An Announcement . . .

HEPARIN-BOOTS reduced in price

BOOTS PURE DRUG CO. LTD. are pleased to announce that, due to increased yield and greater productivity, HEPARIN-BOOTS and its preparations are now available at substantially reduced prices.

INJECTION OF HEPARIN B.P.-BOOTS

5 ml. rubber-capped vials of 1,000; 5,000; or 25,000 I.U. of HEPARIN B.P. per ml.

HEPARIN RETARD

2 ml. ampoules, each containing 20,000 I.U. of HEPARIN B.P. in a modified Pitkin's menstruum. Boxes of 6.

HEPARIN POWDER

Vials of 20,000 and 100,000 I.U.

Literature and further information from the Medical Department, Boots Pure Drug Co. Ltd., Station Street, Nottingham.

In established nasal infections

'PENDEX' provides

prompt and prolonged vasoconstriction

Penicillin (unlike the sulphonamides) is not inhibited by the presence of pus, and has proved highly effective both in acute sinusitis and in flare-ups of chronic sinusitis.

'Pendex'—providing the bacteriostatic action of penicillin, plus the
aeration and drainage effected by Paredrinex'—has proved particularly
useful in such conditions.

'Pendex' can be used to irrigate the sinuses, followed by the displacement technique; or it may be administered by tampon.

* 'Pendex' contains 1% 'Paredrinex' (p-Hydroxy Amphetamine Hydrobromide, S.K.F.)

— the penicillin-vasoconstrictor for intranasal use

Available in 15 ml. (\frac{1}{2}-oz.) bottles, on prescription only

HEPARIN PRICES REDUGED AGAIN!

SINCE THE WAR, despite the rising costs of raw materials and labour, the price of PULARIN (HEPARIN-EVANS) has been reduced by 64% as illustrated.

THE LATEST PRICE reduction is operative from 1st February, 1952 and is due to increased production and manufacturing economies.

PULARIN

(HEPARIN-EVANS)

Rubber capped vials of 5ml. containing 1,000, 5,000 and 25,000 i.u. per ml.

Containers of 100,000 i.u. dry powder.

Heparinised tubes containing 100 i.u. of Pularin. Boxes of 3 tubes.

the pure vitamin B_{12} has quickly been accepted as the most effective, and much the most comfortable and convenient, form of treatment.

VITAMIN B12 DEFICIENCY IN CHILDREN

American authors have reported the successful treatment with Vit. B_{12} of what may be termed B_{12} functional deficiency in children who were making slow progress, were suffering from varying degrees of malnutrition, or were in various stages of recovery from simple growth failure

Medical literature and clinical samples may be obtained on application to Dept, A.59

VITAMINS LIMITED, UPPER MALL, LONDON, W.6

Treatment of the Streptococcal Throat

'PONDETS' Penicillin are a new and ingenious vehicle for local oral penicillin therapy that combine the striking advantages of extreme palatability with prolonged action. Each 'Pondet' contains 5,000 international units of crystalline potassium penicillin-G in a delicious hard, fruit, toffee-like base that completely masks the bitter taste of penicillin.

Because of the nature of their hard base, 'Pondets' dissolve slowly and uniformly, supplying an uninterrupted high concentration of penicillin to infected areas of the oro-pharyngeal mucosa.

INDICATED in minor superficial oral infections due to penicillin sensitive organisms ranging from the 'Streptococcal Throat' to the less common Vincent's infection and recommended for routine prophylactic use following Tonsillectomy.

Individually wrapped in bottles of 20.

Children accept 'Pondets' as readily as a sweet, and they are particularly useful in controlling throat infections in juvenile communities.

More potent than morphine, 'Physeptone' does not dull the mind or give rise to constipation.

It is unrivalled for the continuous relief of severe pain in the chronic sick.

'PHYSEPTONE'

'Cremotresamide' reduces the incidence of crystalluria — the primary factor causing renal complications in patients undergoing sulphonamide therapy.

'Cremotresamide' produces and maintains highly effective blood levels.

