is subjected to the strictest biological and
chemical control. The special yeast contains
approximately:

Vitamin B ₁	300 International Units per gram. (900 micrograms)
Riboflavin	50 micrograms per gram.
Nicotinic Acid	250-350 micrograms per gram.
Vitamin B ₆ (Pyridoxin)	25-50 micrograms per gram.

D.C.L. Tablets equal 1 gram

Members of the Medical Profession are invited to
write for full particulars and
a trial supply.

THE DISTILLERS COMPANY Ltd., EDINBURGH

Next Best to Breast-Milk

MANY Doctors and Nurses prefer to recommend FRESH Cow's Milk—instead of Dried Milk—for their baby patients. And, because of its supreme value in infant feeding, there is plenty of fresh milk available for every Baby on application by the Mother at Food Offices.

The addition of a little of Sister Luras Food (a simple cereal product) makes liquid cow's milk (undiluted) completely digestible by even the youngest and most delicate infant.

The minute quantity of Sister Luras Food used adds little to the cost of liquid fresh milk. It makes the most satisfactory food available for all babies—no matter what their station in life.
