Special Number on

EMERGENCIES IN GENERAL PRACTICE

APRIL 1952

The Emergencies of Medicine are the touchstone of general practice. When they occur, the practitioner has to be prepared to act immediately, as it is on these decisions, more than any other, that his action may mean the difference between life and death. In this Special Number the emergencies are dealt with in an essentially practical manner by leading authorities.

Principal Contents

CARDIAC EMERGENCIES

By C. J. GAVEY, M.D., F.R.C.P. Physician and Physician-in-charge, Cardiographic Department, Westminster Hospital.

RESPIRATORY EMERGENCIES

By N. LLOYD RUSBY, D.M., F.R.C.P. Assistant Physician, London Hospital; Physician, London Chest Hospital.

ABDOMINAL EMERGENCIES

By R. MILNES WALKER, M.S., F.R.C.S. Professor of Surgery, University of Bristol. "

PAEDIATRIC EMERGENCIES

By R. W. B. ELLIS, O.B.E., M.D., F.R.C.P. Professor of Child Life and Health, University of Edinburgh.

OBSTETRICAL EMERGENCIES

By H. HARVEY EVERS, M.S., F.R.C.S., F.R.C.O.G. Professor of Obstetrics and Gynaecology, University of Durham; Gynaecologist, Royal Victoria Infirmary, and Obstetrician, Princess Mary Hospital, Newcastle upon Tyne.

NEUROLOGICAL EMERGENCIES

By ERIC C. O. JEWESBURY, D.M., M.R.C.P., D.P.M. Neurologist, Royal Northern Hospital, and North Middlesex Hospital.

PSYCHIATRIC EMERGENCIES

By E. W. ANDERSON, M.D., F.R.C.P., D.P.M. Professor of Psychiatry, Victoria University, Manchester; Physician, Royal Infirmary, Manchester.

GENITO-URINARY EMERGENCIES

By ARTHUR JACOBS, F.R.F.P.S. Surgeon-in-charge, Urological Department, Glasgow Royal Infirmary.

EMERGENCIES IN INFECTIOUS DISEASES

By Frank Ker, O.B.E., T.D., M.B., Ch.B. Acting Medical Superintendent, Little Bromwich Hospital for Infectious Diseases, Birmingham.

DIABETIC EMERGENCIES

By W. G. OAKLEY, M.D., F.R.C.P. Physician, King's College Hospital Diabetic Department.

DERMATOLOGICAL EMERGENCIES

By F. F. HELLIER, O.B.E., M.D., F.R.C.P. Dermatologist, General Infirmary, Leeds.

ANAESTHETIC EMERGENCIES

By H. W. FEATHERSTONE, O.B.E., M.D., LL.D., F.F.A. R.C.S. Senior Anaesthetist, United Birmingham Hospitals.

EMERGENCY TREATMENT OF BURNS AND **SCALDS**

By PATRICK CLARKSON, M.B.E., M.B., F.R.C.S. Casualty Surgeon, Guy's Hospital; Plastic Surgeon, Basin stoke Plastic Unit and the Royal Northern Hospital.

CURRENT THERAPEUTICS LII.—AMOEBICIDES By A. R. D. ADAMS, M.D., F.R.C.P., D.T.M. Phy-sician for Tropical Diseases, Royal Liverpool United Hospital.

In addition, this issue will contain all the regular features:

Veriloid Intravenous Solution is an important new emergency drug. By its use, immediate control of arterial tension is possible in those conditions in which a continued hypertensive state could readily lead to disaster. It therefore finds valuable application in the emergency treatment of malignant hypertension, encephalopathy, eclampsia and hypertensive states accompanying cerebral vascular disease. After tension has been controlled by Veriloid Intravenous Solution, oral treatment with Veriloid tablets can be instituted and continued indefinitely.

Veriloid Intravenous Solution contains 0.4 mg. of Veriloid brand alkaloids of Veratrum viride in each c.c. and is biologically assayed to ensure uniform hypotensive potency. It is a very potent agent, and should not be used before the instructions for use have been carefully studied.

PEPTIC ULCER THERAPY

AN EFFECTIVE METHOD of relieving the symptoms of hyperchlorhydria and peptic ulceration is provided by Collubarb Tablets, containing aluminium hydroxide (Collumina brand) 5 grains (0.32 grm.) phenobarbitone ½ grain (0.016 grm.) and atropine sulphate 1/500 grain (0.13 mg.).

