

Against exhaustion

The energising and therapeutic effect of glucose is available in a most acceptable form in LUCOZADE.

Whereas ordinary glucose preparations may have a sickly and even nauseating effect on the palate, LUCOZADE is remarkably refreshing. Once tasted — it is never refused.

*An
improved
form of
glucose therapy*

This pleasing characteristic is of the greatest value in treating cases of shock, physical exhaustion and other conditions requiring glucose ingestion.

(Containing Dextrose, Maltose, and Dextrin in solution equivalent to 23% w/v Liquid Glucose B.P.)

Write for a Polyestol Bandage

All over the world, Polyestol Bandages are sold on doctors' prescriptions. In some countries, they are available on doctors' prescriptions only. The success achieved already is truly remarkable. YET—Polyestol Bandages are not prescribable on the National Health Scheme and therefore the British Medical Profession has not yet had an unrestricted opportunity to test them. To overcome this anomaly, we are prepared to send a Polyestol Bandage to every doctor, upon application, until further notice.

SALTS PATENT COLOSTOMY BELT

Since we first introduced this Belt we have supplied many hundreds, and the results have been highly satisfactory. Outstanding advantages are: (1) Receiver is detachable and sterilizable by boiling; (2) Bag easily removed without removal of belt; (3) Bag easily emptied and washed; (4) No crevices or metal fittings to hold faeces; (5) Smell reduced to a minimum; (6) Less bulk than the old style. Bags are easily and economically replaced. Further details and Measure/Order forms available to professional people on request.

Appointments at London address: 1, STANLEY HOUSE, 103, Marylebone High Street, London, W.1.
Tel.: Welbeck 3034.

Special announcement !

DEXTRAN—Blood Plasma Substitute—is now
available as a Crookes Transfusion Solution
under the trade name

INTRADEx

This new blood plasma substitute has the following properties and characteristics :—

- 1 Sterile, non-pyrogenic, non-toxic and non-diuretic.
- 2 Possesses colloidal osmotic pressure equivalent to blood plasma.
- 3 Rapidly metabolised and non-cumulative.
- 4 Universal compatibility provides an advantage over whole blood.
- 5 Superior to plasma because it is virus free.

Issued in single 20 oz. Transfusion bottles
Literature on request.

Manufactured by: DEXTRAN LTD · AYCLIFFE · DARLINGTON

THE CROOKES LABORATORIES LIMITED · PARK ROYAL · LONDON · N.W.10

The shepherd boy and the King's son who made a covenant and became as brothers have remained symbols of undying friendship down the ages.

The soul of Jonathan was knit with the soul of David—they were history's first and most famous inseparable friends.

"Inseparable friends" are common among nutrients. Researches are constantly disclosing food factors whose souls must "literally" be "knit with each other" to enable each to do its part in building up the human body and maintaining it in health.

Each new disclosure re-confirms the far-reaching value of Complevite.

Complevite's formula is based on the body's fundamental need for nutritional completeness. Containing the most important vitamins and minerals, in rational dosage, it is designed to make certain of the presence of all the "inseparables"—to make good those factors commonly needed as additions either to the average or the "special" diet. In non-specific cases of dietary deficiency, in convalescence, and for patients on restricted diets, it is invaluable.

COMPLEVITE

a single supplement for multiple deficiencies

The recommended adult daily dose provides:—

vitamin A	2,000 i.u.	vitamin C	20 mg.	iodine	not less
vitamin D	300 i.u.	calc. phosph.	480 mg.	manganese	than 10
vitamin B ₁	0.6 mg.	ferr.sulph.exsic.	204 mg.	copper	p.p.m. each

For effective relief of

nasal congestion

IN head colds, sinusitis, etc., nasal congestion not only contributes to the general discomfort of the patient, but also often complicates these conditions by interfering with normal ventilation and drainage. Nasal congestion is effectively relieved by 'Benzedrine' Inhaler. Its action is immediate; the effect lasts a full hour. It does not interfere with ciliary activity, and secondary reactions following its use are virtually negligible.

Children welcome the novelty of 'Benzedrine' Inhaler and show none of the hostility often associated with 'nose drops'.

● Each tube is packed with amphetamine 325 mg. and aromatics.

A better means of nasal medication

'ANAHÆMIN' The *established* treatment for pernicious and other macrocytic anæmias

EVIDENCE is accumulating that the therapeutic action of liver extract in pernicious anæmia depends upon the presence not only of a primary factor, vitamin B₁₂, but upon the presence also of accessory factors (*J. Clin. Invest.*, 1949, 28, 791).

Until the part played by these factors,

both primary and accessory, is clearly defined, the use of Anahæmin, which for over a decade has proved to be completely effective therapy, is both rational and in the best interests of the patient.

Every batch of Anahæmin is clinically tested before issue.

'ANACOBIN' Solution of PURE crystalline vitamin B₁₂

Occasionally, cases of pernicious anæmia arise which cannot be treated satisfactorily, even with Anahæmin, because of hypersensitivity. For such cases Anacobin is available.

Further information is available on request.