'Cremotresamide' combines low toxicity, excellent tissue distribution and good therapeutic efficiency.

'Cremotresamide' is particularly acceptable to children, but will be found useful in all age groups.

'Cremotresamide' contains 0.5 G. of the mixed sulphonamides in each teaspoonful-Sulphadiazine 0.2 G., Sulphamerazine 0.1 G., Sulphacetamide 0.2 G.

Descriptive literature, clinical package and practical dosage card gladly &SHARP forwarded on request. Sharp & Dohme Ltd., Hoddesdon, Herts.

'Cremotresamide'

Triple Sulphonamide Suspension

Quantity DEMANDS Quality

The daily dosage of P.A.S. varies between 12 grammes and 18 grammes, but in all cases it is exceptional in the large amount taken and the length of treatment. Purity is recognised as of importance even in drugs given in a dose of 0.01 grammes. How much more vital is it when 18 grammes is taken every day for many months? In the manufacture of 'PARAMISAN SODIUM' purity is the over-riding consideration.

Therefore specify

PHYSICIAN,

heal thyself /

These are times of worry and stress, in fact, Peptic Ulcer times. You are rushed off your feet, eating and sleeping irregularly, worried about your patients' troubles, with no time to consider your own health.

Your stomach is tired too, and perhaps has grown irritable with a diet of hurried sandwiches and frequent cups of tea.

PEPTALAC contains pre-digested protein, thus taking much of the load from your gastric juice. Starch has also been subjected to an independent treatment to bring about a degree of dextrinization to aid assimilation. The Milk fat remains unaltered.

In this way, we practically digest your food for you — all you have to do is to absorb it. It tastes good, too.

May we suggest that you try some, and if you find it does the trick, prescribe it for your patients. We shall be pleased to send you a clinical sample of **PEPTALAC** and literature on request to our Medical and Research Dept.

Are Vaginal Tampons Prejudicial to Health?

An Investigation* concerned with the bacteriology of vaginal flora following the use of internal tampons was undertaken at the request and with the co-operation of the visiting gynaecologists to a London Women's hospital.

It is gratifying to find that this investigation confirms earlier work carried out in America and gives further support to the claim that Tampax can be confidently recommended as a convenient, comfortable and safe form of sanitary protection.

* Tampax tampons were used in this investigation.

EXTRACTS FROM THE REPORT:-

- * "Smears and cultures taken before and after each period showed no appreciable change in the bacterial flora of the vagina."
- * "None of the volunteers acquired monilia or trichomonal organisms during the period of study or developed erosions or vaginitis as a result of using the internal tampon."
- * "There was no aggravation of the condition or delay in healing following the use of tampons in the patients who had cervical erosions."
- "In each case the underlying cause responded to treatment, and did not recur, which proves that the internal tampon does not act as an irritating foreign body."
- *The rate of healing compared favourably with four control cases in which the perineal pad was used."
- The glycogen content was uninfluenced by the use of tampons."
- * There was no appreciable alteration in the pH in the pre- and post-menstrual phases."
- * "Volunteers who had not previously used tampons stated that they did not cause the irritation usually found with the perineal pad."
- * "There was no evidence that vaginal tampons are prejudicial to health."

British Medical Journal, 1, 24 (1952)

Literature and professional samples of Tampax will be sent on request to:

ELASTOPLAST BANDAGING TECHNIQUE

In the treatment of varicose ulcers . . . careful bandaging is essential in order to achieve the best results.

Seepage of discharge beneath a bandage may be prevented by cutting small holes in the

bandage as illustrated.

Cotton wool, held in place over holes by a further strip of Elastoplast, absorbs discharge. See illustration opposite.

Elastoplast elastic adhesive BANDAGES

Besides ELASTOPLAST ELASTIC ADHESIVE BANDAGES

other T. J. Smith & Nephew bandages and products available for use in the treatment and after-care of varicose conditions are ELASTOCREPE · ELASTOLEX · ELASTOWEB DIACHYLON/ELASTOCREPE · VISCOPASTE · ICHTHOPASTE COLTAPASTE · ELASTOPLAST PLASTERS · PARAGON SPONGE RUBBER · JELONET. Full details from the Medical Division, T. J. Smith & Nephew Ltd., Hull.

