CURATOR HEEL *

Where the remedial benefits are equal, doctors will prefer Clarks inconspicuous Curator Heel to the cumbersome T-irons and surgical boots.

To the child, obviously, the difference is profound.

The Curator Heel was designed for use as a corrective aid in certain conditions of valgus foot, other foot ailments and leg weaknesses. Full details are available to the medical profession, to children's clinics and hospitals, on application to Clarks.

The Curator Heel can be fitted easily to certain Clarks Shoes in sizes Childs 7 to 5½.

BENGER'S FOOD

Benger's Food is a special farinaceous base to which active pancreatic enzymes have been added. In preparing the food, the enzyme trypsin modifies the protein of added milk so that indigestible curds no longer form in the stomach. At the same time, amylase rapidly converts the wheaten starch base of the food into soluble and easily digestible dextrins, dextri-maltoses and maltose.

The Treatment of Asthenia

Bulk manufacturing process

Full and rapid recovery from illness or following surgical operations may be the more readily achieved if liver extract, iron and vitamins are supplied to the patient to facilitate blood regeneration. Even a relatively small fall in the hæmoglobin level in patients otherwise reasonably healthy may manifest itself in the form of general asthenia and proneness to fatigue. HEPRONA, a preparation containing Hepatex liver extract, iron, members of the Vitamin B

complex and glycerophosphates, is an excellent tonic in such cases and is suitable both for adults and children.

To Doctors prescribing a bland diet

IT HAS BEEN BROUGHT to our notice by a medical practitioner that adults needing bland food have their requirements met by the varied and appetising diet of meats, vegetables and sweets that we prepare, primarily for babies, in the form of our Strained Foods.

These foods, of course, contain no pepper or other spice. All *coarse* fibres are removed by sieving, but the foods retain enough bulk material to help the bowel function properly.

Cooking in the Heinz kitchens is done by

more scientific methods of conserving than are practicable at home, and the vegetables are grown near the kitchens to ensure maximum retention of nutrients.

The *variety* of Heinz Strained Foods available helps to prevent that failure of appetite which sometimes affects adults on less interesting types of bland food.

The convenience of these ready-prepared foods, and their economy, are other points in their favour. All sixteen varieties sell at 7d.

Strained Tomato Soup

Ripe tomatoes cooked with wheat germ, whey powder, riceflour sugar and sieved to smoothness.

Strained Vegetable Soup

A delicious blend of fresh vegetables strained to a fine purée.

Strained Chicken Broth with Vegetables & Cereal

Young chicken with peas, wheat germ, cereal, and the chicken broth.

Strained Beef Broth with Beef and Barley
Broth made from lean beef with added beef meat, finely sieved, and barley.

Strained Bone and Vegetable Broth
A blend of lean beef and fresh vegetables with glucose, added to a bone broth.

Strained Beef and Liver Soup

Tender lamb's liver blended with ground lean beef, fresh vegetables, tomato purée and cereal, thinned with beef broth.

Strained Peas

Young, tender peas, cooked and sieved to a smooth purée.

Strained Green Beans

Crisp French beans cooked and with all coarse fibre removed.

Strained Beets

Selected young beets cooked and sieved.

Strained Spinach

The best dark green, freshly gathered spinach, carefully washed and cooked to retain maximum nutrient value, and sieved to a fine purée.

Strained Carrots

Sweet, juicy carrots cooked to tenderness and sieved.

Strained Prunes

A smooth prune purée with lemon juice.

Strained Apples

A smooth, sweet purée of blended cooked apples.

Strained Apple, Prune and Custard

A blend of apple and prune with milk, eggs, cornflour, riceflour and sugar

Extract from editorial of British Medical Journal, December 8th, 1951, which summarizes the report of a subcommittee of the antibiotics clinical trials (non-tuberculous) committee of the Medical Research Council:

“ The subcommittee concludes that penicillin is just as good as, or possibly better than, either aureomycin or chloramphenicol in the treatment of clinical pneumonia. Moreover, aureomycin and chloramphenicol caused unpleasant toxic effects in about one-quarter of the patients to whom they were given, a drawback which outweighs any advantage gained from the easy administration of these expensive drugs by mouth.”

