PROLONGED PROTECTION

AFTER the successful application of an antiseptic, there still remains the risk of fresh contamination by pathogenic organisms. It is important, not only that the barrier should be effective when first set up, but that the protection should be prolonged.

The protection conferred by 'Dettol' is durable. It has been shown that if 30% 'Dettol' is applied to the skin and allowed to dry, the area remains insusceptible to fresh infection by streptococcus pyogenes for at least two hours.*

* This experimental finding (J. Obstet. Gynaec. Brit. Emp. Vol. 40 No.6) has been confirmed in obstetric practice extending well over a decade.

PYREX Scientific & Glassware

PYREX Brand Scientific (ilassware is supplied only through Laboratory Furnishers, but illustrated Catalogue and two free copies of our Chemist's Notebook will be sent direct on application to us.

Exceptional Stability

PYREX Brand Scientific Glassware, with the remarkably low co-efficient of expansion of 3.2 x 10-8 per degree centigrade, possesses a high measure of stability. It is immune to the effects of sudden heat and cold, and, as acids (except hydrofluoric and glacial phosphoric) have no effect upon its surface, this famous glassware, designed for every conceivable chemical process, can claim a premier position as one of the most cependable brands of glass-ware the craftsman of the resent day can produce.

Moreover, by virtue of the low expansion co-efficient, the structure of PYREX Brand Scientific Glassware can be made more robust than that of ordinary laboratory glass thus ensuring longer service, and saving a high percentage of the cost of glassware replacements.

Ask for PYREX Brand and see that you get it!

Vitamin Therapy -its uses and limitations

SUB-FERTILITY,

while demanding the fullest investigation if treatment is to be successful, may resolve itself into a need for full supplies of the dietary factors concerned in reproduction. Of these, the natural forms of vitamin E, present in whole wheat germ oil, are known to be of the first importance.

FERTILOL

is stabilised and standardised wheat germ oil containing 3 mg. vitamin E per capsule. One to three capsules daily suffice for most cases. The vitamin is best utilised when given by mouth and treatment should in most cases be continued for several months. In pregnancy, the earlier treatment is begun the better.

References:—Shortage of space precludes list of references, but full documentation may be obtained on application to Clinical Research Dept. 41A.

terms of tonic value

The value of a tonic cannot be measured in simple numerical units. But desiderata for such a preparation can be placed under well-defined functional headings . . . restoration, formation and protection. Syrup Minadex is well equipped to fulfill these functions. Iron, calcium and other minerals comprise the stimulatory and formative elements of Minadex. The vitamins A & D of Minadex are specific in a protective sense. Combined in an orange-flavoured syrup enjoyable to even the most fastidious patient, these factors restore lost appetite and hasten the return to full health.

In 6 oz. and 12 oz. bottles.

Each fluid ounce contains: Vitamin A 18,000 i.u. Vitamin D 3,000 i.u. Iron and ammonium citrate $13\frac{1}{2}$ grains. Calcium glycerophosphate 2 grains; other minerals.

Bonum magis carendo quam fruendo sentitur (Pr.)

RICE bran, which formerly was cast aside, is now recognized as one of the richest known sources of the B-complex. 'Beplex,' an aqueous extract of rice bran, contains all the known factors of the B-complex, with extra amounts of thiamin and riboflavin. It is thus possible with a small dosage to administer large amounts of the B-complex in their optimum proportions. 'Beplex' is indicated for all sub-clinical 'B' deficiencies. It is available as an elixir or in capsules.

A good thing is appreciated more when it is lost than when it is being enjoyed.

JOHN WYETH & BROTHER LIMITED Clifton House, Euston Road, London, N.W.1

GANGRENE OF TOES

Repair of Skin with Cross-flap Replacement

A boy, aged 17, was admitted to Hospital on 22/10/45, having sustained a crush injury of 3rd, 4th and 5th toes, on the same day. Examination showed complete sensory loss on three toes with discolouration and obvious grave interference with circulation. Line of demarcation gradually developed and on 12/11/45 there was established gangrene as shown. (Fig. 1).

