AS THE TISSUES WEAKEN WITH THE YEARS

SECRETORY dysfunction and muscular atrophy of the senile intestinal wall result in:

1. **Inadequate mucinous lubrication** of intestinal contents. Agarol* provides replacement by colloidal agar-agar similar to natural mucin in its lubricant qualities.
2. **Inadequate peristalsis.** Agarol re-activates peristalsis. White phenolphthalein induces gentle stimulation sufficient to overcome intestinal atonicity.
3. **Inadequate moisture.** Faecal hardening in the colon is corrected by Agarol: delay is eliminated and a moist, well formed stool passed. Each tablespoonful of Agarol ensures the retention of 100 c.c. of water in the stool.

FEEDING the CONVALESCENT

Good nutrition is essential in convalescence. The patient, whether surgical or medical, is usually debilitated, having partially exhausted his reserves of tissue nutrients, including vitamins as well as proteins, carbohydrates, fats and minerals. Rapid recovery of health depends largely on replenishing these reserves as quickly as possible.

Marmite, which is an autolysed yeast extract, has long been recognised as a valuable addition to the diet of the convalescent, since it contains essential vitamins of the B₂ group. It is also a useful source of pre-digested protein, within the limits of the amount taken.

The particular value of MAGSORBENT in chronic hyperchlorhydric disorders depends upon the moderation of its rate of interaction with acids. experienced in medical publishing

The System that Never Grows Old

This system of treatment is unique in that the rapid advances in medical knowledge will never render it out of date.

The wide range of modern medical treatment is covered in a card-index eminently suitable for the physician's desk.

The subject matter is revised every three months, under the supervision of a Board of medical specialists, in the light of the latest world's medical literature, and practical experience.

These quarterly revisions can be incorporated in the Index in a few moments.

One complete Index, with an addendum comprising a useful list of modern Pharmaceutical specialties, is supplied in a handsome plastic cabinet. The initial cost of £5 5s. includes the first four quarterly replacements. Subsequently the cost of the replacement service is £2 2s. per annum.

A SERVICE FOR THOSE WHO SERVE THE DEAF

In the selection of a Hearing Aid no one is more concerned to ensure that accurate diagnosis shall be followed by the prescription of the correct instrument than the patient's medical advisor. That is why so many Doctors and Specialists send their patients to Amplivox to make sure that they get a high fidelity instrument suited to their particular type of deafness. Experienced Amplivox consultants give every patient a thorough test by Audiometers as installed at London hospitals and used by leading specialists. From this a permanent, dated record, showing the exact degree of hearing loss throughout the tonal scale is compiled and filed for reference at any time. Thus Amplivox are able to offer a service of lasting value to the deaf and their advisors. A fully descriptive brochure will gladly be sent on request.

ANTISEPSIS

The Time Factor

In estimating the true nature of an antiseptic, Time is a dimension. An antiseptic may be entirely efficient in that, over a given area, it destroys all pathogenic organisms. But there remains to be considered the risk of fresh contamination. The protection given by 'Dettol' is prolonged. Unless washed off or grossly contaminated, 30% 'Dettol' painted on the unbroken skin and allowed to dry will remain bactericidal against *streptococcus pyogenes* for at least two hours.*

* This experimental finding (J. Obstet. Gynaec. Brit. Emp. Vol. 40 No.6) has been confirmed in obstetric practice extending well over a decade.

BETHLEM ROYAL HOSPITAL

FOR NERVOUS AND MENTAL DISORDERS
MONKS ORCHARD, MONKS ORCHARD ROAD,
EDEN PARK, BECKENHAM, KENT

Reg. Tel. Address: Bethlem, Beckenham
Station: Eden Park (Southern Railway)
Telephone: Springpark 1180-1181

President: HER MAJESTY QUEEN MARY. Vice-President: Sir George H. WILKINSON, Bart. Treasurer: Gerald COKE, Esq. Physician-Superintendent: J. G. HAMILTON, Esq., M.D., D.P.M.

This Registered Hospital is situated at Monks Orchard in some 250 acres of park, pleasure and farm grounds. Applications can be considered on behalf of patients of the educated classes in a presumably curable condition.

With a view to early treatment voluntary or un-certified patients are admitted. Patients who can contribute 5 guineas weekly towards the cost of treatment and maintenance may be received as vacancies arise. The Committee will also consider applications for admission at lower rates and in certain cases will be prepared to admit patients free of charge. The comfort of sensitive patients is greatly enhanced by the fact that the majority are given single bedrooms. TREATMENT ON MODERN PRINCIPLES. Every facility for specialized investigation and treatment is provided in the Lord Wakefield of Hythe Science and Treatment Unit, including RADIOLOGICAL and DENTAL DEPARTMENTS, BIOCHEMICAL, PATHOLOGICAL and PSYCHOLOGICAL LABORATORIES. The Medical Staff have access to a panel of Consultants in cases which present unusual symptoms requiring specialized investigation and treatment. Under the direction of qualified officers HELIOTHERAPY, HYDROTHERAPY, and ELECTROTHERAPY are administered in the Physiotherapy Department. SPECIALIZED TREATMENT of various forms is given to suitable cases.

OCCUPATIONAL THERAPY in the form of various Arts and Crafts is actively encouraged from the medical aspect, and under the guidance of a competent instructress this department has proved most effective as a therapeutic factor in all stages of mental illness. The promotion of physical fitness is a prominent item of treatment, and this is enhanced by arrangements for patients to take part in Outdoor and Indoor Sports and Entertainments. ADDITIONAL ACCOMMODATION FOR MALE PATIENTS is now available by reason of completion of war damage repairs. Application should be made to the Physician-Superintendent
