### HIGHLY SATISFACTORY RESULTS

## follow the adoption of SALT'S PATENT COLOSTOMY BELT

Since we first introduced this Belt we have supplied many hundreds, and the results have been highly satisfactory. Outstanding advantages are: (1) Receiver is detachable and sterilizable by boiling; (2) Bag easily removed without removal of belt; (3) Bag easily emptied and washed; (4) No crevices or metal fittings to hold faeces; (5) Smell reduced to a minimum; (6) Less bulk than the old style. Bags are easily and economically replaced. Further details and Measure/Order forms available to professional people on request.

### THE NEW MODEL IX

## HANOVIA 'SOLLUX' LAMP

Like its widely used predecessors, this new 'Sollux' Lamp has interchangeable radiant heat and infra-red generators. Both give full therapeutic output of radiation, in a beam which can be closely regulated in intensity, direction and field of application. This new model embodies an improved finger-light vertical movement.

This unique combination of essentials has made the Sollux Lamp the accepted standard equipment for radiated heat therapy. Full guidance is given covering its application in pain, injuries, indications, and inflammation of all descriptions. You can obtain full details of the Sollux Lamp (Model IX) from our illustrated folder "Therapeutic Heat Treatment". Ask for leaflet M.161.

with

## 'KEMITHAL' SODIUM

'Kemithal' Sodium (sodium cyclohexenyl-allyl-thiobarbiturate) is a new ultra-short-acting intravenous anaesthetic, evolved in the I.C.I. Research Laboratories.

In extensive clinical trials, 'Kemithal' Sodium has proved to be a highly efficient and satisfactory agent for basal hypnosis and for surgical anaesthesia of short or prolonged duration.

Having a relatively high therapeutic quotient, 'Kemithal' Sodium effects anaesthesia without undue respiratory depression. A number of workers have commented upon the reduced incidence of laryngeal spasm with 'Kemithal' Sodium.

Literature on request.

'Kemithal' Sodium is issued in ampoules of 1 gramme and 2 grammes in boxes of 5 and 25, with or without sterile distilled water in ampoules of 10 c.c. and 20 c.c. respectively; ampoules of 5 grammes 'Kemithal' Sodium are also available in boxes of 5.

# THE PRACTITIONER

1868

1948

The July number celebrates the eightieth year of publication by *The Practitioner*. A symposium on Social Medicine describes the National Health Service Act, the health services in other lands, and the changes in Medicine that have taken place in the past eighty years.

*The Practitioner* was founded in 1868 as a journal of practical therapeutics, and the ideals of its founder have been worthily upheld. To-day in each issue the most up-to-date information on advances in clinical medicine is given systematically and by experts.

*A small increase in the paper allocation allows us to accept a limited number of new subscriptions. The annual subscription is £2 2s. post free. When copies are available, students and practitioners in their first year of qualification are granted a subscription concession at £1 5s.*

## 'VASANO'

*For the prevention and treatment of*  
**TRAVEL SICKNESS**

'Vasano' consists of the camphoric acid salts of hyoscine and hyoscyamine. The former is acknowledged to be one of the best single agents for the prevention of air and sea sickness. The balanced combination of alkaloids in 'Vasano' affords both central and peripheral actions. Hyoscine exerts a sedative influence on the higher centres and is also a para-sympathetic depressant while hyoscyamine acts peripherally inhibiting the vagus.

## *Vitamin Therapy* *-its uses and limitations*

### In pursuit of protein

So accustomed have we become to thinking of Bemax mainly as a rich natural source of the vitamin B complex that its high protein content is not always fully appreciated.

Compare, for example, the *protein* content of bacon and Bemax. The 2-oz bacon ration should provide, in a week, about 6.2 grammes of first-class protein. One daily tablespoonful of Bemax will provide, in the same period, more than 30 grammes of first-class protein.

A comparison of *calories* shows about 255 for bacon and about 350 for Bemax.

So the nutritional value of Bemax comprises even more than its well-known vitamin content and for those who are able to supplement their diet with Bemax no lowering of the protein intake need occur.

### Bemax Stabilised cereal embryo

1 oz. of Bemax provides approximately:—

vitamin B <sub>1</sub>	0.45 mg.	iron	2.7 mg.
vitamin B <sub>2</sub>	0.45 mg.	copper	0.45 mg.
(riboflavine)	0.3 mg.	protein	30%
nicotinic acid	1.7 mg.	available	
vitamin B <sub>6</sub>	0.45 mg.	carbohydrate	39%

ANALGESIA IN LABOUR

Of all indications in which pethidine has been used, analgesia in labour is the one in which its advantages have been most clearly and consistently demonstrated.

'Dolantal' (pethidine hydrochloride) does not weaken uterine contractions nor lengthen labour, nor yet cause post-partum complications. It is particularly valuable in spasm or rigidity of the cervix in primiparae. Its isolated use in parturition entails negligible risk of addiction.

Anaemia caused by lack of iron is seen in day to day practice more often than any other condition due to nutritional defect. Iron in the most effective form—ferrous iron—provides the rational, straightforward treatment. Fersolate, the tablet preparation of ferrous sulphate with traces of copper and manganese, is widely used for combating the iron deficiency anaemias. Haemoglobin regeneration occurs at a daily rate of one to two per cent—usually from a dose of 3 Fersolate Tablets per day—and the patient's well-being is rapidly restored.

