KAYLENE SALINE

is a combination of the toxin adsorbent Kaylene and the laxative salts necessary for carrying it through the intestinal tract

It is slightly effervescent and sweeps the intestinal tract free from toxin waste. It operates in the stomach, duodenum, small intestine and colon, and is most effective when administered in the early morning a full half-hour before breakfast. Kaylene Saline is widely prescribed in the treatment of toxæmic conditions which are associated with constipation.

Formula: Kaylene (Colloidal Kaolin) 60.579%, Saline 39.421%

Important to Doctors ordering Surgical Stockings

To obtain the best results for your patients, it is not sufficient to order "Elastic Stockings". You will secure for them the recognised additional benefits of two-way stretch hose if you write in full "LASTEX TWO-WAY STRETCH" on your prescriptions.
