# ALLANTOIN SULPHANILAMIDE

## *Bacteriostasis PLUS*

'Genatosan' presents a unique range of Allantoin-Sulphanilamide preparations, for use by the surgeon and general practitioner.

Allantoin brings about chemical debridement of necrotic tissue, promotes tissue granulation and vascularisation, and exerts

a synergistic effect with Sulphanilamide.

The combination of Allantoin and Sulphanilamide is a very valuable one, since not only is bacteriostasis achieved with Sulphanilamide, but attention is also attracted to the healing process.

*The series of 'GENATOSAN' ALLANTOIN-SULPHANILAMIDE preparations include:—*

**OINTMENT** Allantoin 2% Sulphanilamide 5% in compound wool fat base.

**POWDER** Allantoin 4% Sulphanilamide 96%.

**DUSTING POWDER** Allantoin 2% Sulphanilamide 10%.

**CREAM** Dermatological Cream No. 2 (Allantoin 2% Benzocaine 1% Sulphanilamide 5%).

### INDICATIONS:—

## For Parous Women

WHILE Tampax—both in principle and in application—has enjoyed the approval of members of the Medical Profession for many years now, the need of an additional product of greater absorbency has been stressed—particularly for use by parous women.

This need is now fulfilled by Super Absorbent Tampax No. 2, designed to cater for a heavy flow.

With a 40% increase in absorptive capacity, this new Tampax No. 2 makes available to many thousands more women the complete freedom, comfort and hygiene of which the name "Tampax" is symbolic. Available in America for some years, only shortage of raw materials and machinery during the War period prevented its manufacture in this country.

For normal requirements, the original Regular Tampax No. 1 is completely adequate.

*Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymeneal aperture would cause difficulty in insertion and withdrawal.*

Sanitary Protection **TAMPAX** *Worn Internally*  
has won the approval of Doctors everywhere

If you require a sample packet of Super Absorbent Tampax No. 2 or Regular Tampax No. 1, please write to: Medical Inquiries, Tampax Limited, 110 Jermyn Street, London, S.W.1.

In clinical test a single injection of 1 cc. of Examen is required to give, over 14 days, a response as shown in the chart above.  
 $I = 0.93 - 0.214 E_0$  where  $I$  is the increase in red-blood cells in one week and  $E_0$  is the initial red cell count.

## Casting the burden of pernicious anaemia

### EXAMEN LIVER EXTRACT

**painless** on injection. ★ **proteolysed**: preliminary enzyme digestion of the raw liver sets new standards of efficiency in extraction of the active principle. ★ **potent**: injections needed only once every 14 days in treatment of relapse and once every 3 or 4 weeks in maintenance. ★ **protein-free**: 'liver sensitization' is exceptionally rare. ★ **standardized**: optimum response thus assured. ★ **inexpensive**: average cost is four shillings per 1 cc. ★ **fully active** in cases with subacute combined degeneration; though, when such neurological complications occur, more frequent injections may be needed.

## An effective and non-irritating DIURETIC

MERSALYL, a highly complex and non-irritating compound of mercury, is one of the most effective and least toxic of the mercurial diuretics for the treatment of ascites and oedema of cardiac origin. In such cases, Mersalyl frequently succeeds when digitalis and other diuretics fail.

Mersalyl-Boots is supplied as a solution containing 10 per cent. Mersalyl with 5 per cent. Theophylline for injection. As a supplement, Mersalyl Compound Tablets-Boots may be given. The tablets are well tolerated, and

are of value in mild cases and those where injections are undesirable.

AMPOULES: 1 c.c. and 2 c.c., each available in boxes of 6 and 100. COMPOUND TABLETS: in bottles of 25 and 100.

The richest sources of vitamins A and D — the livers of fish — have always had the disadvantages of strong taste and difficulty of mixing with milk. Crookes have now developed their new Halibut Oil *Emulsion* for Infants to overcome these difficulties.

This new Emulsion, which is basically the highly potent Crookes Halibut Oil, mixes immediately with milk and is agreeable to take. Three drops in the infant's feed, for only 4 of the daily feeds, provides 3000 I.U. of vitamin A and 800 I.U. of vitamin D.

