CIMLAC GAUZE

in the treatment of

GRAVITATIONAL AND TROPHIC ULCERS

In long-standing cases of gravitational and trophic ulcers, Cimlac Gauze will be found a valuable treatment to promote regeneration of devitalized tissues and to control infection due to the presence of *Ps. Pyocyanea* and *B. Proteus*, which are very often causative factors of delayed healing.

Cimlac Gauze is prepared with sterilized glyco-gelatin, which supplies substances required for the process of fibroplasia and cicatrization. The combination of Hexylresorcinol and Aminacrine Hydrochloride in the glyco-gelatin medium exerts a remarkable inhibitive action on Gram-positive and Gram-negative organisms.

Samples and literature gladly sent on request.

Available only to Hospitals,
Private Practitioners
and Medical Depts. in Industry.

Members of the Medical Profession are invited to write for full particulars and a trial supply.

THE DISTILLERS COMPANY LTD., EDINBURGH

We're both babies for Groats

Before and after baby arrives the mother will benefit by taking Robinson's Groats and milk regularly. For baby during the weaning period, and in fact, right through the toddler stage, Groats provides essential nutriment, for it is rich in fat, protein and vitamin B₁ and has a high caloric value.

Leaflet "Cereals in Infant Feeding" will be sent on request. Keen, Robinson, Dept. MH Carrow, Norwich
