

The BUK wins . . . on its head!

The secret of BUK's success lies in its head. Only a wafer thinness of metal separates bristles from the 5 tempered and hardened cutting blades. With every movement of the vibrator, 150 double action cutting edges are brought into play, and the result is the closest smoothest shave of a lifetime. The BUK, simple and robust, is built for a trouble-free life, and is fully guaranteed. The Buk is specially recommended for the busy and bedridden.

SECURITIES AND THE FUTURE

If you are thinking of creating a trust under your Will, have you carefully considered what types of securities you should authorise your Trustees to purchase? The wider the choice allowed them, the greater the need that the securities should be reviewed from time to time. By appointing the Bank as your Executor and Trustee, you ensure that this essential duty will be regularly carried out under the best professional advice.

TONIC VALUE

The value of a tonic cannot be measured in simple numerical units. But the functions required of such a preparation can be placed under well-defined headings . . . *restoration, formation and protection.* Syrup Minadex is well equipped to fulfil these functions. Iron, calcium and other minerals comprise the restorative and formative elements of Minadex. The vitamins A and D of Minadex are of first importance in a protective sense. Combined in an enjoyable orange syrup, these factors restore lost appetite and hasten the return to full health.

THE BADGER, endowed with strong claws and muscular legs, is equally well fitted to tear up roots for food or make a burrow for its abode. Such is the natural law of adaptation to environment. Man, too, is an adaptable creature but failure to adjust himself completely may lead to physiological derangements and endocrine imbalance.

Rational means of correcting these functional disorders are available in the field of human medicine; the use of the sex hormones is an example of the most rational and least empirical form of treatment.

The B.D.H. range of sex hormones includes the androgens, the oestrogens and the progestogens. Many of these are available as pellets for implantation as well as in forms for injection and oral use.

Pre-operative skin sterilisation

In thoracic surgery, gynaecology, dermatology and wherever a sterile field is required, VIACUTAN, a highly potent bactericide, is a particularly satisfactory agent. VIACUTAN is non-irritant, has remarkable powers of penetration into tissue and stimulates healing. VIACUTAN can be applied freely and with impunity inside the pleural cavity, to large surfaces of muscle and fascial planes, to wounds and burns, and is used for cleaning out sinuses and tracks.

The editor found it beneficial to his circulation...

In normal health, an editor thinks of his 'circulation' in terms of net sales. In altered circumstances, he may be preoccupied with that other circulation which concerns the movement of his blood.

Circulatory and cardiac insufficiency are among the conditions for which Corvotone is eminently suitable. It is also recommended in cases of post-anæsthetic collapse, narcotic poisoning and asphyxia. Corvotone is administered orally in chronic and mild conditions. In more serious cases, it should be given by either subcutaneous or intravenous injection. Consisting of a 25 per cent. solution of Nikethamide, Corvotone is one of the most potent analeptics. It is non-toxic, and does not give rise to undesirable reactions. Available in boxes of 3, 6 and 100 ampoules of 2 c.cm.

ANAL OINTMENT AND SUPPOSITORIES

*for the local treatment of
Haemorrhoids and Anal Fissures*

Haemorrhoidal conditions require the following qualities in any preparation applied:—

1. Stemming of hæmorrhage.
2. Relief of pain and irritation.
3. Reduction of mucous exudation.

In mild cases 'Fissan' treatment will clear up the trouble, and in severe cases may be used to give relief and create suitable conditions for the rectifying of the varicose condition.

'Fissan' Anal Ointment and Suppositories contain menthol to relieve pain and irritation, witch hazel and zinc oxide to reduce bleeding and exudation, kaolin to absorb exudation, boric acid and bismuth salts to exert an antiseptic action, and colloidal milk protein as an emollient.

All the constituents are in a fine state of sub-division, thus assuring that the maximum surface area is available. The medicament is spread in an even film over the affected area upon application.

