## NUTRITION . . .

*the answer to modern dietary problems*

There is evidence that the reduced daily caloric intake of the nation, resultant upon the lower quantitative and qualitative food standards of to-day, has a tendency to be a contributory cause of asthenia.

The physician rightly seeks a corrective for this condition, especially in patients where an examination reveals nervous instability, lassitude and weakness arising from a deficiency of vitamins and mineral constituents.

'Supavite' Capsules, by providing a balanced ration of vital food factors—vitamins A, B<sub>1</sub>, B<sub>2</sub>(G), C, D and E, together with Iron, Calcium and Phosphorus, enrich the depleted tissues and fluids and encourage the restoration of bodily health.

### FORMULA

Each **AMBER** capsule contains:

Vitamin A: 4500 International Units

Vitamin D: 600 International Units

Vitamin E: Content of 1 minim wheat germ oil

Each **BLACK** capsule contains:

Vitamin B<sub>1</sub>: 200 International Units

Vitamin B<sub>2</sub>(G): 250 Gammas

Riboflavin

Vitamin C: 300 International Units

Iron (Ferrous) 0.017 gramme

Hepolon is produced by special processes which conserve all the known hæmatopoietic principles of the whole liver. It approximates to the extract described by Gämslen.

Hepolon not only passes the highest clinical tests for potency against pernicious anaemia but contains Whipple's factor, Wills's factor, riboflavine, nicotinic acid, and the hæmatinic minerals of liver; it gives no reactions for histamine or undesirable protein matter.

## ORAL PENICILLIN THERAPY

Clinical studies show that 'Tabloid' brand Penicillin (buffered with sodium citrate), in doses of three to five times those given by parenteral routes, maintains equivalent or higher serum levels and produces a comparable therapeutic response. The increased dosage necessary by the oral route is more than offset by its greater convenience and by the saving in professional time and attention.

'Tabloid' brand Penicillin is suitable for the ambulatory treatment of gonorrhoea; for the treatment of pneumonia, especially in children; and for other penicillin-susceptible conditions, either alone or as a supplement to initial injections of penicillin. It is also particularly convenient for prophylactic use prior to surgery in cases where secondary infection is to be feared. A desiccant is now included in each pack to protect the products from moisture.

## Vitamin Therapy - its uses and limitations

### SUB-FERTILITY.

while demanding the fullest investigation if treatment is to be successful, may resolve itself into a need for full supplies of the dietary factors concerned in reproduction. Of these, the natural forms of vitamin E, present in whole wheat germ oil, are known to be of the first importance.

### FERTILOL

is stabilised and standardised wheat germ oil containing 3 mg. vitamin E per capsule. One to three capsules daily suffice for most cases. The vitamin is best utilised when given by mouth and treatment should in most cases be continued for several months. In pregnancy, the earlier treatment is begun the better.

In order that the doctor may have a free choice of bacteriostatic dressings, **SULPHONA-CREAM** is now offered to the medical profession.

**SULPHONA-CREAM** can be used as an ointment, or applied on a sterile spatula direct to a diseased or injured area, or spread on gauze, linen, or oiled silk.

The formula is the same as that used for the emulsion in **SULPHONA-TULLE** which—available only on prescription—has had continued success during the past years due to its acceptance and appreciation by doctors as a product based on the latest scientific knowledge.

**SULPHONA-CREAM** is indicated in the treatment of burns and scalds as a primary dressing to prevent infection. It is also successful in the treatment of septic skin lesions of indolent ulcers, and for burns and scalds when infection has already occurred. The dressing when used in combination with **SULPHONA-CREAM** need only be changed infrequently and healing proceeds rapidly without disturbance of new epithelial cells.

**SULPHONA-CREAM** is sold in tubes and is thus maintained sterile and ready for use. The sterility and composition of each batch is controlled by bacteriological and chemical examination.

## ANAHÆMIN B.D.H

### *In Neurological Complications of Pernicious Anæmia*

The hæmopoietic factor as presented in Anahæmin B.D.H. is essential for the prevention of subacute combined degeneration of the cord. Other substances, such as folic acid, will produce an adequate hæmatological response but allow neurological degeneration to appear and to progress unchecked. Potent liver preparations must be regarded as essential for the satisfactory treatment of pernicious anæmia.

Each batch of Anahæmin B.D.H. is clinically tested before issue.

# Getting down to fundamentals

The initial success of folic acid in macrocytic anaemias has been followed by similar remarkable results when the substance is given with iron in the form of 'FOLVRON,' Folic Acid and Iron, Tablets. 'FOLVRON' supplies in readily absorbable form the haematinic fundamentals, folic acid—the maturation factor for red cells (or its immediate precursor), and ferrous iron—principal building stone of haemoglobin. It is therefore valuable not only in primary (macrocytic) anaemias, but also for the many so-called secondary anaemias, met with in every-day practice—particularly those showing a marked iron deficiency.

