CLINICAL TESTS APPROVE THIS NEW WAY OF  
REDUCING HEAT RASH AND SKIN IRRITATIONS

## Johnson's BABY LOTION

used after nappie changes  
Johnson's Baby Lotion  
spreads a discontinuous  
film that allows the  
skin to "breathe"  
naturally

One of the chief causes of chafing, and infant skin irritations is perspiration that cannot escape freely. Johnson's pure white antiseptic Baby Lotion leaves a soothing, discontinuous film on the skin that protects it against surface bacteria and at the same time allows it to "breathe" easily, because the oil-in-water emulsion is homogenized under pressure to provide extreme dispersion of the oil in micron-size globules. Thus perspira-

tion can readily escape and the chances of heat rash and irritations are reduced. Laboratory and clinical tests show that, used after nappie changes, Johnson's Baby Lotion is the perfect product for baby skin care—and a very important step forward.

### MAJOR ENDOCRINE DISORDERS

by S. LÉONARD SIMPSON, M.A., M.D. (Cantab.), F.R.C.P. (London)

*Physician, Willesden General Hospital, with charge of Diabetic and Endocrine Clinics; Endocrinologist, Princess Louise Children's Unit of St. Mary's Hospital; Consulting Physician and Endocrinologist, Soho and Samaritan Hospitals for Women*

Contents include: The Pituitary—The Adrenals—The Thyroid—The Parathyroids—The Gonads—The Pancreas—Index

Since clinical endocrinology is more than ever dependent upon a sound knowledge of experimental endocrinology, clinical descriptions are prefaced by separate sections dealing with the physiology of each endocrine gland. However, the clinical accounts are so written that they can be read

independently of the experimental sections. The book should therefore prove of value to the medical student, the practitioner, the consultant, scientific workers in the ancillary sciences, and those reading for the M.D. and M.R.C.P. examinations.

Elastoplast Technique was evolved with Elastoplast Bandages and Dressings. The successful results described in medical and surgical publications were achieved with Elastoplast Bandages and Dressings.

The combination of the particular adhesive spread with the remarkable stretch and regain properties of the woven fabric, together provide the precise degree of compression and grip shown by clinical use to be essential to the successful practice of the bandaging technique.

## Liver at meal times

Proteolysed Liver A&H is prepared by a process which eliminates the nauseating flavour of raw liver. Its palatability has been further improved by its presentation in a paste form. It may be readily incorporated in the normal diet by its inclusion in soups or on toast, bread or dry biscuits.

In pernicious anæmia and other megalocytic anæmias proteolysed liver has proved effective in cases which have failed to respond to extracts of liver in general use.

## A GREAT REPUTATION IS A GREAT RESPONSIBILITY

A reputation, once gained, can be retained only by unceasing watchfulness. The fame of 'Wellcome' brand Insulins is due, not to chance, but to the maintenance of untiring research and most rigid standards of manufacture. The discovery of Globin Insulin (with Zinc) and its introduction to the medical profession resulted from work carried out in The Wellcome Research Laboratories, Tuckahoe, New York.

Globin Insulin (with Zinc) fills the gap between the rapidly-acting unmodified insulin and the slower protamine zinc insulin. Together, these three cover the whole field of insulin therapy.

## PAIN ENDS...

Pain is almost always accompanied by nervous manifestations and often, too, by fever. Hence, pain suppression is usually only a part of the therapeutic task. Pain must not only be stopped but the associated nervousness must be calmed and an existing high temperature reduced to normal.

Veganin\* is an efficient means of achieving these objectives. Because of its synergistic combination of acetylsalicylic acid, phenacetin and codeine, the effect of Veganin is rapid and prolonged. The patient experiences almost instantaneous relief from pain; the nervous irritability and fever quickly subside, preparing the way for rest and recuperation. If no fever exists, Veganin does not lower the temperature.

*Composition: Each tablet, 11.8 grns., contains w/w: Acid Acetylsal. 32.68%, Phenacet. 32.68%, Codeine 0.99%, excipient, ad 100.00%.*

### EXAMEN LIVER EXTRACT is

**painless** on injection.

**proteolysed**: preliminary enzyme digestion of the raw liver sets new standards of efficiency in extraction of the active principle.

**potent**: injections needed only once every 14 days in treatment of relapse and once every 3 or 4 weeks in maintenance.

**protein-free**: 'liver sensitization' is exceptionally rare.

**standardized**: optimum response thus assured.

**inexpensive**: average cost is four shillings per 1 cc.

**fully active** in cases with subacute combined degeneration; though, when such neurological complications occur, more frequent injections may be needed.

In clinical test a single injection of 1 cc. of Examen is required to give, over 14 days, a response as shown in the chart above.

$I = 0.93 - 0.214 E_o$  where  $I$  is the increase in red blood cells in one week and  $E_o$  is the initial red cell count. The formula is derived from Della Vida B.L., and Dyke S.C., *Lancet*, 1942, 2, 275

## 'KEMITHAL' SODIUM

'Kemithal' Sodium (sodium cyclohexenyl-allyl-thiobarbiturate) is a new ultra-short-acting intravenous anaesthetic, evolved in the I.C.I. Research Laboratories.

In extensive clinical trials, 'Kemithal' Sodium has proved to be a highly efficient and satisfactory agent for basal hypnosis and for surgical anaesthesia of short or prolonged duration. Having a relatively high therapeutic quotient, 'Kemithal' Sodium effects anaesthesia without undue respiratory depression. A number of workers have commented upon the reduced incidence of laryngeal spasm with 'Kemithal' Sodium.

Literature on request.