CONGESTIVE FAILURE with oedema

The poor absorption, distribution and utilisation of nutrients resulting from a failing circulation frequently cause deficiencies of the vitamin B complex. These tend to accelerate the development of congestive failure. While vitamins cannot affect valvular disease, they may bring about a reduction of oedema and an improvement in appetite and general well-being. The best preparation for this purpose is

'VASANO'

For the prevention and treatment of
TRAVEL SICKNESS

'Vasano' consists of the camphoric acid salts of hyoscine and hyoscyamine. The former is acknowledged to be one of the best single agents for the prevention of air and sea sickness. The balanced combination of alkaloids in 'Vasano' affords both central and peripheral actions. Hyoscine exerts a sedative influence on the higher centres and is also a para-sympathetic depressant while Hyoscyamine acts peripherally inhibiting the vagus.

'VASANO'

is a proven remedy and is effective in all forms of travel sicknesses—sea, air, car or train.

In the treatment of hypochromic anaemia it is generally recognised that iron should be presented in the most easily assimilable form.

This is achieved in 'PLASTULES' by enclosing ferrous iron in semi-fluid form in gelatin capsules. The small dosage of three a day is easy to take and the iron is readily absorbed. Digestive upset is avoided and a rapid response is achieved.

The time, the place —and the Portanaest

It means much to the General Practitioner to know that the Portanaest is always at hand, equally ready for midwifery in the home and minor surgery in the consulting room or factory. Completely portable, it is very compact yet leaves nothing to be desired in the completeness of its equipment or the easy facility of its use. A master knob controls the rate of flow and pressure; another controls the mixture which can be read from the dial at a glance. For dentistry, the Portanaest can best be described as a portable "Walton"—an indispensable part of a visiting practitioner's equipment. A demonstration will be gladly arranged; literature is available on request.

2* VALUABLE SURGICAL DRESSINGS

★ OPTULLE

A wide mesh gauze impregnated with Balsam of Peru in a Petroleum Jelly base. Recommended as a First Aid dressing for burns, scalds, cuts, and abrasions. OPTULLE is of particular value in the treatment of sores and indolent ulcers and, in that it protects, stimulates and permits drainage of exudates, facilitates healing when used for sore patches of impetigo, eczemas and similar skin troubles. It has also been found a most satisfactory preparation for the dressing of skin grafts. OPTULLE is non-adherent and allows a change of dressing without destroying fragile healing tissues. OPTULLE is completely safe in the hands of patients. Supplied in tins of 24 dressings, 4 in. sq. (approx.) also in continuous strip 5 yards by 8 inches.

★ SULPHONA-TULLE

An open mesh gauze impregnated with an emulsion containing 10% Sulphanilamide. Recommended as a dressing for wounds and burns whether sterile or infected. SULPHONA-TULLE is also of great value in the treatment of most septic skin conditions, chronic ulcerations, indolent ulcers, pruritus, intertrigo, etc.

Supplied in a small compact box containing a continuous strip 5 yards by 3½ inches.

SULPHONA-CREAM

A cream containing 10% w/w Sulphanilamide in Paraffin-Lanolin-Water emulsion. A useful adjunct to Sulphona-Tulle particularly suitable for use by the patient in carrying out, in

the home, the treatment prescribed by the Doctor. Supplied in ½ oz. tubes and 1 lb. jars. The printed labels to the tubes are detachable, leaving space for the Doctor's own advice to be written.

Hastings Honeymoon

DOMESTIC BLISS was cheap in 1887. Matilda and Percival paid £8.15.0 for their 7-piece bedroom suite. It was a year of great expectancy. The full life of the gay nineties was just around the corner with its safety bicycle, bloomers, Gibson Girls and that amazing new invention the incandescent gas mantle. The mortality rate for children under five in London was 78.6 per thousand.

Into this world of stark contrasts M.O.F. made its first appearance, one of the earliest

attempts at adequate infant nutrition.

For 54 years M.O.F. was confined to Scotland. Then in 1941 Scott's of Edinburgh distributed their product on a national scale. In the 80's M.O.F. was as modern as the incandescent gas mantle. Today it belongs to the modern world of streptomycin and electronics.

Scott's of Edinburgh, baby food manufacturers since 1887, are not only keeping pace with the advance of nutritional science but helping to pioneer it.

PRE-NATAL DIET and the course of PREGNANCY

The normal functioning of the reproductive organs during pregnancy depends, among other things, upon the plentiful intake of vitamins and minerals.

Medical opinion is gaining ground that there is an increased need for Vitamin B in late pregnancy and the early puerperium. Its administration during the period before childbirth has resulted in less vomiting and nausea and in marked improvement in the nutritional value of the breast milk. In order to assure the building of the foetal bones *in utero* and afterwards during breast-feeding, the importance of Vitamin D and of calcium and phosphorus is also established.

