

# Pregnancy and Lactation

During pregnancy Andrews Liver Salt will be found of great service. Its pleasant taste and refreshing qualities make it an acceptable draught, which can be repeated with advantage two or three times a day if necessary. Taken thus, Andrews obviates the tendency to constipation and also relieves hepatic congestion. In the persistent vomiting of pregnancy the sedative effect of Andrews will be found helpful, and its aperient action is of great value in cases of renal insufficiency. During lactation, Andrews can be used with confidence for the relief of constipation.

First the New Last—

now  
greater  
flexibility

Always first with any new development in the field of research into children's feet, the makers of Start-rite have now introduced greater flexibility into their normal range of children's shoes. Coupled with the New Last, perfected in 1946, this flexibility will give children's feet all the room, the stretch, the encouragement they need for free and normal development.

The Medical Profession knows that flexibility and not arch-support will strengthen the foot muscles, and can confidently specify Start-rite both for their own children and for those of their patients.

## NUTRITIONAL DISORDERS OF THE NERVOUS SYSTEM

By JOHN D. SPILLANE, B.Sc., M.D., M.R.C.P.

Royal 8vo. 296 pages. 103 illustrations. 20s.

A new monograph written as the result of personal experience during the recent war.

### SOME EXTRACTS FROM REVIEWS IN THE MEDICAL JOURNALS

"Spillane's monograph should find a place upon the shelves of every neurologist"—BRAIN.

"Those who associate this subject with confusion and jargon will find that Dr. Spillane always makes a clear statement in the most pleasing of phrases"—THE LANCET.

"The author has performed a useful service by bringing together in this monograph the welter of data available and presenting it to his readers in a reasoned and critical manner. As Dr. Riddoch says in his introduction, 'it is, in fact, an interesting, balanced and critical account of a fascinating subject'"—THE PRACTITIONER.

"The author must be congratulated on this most valuable contribution to the literature on vitamins"—INTERNATIONAL ABSTRACTS AND REVIEWS.

"Dr. Spillane has done great service both to nutritionists and neurologists in marshalling the facts and observations contained in this monograph"—BRITISH MEDICAL BULLETIN.

Take purple foxglove,  
2 handfuls....'

"Against ye falling sickness (epilepsy) take purple foxgloves, 2 handfuls of the leaves . . . boil in beer or old ale and drink ye decoction." Digitalis therapy has passed many milestones since that was published in 1644. 'Crystodigin' brand Crystalline Digitoxin is the crystalline glycoside from the prime leaves of *Digitalis purpurea*, and is digitalis in its purest form. Uniform and stable, it is completely absorbed and slowly eliminated. A full digitalising dose can be administered without irritation by the oral route.

Available in 0.1 mg (No. 1703) & 0.2 mg (No. 1694) tablets. Literature available on request.

If a child  
*must* have an

*the drug of choice is*

**ISOBROM**

Sleepless children are often a perplexing problem to the practitioner, because he is naturally reluctant to prescribe powerful soporifics, particularly the bromides and barbiturates, which so often produce undesirable after-effects.

If the physician wants to give drugs to restore the "sleep habit" which has been lost through neurosis, neurasthenia, hysteria, anxiety states, overtiredness, or even fear of the dark, "ISOBROM" can be given with the certainty that it will neither effect the child's health, nor cause rashes, or drowsiness, the next day.

"ISOBROM"—a combination of bromisovalerilurea and carbromal—is a reliable sedative and mild hypnotic. It can be used for long periods without hepatic or renal impairment or damage to the central nervous system.

**THERE ARE NO KNOWN CONTRA-INDICATIONS**

**ACTION:** "ISOBROM" induces sleep usually in less than half an hour. The effect lasts 4-5 hours and is usually followed by natural sleep.

In bottles containing 25, 100, 250 and 500 tablets

## 'SULFEX'

FOR INTRANASAL USE

A suspension of microcrystalline ('Mickraform') sulphathiazole, 5%, in an isotonic solution of 'Paredrinex', 1% (pH 5.5 to 6.5)

The minute size of the 'Mickraform' sulphathiazole crystals in 'Sulfex' is an important advantage. Approximately 1/1000 the mass of the ordinary crystals, they spread over the nasal mucosa in a fine, even film which does not quickly wash away but remains on infected areas and provides prolonged bacteriostasis hour after hour. The 'Paredrinex' ensures prompt decongestion for ventilation and drainage, and also renders the infected areas more accessible to the sulphathiazole.

