by DENIS HEALEY

The "Occupation Face" of Japan  
by HONOR TRACY

## A BBC Publication

containing the best of broadcast talks, book reviews, criticisms of art, music and drama. Every Thursday from all newsagents, 3d.

## PROLONGED PROTECTION

AFTER the successful application of an antiseptic, there still remains the risk of fresh contamination by pathogenic organisms. It is important, not only that the barrier should be effective when first set up, but that the protection should be prolonged.

The protection conferred by 'Dettol' is durable. It has been shown that if 30% 'Dettol' is applied to the skin and allowed to dry, the area remains insusceptible to fresh infection by *streptococcus pyogenes* for at least two hours.\*

\* This experimental finding (J. Obstet. Gynaec. Brit. Emp. Vol. 40 No.6) has been confirmed in obstetric practice extending well over a decade.

(PHARMACEUTICAL DEPARTMENT, HULL.)

## THE "SALT AIR" ARTIFICIAL BREAST

—the obvious solution of the psychological problem which frequently follows breast amputation. It restores the normal figure line, banishes self-consciousness, encourages resumption of normal activities. Can be worn while bathing, as it retains its shape when wet and can be easily dried. Available in the "Saltair" Brassiere or separately for sewing into patient's own foundation garment. Details to doctors on request.

Appointments at London address: 1, STANLEY HOUSE, 103, Marylebone High Street, London, W.1. Tel.: Welbeck 3034.

## Libby's

### HOMOGENIZED FOODS

**Easy to digest SOUPS & VEGETABLES  
for Babies . . . and for special diets**

By Libby's patented process of Homogenization ★ the cells containing the valuable food elements of Vegetables, Soups and Fruits are broken open making the nutriment readily assimilable by the most delicate digestive system. Also, tough irritating fibres are eliminated and the bulk evenly spread throughout the product. Thus it is possible to give all the goodness of these foods at a very early age — without the digestive strain which would normally ensue. Excellent, too, for adults requiring a smooth diet.

★ Homogenized Foods have been forced through tiny valves under high pressure — a much more effective process than the usual 'straining' through wire meshes. Clinical data and laboratory reports gladly supplied on request. Write to Libby, McNeill & Libby Ltd., Forum House, 15/16 Lime Street, London, E.C.3.