In Supavite Capsules the practitioner has at hand a combination of these and other essential vitamins and minerals in a scientifically balanced form of particular value in maternity cases.

The INEVITABLE and the AVOIDABLE

While recovery of the peptic ulcer patient may be jeopardized by frustration, fear and chronic emotional crisis, it should not be threatened by constipation so common to ordinary alumina gels. The former may be inevitable. The latter is fortunately avoidable, for Gelusil* Antacid Adsorbent tablets do not constipate as does ordinary alumina. Free from this distressing tendency — therapy with Gelusil need never be interrupted, nor demulcent protection suspended, nor relief withdrawn, nor healing deferred.

PYREX Scientific Glassware

provides long and efficient service.

QUALITY and strength of Glassware used in the laboratory, in the dispensary and in many manufacturing processes, are essential if the work of these services is to be thoroughly efficient.

The breakage-cost factor of the less important vessels such as Beakers, Measures, Flasks etc., is one which concerns all those responsible for the provision of laboratory Glassware.

The sturdy strength of PYREX Brand Glass, made possible by the low coefficient of expansion of 3.2×10^{-6} per degree C., keeps glassware replacement costs down to a percentage far less than that of ordinary glass.

At the same time, acids (other than hydrofluoric or glacial phosphoric) have no effect upon the surface, and all those who demand efficiency and long service in their glassware, will find that PYREX Brand Scientific Glassware maintains, indefinitely, the many vital and reliable properties essential to modern laboratory equipment.

Prescribing a Laxative

When the Physician is called upon to prescribe a laxative for prolonged or occasional use, Andrews merits special consideration. Andrews is pleasant-tasting. Its effervescence has a refreshing quality that makes it an acceptable draught. Andrews causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion, which, acting by osmosis, induce easy, painless evacuation. Andrews is particularly suitable for patients liable to digestive upsets. It allays gastric discomfort and nausea. It also improves the flow of bile, and helps to check biliousness and sick headaches. No costive reaction results when Andrews is discontinued.

For Parous Women

WHILE Tampax—both in principle and in application—has enjoyed the approval of members of the Medical Profession for many years now, the need of an additional product of greater absorbency has been stressed—particularly for use by parous women.

This need is now fulfilled by Super Absorbent Tampax No. 2, designed to cater for a heavy flow.

With a 40% increase in absorptive capacity, this new Tampax No. 2 makes available to many thousands more women the complete freedom, comfort and hygiene of which the name "Tampax" is symbolic. Available in America for some years, only shortage of raw materials and machinery during the War period prevented its manufacture in this country.

For normal requirements, the original Regular Tampax No. 1 is completely adequate.

Tampax may be confidently recommended by Physicians for use by married women during normal menstruation. Its use by unmarried girls should not be advocated when the size of the hymeneal aperture would cause difficulty in insertion and withdrawal.

Sanitary Protection **TAMPAX** Worn Internally

has won the approval of Doctors everywhere

If you require a sample packet of Super Absorbent Tampax No. 2 or Regular Tampax No. 1, please write to: Medical Inquiries, Tampax Limited, 110 Jermyn Street, London, S.W.1.

**To help vanquish
depression associated with
persistent pain**

Many patients suffering from persistent pain are subject to attacks of depression characterized by deep apathy and emotional exhaustion. Thus, pre-existing neurotic tendencies may be exaggerated and the pain threshold progressively lowered. By restoring morale and optimism, 'Benzedrine' Tablets will often effectively combat the depression which may complicate the management of painful conditions.