## For Parous Women

WHILE Tampax—both in principle and in application—has enjoyed the approval of members of the Medical Profession for many years now, the need of an additional product of greater absorbency has been stressed—particularly for use by parous women.

This need is now fulfilled by Super Absorbent Tampax No. 2, designed to cater for a heavy flow.

With a 40% increase in absorptive capacity, this new Tampax No. 2 makes available to many thousands more women the complete freedom, comfort and hygiene of which the name "Tampax" is symbolic. Available in America for some years, only shortage of raw materials and machinery during the War period prevented its manufacture in this country.

For normal requirements, the original Regular Tampax No. 1 is completely adequate.

Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymeneal aperture would cause difficulty in insertion and withdrawal.

## To sustain Prolapsed Organs in elevated position many Doctors prescribe a **SPENCER SUPPORT**

*Spencer Abdominal Supporting Belt designed especially for this woman. Note the Spencer Breast Support also designed especially for her.*

The reason why Spencer Supports are so effective is this: |

Each Spencer Support is individually designed after a description of the patient's body and posture has been recorded—and 15 or more measurements have been taken. This assures the doctor that each patient will receive the proper design to aid his treatment; that the support will improve body mechanics and will fit with the precision and comfort necessary.

In cases of Visceroptosis or Nephroptosis with symptoms, a Spencer, designed especially for each patient, gives the specific, localized support required. The abdominal support provided is from below, upward and backward, and is accurately co-ordinated with back support.

## SPECIALISED SERVICE FOR DOCTORS

It is our good fortune to be of service to thousands of medical men—both in hospitals and in private practice.

The items we find most useful to them are our standardised Case History (visible) records, our Accounts (visible) records and our desk-top units.

The visible records afford the doctor a simple method of controlling his case-histories and accounts, *visually*, of signalling interviews and special cases and of annotating diagnoses,

prescriptions, family histories, etc. Portable books holding these records make patients on the "visiting" list a simple problem.

The desk unit is a species of silent "secretary" in that it brings forward reminders of appointments and other matters, houses all relevant papers, etc., and, if necessary, provides a covered-in file with a slotted-in record in front for annotating. These latter folders are also widely used for X-ray negatives and the like.

Full details (and free specimen records) will be sent to you if you will just write "Records" on your note-paper or visiting card.

# Prescribing a Laxative

When the Physician is called upon to prescribe a laxative for prolonged or occasional use, Andrews merits special consideration. Andrews is pleasant-tasting. Its effervescence has a refreshing quality that makes it an acceptable draught. Andrews causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion, which, acting by osmosis, induce easy, painless evacuation. Andrews is particularly suitable for patients liable to digestive upsets. It allays gastric discomfort and nausea. It also improves the flow of bile, and helps to check biliousness and sick headaches. No costive reaction results when Andrews is discontinued.

## APPROX. ACTIVE CONSTITUENTS:

### COUNTY BOROUGH OF GREAT YARMOUTH TUBERCULOSIS OFFICER AND DEPUTY MEDICAL OFFICER OF HEALTH

The Council of the County Borough of Great Yarmouth invite applications from qualified and registered medical practitioners possessing the Diploma in Public Health and State Medicine, for appointment to the position of Tuberculosis Officer and Deputy Medical Officer of Health. Candidates must be capable of assuming full responsibility in the Public Health Department in the absence of the Medical Officer of Health, so that general public health experience is necessary. The salary will be £975 per annum, rising by biennial increments of £50 to a maximum of £1,162 10s. per annum, plus cost-of-living bonus. The appointment will be subject to the consent of the Minister of Health and the provisions of the Local Government Superannuation Act, 1937, and the successful candidate will be required to pass a medical examination. Further particulars and forms of application can be obtained from me, and the applications must reach me not later than March 23, 1948.—Farra Conway, Town Clerk, Town Hall, Great Yarmouth.

### COUNTY OF SALOP ASSISTANT TUBERCULOSIS OFFICER

Applications are invited for the appointment of Assistant Tuberculosis Officer on the staff of the County Medical Officer of Health. The selected applicant will be required to reside in the house provided at Shiretton Sanatorium, which is administered by the Shropshire Association for the Prevention of Consumption, and will be seconded to the Association for part-time service as a Resident Medical Officer, the remainder of his duties being concerned with clinical work outside the Sanatorium in the County Council's Tuberculosis Service. The appointment will rank for superannuation purposes as whole-time service under the Salop County Council and will be subject to the Local Government Superannuation Act, 1937, and to a medical examination. The salary for the appointment will be according to qualifications and experience within the scale £500 by £25 to £650 plus bonus, together with emoluments valued at £250 per annum on a full residential basis, the apportionment as between cash and emoluments being subject to adjustment in the case of a married man. Further particulars may be obtained from the undersigned, to whom applications should be sent before March 20, 1948.—William Taylor, County Medical Officer, College Hill House, Shrewsbury.