A Three-fold Function

- If the aluminium hydroxide neutralises excess acid without producing an alkaline condition of the stomach.
- **2** The phenobarbitone helps to relieve the anxiety tension so often associated with hyperchlorhydria and peptic ulceration.
- 3 The small dose of atropine sulphate moderates excessive motor activity of the gastro-intestinal tract with diminution of secretion of gastric juice.

Cartons of 24 and 100 (film wrapped) Containers of 500

COLLUBARB TABLETS

HARVEY

1**578** — 1657

This scientist and doctor of medicine rose to great eminence and became Physician Extraordinary to James 1. He is most famed, however, for his research work on the blood and his discovery of its circulation.

IMPROVED PRESENTATION

FOR IRON DEFICIENCY ANEMIAS, ferrous sulphate is universally accepted as the most efficient compound for oral administration. The improved method of presentation in 'Plastules' ensures maximum absorption and utilisation. The tasteless, easy-to-swallow capsules rapidly disintegrate and the ferrous sulphate in a semi-solid condition is quickly absorbed, with avoidance of gastric irritation. The addition of Folic Acid stimulates production of erythrocytes, and the dried yeast increases appetite and re-inforces the action of the iron.

'Plastules' are available in four varieties: Plain; with Liver Extract; with Folic Acid; and with Hog Stomach.

"SANOID" STERILISED SURGICAL CATGUT

Over forty years' experience is behind the manufacture of "Sanoid" Sterilised Surgical Catgut. Our capacity has recently been considerably increased to enable us to fulfil increased demand.

TENSILE STRENGTH: "Sanoid" Surgical Catgut easily surpasses official requirements for minimum average strength.

GAUGING: Every strand of "Sanoid" Surgical Catgut has been checked at four points by dial micrometer.

Prepared under M.O H. Licence No. 40

FLEXIBILITY: Heat treatment necessarily tends to make catgut to some degree wiry and brittle due to loss of moisture, but the composition of the solution in which "Sanoid" Surgical Catgut is tubed is such that the maximum possible strength and flexibility are restored to the gut and retained by it under long storage periods.

SMOOTHNESS: "Sanoid" Surgical Catgut is of great smoothness, but at the same time holds securely on the knot.

STERILITY: "Sanoid" Surgical Catgut conforms to the stringent bacteriological tests for sterility as laid down by the Ministry of Health in the Therapeutic Substances Regulations.

We invite vour inquiries for Catgui and other Surgical Ligatures. Samples will be provided with pleasure

A PRODUCT OF Cixson Gerrarde Co. Ltd. OLDBURY, BIRMINGHAM

FOR THE RELIEF of bronchial asthma, a choice of 'Neo-Epinine' preparations is available. Almost immediate relief is obtainable by oral inhalation of No. 1 Spray Solution, a plain 1 per cent aqueous preparation. The 20 mgm. compressed products, placed beneath the tongue, act within 5-10 minutes. Stubborn cases need oral inhalation of No. 2 Compound Spray Solution which contains 1 per cent of drug with 2 per cent of papaverine and 0.2 per cent of atropine methonitrate.

Neo-Epinine'

IN THE TREATMENT OF ASTHMA

'PERNIVIT' FOR CHILBLAINS

Pernivit is an effective preparation for the treatment and subsequent prevention of chilblains. It utilises the vasodilator properties of nicotinic acid and the effect of vitamin K in maintaining normal blood coagulability and vascular permeability.

Itching and inflammation are quickly relieved. Dosage is from two to six tablets daily according to the severity of the case.

'PERNIVIT'

Pernivit tablets, containing Acetomenaphthone B.P. and Nicotinic Acid B.P., are available in bottles of 50 and 500.

Literature and specimen packings are available on request.