MINISTRY OF PENSIONS MEDICAL OFFICERS

The Minister of Pensions invites applications for a limited number of posts as Medical Officer on the unestablished staff of the Ministry for duty either at Headquarters or in the provinces. Applicants should be registered medical practitioners, men or women, of not less than five years standing and have held house appointments in (preferably teaching) hospitals. The appointments will be subject to the usual Civil Service conditions and it is necessary that the officer should undertake to serve anywhere in Great Britain, Northern Ireland or Eire as required. The scale of salary (for both men and women) is £1,000 by £30 to £1,300 by £50 to £1,400. The salaries of officers employed outside London will be subject to the appropriate abatement in respect of provincial differentiation, e.g., the commencing salaries of officers aged 40 and over employed in Intermediate and Provincial Centres will be £1,120 and £1,090 per annum, respectively. Starting pay will be linked to age 35: £30 will be deducted for each year of age below 35 and added for each year over 35 up to age 40. For those appointed contracts for periods up to three years may be available after a period of approved service and they will also be eligible for consideration, with others, in competition for vacancies on the established staff as they arise. Promotion to higher grades, with proportionate higher salaries, is possible. Candidates selected for interview will be required to attend at Ministry Headquarters for the purpose at their own expense. Canvassing through Members of Parliament or in other ways will render the candidate liable for disqualification. Applications must be made on forms which can be obtained from The Secretary (M.S.), Ministry of Pensions, Medical Services Division, Norcross, Blackpool, Lancs.

NATIONAL HEALTH SERVICE SECRETARY FINANCE OFFICER

Applications are invited for the posts of (1) Secretary and (2) Finance Officer, with accountancy qualifications, to the Hospital Management Committee of the Orpington and Sevenoaks Group. The salaries of the posts are fixed by the number and classification of beds in the group and are expected to approximate, for Secretary £1,070 by £35 to £1,420, and for Finance Officer £860 by £30 to £1,130. Officers who are transferable within the meaning of Section 68 (1) (a) of the National Health Service Act may opt to retain their existing salaries, including conditions of service. Both posts are subject to the provisions of the National Health Service (Superannuation) Regulations, 1947 (S.R.O. 147, No. 1755) and the successful candidates will be required to pass a medical examination. The Secretary may be medical or lay but if medical should not be engaged in clinical work except in continuance of existing duties. Preference will be given to applicants with previous hospital experience. Applications with copies of not more than three recent testimonials, must be received by July 5, 1948 and should be addressed to the Chairman, Orpington and Sevenoaks Hospital Management Committee, C/o County Hospital, Sevenoaks Road, Orpington, Kent.

NATIONAL HEALTH SERVICE SECRETARY

Applications are invited for the post of Secretary to the hospital management committee of the Mid-Sussex group. Experience in hospital administration either medical or lay is desirable. The salary of the post is fixed by the number of classification of beds in the group and is expected to approximate to £770 by £30 to £1,070. Officers who are transferable within the meaning of section 68 (1) (a) of the National Health Service Act may opt to retain their existing salaries including conditions of service. The post is subject to the provisions of the National Health Service (Superannuation) Regulations 1947 (S.R.O. 147, No. 1755). Applications, which must be received by June 15, 1948, should be addressed to the Chairman, Mid-Sussex hospital management committee, Spring Mead, Ardingly, Sussex.

CITY OF SALFORD HEALTH COMMITTEE AND SALFORD ROYAL HOSPITAL JOINT ACCIDENT SERVICE ACCIDENT OFFICER

Applications are invited for the post of Accident Officer. Candidates must hold a higher surgical qualification and should have had experience in fractures, orthopaedic and traumatic surgery. Duties will commence on July 1 and will entail attendance at both Salford Royal Hospital and the Hope Hospital, Salford. Appointment is for one year and is renewable. Salary £1,000 per annum, non-resident. The Accident Officer will be required to reside within five miles of Salford Town Hall. Applications, with particulars of experience and the names of three referees, should be received immediately on the prescribed form obtainable from the undersigned.—H. B. Shelswell, General Superintendent and Secretary, Salford Royal Hospital.

MINISTRY OF EDUCATION FOR NORTHERN IRELAND STRANMILLIS TRAINING COLLEGE, Belfast SENIOR LECTURER IN HEALTH EDUCATION

Applications are invited for the post of Senior Lecturer in Health Education (woman). Medical degree and some medical experience essential. Diploma of Public Health desirable. Salary scale £600 by £25 to £750 per annum. Preference will be given to suitably qualified ex-Service candidates provided it is considered that such candidate can, or within a reasonable period will be able to, fill the post efficiently. Application forms and conditions of appointment may be obtained from the Principal, Stranmillis Training College, Belfast, by whom applications must be received not later than Wednesday, June 30, 1948.