CASE HISTORY. — 16/11/45 Excision of gangrenous area and raising of delayed skin flap on R. calf. Pressure dressing, and penicillin cream to L. foot daily. 4/12/45 Flap on R. calf raised and attached to raw area on L. foot. Fixation in Gypsona with flap relaxed. (Figs. 2 and 3). 15/12/45 Sutures removed 15/12/45 Sutures removed from flap graft. Showing satisfactory healing. 24/12/45 Under local anæsthetic flap detached

local anæsthetic flap detached from calf to foot; sutured in position. Remainder of flap sutured back to calf. 22/1/46 Complete take of graft. Penicillin applied. Commenced foot exercises. 29/1/46 Wound soundly healed. Dressing discontinued. Patient commenced walking. 11/2/46 Excellent result flap graft. No pain. Walking well in normal shoes. R. foot normal. No fibrosis of gastrocnemious Discharged. (Fig. 4). In the belief that it will be of general interest, details of this authentic case are published by T. J. Smith & Nephew Ltd., of Hull, Manufacturers of Elastoplast and Gypsona.

INTRODUCING A SAFE AND EFFECTIVE SEDATIVE AND HYPNOTIC FOR REPEATED ADMINISTRATION

These Tablets present a new combination, providing the well-tried sedative and hypnotic property of Phenobarbitone enhanced by the analgesic and antispasmodic action of Codeine.

INDICATIONS: Insomnia, neuralgia, cardiac neurosis, indications: insomnia, neuralgia, cardiac neurosis, angina, bronchial and cardiac asthma, painful cough, whooping cough, causalgia, dysmenorrhoea, epilepsy, hysteria, migraine, mental disease, chorea, pruritus, and in many other conditions where a reliable combined hypnotic and analgesic is required.

EACH TABLET CONTAINS PHENOBARBITONE & GRAIN AND CODEINE PHOSPHATE & GRAIN, WHICH GUARANTEES ACCURATE DOSAGE AND CONVENIENCE OF ADMINISTRATION

MAY BE DISPENSED ONLY ON PHYSICIAN'S PRESCRIPTION

Rutin in Capillary fragility

Rutin is a crystalline glycoside obtained from the leaves and flowers of buckwheat. Recent reports attribute to Rutin the property of reducing capillary fragility when this is abnormally raised.

In our research laboratories a limited quantity has been isolated from buckwheat grown in this country and is available in the form of tablets.

Rutin A & H is suggested for administration in haemorrhagic conditions due to increased capillary fragility or permeability, especially when this condition is associated with hypertension, nutritional deficiency or toxic effects of drugs.

CORRECTIVE

for Children

Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

CLARKS CURATOR HEEL

has been clinically tested by an orthopædic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet).

It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.

C. & J. Clark, Ltd., Street, Somerset.

A STIMMARY OF THE ADVANTAGES OF

STREPH

(1) Non-selective

(2) Activity is maintained in the presence of proteins.

(3) Non-necrotic. non-toxic. nonstaining.

(4) Clear solutions with water, normal saline, and alcohol

(5) Powerful deodorant.

(6) Almost odourless

(7) Powerful detergent and compatible with soap

(8) STREPH is approximately three times as effective as Liq. Chloroxylenolis or lysol.

For these reasons STREPH is the ideal antiseptic for medical, surgical and obstetrical use.

Infant Feeding-The Logical Approach

Nature has provided for the human infant a milk of specific composition and having clearly defined characteristics. Consequently, it is logical to conclude that a satisfactory substitute for human milk should conform as closely as possible to the nutritional standard of breast milk.

It is this rational principle which governs the manufacture of Humanised Trufood.

	Protein	Fat	Lactose
HUMAN MILK	1.3	3.4	6.9
HUMANISED TRUFOOD	1.6	3.4	6.5

PROTEIN The composition of the protein of Humanised Trufood is adjusted to approximately an equal ratio of casein and soluble protein.

FAT The fat is presented in the form of a finely diffused emulsion.

LACTOSE Lactose is the only carbohydrate present and forms 50/55% of the total solids.

