the earliest possible moment.

For the last twenty years our work has consisted of giving advice and service to the medical profession in connection with cars. We are contracting agents for practically every leading make of British car, and in our hands your interests will be well served.
