## THE "SALT AIR" ARTIFICIAL BREAST

—the obvious solution of the psychological problem which frequently follows breast amputation. It restores the normal figure line, banishes self-consciousness, encourages resumption of normal activities. Can be worn while bathing, as it retains its shape when wet and can be easily dried. Available in the "Saltair" Brassiere or separately for sewing into patient's own foundation garment. Details to doctors on request.

Appointments at London address: 1, STANLEY HOUSE, 103, Marylebone High Street, London, W.1.

## "What is Benger's Food?"

"You have heard the medical evidence and you may have formed the conclusion that, in spite of his undoubtedly high qualifications, Dr. Telmy-More was not entirely clear in his own mind as to the nature and functions of Benger's Food.

"The fact that his father prescribed it and his grandfather before that, whilst indicating continuity in the treatment of gastro-intestinal disorders, is not in itself conclusive evidence that the witness was fully aware of their reasons for so doing.

"And, whereas, at one point in his testimony he admitted the unique enzymic action of Benger's Food in modifying milk, at another he appeared to confuse Benger's Food with ordinary bed-time drinks in which this principle is absent.

"Nevertheless, Dr. Telmy-More's frank admission that a busy practitioner is not always able to keep *au fait* with a wide variety of proprietary products impressed me, as did his declared intention of questioning the medical representative of the makers of Benger's Food at the first opportunity."