DEHYDRATION The Powder is produced by the spray process and on reconstitution with water, presents the closest possible approximation to human milk.

I OZ. OF POWDER PROVIDES:-

0.3 mg. Iron

NUTRITION . .

the answer to modern dietary problems

There is evidence that the reduced daily calorie intake of the nation, resultant upon the lower quantitative and qualitative food standards of to-day, has a tendency to be a contributory cause of asthenia.

The physician rightly seeks a corrective for this condition, especially in patients where an examination reveals nervous instability, lassitude and weakness arising from a deficiency of vitamins and mineral constituents.

Supavite' Capsules, by providing a balanced ration of vital food factors—vitamins A, B₁, B₂(G), C, D and E, together with Iron, Calcium and Phosphorus, enrich the depleted tissues and fluids and encourage the restoration of bodily health.

GAINING TWO AND LOSING ONE

Gaining two and losing one may be good draughts, but it usually is not sound therapy in peptic ulcer. Yet that is what may occur when ordinary alumina gel reacts with gastric HCl to form astringent chloride. Efforts to relieve the resulting constipation may partially offset the healing effects of alumina therapy.

Gelusil* Antacid Adsorbent tablets provide a specially prepared alumina gel which remains virtually unaltered in contact with hydrochloric acid in the stomach. Gelusil forms a protective colloid which permits normal healing without, producing constipation, acid rebound or alkalosis.

THREE ESSENTIALS TO EVERY DOCTOR'S OFFICE

Specimens Free on Request

The average doctor doesn't want elaborate correspondence - cabinets. (They're hard to come by anyway.)

But every doctor needs somewhere to keep his correspondence and records.

There is a Shannon unit which fits neatly onto any desk, side-table, or other convenient place. It is inexpensive and handy. Complete with all the necessary triply-strong suspended (on metal) folders, it costs very little. Yet it controls the doctor's correspondence safely and will last for many years.

Most doctors would find

this Shannon unit invaluable in simplifying routine.

Then there are the readyprinted visible Case-History and Accounts records which control the history of every patient, give visible indication of impending visits, warnings of confinements, indications of cases to watch. ... These too cut down the time spent on routine and help the doctor to control his practice as rigidly as any business or professional man.

Hundreds of doctors rely on these Shannon systems to keep close control of their multifarious activities. Why not you?

Just write "Send Records" on your card or letterheading and post it to The Shannon Limited of 45, Shannon Corner, New Malden, Surrey. You will receive full details of all the above by return—plus specimen Case-History and Accounts Records, free and without obligation.

special Doctor's Gabinet

200 FIRST-AID DRESSINGS

Many doctors have already acquired this handsome and hygienic Dalmas Cabinet for their surgeries. Made specially for the profession, it contains 200 Dalmas Adhesive Dressings in the nine sizes that clinics and many hospitals have found most useful. Refills can be obtained easily by quoting a handy reference number.

The cabinet is all-metal, smartly enamelled in pale-blue and white, and priced as low as 17/6, refill 15/6. Send cheque to A. de St. Dalmas & Co. Ltd., Junior Street, Leicester, or through your usual wholesaler.

7 ADVANTAGES of this New Dressing

- 1. Antiseptic
- 2. Washable, so always keeps clean
- 3. Doesn't fray at the edges
- 4. Waterproof, greaseproof, acid-proof
- 5. Stretches all ways (not just
- 6. Smooth surface like skin
- 7. Skin colour, therefore very inconspicuous

DALMAS

The new kind of FIRST AID DRESSING

2 * VALUABLE SURGICAL DRESSINGS

***OPTULLE**

A wide mesh gauze impregnated with Balsam of Peiu in a Petroleum Jelly base. Recommended as a First Aid dressing for burns, scalds, cuts and-abrasions. OPTULLE is of particular value in the treatment of

sores and indolent ulcers and, in that it protects, stimulates and permits drainage of exudates, facilitates healing when used for sore patches of impetigo, eczemas and similar skin troubles. It has also been found a most satisfactory preparation for the dressing of skin grafts. OPTULLE is non-adherent and allows a change of dressing without destroying fragile healing tissues. OPTULLE is completely safe in the hands of patients.

