SMITHS ENGLISH CLOCKS LTD., LONDON, N.W.2
The Clock & Watch Division of S. Smith & Sons (England) Ltd.

Feet in the formative years...

Ever since the inception of Start-rite Shoes 25 years ago, we have been conscious of our duty to make children's shoes which permit and encourage normal development. Recently in co-operation with a leading orthopaedic surgeon we have improved these shoes and they now have the following features:

1. Greater flexibility.
2. New straight toe line, roomier toes.
3. Snug heel grip.
4. Special heel to keep ankles straight.
5. New last, graded to conform to the changing contour of the foot.

Thus, as makers of Start-rite shoes, we have attempted to fulfil our obligation. But we will not rest there. It is our intention to go on taking advantage of every new development in the field of orthopaedic research.

START-RITE SHOES · NORWICH · NORFOLK

A PERFECT APPLIANCE
FOR ITS PURPOSE:

SALT'S Sacro-iliac Belt

Designed by an eminent orthopaedic specialist, this Belt is available in styles for men and women. Its perfect efficiency is accompanied with complete comfort. Rapidly restoring the normal relationship of the sacral and iliac bones, it also exerts a beneficial effect on the tone of the abdominal viscera. Not the least commendable thing about this Belt is the fact that it enables the patient to make early resumption of normal activities. Further details and Measure/Order forms available to medical people on request.

HOSPITALS SUPPLIED UNDER N.H.S.
