Emergency measure..

The anticipated effects of glucose as an energiser and restorer are to some extent lost if the patient shows a degree of unwillingness to accept it.

But the common aversion to the sickly, sometimes nauseating, taste of glucose in many of its ordinary forms is strikingly absent whenever LUCOZADE is offered.

LUCOZADE is so palatable, so refreshing, that neither children nor adults ever need urging to take it as prescribed.

(Containing Dextrose, Maltose and Dextrin in solution equivalent to 23% w/v Liquid Glucose B.P.)

LUCOZADE

An improved form of glucose therapy

CIMLAC GAUZE

in the treatment of

GRAVITATIONAL AND TROPHIC ULCERS

In long-standing cases of gravitational and trophic ulcers, Cimlac Gauze will be found a valuable treatment to promote regeneration of devitalized tissues and to control infection due to the presence of *Ps. Pyocyanea* and *B. Proteus*, which are very often causative factors of delayed healing.

Cimlac Gauze is prepared with sterilized glyco-gelatin, which supplies substances required for the process of fibroplasia and cicatrization. The combination of Hexylresorcinol and Aminacrine Hydrochloride in the glyco-gelatin medium exerts a remarkable inhibitive action on Gram-positive and Gram-negative organisms.

Samples and literature gladly sent on request.

NON-GREASY NON-ADHERENT WOUND DRESSING

Available only to Hospitals, Research Practitioners and Medical Depts. in Industry.

THE "SALT AIR" ARTIFICIAL BREAST

—the obvious solution of the psychological problem which frequently follows breast amputation. It restores the normal figure line, banishes self-consciousness, encourages resumption of normal activities. Can be worn while bathing, as it retains its shape when wet and can be easily dried. Available in the "Saltair" Brassiere or separately for sewing into patient's own foundation garment. Details to doctors on request.

Appointments at London address: 1, STANLEY HOUSE, 103, Marylebone High Street, London, W.1
Tel.: Welbeck 3034.