Supplied in tins of 24 dressings, 4 in. sq. (approx.) also in continuous strip 5 yards by 8 inches.

★ SULPHONA-TULLE

An open mesh gauze impregnated with an emulsion containing 10% Sulphanilamide. Recommended as a dressing for wounds and

burns whether sterile or infected. SULPHONA-TULLE is also of great value in the treatment of most septic skin conditions, chronic ulcerations, indolent ulcers, pruritus, intestrigo, etc.

Supplied in a small compact box containing a continuous strip 5 yards by 3\frac{1}{2} inches.

SULPHONA-CREAM

A cream containing 10% w/w Sulphanilamide in Paraffin-Lanolin-Water emulsion. A useful adjunct to Sulphona-Tulle particularly suitable for use by the patient in carrying out, in the home, the treatment prescribed by the Doctor.

Supplied in $\frac{1}{2}$ oz. tubes and I lb. jars. The printed labels to the tubes are detachable, eaving space for the Doctor's own advice to be written.

PRICES TO THE MEDICAL PROFESSION

OPTULLE 24 pieces, 4/- per tin, 45/- per dozen.

Continuous strip, 9/- per tin.

SULPHONA-TULLE 5/6 per tin or 60/- per dozen.

THE BETTER-BALANCED BREAD

FORD ENTERPRISE FOR BRITISH PROSPERITY

From Coal to Crops

The miner draws the coal from the earth. At Dagenham, the coal is separated into coke and by-products by the most up-to-date plant — the only plant of its kind in the British Motor Industry. The coke serves to smelt the iron ore and this makes Tractors (there are over 200,000 Fordson Tractors on British Farms today). The by-products yield tar and fertilisers. Nothing is wasted at Dagenham. The whole cycle of Ford production restore is helping to Britain's prosperity.

Combining PROMPT & PROLONGED LOCAL ANAESTHESIA WITH PERCUTANEOUS STILBOESTROL MEDICATION

THESE distinctive properties of MENOPAX ANTIPRURITIC CREAM bring prompt relief from irritation; soothe and heal the excoriated surfaces; and provide for a more normal nutrition of the tissues by augmenting the deficient local supply of æstrogen. Indications include: pruritus vulvæ, atrophic senile vaginitis, vaginal ulceration and pruritus ani.

MENOPAX CREAM

CLINICAL PRODUCTS LTD., RICHMOND, SURREY

FOR THE BUSY PRACTITIONER

The convenience of tablet medication is undoubtedly of marked value in the treatment of many conditions presented daily to the physician.

This is particularly true of alkaline therapy, where * Milk of Magnesia' Tablets are a frequent and every-day prescription. In the busy dispensary, or for providing immediate symptomatic relief while visiting the patient's home, they present advantages readily appreciated by the practitioner.

Quickly dispensed, accurate in dosage and convenient to take during working hours, 'Milk of Magnesia' Tablets offer a simple yet efficacious means of combating gastric upset due to hyperchlorhydria.

Each tablet contains approximately 4.8 grains of magnesium hydroxide ('Milk of Magnesia' brand).

> SPECIAL PROFESSIONAL PACKS.—For personal, surgery or dispensing use, a professional pack of 'Milk of Magnesia' Tablets is available. This contains 500 Tablets and costs 108 od. (including tax) post free. Orders should be sent direct.

, For sustained control of gastric hyperacidity

NOVASORB

(Hydrated Magnesium Trisilicate)

Novasorb provides for sustained control over gastric hyperacidity without producing an alkaline condition in the stomach. It thus presents a desirable improvement over the older antacids, where control is limited to the immediate reaction and where continued administration of excess alkali may induce alkalosis.

High adsorptive properties Will not give rise to alkalosis With suitable doses, does not destroy peptic activity A safe antacid for general use

The Novasorb brand of hydrated magnesium trisilicate was developed and introduced by Evans Fine Chemical Works and is based on original observations and clinical trials. (Brit. med. J., 1936, 1, 143, 205 and 254).

Issued in Powder and Tablet form
