SPECIALISTS IN ANÆSTHETIC APPARATUS

12, New Cavendish Street, London, W.1.

A palatable whole grain rye bread prepared in a form virtually free from moisture, so that complete mastication is assured. Ryvita can be eaten as an alternative to other breads. Many find that its characteristic flavour stimulates appetite.

RYVITA

SALT'S

REGISTERED

COLOSTOMY BELT

WITH STERILIZABLE RUBBER CUP

Designed specifically for use in cases where faeces are of a solid nature, or the amount is small. The special feature is that the cup is made of moulded rubber, in one piece, and has no corners nor crevices—therefore does not retain odour. Full details in our Corset and Belt Book—post free to medical people on request.

HOSPITALS SUPPLIED UNDER N.H.S.

Clarks

NEW CORRECTIVE HEEL

for Children

Clarks have pleasure in announcing that they are making a new heel, suitable for attachment to an ordinary pair of Clarks Children's Shoes, which can successfully replace the use of T-irons or heavy surgical boots in the treatment of certain foot ailments and leg weaknesses.

CLARKS CURATOR HEEL

has been clinically tested by an orthopaedic surgeon, who has employed it in a number of cases with most encouraging results. The heel, moulded in light-weight rubber, is shaped to give arch support to weak feet (valgus feet). It is intended, as far as possible, to ensure that there shall not be indiscriminate use of this corrective device. Clarks prefer that it should be used only when specified by medical practitioners and that its fitting, etc. should be under expert supervision. Full details are available to members of the medical profession, children's clinics, etc. on application to Clarks.