## Ribena therapy in skin conditions

That vitamin C has some beneficial effect on the health of the skin appears certain from the good results obtained in various skin disorders. Cases of acne rosacea, for example, have been reported to clear up following a course of 'Ribena' Blackcurrant Syrup. In allergic skin manifestations a dietary of green salad, supplemented with 'Ribena,' often proves effective. Clinical tests have indicated that Ribena has been of some value even in psoriasis, perhaps because of its content of vitamin P.

Ribena Blackcurrant Syrup has a high degree of acceptability and is well tolerated even in cases where the condition is complicated by digestive disorder. The vitamin C content of Ribena is standardised at 20 mg. per fluid ounce, with which are associated other factors of the *natural* product whose precise functions have not yet been clearly established.

## Dietary Deficiencies

Although there seems to be no evidence of severe malnutrition in this country at the present time, there are, in individual cases, manifestations such as lack of concentration, lassitude, chronic fatigue and nervous disorders, which appear to be caused by inadequate diets. Some of these symptoms may be signs of a deficiency of the B vitamins.

Marmite is a yeast extract containing naturally-occurring riboflavin (1.5 mg. per oz.) and niacin (16.5 mg. per oz.) as well as other factors of the B group derived from yeast; these include pyridoxin, pantothenic acid, choline, biotin and folic acid.

The dietetic value of Marmite has long been recognised; it is prescribed extensively as a prophylactic measure in combating malnutrition.

## In Muscular Rheumatism, Lumbago, Sciatica, Etc.

In lumbago, Proctocaine gives dramatic relief—from rigidity to painless mobility in a few minutes, so that the fibrositis subsides quickly. Lasting recovery from sciatica has followed two injections, each of 5 c.c. of Proctocaine, into the region of the nerve, a fortnight apart, the first being preceded by an induction anaesthetic. Two months' sciatica was relieved by 1 c.c.

## PHENOXETOL

THE ANTI-PYOCYANEA COMPOUND

**H**ERE is an important new bactericide and antiseptic. Phenoxetol (Nipa) is B-phenoxyethyl-alcohol, specially purified and standardised, for use in medical treatment and for pharmaceutical preparations.

Phenoxetol is effective against certain gram-negative organisms, including *Ps. pyocyanea*. It is used by local application in the treatment of infected wounds... abscesses... indolent ulcers... associated with *Ps. pyocyanea*. It should not be used for parenteral injections.

Phenoxetol is very effective in pyocyanea infections of burns or superficial wounds. It is especially useful in the preparations of surfaces for skin grafting associated with *Ps. pyocyanea*, and may also be used together with Penicillin in solutions and creams.

## the threefold tonic—for children everywhere

The problem of the run down, debilitated child is shared by medical men throughout the world . . . and the universal answer is a tonic, at once formative, restorative and protective.

Syrup Minadex is such a tonic, combining in its formula three distinct therapeutic groups. One group consists of iron, copper and manganese, included for their haemopoietic properties. The second comprises the glycerophosphates of calcium, sodium and potassium—traditional nerve restoratives. And the third group—vitamins A and D—furnishes the nutritional 'background' to promote the growth of healthy tissues and, in convalescence, to speed the return to full health. These ingredients are combined in a delicious orange-flavoured syrup, making Minadex acceptable to even the most fastidious palate in the warmest climate.

## Vitamin Therapy -its uses and limitations

### SEBORRHOEIC DERMATITIS

especially when occurring near the naso-labial folds and associated with cracking of the lips and conjunctivitis, may be an indication of mild ariboflavinosis. A mild deficiency of riboflavine is not uncommon in this country at the present time when foods containing good supplies of this factor are scarce. The vitamin is available in tablet form. Since however these deficiency signs frequently accompany indications of other B-complex deficiencies, it may better be given with other factors in a combined preparation.

## DERIPHYLLIN

THEOPHYLLIN and DI-ETHANOLAMINE

indicated in

**Cardiac Decompensation, Oedema,  
Angina Pectoris and Cardiac Asthma**

Deriphyllin has a regulating action on water metabolism and influences the cardiac mechanism. By dilating the coronary vessels and relieving any coronary spasm which may be present an improved flow of blood through the heart-muscle is secured.