**Rutin in Capillary fragility**

Rutin is a crystalline glycoside obtained from the leaves and flowers of buckwheat. Recent reports attribute to Rutin the property of reducing capillary fragility when this is abnormally raised.

In our research laboratories a limited quantity has been isolated from buckwheat grown in this country and is available in the form of tablets.

Rutin A & H is suggested for administration in haemorrhagic conditions due to increased capillary fragility or permeability, especially when this condition is associated with hypertension, nutritional deficiency or toxic effects of drugs.

***eight minutes to go...***

Doctors today find that a large number of their patients complain of constant tiredness, of 'finding everything too much', of 'feeling generally run down'. Cases of debility and lassitude caused by present-day conditions are becoming increasingly prevalent. For these conditions 'Vibelan' is of particular value. It counteracts B vitamin deficiencies, containing as it does the principal members of the B group in the balanced proportions which are necessary for effective utilisation of proteins, fats and,

more especially, carbohydrates. Each tablet contains vitamin B<sub>1</sub> 0.5 mg., riboflavin 0.75 mg. and nicotinamide 7.5 mg., in a yeast extract base. Four tablets provide the normal daily requirement of these vitamins. 'Vibelan' is available in bottles of 50 tablets. Further details are available on request.

## PREPARATION FOR A MASTERPIECE

**T**HE only solution that gave virtual disinfection with great regularity in 15-20 sec. was 2 per cent. iodine in 70 per cent. alcohol, the virtues of which are well known and have been upheld by many investigators. . . . This then is the ideal disinfectant for needle puncture, when great rapidity is essential. It seems that for surgical incisions also a single painting just before the operation is all that is necessary, and that elaborate washings and other preparation of the skin could be omitted. . . ."

"Rapid Chemical Disinfection of Clean Unwashed Skin," LANCET, May 11, 1946, pp. 683-686.

This is one of the classic papers relating to the anti-septic value of iodine. All the research literature is collated and made readily available to members of the medical profession by the Iodine Educational Bureau. Many of the newer iodine uses and research findings are not widely known. Medical practitioners are invited to consult the Bureau about them.

## Clarks NEW CORRECTIVE HEEL

for Children

Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

### CLARKS CURATOR HEEL

was designed for, and clinically tested by an orthopaedic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet). It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.

### Bone and Vegetable Broth for Babies

Hygienically BOTTLED by Brand's  
... contains all the goodness of  
bone stock and fresh vegetables

THANKS to the excellent advice being given by clinics and nurses, more and more mothers are learning the importance of starting their babies on bone and vegetable broth at four months.

When you are advising mothers about the first semi-solids for Baby, remember that Brand's Bone & Vegetable Broth is broth in its most nutritious form. Home-made broths vary in the amount of goodness they contain. Brand's is a stock made from bone, carrot, spinach, beet and parsley. All the natural goodness of the vegetables and bone stock is preserved, and the broth is hygienically packed in glass jars. The mineral content (38 mgs. calcium and

28 mgs. phosphorus each per ounce) is always the same.

### ADMINISTRATIVE COUNTY OF NORFOLK Combined appointments of ASSISTANT COUNTY MEDICAL OFFICER AND MEDICAL OFFICER OF HEALTH