### COUNTY BOROUGH OF SUNDERLAND GENERAL HOSPITAL

**DEPUTY MEDICAL SUPERINTENDENT**  
(Including duties in the Public Assistance Institution)  
Applications are invited from registered medical practitioners holding B1 appointments (if ineligible for H.M. Forces), or members of H.M. Forces who have held posts within the senior establishment and who are due for early release, for the appointment of Deputy Medical Superintendent, General Hospital, and Assistant Medical Officer to attached Highfield Public Assistance Institution. Applicants must possess a higher degree in medicine, and must have had considerable experience since qualification, including experience in the care of chronic sick. The person appointed will be required to assist the Medical Superintendent in the administration of the hospital, training of nurses, etc., to assist the Medical Superintendent in the medical care of patients in Highfield Institution, including chronic sick and cases coming under the Lunacy Acts; and to deputize for the Medical Superintendent when required. The salary will be at the rate of £606 per annum, rising by increments of £30 every two years to a maximum of £690 per annum, plus appropriate cost-of-living bonus (at present £29 19s. 7d. per annum if resident, £59 19s. 3d. if non-resident), together with full board and residential emoluments valued for superannuation purposes at £135 per annum. As there are no married quarters, the appointment of a married man would be "non-resident" but the above-mentioned cash salary would be increased by £135 per annum. The appointment will be subject to the rules and regulations from time to time adopted by the Council, and any fees received for work within the scope of the engagement or earned within normal working time must be paid over to the Borough Treasurer, unless given specific permission by the Council to retain them. The appointment is superannuable, is subject to passing a medical examination satisfactorily, and is determinable by three months' notice on either side. Applications, stating age, qualifications (with dates) and details of previous appointments and experience, together with copies of three recent testimonials, should reach the undersigned not later than March 20, 1948. Canvassing, directly or indirectly, until after the first selection of candidates will disqualify.—G. S. McIntire, Town Clerk, Town Hall, Sunderland.

Only those with considerable postgraduate experience in Obstetrics and Gynaecology should apply as the course is intended for those wishing to specialize and is not a General Refresher Course. Fee 20 guineas.

## INTERNAL MEDICINE

The course lasting 12 weeks, suitable for graduates wishing a refresher course, or to specialize in Medicine, which begins on Monday, April 12, 1948, is full. A similar class commences on October 4, 1948. These courses consist of "300 hours" instruction comprising lectures, clinical demonstrations and ward visits. Fee 30 guineas.

## GENERAL SURGERY

The five months' course of Postgraduate Surgery arranged to start on Monday, March 29, 1948, is full. A similar course will begin on Monday, October 18, 1948, and is suitable for surgeons requiring a refresher course in the current outlook on General Surgery, or for graduates preparing to specialize in Surgery; approximately 280 hours of instruction are provided. Fee 35 guineas.

## REFRESHER COURSE FOR GENERAL PRACTITIONERS

The Twelfth General Fortnight Refresher Course, primarily for demobilized Medical Officers (Class II) and for Insurance Practitioners, will commence at 9 a.m. on Monday, May 3, 1948. 20 hours are devoted to lectures covering a wide range of subjects, with emphasis on recent advances in treatment. 50 hours are allotted to clinical demonstrations and ward visits. A similar course may be held in September, 1948. Fee for graduates not claiming expenses from Government sources, 10 guineas.

## PAEDIATRICS AND OPHTHALMOLOGY

Short courses of instruction in Paediatrics and Ophthalmology are run in conjunction with the courses in Medicine and Surgery. They are primarily intended for those who wish additional experience in these subjects. A small fee is charged and the numbers are limited.

Applications for enrolment to Director of Postgraduate Studies, University New Buildings, Edinburgh, 8. Applicants for courses in Basic Sciences, Obstetrics and Gynaecology, Internal Medicine and Surgery, should supply particulars of qualifications and postgraduate experience.

### ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: The Most Hon. the MARQUESS OF EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

## Four Years of 'BENADRYL' Therapy

AS a result of four years of world-wide clinical experience the value of 'Benadryl' in the treatment of allergic disorders has been definitely established.

Clinical studies of this potent histamine antagonist were initiated early in 1944 and, after extensive large-scale investigations, it was released to the medical profession in America in 1946 and in this country in June of the same year.

Since its introduction many millions of doses of 'Benadryl' have been administered and over 200 reports have appeared in the medical literature.

Issued in bottles of 50 and 500 capsules, and as an elixir in 4 and 16 fl. oz. bottles.