Deriphyllin is exceedingly well tolerated and may be given for a long time (chronic cardiac decompensation) without reaction occurring. Effect does not decrease after prolonged administration. Can be usefully combined with the organic mercurial diuretics. Not contra-indicated in renal disease.

Available in liquid form for oral use,  
ampoules and suppositories.

**Deriphyllin-Strophanthin** is indicated for all cases of heart failure.

Available in the form of ampoules and  
suppositories.

THE control of insomnia presents a problem that often cannot be effectively or safely solved by recourse to the use of hypnotic drugs.

'Ovaltine' provides a safe and natural means of inducing sleep in many cases, especially where the basis of the insomnia is digestive unrest, nocturnal hunger or nervous instability. Taken before retiring, it promotes quiet and restful sleep by reason of its gentle sedative effect on the nervous system and its faculty of assisting digestive ease.

'Ovaltine' is a natural food tonic prepared from milk, eggs, malt extract, cocoa and soya. It is possessed of a truly delightful taste and is appreciated by every type of patient.

### THOSE FIRST WARM DAYS OF SPRING

are also dangerous days. The exhilaration that comes with lighter clothing is deceptive and the lowered resistance that is a result of Winter's constant assaults makes fertile ground for "those Spring ills that flesh is heir to".

Present-day shortages provide another source of lowered resistance and gives added impetus to the incidence of malnutrition in every walk of life.

Dietary supplements are therefore desirable to combat possible deficiencies of which the most serious and most insidious are those of the vitamin B-complex. Elixir 'Virvina' is an excellent dietary supplement, combining adequate amounts of the important factors of the vitamin B-complex with the glycerophosphates of essential minerals in an extremely palatable base. Elixir 'Virvina' is supplied in bottles of 4 oz., 16 oz. and 80 oz. Informative literature will be forwarded on request.

PYREX Brand Scientific Glassware has been conceived and perfected through a life-long study by expert craftsmen and glass technicians. Every piece of PYREX Brand Glassware, whether it be a simple flask or an intricate Soxhlet extractor as here illustrated, is made to a definite standard, and thoroughly tested with meticulous care and precision for accuracy.

This famous glassware is immune to the effects of sudden heat and cold, and by reason of the low co-efficient of expansion of  $3.2 \times 10^{-6}$  per degree centigrade, the structure of PYREX Brand Glass can be made more robust than that of ordinary composition, thus allowing a wide margin of safety for everyday handling.

## APPOINTMENTS

### HIS MAJESTY'S COLONIAL SERVICE COLONIAL MEDICAL SERVICE

The Colonial Medical Service offers an interesting career and provides unique opportunities for applying medical science in territories which are undergoing rapid development. There are immediate openings in many parts of the Colonial Empire and applications are invited from both men and women doctors who are British subjects and possess qualifications registrable in the United Kingdom. Medical Officers are usually appointed in the first instance for general duties. This implies all-round ability with a balanced outlook upon both preventive and curative medicine. Officers are also required for public health duties, in which case the D.P.H. or some experience of health work is necessary. Ample opportunities exist for field investigation, while officers with special aptitude are encouraged to obtain such higher qualifications as will enhance their value to the Service. Officers are from time to time seconded or appointed to medical laboratories in the larger territories. In the West African territories improved salary scales and conditions of service have recently been introduced. In most of the other territories the terms of service are being actively reviewed, and meanwhile temporary cost-of-living allowances are being paid over and above the existing salaries. At present initial basic salaries, i.e., irrespective of any cost-of-living allowance and of any credit that may be allowable for war service or professional experience, vary between £600 and £800 according to locality. There are, in addition, numbers of super-scale posts in the administrative and specialist grades which are normally filled by promotion within the Service. Free passages for an officer and wife are generally provided both on first appointment and when travelling on leave of absence. Where Government quarters are provided a small rent is usually payable. Good leave conditions and an adequate pension scheme are in force. The Colonial Medical Service is a unified service and members are eligible for transfer from one territory to another, either with or without promotion. Selected candidates may be required to take a course in tropical medicine either before proceeding overseas (in which case they would receive an allowance) or on first leave. Candidates for permanent service must have been born on or after January 1, 1908. Contract appointments are also available in certain territories for doctors born before this date. Further particulars may be obtained from, and applications should be addressed to, the Director of Recruitment (Colonial Service), Colonial Office, 15, Victoria Street, London, S.W.1.