THE BRITISH DRUG HOUSES LTD. (Medical Department) LONDON N.I

Prvt/E/543

It depends what you mean by 'tonic'

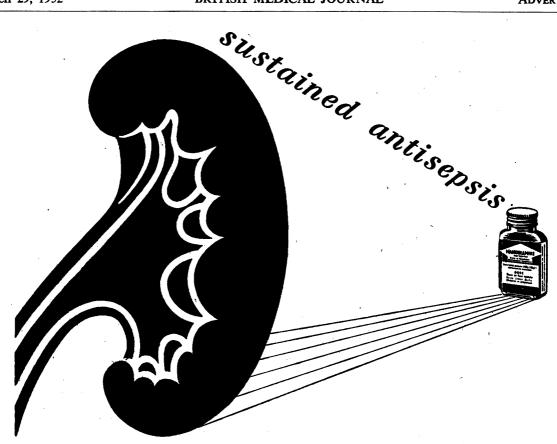

SOME SAY that strychnine is the only true tonic. Others use the word tonic more widely, to include all those drugs and combinations of drugs which improve the well-being of the patient during convalescence and at other times when vitality and resistance are low.

'Epitone' is a well balanced tonic preparation which presents ferrous iron in an active form together with the more important factors of the Vitamin B complex, with strychnine and caffeine. In bottles of 8 and 16 fl. oz.

EPITONE? tonic & restorative

Literature, samples and further information from the Medical Dept. BOOTS PURE DRUG COMPANY LIMITED NOTTINGHAM ENGLAND

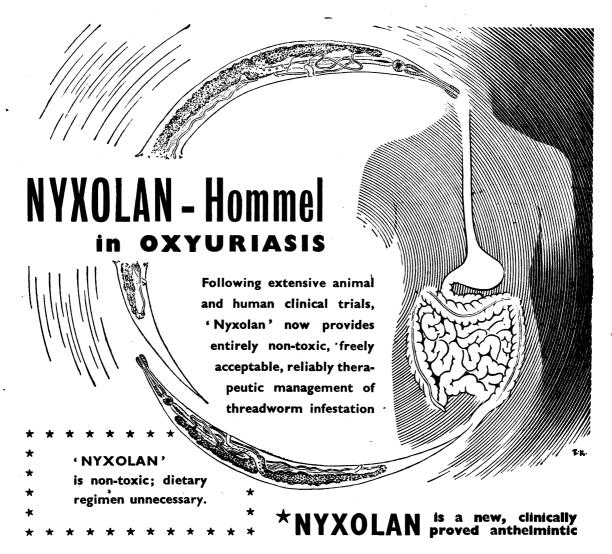

in urinary-tract infections

'Mandelamine' is effective against a wide range of organisms commonly encountered in urinary-tract infections. This effectiveness is rarely, if ever, marred by the development of drug-resistance, and organisms that are already resistant to the sulphonamides or streptomycin remain fully susceptible to 'Mandelamine'.

'Mandelamine' therapy is safe and simple—3 to 4 tablets t.i.d. Neither regulation of diet or fluids nor accessory acidification of the urine are required (except when urea-splitting organisms are present), and undesirable side-effects occur so infrequently as to be negligible.

Fach enteric-coated tablet contains 0.25 g. (gr. 3\frac{3}{4}) methenamine mandelate

COMPOSITION. 'Nyxolan' is a pleasantly tasting syrup containing 0.4% of aluminium 8-hydroxyquinoline sulphate [Al $(C_9H_6ON)_3$ $3H_2SO_4$.]

clinical observations. Significant trials in medical institutions show that 'Nyxolan' is a most reliable anthelmintic when used alone, i.e. without supportive purgation, enemas or anal counter-irritants. Abstracts from literature describing clinical results are available on request.

ADVANTAGES. 'Nyxolan' is not a dye; it is non-arsenical; it does not induce diarrhoea; dietary regimen is not necessary to its successful employment. It is entirely acceptable, even to infants.

INDICATIONS. Present clinical experience with 'Nyxolan' refers to Oxyuris vermicularis. Besides its indication in oxyuriasis 'Nyxolan' is the preferred treatment in cases of suspected oxyuriasis.

FORM AND POSOLOGY. 'Nyxolan' is presented in liquid form, the active ingredient being incorporated in a syrup which ensures ready acceptance by children.

Daily dosage of 'Nyxolan' is:—Children under 6 years, I dessertspoonful thrice daily; Children over 6 years, I tablespoonful four times daily; Adults, 2 tablespoonfuls thrice daily.

PRESENTATION. Bottles of 8 fluid oz. net. Literature and samples available.

* 'Nyxolan' is widely used in other countries under the name 'Aloxyn'. Not publicly advertised.