SPACED ABSORPTION *of* CARBOHYDRATE

DALTOSE is a mixture of Dextrose, Dextrin and Maltose, fortified by the addition of Calcium Lactate and Vitamin D.

The Dextrose is immediately absorbed, and the Dextrin and Maltose are gradually converted to dextrose. As a result of this gradual conversion, there is spaced absorption of the sugars, with less risk of fermentation and of gastro-intestinal upset.

DALTOSE is used for modification of the infant's diet, and in the diet of the convalescent and of the geriatric patient as a source of extra calories.

The problem was to provide soluble aspirin in stable tablet form

The therapeutic advantages of the calcium salt

of aspirin over aspirin itself have been repeatedly

stressed in the medical literature.

Being an acid substance of

low solubility, aspirin may act

as a gastric irritant.

By contrast, calcium aspirin is neutral and highly soluble. Calcium aspirin, however, has its own defects. It is an unstable compound, and its presentation in stable and palatable form has challenged research workers for many years.

The difficult problem of the preparation of calcium aspirin in stable and palatable form has at last been solved in 'Solprin'.

Solprin has all the valuable properties of aspirin — analgesic, antipyretic and anti-rheumatic and, being soluble, it is more rapidly absorbed and consequently more speedy in its therapeutic effect. Thus Solprin embodies the virtues both of aspirin and of calcium aspirin without certain defects which hitherto have restricted the usefulness of these two preparations. Solprin rapidly dissolves in water to yield a solution of calcium aspirin, which is substantially neutral, stable and palatable.

A new advance in the chemotherapy of tuberculosis

The value of P.A.S. in certain stages of tuberculosis is now accepted. The drug is, however, very rapidly excreted, and continued medication at intervals of 2-3 hours is essential if the necessary blood titre is to be maintained. Administration in the form of 'Enseals' brand timed disintegrating tablets offers the following advantages.

- **ABSENCE OF GASTRIC SYMPTOMS.** Ensures that the full amount needed will be taken. The patient is not tempted to miss occasional doses.
- **HIGHER CONCENTRATION.** Each tablet contains 0.5 Gm. para-aminosalicylic acid, equivalent to 0.69 Gm. of hydrated sodium P.A.S.
- **THERAPEUTIC LEVEL MAINTAINED.** The delayed action of 'Enseals' can be made use of to keep up the blood level during the night, when it normally falls almost to zero. (Dosage schedule on request.)
- **'ENSEALS' ARE DIFFERENT.** Relying only on time and moisture for disintegration, their action is virtually independent of the pH of the small intestine.

'Enseals' brand timed disintegrating tablets each containing 0.5 Gm. para-aminosalicylic acid are supplied in bottles of 100, 1,000 and 5,000 (No. 69).

VIMALTOL

A Delicious Concentrated Vitamin Food

TO the physician requiring a product which incorporates important vitamins in a form acceptable to every patient, 'Vimaltol' presents special advantages.

'Vimaltol' is made from specially prepared malt extract of high protein content, yeast—one of the richest sources of vitamin B—and Halibut Liver Oil, an important source of vitamins A and D. It is also fortified with additional vitamins and mineral salts, and is deliciously flavoured with orange juice.

'Vimaltol' is thus an important aid in the

treatment of the many abnormal conditions resulting from the deficiency of one or more of the essential vitamins in the average everyday dietary.

The routine use of 'Vimaltol' helps normal development of the growing organism and the maintenance of correct metabolism, while raising the general resistance against infection.

'Vimaltol' has thus a very wide application in general practice for patients of all ages. It can be prescribed with advantage at all seasons.