Wiltshire, The Isle of Wight, County Boroughs of Bournemouth, Portsmouth and Southampton. Experience of hospital administration is desirable. The person appointed will be required to reside in the Western Area of the Region. (2) The successful candidate for this appointment will be required to deal, under the direction of the Senior Administrative Medical Officer, primarily with matters in connexion with administration and development of the Tuberculosis and Infectious Diseases Services within the Region, and the linkage of such services of the Board with those of the local health authorities. Candidates should have a good knowledge of general medicine, special and recent experience in tuberculosis and diseases of the chest, in infectious diseases and in medical administration. The approved salary scale in each case is £1,450 by £50 to £1,650 a year. With regard to the second appointment, an additional £50 a year for London is payable. Both appointments are subject to the provisions of the National Health Service (Superannuation) Act, 1947, and are terminable by three months' notice on either side. Applications should be addressed to the Secretary, South-West Metropolitan Regional Hospital Board, 11a, Portland Place, London, W.1, and envelopes should be endorsed "Assistant Senior Medical Officer." Applications should include a brief statement of the candidate's qualifications and experience together with names of three referees and should be received not later than May 1, 1948.

### SOUTH WESTERN REGIONAL HOSPITAL BOARD, Bristol MEDICAL OFFICER

Applications are invited from registered medical practitioners for the appointment of a Medical Officer at a salary of £1,100 by £30 to £1,300 by £50 to £1,450, less contributions to the Superannuation Fund. Applicants should have some knowledge and experience of psychiatric practice. The medical officer appointed will be engaged to devote the whole of his time to the duties assigned to him; these will mainly be concerned with the organization of the Mental Health Services in the Region, and he will work under the general direction of the Senior Administrative Medical Officer of the Board, but he will also carry out other administrative and executive duties as may be decided by the Board from time to time. He will be required to reside in or near Bristol. The appointment is terminable by three months' notice on either side. Applications, stating age and particulars of the candidate's qualifications and experience, should be addressed to the Secretary of the Regional Hospital Board, 6, Elton Road, Bristol, 8, and should be delivered to him not later than the first post on May 3, 1948.

### SOUTH-EASTERN REGIONAL HOSPITAL BOARD, Scotland

#### (1) ASSISTANT SENIOR ADMINISTRATIVE MEDICAL OFFICER (2) MEDICAL OFFICER

Applications are invited for the posts of (1) Assistant Senior Administrative Medical Officer at an inclusive annual salary of £1,450 by £50 to £1,650; and (2) for a Medical Officer at an inclusive annual salary of £1,100 by £30 to £1,250 by £50 to £1,450. Both posts are superannuable under the National Health Service Superannuation Regulations, Scotland, 1948. Applicants should have had experience in medical and hospital administration. For the post of Assistant Senior Administrative Medical Officer, experience in infectious diseases, tuberculosis and venereal diseases would be an advantage. For the appointment of Medical Officer, mental hospital experience would be an advantage. Applications, together with the names of three referees, should be sent to the Secretary, South-Eastern Regional Hospital Board, 11, Drumsheugh Gardens, Edinburgh, to reach him by May 15, 1948. Applicants should indicate clearly for which post or posts they are applying. Canvassing in any form will disqualify.

### BOROUGH OF BARRY ACCIDENT AND SURGICAL HOSPITAL HOUSE SURGEON (A)

Applications are invited from registered medical practitioners, including R practitioners within three months of qualification, for the appointment of House Surgeon (A). Applications, accompanied by copies of two recent testimonials, should be sent to the Medical Officer of Health, Public Health Office, Woodlands Road, Barry, Glam., as soon as possible.—T. D. Howells, Town Clerk, Town Hall, Barry.