HOMMEL'S HÆMATOGEN & DRUG CO., 121 NORWOOD RD., LONDON, S.E.24.

CYTAMIN B12

...from strength to strength

Soon after Glaxo Laboratories isolated vitamin B₁₂ in 1948, decisive evidence confirmed that this new substance was the long-sought active principle of liver. Subsequent knowledge of non-liver sources of the vitamin led to the introduction of Cytamen, with a standardised potency of 20 micrograms per cc.—substantially higher than that of most liver extracts.

Since then, progress with Cytamen has set an ever-quickening pace for developments in anti-anaemia therapy. Today, Cytamen is pure crystalline vitamin B₁₂ in solution and is issued in three strengths, which provide a flexible means of combating pernicious and other megaloblastic anaemias. The two higher potencies, in fact, represent a far more concentrated attack than was ever accomplished, or even practicable, with liver extracts.

CYTAMEN

Three Strengths: 20, 50 and 100 micrograms vitamin B_{12} per co. Boxes of six 1 cc. ampoules

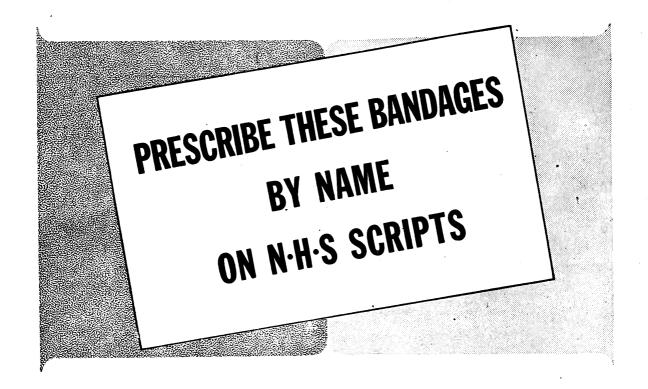

Vitamin B₁₂ is available also for oral dosage:

CYTACON Tablets each contain 10 micrograms vitamin B_{12} : in bottles of 50 and 500. CYTACON Liquid contains 25 micrograms vitamin B_{12} per fluid drachm: in 6-oz. bottles. CYTACON is intended for nutritional purposes—not for anti-anaemia therapy.

Antacid and Adsorbent

The particular value of MAGSORBENT in chronic hyperchlorhydric disorders depends upon the moderation of its rate of interaction with acids. time required for complete interaction approximates to the normal emptying time of the stomach. It can, therefore, be taken in generous excess of the amount required to combine with the acid present in the stomach at any particular moment, without risk of overneutralisation.

Formula: Magnesium Trisilicate 100%

Samples of MAGSORBENT Powder and Tablets, also literature, are available on request

Support without Constriction . . .

Arrow No. 1. Shows how the Linia Belt acts on parts that are usually protuberant, in harmony with the over-all pressure. Arrow No. 2. Shows how the Linia Belt lifts and holds in place the lower abdominal parts that have sagged and dilated. Arrow No. 3. Shows uplifting support on the grain, a protection against rupture and strain.

LINIA BELT

designed under medical supervision to correct FAULTY POSTURE and ENTEROPTOSIS.

Invaluable, too, for POST-OPERATION WEAR.

It avoids the danger of exercising direct restricting pressure on the abdomen. Besides affording support and restoring displaced organs to their correct position, the Linia Belt exerts a gentle massaging action, at the same time bracing the muscles. It is invaluable too, for post-operation wear, and to prevent strain when older men, unused to violent physical effort, take exercise.

It adds up to perfection in the making of

syringes

Every 'Plim' hypodermic syringe is an individual production, made by highly skilled craftsmen. That is the only way to ensure true accuracy, perfect functioning and consistently good service.

But there is something more to the 'Plim' syringe than just good craftsmanship—the *special design* which provides additional advantages to the user.

Consider these features:

No solder or cement is used in the process of manufacture; sterilization can be done up to 200° C.

The protective metal casing reduces risk of damage to a minimum.

Glass barrels are available from stock, but users may order a spare barrel for instant replacement.

Every part of the syringe is precision made and interchangeable.

ROBSOUP is a concentrated bone and vegetable soup, ready cooked in powder form. The food constituents are different from and complementary to those of milk mixtures and cereals.