The Norfolk County Council and the District Councils concerned invite applications from medical practitioners (including those at present serving in H.M. Forces) qualified to hold such an office by reason of the terms of the Sanitary Officers (Outside London) Regulations 1935, for the combined whole-time appointments of Assistant County Medical Officer and Medical Officer of Health for each of the under-mentioned County areas: Area No. 6 (Swaffham and Wayland Rural Districts, Swaffham Urban District and the Municipal Borough of Thetford—Population about 32,375). Area No. 9 (Municipal Borough of King's Lynn and Freebridge Lynn Rural District)—Population about 35,592. So far as the County District Council appointments are concerned, appointment to these posts will take place as vacancies occur and it is expected that this will happen in the near future; in the meantime no deduction will be made from the salary offered for the combined appointments. The successful candidate in No. 9 Area may be required to act as Medical Officer for King's Lynn Port Health Authority without additional remuneration. The salary for each combined appointment will be £1,040 per annum, plus bonus (at present £59 16s. per annum), with travelling expenses in accordance with the County Council's scale. The posts will be designated under the Local Government Superannuation Acts, 1937, and the salaries will be subject to the statutory deductions for this purpose. The successful applicants will be required to pass a medical examination. The officers will act under the direction of the County Medical Officer as Assistant School Medical Officers and Medical Officers to Infant Welfare Centres, and they will also be required to perform such other duties as may be assigned to them by the County Council. As regards the duties of Medical Officer of Health, they will be subject to the control of the District Councils concerned, and will be required to live at approved centres within their respective areas. Resignation of the appointments will be subject to three months' notice to be received by the Clerk of the County Council. Applications must be made on the prescribed form, which can be obtained from the County Medical Officer, Public Health Department, 29, Thorpe Road, Norwich, to whom they should be returned, accompanied by copies of not more than three recent testimonials, not later than May 15, 1948. Canvassing in any form will be a disqualification.—H. Oswald Brown, Clerk of the County Council.

### ANGLESEY COUNTY COUNCIL COUNTY MEDICAL OFFICER AND SCHOOL MEDICAL OFFICER

Applications are invited for the post of County Medical Officer and School Medical Officer for the County of Glamorgan. Candidates must be of high professional standing with organizing ability and wide experience in public health administration and must hold the Diploma in Public Health. They should preferably have held a post of Medical Officer of Health (or Deputy) in a County or County Borough. The Medical Officer of Health may be required to take part in teaching in accordance with any agreement which may be made between the County Council and Welsh National School of Medicine. Candidates must not be less than 30 and not more than 45 years of age. The latter age may be relaxed in case of a specially suitable candidate employed by a local authority or in the case of an ex-Service man, when the age limit will be raised by the number of years spent in H.M. Forces during the late war. The post is superannuable and the appointment is subject to the successful candidate passing a medical examination. The salary offered is £1,750 per annum, rising annually by £50 to £2,000 per annum, plus cost-of-living bonus, at present £33 16s. per annum, with travelling and personal expenses on the County scales. Further particulars of duties and terms of appointment may be obtained from the County Medical Officer, at the address shown below, to whom all applications must be sent not later than the first post on Monday, May 3, 1948. Canvassing directly or indirectly will disqualify.—D. J. Parry, Clerk of the County Council, Glamorgan County Hall, Cardiff.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Vichy Douche, Scotch Douche, Electrical baths, Plomberies treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

**THE PARK HOSPITAL, OXFORD  
FOR FUNCTIONAL NERVOUS DISORDERS  
OLD ROAD, HEADINGTON**

This beautifully situated Nursing Home of 26 beds is run by a Board of Governors on a non-profit-taking basis. It was opened in 1939 for the treatment of all forms of functional nervous and allied disorders. Full investigation precedes treatment, which may be psychotherapeutic, physical, or both. There is a Medical Director, a full-time Physician-in-Charge, and a Consulting Staff. Admission is quite free from formality and the only conditions are that the patient should be a suitable case for this type of hospital and that he or she should be co-operative and likely to benefit from the treatment available. The average length of stay is eight weeks. Cases where the diagnosis is obscure may be admitted for investigation and report if otherwise suitable. Occupational Therapy is in use.

FEES—From seven guineas per week for small wards. Private rooms from eight guineas.

Doctors wishing to arrange admissions are asked to get in touch with the Medical Director (Dr. R. G. McInnes) or the Physician-in-Charge, giving full particulars so that a decision regarding suitability for admission can be reached without delay. Telephone: Oxford 6599.

FORD ENTERPRISE FOR BRITISH PROSPERITY

## Out on the Evening Tide

With her decks packed and her holds laden with cars, trucks, tractors and spare parts, she pulls out from the Ford jetty and leaving the sunset behind her, makes for the open sea—bound for the lands and ports with magical names . . . Tomorrow other ships will pull out from the Ford jetty . . . the only one in the British Motor Industry. Everything at Dagenham is geared to Great Britain's recovery drive.