LIVERPOOL AND DISTRICT SOUTHERN HOSPITAL MANAGEMENT COMMITTEE SECRETARY

Applications are invited for the position of Secretary to the Committee set up under the National Health Service Act, 1946, to administer the group of hospitals in Liverpool South District. Candidates should have had wide secretarial and administrative experience and preferably a practical knowledge of hospital management. The person appointed will be generally responsible for the administration of the group of hospitals and for the work of the Committee. Salary £1,070 by £35 to £1,420 per annum, but an officer transferable within the meaning of Section 68 (1a) of the Act may opt to retain his existing salary and conditions of service. The successful candidate will be required to pass a medical examination and will be subject to the National Health Service Superannuation Regulations. Applications, stating age, qualifications and experience, and accompanied by the names of three referees, should be addressed to the Chairman of the Committee, F. H. Cain, Esq., J.P., Liverpool Regional Hospital Board, c/o Alder Hey Hospital, Eaton Road, West Derby, Liverpool, 12, endorsed "Secretary," and must be received not later than Monday, June 21, 1948.

CITY OF PORTSMOUTH EDUCATION COMMITTEE

ASSISTANT SCHOOL MEDICAL OFFICER AND ASSISTANT MEDICAL OFFICER OF HEALTH
Applications are invited from fully qualified candidates for the above appointment. Salary £650 to £850 p.a. annum by annual increments of £25, plus cost-of-living bonus, with placing on the scale according to previous experience. The adoption of a modification of the Interim Revision of the Askwith Memorandum is under consideration. Experience in refraction, orthopaedics, mental deficiency, diseases of the ear, nose and throat, or any other branch of the work will be considered as a recommendation, and the possession of the D.C.H. or the D.P.H. would be an advantage. The selected candidate will be required to pass a medical examination and to contribute to the Council's Superannuation Scheme. Forms of application may be obtained from the Chief Education Officer, Municipal Offices, 1, Western Parade, Southsea, to whom they should be returned not later than fourteen days after the appearance of this advertisement. Canvassing in any form will be a disqualification.—V. Blanchard, Town Clerk and Clerk to the Education Committee.

KENT EDUCATION COMMITTEE ASSISTANT COUNTY MEDICAL OFFICER (School Health Service)

Applications are invited from male and female practitioners, including those in H.M. Forces, for the above appointment, primarily for work in the West Kent area. The salary scale is £675 a year, with annual increments of £25 to £875 a year, with a cost-of-living allowance. The commencing salary will be fixed at a point on the scale according to the experience and qualifications of the successful candidate. The appointment is superannuable, and the successful candidate will be required to pass a medical examination. The duties are mainly those in connection with the School Health Service, but the person appointed may be required to undertake other duties (including work in Maternity and Child Welfare Clinics). Preference will be given to these candidates who have had special experience in the diseases of children. The officer appointed will be required to provide a car, for which a travelling allowance will be paid in accordance with the County Council's scale. Applications stating the names and addresses of two persons to whom reference may be made as to professional ability and character should be addressed to the undersigned not later than June 24, 1948.—A. Elliott, M.D., School Medical Officer, County Hall, Maidstone.

EAST ANGLIAN REGIONAL HOSPITAL BOARD

ASSISTANT SENIOR MEDICAL OFFICER

Applications are invited for the whole-time appointment of Assistant Senior Medical Officer at a salary of £1,450 by £50 to £1,650 per annum. Duties will be mainly in connection with the administration and development of the Mental Health Services. Applicants should have experience in general psychiatry including administrative experience in both in-patient and out-patient work. Applications, together with the names of three referees, should be forwarded to K. V. F. Morton, Secretary to the Board, 117, Chesterton Road, Cambridge, so as to arrive not later than June 30, 1948.

WEST RIDING OF YORKSHIRE HOSPITALS BOARD

HIGHROYDS EMERGENCY HOSPITAL

Menston, near Leeds

JUNIOR MEDICAL OFFICER (B1)

Applications are invited from registered medical practitioners for the appointment of Resident Junior Medical Officer in the Tuberculosis Unit at the Highroyds Emergency Hospital. Suitably qualified R practitioners holding B2 appointments are invited to apply. Applications from R practitioners now holding B1 appointments cannot be considered unless they have been rejected by the R.A.M.C. The salary will be at the rate of £640 per annum inclusive, plus full residential emoluments. The appointment will be terminable by one month's notice on either side. Applications, accompanied by copies of testimonials held, or the names and addresses of two persons to whom reference may be made, should be addressed to the Medical Superintendent, Highroyds Emergency Hospital, Menston, near Leeds. G. L. Banner, Clerk of the Board, Board Offices, Wood Street, Wakefield.