Robsoup mixes instantly with water at all temperatures to any consistency from a thin broth, suitable for adding to the baby's bottle, to a thick soup which may be fed from cup and spoon.

Robsoup is simple to use and economical—a 1/6d. tin gives ten helpings for a baby of five months. There is no waste with Robsoup. Only the amount required for the next meal is mixed at any one time. Being a dry powder, what is left in the tin will not go bad.

Therefore, provided the water used for mixing has been boiled and the cup and spoon are clean, Robsoup is safe from the danger of food infection and will not occasion gastro-enteritis.

Robsoup is made by a new process from peas, potatoes, carrots, yeast extract, cabbage, gelatin, edible bone phosphate, salt and onion. It is rich in iron (12 mg. per 100 gms.), calcium (400 mg. per 100 gms.) and vegetable protein (15.5%). Robsoup may therefore be given either as the first addition to milk or as the next step in weaning after the introduction of a cereal. Extensive tests have shown that babies thrive on Robsoup and like its flavour.

Write for free trial tin and descriptive leaflet to Dept. MH36:-

CARROW WORKS NORWICH

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent *testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

> ★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical War Committee and (in Scotland) the Scotlish Central Medical War Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £3.0 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.W.C. or (in Scotland) the Scottish C.M.W.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

HER MAJESTY'S COLONIAL SERVICE

HER MAJESTY'S COLONIAL SERVICE Hong Kong

A Medical Officer with nutrition experience is required for duty in the Medical Department of Hong Kong. Appointment will be on two years' probation for permanent and pensionable employment, or on short-term contract with gratuity on satisfactory completion of engagement. Salary, including pensionable expatriation pay is in the scale \$1,530 to \$2,548.33 per mensem (£1,147 10s. to £1,911 5s. per annum—one Hong Kong dollar equals 1s. 3d.). In addition a temporary, variable, non-pensionable cost-of-living allowance is payable according to family circumstances, and may be as equals is, 3d.). In addition a temporary, variable, non-pensionable cost-of-living allowance is payable according to family circumstances, and may be as much of £427 per annum for a married officer with children. Free passages in both directions are provided for an officer, his wife and up to three children under the age of 18. Quarters at rental of 1/8th of basic salary (i.e., from £117 to £204 per annum), according to salary. Income tax at local rates. Annual local leave is permissible and generous home leave is granted after each tour of four years. Climate is favourable for Europeans, a cool dry winter with well-marked change of seasons. Educational facilities are available. Candidates must be under 40 years of age and possess a medical qualification registrable in the United Kingdom. The officer selected would become Secretary of the Nutrition Advisory Council, and, in addition, would be required to carry out such medical duties as might be given him by the Director of Medical Services. Normal retiring age is 55. Officers who prefer short contract terms earn a gratuity of £37 l0s. for each completed period of three months' service (but no pension). Pension is 1/600th of final pensionable emoluments for each completed month of reckonable service. Officers permanently employed are required to contribute to a widows' and orphans' pension scheme. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting ref. 27215/164). (2274)

Overseas-contd.

BASUTOLAND AND BECHUANALAND PROTECTORATE
Applications are invited from medical practitioners with qualifications registrable in the United Kingdom or in the Union of South Africa for

tioners with qualifications registration in the United Kingdom or in the United of South Africa for appointment as

MEDICAL OFFICERS

In Basutoland and in the Bechuasaland Protectorate Appointments will be on two years' probation for permanent and pensionable employment. Salary scale ranges from £865 to £1,320 per annum. Private practice is permitted at the discretion of the Director of Medical Services. Candidates in the National Health Service may resign from the National Health Service may resign from the National Health Service may resign from the National Health Service may and receive a resettlement grant of 20 per cent of the aggregate of their Basutoland or Bechuanaland salary on leaving these territories at the end of their engagements. Doctors appointed from the National Health Service may be considered for permanent terms at any time during their employment in the Health Service may be considered for permanent terms at any time during their employment in the High Commission territories provided they surrender their rights to the resettlement grant and payment by Basutoland or Bechuanaland of superannuation contributions. Quarters are provided at rental of 10 per cent of salary. Local leave is permissible and generous home leave is granted after each tour of three to four years. Free passages provided for officer and wife, and assisted passages for children. Application forms can be obtained from the Director of Recruitment, Colonial Service, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. 27215/62/52). (2332) 27215/62/52).

