

Clarks

NEW CORRECTIVE HEEL

for Children

Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

CLARKS CURATOR HEEL

has been clinically tested by an orthopaedic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet).

It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.

(DEPT. A.9) WILLESDEN, N.W.10.

THE "SALT AIR" ARTIFICIAL BREAST

—the obvious solution of the psychological problem which frequently follows breast amputation. It restores the normal figure line, banishes self-consciousness, encourages resumption of normal activities. Can be worn while bathing, as it retains its shape when wet and can be easily dried. Available in the "Saltair" Brassiere or separately for sewing into patient's own foundation garment. Details to doctors on request.

Appointments at London address: 1, STANLEY HOUSE, 103, Marylebone High Street, London, W.1.
Tel.: Welbeck 3034.

When Breast-Feeding Fails—

YOUNG mothers do not always realise that, when breast-milk fails—or baby is not thriving—FRESH Cow's Milk is always available.

The Authorities, in recognising the value of fresh milk in Baby Feeding, have made adequate supplies of it available FOR ALL BABIES, on application being made to Food Offices.

★ Liquid cow's milk is Nature's finest substitute for breast-feeding. MODIFIED with a little of Sister Luras Food, cow's milk (undiluted) is completely digestible by the youngest and most delicate infant.

Sister Luras Food, a simple cereal product, breaks up the casein, which is so valuable for tissue building, and all the mineral and vitamin content of the milk is unimpaired.

That is why so many Doctors recommend FRESH COW'S MILK, modified with Sister Luras Food.

SISTER LAURAS FOOD

MODIFIES FRESH MILK

FREE PROFESSIONAL SAMPLES
sufficient for a good trial with your difficult babies, are available to Members of the Medical Profession. Write to Sister Luras Food Co. Ltd. (Dept. BMJ/5), Springfield Works, Bishopbriggs, Near Glasgow.