UNIVERSITY OF BRISTOL ANAESTHETIC REGISTRAR

The University of Bristol in conjunction with the Bristol Royal Hospital invites applications for the non-resident post of Anaesthetic Registrar. The appointment is for one year and renewable. The salary will be on a scale from £500 to £750 per annum according to qualifications and experience. There is a University Scheme for Children's Allowances. Applications giving full names, age, qualifications, details of education and experience together with the names of not more than three referees and copies of not more than three recent testimonials should reach the undersigned, from whom further particulars may be obtained, on or before July 3, 1948.—Winifred Shapland, Secretary and Registrar, University of Bristol, Bristol, 8.

DERBY GROUP OF HOSPITALS

ASSISTANT ORTHOPAEDIC SURGEON

Applications are invited from registered medical practitioners, preferably holding the F.R.C.S., for the post of Assistant Orthopaedic Surgeon. The appointment will be whole-time, non-resident, and private practice will not be permitted. Salary £1,000 per annum. The post forms part of the Orthopaedic and Accident Service based at the Derbyshire Royal Infirmary, and the successful candidate will be expected to work at other hospitals within the group. Applications, with names of three referees, should be sent as early as possible to the undersigned.—C. Ashton, Town Clerk, Secretary, Derby Group of Hospitals Co-ordinating Committee, Town Clerk's Office, Market Place, Derby.

BOROUGH OF BEXLEY

ASSISTANT MEDICAL OFFICER OF HEALTH

Applications are invited for the above-named post. Applicants must be registered medical practitioners (male and female). Clinical experience in the work of the Maternity and Child Welfare Service is essential and possession of the Diploma in Public Health will be an advantage. The duties will include obstetric work at the Corporation Maternity Home and applicants should have had practical experience of institutional midwifery. The possession of a D.R.C.O.G. is desirable but not essential. The salary will be in accordance with the Interim Revision of the Askwith Scale, namely £675, rising by annual increments of £25 to a maximum of £875, plus cost-of-living bonus, but in fixing the commencing salary regard will be had to qualifications and experience. A car allowance in accordance with the Council's scale will also be paid. An unfurnished flat will be made available to the successful candidate. The appointment is subject to the provisions of the Local Government Superannuation Act, 1937, and the successful candidate will be required to pass a medical examination. Forms of application and particulars of duties may be obtained from the Medical Officer of Health, Health Department, 14, Brampton Road, Bexleyheath, to whom they should be returned duly completed and accompanied by not more than three recent testimonials not later than June 19, 1948. Applicants must state whether to their knowledge they are related to any member of or the holder of any senior office under the Council. Failure to do so and canvassing directly or indirectly will disqualify.—W. Woodward, Town Clerk, Council Offices, Broadway, Bexleyheath.

IT'S AN ABBOTT RESEARCH PRODUCT

NEMBUDEINE

Tablets

Nembudeine is the Abbott trade mark for a mixture containing Nembutal, Acetophenetidin and Codeine, compounded in tablet form. It exerts the combined sedative effect of nembutal and the analgesic effect of codeine together with the antipyretic and analgesic action of acetophenetidin. Each tablet contains Nembutal 1/2 gr., Acetophenetidin 5 gr., and Codeine Sulphate 1/4 gr.

Nembudeine Tablets are helpful in relieving the mental irritability and restlessness due to conditions associated with pain and discomfort, and may also be used pre-operatively or post-operatively for minor surgical procedures.

Nembudeine Tablets are supplied in bottles containing 25, 100, and 500 tablets.

Literature on request.

FORD ENTERPRISE FOR BRITISH PROSPERITY

Where Iron Flows like Water

From the great blast furnace at Ford Works Dagenham — the only one in the British Motor Industry — come 500 tons of molten iron every day. Mainly for use in the Ford Foundry it provides a mighty torrent of metal for Ford cars, Fordson tractors and Fordson commercial vehicles. A mighty impetus, too, behind the Nation's production programme.