The importance of protein during pregnancy and the nursing period

CLINICAL observation shows that the increased protein anabolism during the latter part of pregnancy, and particularly during the nursing period, requires more protein than was at first considered necessary. Adequate protein is, therefore, desirable to ensure the ample supply of breast milk.

The inclusion of high-grade protein foods in the diet of pregnant women is now a standard practice. In cases where there is loss of appetite

or a general feeling of exhaustion, the diet can be effectively supplemented by protein foods in a form which is easy to assimilate.

Brand's Essence is a first-class protein of animal origin. Being partly hydrolysed, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

Advantages of the Daimler Limousine Ambulance Service

It is often necessary for patients to travel by road. A normal car is usually too fatiguing, yet in many cases the patient wishes to avoid travelling in a public ambulance.

This need is met by engaging a Private Limousine Ambulance from Daimler Hire Ltd. The Ambulance has the appearance of a large private limousine and does not attract attention from the public.

A fully trained attendant accompanies each driver and both are competent stretcher bearers. Each Limousine Ambulance is specially designed for the purpose and is equipped with a swivelling bed, folding carrying chairs, canvas carrying slings and sick-room cabinet. Air beds are available if required. Two comfortable chair-seats are provided for friends. Adequate heating and ventilating is automatically assured.

JAEGER

Jaeger body-belts are made of pure wool, for these reasons. Wool keeps its wearer cool in summer, warm in winter. Wool disposes quickly of perspiration, retaining body warmth. Wool, being porous, allows both the escape of exhalations from the skin, and the access of pure air to the skin. Jaeger body-belts sit well, stay in position, and give support without pressure. They are available in all sizes

It has been noted that the patient on an Intalok mattress enjoys a greater degree of peaceful rest and relaxation.

The reason is clearly shown in this illustration.

The background photograph shows a top-view of a section of the mattress. It consists of a mass of fine gauge springs loosely interlinked throughout the whole length and breadth. Surface coils take the first pressure, and as weight increases, more and more springs share the load.

The diagram shows how the mattress reacts when the patient is placed upon it. The springs conform exactly to the shape of the body. Where pressure is great there is deep compression—yet, as the springs are interlinked, there is no excessive resistance—no flattening of fleshy parts, to cause soreness or fatigue. The patient is comfortably and naturally supported.

Here are other good reasons why hospital authorities are in favour of Intalok mattresses:

- 1 The mattresses can be stoved; in fact they gain by stoving.
- 2 All metal parts are rustless, can be sterilized repeatedly.
- 3 Intalok mattresses have no tufts or piping to collect dust and germs.
- 4 The ticking is easily removable for laundering.
- 5 Existing hair mattresses can be converted to Intalok—the good hair being retained. This cuts costs.
- 6 Every Intalok springing unit is guaranteed for 10 years.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical War Committee and (in Scotland) the Scottish Central Medical War Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.W.C. or (in Scotland) the Scottish C.M.W.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER**: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consulant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

CAMEROONS DEVELOPMENT CORPORATION
Cameroons under British Trusteeship, West Africa
Vacancies exist for

MEDICAL OFFICERS
In the service of the Cameroons Development Corporation, established by statute for the development of certain plantation areas in the British Cameroons. The appointment in the first instance will be for one tour of 12 to 24 months, with probability of renewal if service satisfactory. Candidates should have a good experience of general medical and health work, and preference will be given to those who either possess a diploma in tropical medicine, or have had tropical experience. The work chiefly consists of general medical and health supervision of all personnel in large plantations, but offers opportunity for surgery. First-class passages are provided to and from the Cameroons for officers and their wives, together with free furnished accommodation during residence in the Cameroons. A reasonable amount of free lighting and fuel is also provided, and necessary transport. An outfit allowance of £80 is payable on first appointment. The salary is at the rate of £1,310 rising by increments to £1,710 per annum over a period of 10 years; initial salary according to experience. Children's allowances are paid up to a maximum of two, but children's passages are not paid. Officers of the Corporation are required to contribute 10% of their salary to the Provident Fund, the Corporation contributing a like amount. Applications, giving full particulars in regard to qualifications and experience, together with copies of testimonials, all in triplicate, should be sent to the Corporation's London agents: Rubber & Mining Agencies, Ltd., 52, Leadenhall Street, London, E.C.3. Candidates should have performed their National Service. (5919)