Outside the British Commonwealth, Elastoplast and Elastocrepe are known as Tensoplast and Tensocrepe respectively.

A new pleasantly flavoured elixir for the menopausal patient

Estigyn Elixir is a pleasantly flavoured preparation incorporating all the advantages of ethinyl œstradiol—full activity by mouth and noticeable increase in mental and physical well-being following administration.

It is acceptable to patients who experience difficulty in swallowing tablets, and it also facilitates a gradual reduction in dosage as the patient attains a balanced hormonal level.

Commonly used sedatives such as phenobarbitone sodium and bromides may be added in appropriate doses when indicated.

'ESTIGYN' ELIXIR

Containing 0.02 mg. Ethinyl Œstradiol B.D.H. in 60 minims (one teaspoonful)

DOSAGE — One teaspoonful thrice daily, modified according to response

Bottles of 4 fl. oz. and 40 fl. oz.

AN ADJUVANT IN THE THERAPY OF INFERTILITY

Makers of Gynaecic Pharmaceuticals

...A Complete Response in HYPERTENSION

THE BLOOD PRESSURE DROPS

Through reduction of peripheral resistance, Veriloid produces a significant drop in arterial tension. Not only is that large group of patients with moderate hypertension benefited, but also patients with severe essential and malignant hypertension. The usual daily requirement of Veriloid is from 9 to 15 mg., given in divided dosage three times a day, at intervals of from 6 to 8 hours, the first dose to be taken after breakfast. The evening dose should be one or two mg. larger than the other two doses of the day.

THE PATIENT IMPROVES SUBJECTIVELY

The gratifying feature of Veriloid therapy is the speed with which the distressing discomfort of hypertension is overcome. Headache disappears, easy fatigability lessens, vision has been reported to improve through absorption of retinal exudations and kidney function is increased. These beneficial changes, often experienced before the blood pressure has dropped significantly, are presumably related to the vaso-relaxation induced by Veriloid and the resulting improved tissue nutrition. Veriloid is available on prescription only through all pharmacies in 1.0 mg. tablets in bottles of 100 and may be prescribed on Form E.C.10 without restriction. Literature available on request.

Pre-Natal Diet and the course of Pregnancy

The normal functioning of the reproductive organs during pregnancy depends, among other things, upon the plentiful intake of vitamins and

Medical opinion is gaining ground that there is an increased need for Vitamin B in late pregnancy and the early puerperium. Its administration during the period before childbirth has resulted in less vomiting and nausea and in marked improvement in the nutritional value of the breast milk. In order to assure the building of the foetal bones in utero and afterwards during breast-feeding, the importance of Vitamin D and of calcium and phosphorus is also established.

In Supavite Capsules the practitioner has at hand a combination of these and other essential vitamins and minerals in a scientifically balanced form of particular value in maternity cases.

FORMULA

Each AMBER Capsule contains:

Vitamin A . . . 6,000 LU.

Vitamin B . . . 1 mg. plus
one minim wheat germ oil.

fundamental principles of pirella

A garment designed on Spirella's Exclusive Principle supports the figure by supplementing the mechanical action of the abdominal and dorsal muscles. Even when muscles have become relatively toneless their natural action is reproduced with the aid of garments designed to have their fixed positions of support corresponding to the bones of the pelvis and spine. The soft tissues around the hips are moulded into pleasing curves and the intestines and other internal organs supported in their healthiest positions, without constriction.