H.M. COLONIAL SERVICE, Bahamas
DISTRICT MEDICAL OFFICERS
Required for service in the Out Islands of the Bahamas. Appointments will be on agreement for three years. Salary £600 per annum. Private practice is permitted. In addition a cost-of-living and devaluation allowance at the rate of £311 per annum is payable. Total issue is therefore at present £911 plus income from private practice. There is no income tax. Passages are provided for officers, wife and up to two children on appointment, and also for the return to the United Kingdom on the satisfactory completion of engagement. Candidates should possess medical qualifications registrable in the United Kingdom. The duties are similar to general practice in the United Kingdom. Application forms can be obtained from the Director of Recruitment, Colonial Service, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. 27215/185/52). (2163)

the Director of Recruitment, Colonial Service, Sanctuary Buildings, Great Smith Street, London, S.W.I (quoting reference No. 27215/183/52), (2163)

HER MAJESTY'S COLONIAL SERVICE, Malaya Doctors having medical qualifications registrable by the General Medical Council in the United Kingdom with one or more years' experience after qualificatio: are required for appointment as MEDICAL OFFICERS and MEDICAL OFFICERS OF HEALTH

for General Medical and Health duties

Appointment is available (a) on probation for permanent establishment; (b) on employment from the National Health Service; and (c) on short-term contract with gratuity. (a) Permanent terms. Subject to three years' probation, appointment is permanent with pension (non-contributory) at age 55. Salary is paid in the scale £952 by £42 to £1,204 to £1,274 by £42 to £1,652 per annum. There are many posts specialist and administrativ, available on promotion carrying higher salaries (up to about £2,400 for the highest post). Promotion is often made before reaching the top (£1,652) of the long scale. There is also a cost-of-living allowance at varying rates, according to family circumstances, subject to maximum of £336 per annum for single men and of £707 per annum for married men with children (both rates higher when stationed in Singapore). Note. Doctors with more than one year's approved experience after age 25 (including service in Her Majesty's Porces) enter the salary scale at apoints above the minimum according to their experience; and four increments of salary are also given to holders of approved higher qualifications (e.g., F.R.C.S., M.R.C.P., D.P.M., D.A., etc.). (b) National Health Service. Doctors may resign from the National Health Service but retain their superannuation rights during their time in Malaya (up to six years) and receive a resettlement grant of copy of the proper proper of the proper o per annum, according to salary, is paid on expiry of contract. Doctors on contract may be considered for appointment to the permanent establishment at any time on their agreeing to surrender their gratuity earning rights. In all three types

of appointment the rates of salary and gratuity refer to doctors eligible for expatriate terms under Malayan Regulations (i.e., those whose permanent homes are in the United Kingdom, Ireland, Australia, Austra Malayan Regulations (i.e., those whose permanent homes are in the United Kingdom, Ireland, Australia, Canada, etc.). A limited number of practitioners liable for call up under the National Service Act, 1948, may apply, and if appointed will be granted indefinite deferment of call up on completion of a minimum period of one tour of three years in the Malayan Medical Service. The climate is, for the tropics, healthy. European children do well up to the age of about six and schools are available looally. Income tax is payable at Malayan rates, which are lower than those in the United Kingdom. Government quarters with heavy furniture are provided at a low rental, or an allowance is paid in lieu of quarters. Free passages are provided for the doctor, his wife, and children under the age of ten (not exceeding four persons besides hilmself) on appointment and once each way during each tour of duty of three to four years. Generous home leave is granted and local leave is permissible. The social and recreational facilities in Malaya are good. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings. Great Smith Street, London, S.W.1 (quoting reference No. 27215/242/51). (5187)

SEDESTRAN

STILBOESTROL 0.1 mg. PHENOBARB. 2 grain

Lifting the veil

The distress which accompanies the menopausal years need not be allowed to go unchecked. The physician has an adequate means of relieving the several conditions which veil a woman's outlook during her middle years. The administration of SEDESTRAN is a safe and ready method of controlling these symptoms by minimal medication. Menopausal migraine and hypertension respond well to SEDESTRAN as also does dysmenorrhosa of neurogenic

and psychogenic origin.