'Kemithal' Sodium is issued in ampoules of 1 gramme and 2 grammes in boxes of 5 and 25, with or without sterile distilled water in ampoules of 10 c.c. and 20 c.c. respectively; ampoules of 5 grammes 'Kemithal' Sodium are also available in boxes of 5.

## IODINE AND FAILING LACTATION

"**T**WENTY cases of failure to establish lactation in the puerperium were treated with Lugol's solution. The mean output per day increased by 300%. One-third of a small number of failures of lactation in mothers with older infants have responded to Lugol's solution."

"*Iodine and Failing Lactation*," BRITISH MEDICAL JOURNAL, July 26, 1947, v. ii, pp. 126-128.

This investigation undertaken at St. Thomas's and at University College Hospital, under the auspices of the Medical Research Council strengthens the belief held in many quarters that iodine deficiency may be more prevalent than is generally supposed and that correction of this condition could contribute materially to better health.

All the research literature relating to the therapeutic and nutritional uses of iodine is collated and made readily available to members of the medical profession by the Iodine Educational Bureau. Many of the newer uses and research findings are not widely known. Medical practitioners are invited to consult the Bureau about them. There is no charge.

## June

June is a month for quarterly payments. Many payments occur regularly and are usually fixed in amount—rent, insurance premiums, subscriptions, transfers from your own account to those of your family or dependants. The Bank can save you the trouble of dealing with such payments and the inconvenience which follows if they are overlooked. It will do your 'remembering' for you. Every month the Midland Bank makes thousands of such payments, ranging in amount from a few shillings to hundreds of pounds, the customers' instructions being known as 'standing orders'.

President: The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Vichy Douche, Scotch Douche, Electrical Baths. Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone Nos.: 2356 and 2357 Northampton), who can be seen in London by appointment.

Telephone: Springpark 1180-1181

President: HER MAJESTY QUEEN MARY. Vice-President: Sir George H. WILKINSON, Bart. Treasurer: Gerald Coke, Esq., Physician-Superintendent: J. G. HAMILTON, Esq., M.D., D.P.M.

This REGISTERED Hospital is situated at Monks Orchard in some 250 acres of park, pleasure, and farm grounds. Applications can be considered on behalf of patients of the educated classes in a presumably curable condition.

With a view to early treatment voluntary or uncertified patients are admitted. Patients who can contribute 5 guineas weekly towards the cost of treatment and maintenance may be received as vacancies arise. The Committee will also consider applications for admission at lower rates and in certain cases will be prepared to admit patients free of charge. The comfort of sensitive patients is greatly enhanced by the fact that the majority are given single bedrooms. TREATMENT ON MODERN PRINCIPLES. Every facility for specialized investigation and treatment is provided in the Lord Wakefield of Hythe Science and Treatment Unit, including RADIOLOGICAL and DENTAL DEPARTMENTS, BIOCHEMICAL, PATHOLOGICAL and PSYCHOLOGICAL LABORATORIES. The Medical Staff have access to a panel of Consultants in cases which present unusual symptoms requiring specialized investigation and treatment. Under the direction of qualified officers HELIOTHERAPY, HYDROTHERAPY, and ELECTROTHERAPY are administered in the Physiotherapy Department. SPECIALIZED TREATMENT of various forms is given to suitable cases.

OCCUPATIONAL THERAPY in the form of various Arts and Crafts is actively encouraged from the medical aspect, and under the guidance of a competent instructress this department has proved most effective as a therapeutic factor in all stages of mental illness. The promotion of physical fitness is a prominent item of treatment, and this is enhanced by arrangements for patients to take part in Outdoor and Indoor Sports and Entertainments. ADDITIONAL ACCOMMODATION FOR MALE PATIENTS is now available by reason of completion of war damage repairs. Application should be made to the Physician-Superintendent.

## A FIRST CHOICE for the Investor

INVESTING in National Savings adds brightness to your future and strengthens the Nation's resources. And now the transaction is made more simple by a new service offered by your Bank. Whether you want to make a block purchase of National Savings Certificates, or whether you wish to invest a regular monthly sum for as long as you like, you have only to sign a Banker's Order form. The Bank will do the rest — without trouble to you, and without charge. In ten years' time each 10s. Certificate will be worth 13s. — an increase equivalent to a taxable yield of £4.16.8%. To the surtax payer the Savings Certificate is even more profitable. You can now hold 1,000 units of the new issue, in addition to permitted existing holdings of Certificates of earlier issues. So call on your Bank Manager to-day.

FOR INVALIDS

Invalid Bovril is a particularly highly concentrated form of Bovril, prepared without seasoning, for use in the sick-room. Providing as it does the maximum concentration in the most easily assimilated form, Invalid Bovril is useful in promoting recovery and assisting convalescence. Costs a little more than ordinary Bovril, but goes further.

## ADEO IN TENERIS CONSUESCERE MULTUM EST (VIRGIL)

Of the greatest importance is training in our tender years—but once a lesson becomes a habit it is not easily forgotten.

Often the physician will have the task of stressing the importance of regular bowel movement and the prescription of 'PETROLAGAR' will greatly assist in establishing this 'habit-time' safely and pleasantly.

Exceptionally palatable, 'PETROLAGAR' emulsion mixes intimately with the bowel contents thereby stimulating natural peristalsis without the irritating effect of cathartics.

## IN STRICT CONFIDENCE

A traditional feature of the relationship between Banker and customer is the confidence that each reposes in the other. The privileged information available to a Banker in a customer's account is always regarded as "Strictly confidential" and is never divulged to unauthorised persons. On the other hand if you need confidential advice on business matters you will find the Manager of any branch of Lloyds Bank ready to place his experience and specialised knowledge at your disposal.