DEPARTMENT OF HEALTH, NEWFOUNDLAND

The Newfoundland Department of Health requires internes for the 450-bed General Hospital situated in the capital city of St. John's. HIS MAJESTY'S COLONIAL SERVICE, Malaya
 Doctors having medical qualifications registrable by the General Medical Council in the United Kingdom, with one or more years' experience after qualification, are required for appointment as **MEDICAL OFFICERS and MEDICAL OFFICERS OF HEALTH**

for general medical and health duties. A limited number of practitioners liable for call up under the National Service Act, 1948, may apply, and if appointed will be granted indefinite deferment of call up on completion of a minimum period of one tour of three years in the Malayan medical service. Appointment is available (a) on probation for permanent establishment, (b) on employment from the National Health Service, and (c) on short term contract with gratuity. (a) **Permanent terms.** Subject to three years' probation, appointment is permanent with pension (non-contributory) at age 55. Salary is paid in the scale £952 by £42 to £1,204 to £1,274 by £42 to £1,652 per annum. There are many posts, specialist and administrative, available on promotion carrying higher salaries (up to about £2,400 for the highest post). Promotion is often made before reaching the top (£1,652) of the long scale. There is also a cost-of-living allowance at varying rates, according to family circumstances, subject to maximum of £336 per annum for single men and of £707 per annum for married men with children (both rates higher when stationed in Singapore). Note. Doctors with more than one year's approved experience after age 25 (including service in His Majesty's Forces) enter the salary scale at points above the minimum according to their experience; and four increments of salary are also given to holders of approved higher qualifications (e.g. F.R.C.S., M.R.C.P., D.P.M., D.A., etc.). (b) **National Health Service.** Doctors may resign from the National Health Service but retain their superannuation rights during their time in Malaya (up to six years) and receive a resettlement grant of 20 per cent of the aggregate of their Malayan salary on leaving Malaya at the end of their engagements. Emoluments as under (a) including incremental credit for experience and higher qualifications as in note under (a). Doctors so appointed may be considered for permanent terms at any time during their Colonial employment provided they surrender their rights to the resettlement grant and payment by Malayan Governments of superannuation contributions. (c) **Contract terms.** The contract will be for three years' resident service, renewable for a further tour of three years by mutual agreement. Salary and cost-of-living allowance as under (a) including incremental credit for experience and higher qualifications as in note under (a). In addition a gratuity earned at the rate of £300 to £450 per annum, according to salary, is paid on expiry of contract. Doctors on contract may be considered for appointment to the permanent establishment at any time on their agreeing to surrender their gratuity earning rights. In all three types of appointment the rates of salary and gratuity refer to doctors eligible for expatriate terms under Malayan Regulations (i.e. those whose permanent homes are in the United Kingdom, Ireland, Australia, Canada, etc.). The climate is, for the tropics, healthy. European children do well up to the age of about six and schools are available locally. Income tax is payable at Malayan rates which are lower than those in the United Kingdom. Government quarters with heavy furniture are provided at a low rental, or an allowance is paid in lieu of quarters. Free passages are provided for the doctor, his wife, and children under the age of ten (not exceeding four persons besides himself) on appointment and once each way during each tour of duty of three to four years. Generous home leave is granted and local leave is permissible. The social and recreational facilities in Malaya are good. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. 77215/242/51) (5187)

ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Most Hon. the MARQUESS of EXETER, K.G., C.M.G., A.D.C., Medical Dpt.: Thomas Tennent, M.D., F.R.C.P., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

CHEADLE ROYAL, CHEADLE, CHESHIRE