### ADMINISTRATIVE COUNTY OF NORFOLK Combined appointments of ASSISTANT COUNTY MEDICAL OFFICER AND MEDICAL OFFICER OF HEALTH

The Norfolk County Council and the District Councils concerned invite applications from medical practitioners (including those at present serving in H.M. Forces) qualified to hold such an office by reason of the terms of the Sanitary Officers (Outside London) Regulations 1935, for the combined whole-time appointments of Assistant County Medical Officer and Medical Officer of Health for each of the undermentioned County areas: Area No. 6 (Swaffham and Wayland Rural Districts, Swaffham Urban District and the Municipal Borough of Thetford—Population about 32,375). Area No. 9 (Municipal Borough of King's Lynn and Freebridge Lynn Rural District—Population about 35,592). So far as the County District Council appointments are concerned, appointment to these posts will take place as vacancies occur and it is expected that this will happen in the near future; in the meantime no deduction will be made from the salary offered for the combined appointments. The successful candidate in No. 9 Area may be required to act as Medical Officer for King's Lynn Port Health Authority without additional remuneration. The salary for each combined appointment will be £1,040 per annum, plus bonus (at present £59 16s. per annum), with travelling expenses in accordance with the County Council's scale. The posts will be designated under the Local Government Superannuation Acts, 1937, and the salaries will be subject to the statutory deductions for this purpose. The successful applicants will be required to pass a medical examination. The officers will act under the direction of the County Medical Officer as Assistant School Medical Officers and Medical Officers to Infant Welfare Centres, and they will also be required to perform such other duties as may be assigned to them by the County Council. As regards the duties of Medical Officer of Health, they will be subject to the control of the District Councils concerned, and will be required to live at approved centres within their respective areas. Resignation of the appointments will be subject to three months' notice to be received by the Clerk of the County Council. Applications must be made on the prescribed form, which can be obtained from the County Medical Officer, Public Health Department, 29, Thorpe Road, Norwich, to whom they should be returned, accompanied by copies of not more than three recent testimonials, not later than May 15, 1948. Canvassing in any form will be a disqualification.—H. Oswald Brown, Clerk of the County Council.

### BOROUGH OF BEXLEY

#### ASSISTANT MEDICAL OFFICER OF HEALTH

Applications are invited for the above-named post. Applicants must be registered medical practitioners (male or female) possessing the Diploma in Public Health and also clinical experience in the work of the Maternity and Child Welfare Service. The duties will include obstetric work at the Corporation Maternity Home and applicants should have had practical experience of institutional midwifery. The possession of a D.R.C.O.G. would be an additional advantage but is not essential. The salary will be in accordance with the Interim Revision of the Askwith Scale, namely £675 rising by annual increments of £25 to a maximum of £875, plus cost-of-living bonus, but in fixing the commencing salary regard will be had to qualifications and experience. A car allowance in accordance with the Council's scale will also be paid. An unfurnished flat will be made available to the successful candidate. The appointment is subject to the provisions of the Local Government Superannuation Act, 1937, and the successful candidate will be required to pass a medical examination. Forms of application and particulars of duties may be obtained from the Medical Officer of Health, Health Department, 14, Brampton Road, Bexleyheath, to whom they should be returned duly completed and accompanied by not more than three recent testimonials not later than May 8, 1948. Applicants must state whether to their knowledge they are related to any member of or the holder of any senior office under the Council. Failure to do so and canvassing directly or indirectly will disqualify.—Town Clerk, Council Offices, Broadway, Bexleyheath.

### BUCKS COUNTY COUNCIL

#### AMERSHAM GENERAL HOSPITAL, Amersham RESIDENT SURGICAL OFFICER (B1)

Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**BRYN-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

## SAFE SULPHONAMIDE THERAPY

with

## 'SULPHAMEZATHINE'

During the past year a number of eminent authorities have expressed a preference for 'Sulphamezathine' and have drawn attention to its outstanding advantages in the treatment of bacterial infections.

The following special characteristics of 'Sulphamezathine' administration are of importance in medical practice.

- 'Sulphamezathine' is one of the least toxic of the sulphonamides. It is well tolerated and rarely produces unpleasant effects of any kind.
- Renal complications are almost unknown. Additional fluids and alkalis are unnecessary.
- Excretion of 'Sulphamezathine' is relatively slow, so that effective blood levels can be easily maintained.

'Sulphamezathine' is available, in tablet form (0.5 gramme) for oral use and as the sodium salt in sterile solution for parenteral administration.

MAKE SURE OF  
YOUR NEW CAR!

In the difficult days, when basic petrol is suspended and a greater proportion of British made cars is destined for export, you should immediately register your new car requirements with us. This course will enable us to have the model you desire allocated to you at the earliest possible moment.

For the last twenty years our work has consisted of giving advice and service to the medical profession in connection with cars. We are contracting agents for practically every leading make of British car, and in our hands your interests will be well served.