## Clear liquid broth for infants from 4 months

Calcium and protein requirements standardized by accurate pH control

More and more mothers now realize the importance of starting babies on bone and vegetable broth at 4 months.

The clear liquid broth made by Brand's specially for infants ensures that babies get the valuable minerals and protein they need from broth. Brand's Bone & Vegetable Broth is a stock made from bone, carrot, spinach, beet and parsley. Its calcium content, which is sufficient to make an important addition to the infant's calcium needs, is ensured by careful pH control during preparation. The protein is derived from the collagen of the bone, and is all in soluble form, so that there is no solid protein to trouble a baby's sensitive digestive system.

Packed hygienically in glass jars, this broth is ready to give in the feeding bottle or by spoon. 10½d. a jar. Other varieties of Brand's Baby Foods: Strained Carrots, Strained Prunes, Strained Tomatoes, Strained Fruit & Cereal.

### Anaesthesia from a travelling case

The Minnitt Gas-Air Apparatus is ideally suited to the needs of visiting practitioners and midwives alike.

Now standard throughout Great Britain, it weighs only 15lbs. in its travelling case, measures 19" x 12½" x 5" and is specially designed for self-administration by the patient. The flow of gas-air is controlled by the patient's own respiration; complete unconsciousness never occurs as on the verge of insensibility the pressure of the patient's finger relaxes, allowing additional air to enter and dilute the mixture. Muscular action remains unimpaired. A wheeled model for hospitals and nursing homes is also available.

### AS SIMPLE AS THIS

**A**DDITION of a trace of iodine to the salt we eat would at once make good the lack of iodine in our diet which is a proved cause of much ill health, low vitality and proneness to disease.

This simple remedy is urgently recommended by the Goitre Sub-Committee of the Medical Research Council

The Committee says: "If, as now seems apparent, it has proved possible during a long and exacting war to protect the health of the people by national measures against protein, vitamin and other deficiencies, it becomes difficult to discover valid reasons for withholding

this additional measure of protection."

#### IODIZED SALT IS AVAILABLE

Doctors who wish to introduce iodized salt to districts or institutions under their charge will find that there is no difficulty in obtaining supplies. It is available for hospitals, nursing homes, schools, restaurants, works' canteens, etc., as well as through shops. Iodized salt looks and tastes the same as ordinary salt and is made by a number of British salt manufacturers.

The Iodine Educational Bureau has collated all known facts on the uses of iodine. This information is available to members of the medical profession without charge.

## AC EXTRA MILEAGE PLAN

### 1 Consult the AC Plug Doctor

In just 10 minutes this sensitive device will test your plugs, clean the ones that are still good, indicate which should be replaced.

### 2 Change to the New AC Plug

Its aircraft insulator gives quicker starts, more sustained power, more miles to the gallon. No shorting, no cracking, and points last longer.

### 3 Use the AC Plug Service Regularly

Drive into any official AC Plug Cleaning & Testing Station at regular intervals and have your AC plugs maintained at "factory-fresh" efficiency.

## PRIORITY DELIVERY for Doctors

Like the busy G.P. the AB Cooker is ready for all emergency calls. A light stoking with anthracite fuel *only twice every 24 hours*, keeps it always 'at the ready' to cope with any culinary situation and to provide a constant day and night hot water supply for the entire household.

★ As a special concession to Doctors we have instituted a priority delivery list — which means that the period of waiting after ordering your AB will now be appreciably reduced.

THE cost of litigation and the damages awarded to successful litigants are steadily rising. The Union's subscription remains at its pre-war figure. Can you afford to remain outside?

SEVERAL MEMBERS have applied for assistance only to find to their discomfiture that the current subscription is unpaid; the completion of a "Banker's Order" avoids this oversight.

IMMUNITY from medico-legal actions, from slander or the receipt of accusatory letters does not exist; the Union proffers financial assistance, legal advice and defensive measures at a minimal annual cost.

EVERY active practitioner is vulnerable in a legal sense. No one can tell from what quarter an accusation may emanate calling for the skilled help, legal advice and financial protection of The Union.

**DILAUDID**  
KNOLL BRAND  
*dihydromorphinone*

"Dilaudid" (Knoll) brand dihydromorphinone is an improved morphine preparation with an analgesic action five times as great as morphine, but with a considerably weaker hypnotic effect. The euphoric element is largely subdued and the risk of addiction correspondingly lowered. Tolerance is greatly improved, an increase of dosage rarely necessary. The effect on peristalsis is only slight and much less persistent than in the case of morphine.

**DICODID**  
KNOLL BRAND  
*dihydrocodeinone*

"Dicodid" (Knoll) brand dihydrocodeinone exerts a specific and selective action on the cough centre; in these respects it occupies a place midway between that of morphine and codeine. Better tolerated than morphine, it also interferes very much less with expectoration, the absence of any notable constipating effect is responsible for the use of "Dicodid" as a post-operative analgesic.
