

A combination of qualities

The claims of 'Dettol' do not rest on any single quality desirable in an antiseptic, but rather upon the combination of several essential properties. It can be used at fully effective strengths with safety; that is, without risk of poisoning, discomfort or damage to tissue. It retains a high bactericidal potency in the presence of blood, it is stable, and agreeable in use.

'DETTOL' THE MODERN ANTISEPTIC

'Dettol' is available in 2 gallon and 5 gallon tins free of Purchase Tax for dispensing purposes only. Smaller sizes, including 1 gallon tins for public use are subject to Purchase Tax.

Everything a dentifrice should do... is efficiently done by **MACLEANS** PEROXIDE TOOTH PASTE

The efficient cleansing action of Macleans Peroxide Tooth Paste is not obtained at the expense of the teeth and gums. By removing greasy film from the teeth it prepares the way for a solid polishing medium to act quickly and gently. A high polish is obtained without abrasive action. The polishing ingredients are ultimately soluble in saliva and so leave no solid residues in the mouth tissues. Macleans Peroxide Tooth Paste, though mildly antiseptic, is non-injurious to normal oral flora. The dentifrice has a clean, refreshing flavour.

Sample Tubes of MACLEANS PEROXIDE TOOTH PASTE

are now available for distribution to your patients. A supply of these, and copies of a leaflet "The Care of the Mouth before and after the Extraction of Teeth," will gladly be sent to you free on request.

A NON-STICKY Bandage for the treatment of VARICOSE CONDITIONS

THE ELASTIC TWO WAY STRETCH (T.W.S.) BANDAGE

Vide "Varicose Veins"
(1949, page 180-181)

An entirely new bandage which treats the varicose limb by "bandage massage" by virtue of its unique two-way stretch character as the patient walks. The two-way "bandage massage" given to an oedematous limb usually causes the disappearance of this sign. Width of bandage 3½ in.