It depends what you mean by 'Banking'

OF COURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as your Executor, help with your Income Tax problems, obtain your currency when you travel abroad. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical War Committee and (in Scotland) the Scotlish Central Medical War Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £35) per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.W.C. or (in Scotland) the Scottish C.M.W.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year: £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year after registration as a medical or dental practitioner and normally held for one year only: £670 per

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

Doctors having medical qualifications registrable by the General Medical Council in the United Kingdom, with one or more years' experience after qualification, are required for appointment as

MEDICAL OFFICERS and MEDICAL OFFICERS OF HEALTH

for general medical and health duties. A limited number of practitioners liable for call up under the National Service Act, 1948, may apply, and if appointed will be granted indefinite deferment of call up on completion of a minimum period of one tour of three years in the Malayan medical service. Appointment is available (a) on probation for permanent establishment, (b) on employment from the National Health Service, and (c) on short term contract with gratuity. (a) Permanent terms, Subject to three years probation, appointment is permanent with pension (non-contributory) at age 55. Salary is paid in the scale £952 by £42 to £1.204 to £1.274 by £42 to £1.652 per annum. There are many posts, specialist and administrative, available on promotion carrying higher salaries (up to about £2,400 for the highest post). Promotion is often made before reaching the top (£1.652) of the long scale. There is also a cost-of-living allowance at varying rates, according to family circumstances, subject to maximum of £336 per annum for single men and of £707 per annum for married men with children (both rates higher when stationed in Singapore). Note, Doctors with more than one year's approved experience after age 25 (including service and of £707 per annum for married men with children (both rates higher when stationed in Singapore). Note. Doctors with more than one year's approved experience after age 25 (including service in His Majesty's Forces) enter the salary scale at points above the minimum according to their experience; and four increments of salary are also given to holders of approved higher qualifications (e.g., F.R.C.S., M.R.C.P., D.P.M., D.A., etc.) (b) National Health Service. Doctors may resign from the National Health Service but retain their superannuation rights during their time in Malaya (up to six years) and receive a resettlement grant of 20 per cent of the aggregate of their Malayan salary on leaving Malaya at the end of their engagements. Emoluments as under (a) including incremental credit for experience and higher qualifications as in note under (a). Doctors so appointed may be considered for permanent terms at any time during their Colonial employment provided they surrender their rights to the resettlement grant and payment by Malayan Governments of superannuation contributions. (c) Contract terms. The contract will be for three years' resident service, renewable for a further tour of three years by mutual agreement. Salary and cost-of-living allowance as under (a) including incremental credit for experience and higher qualifications as in note under (a). In addition a grantity earned at the rate of £300 to £450 per annum, according to salary, is paid on expiry of contract. Doctors on contract may be considered for appointment to the permanent establishment at any time on their agreeing to surrender their grantity earning rights. In all three types of for appointment to the permanent establishment at any time on their agreeing to surrender their gratuity earning rights. In all three types of appointment the rates of salary and gratuity refer to doctors eligible for expatriate terms under Malayan Regulations (i.e. those whose permanent homes are in the United Kingdom, Ireland, australia, Canada, etc.). The climate is, for the tropics, healthy. European children do well up to the age of about six and schools are available locally. Income tax is payable at Malayan rates which are lower than those in the United Kingdom. Government quarters with heavy furniture are prowhich are lower than those in the United Kingdom. Government quarters with heavy furniture are provided at a low rental, or an allowance is paid in lieu of quarters. Free passages are provided for the doctor, his wife, and children under the age of ten (not exceeding four persons besides himself) on appointment and once each way during each tour of duty of three to four years. Generous home leave is granted and local leave is permissible. The social and recreational facilities in Malaya are good. Application forms can be obmissible. The social and recreational facilities in Malaya are good. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (qurting reference No. 27215/242/51). Efficacy and Convenience in Antacid Therapy

In the management of gastrointestinal disorders associated with hyperchlorhydria, * 'Milk of Magnesia' Tablets have proved of outstanding ...lue. Exerting an immediate and prolonged neutralising action, 'Milk of Magnesia' Tablets offer a valuable prescription to the

physician for the treatment of simple digestive upsets, including gastritis and duodenitis, and equally so, for those cases where frank ulceration has occurred.

Pleasantly mint flavoured and conveniently portable, they are always ready to hand whenever the need of alkalisation arises.

Milk of Magnesia

Available in bottles of 30, 75 and 150 tablets.
