The importance of protein during pregnancy and the nursing period

C shows that the increased protein anabolism during the latter part of pregnancy, and particularly during the nursing period, requires more protein than was at first considered necessary. Adequate protein is, therefore, desirable to ensure the ample supply of breast milk.

The inclusion of high-grade protein foods in the diet of pregnant women is now a standard practice. In cases where there is loss of appetite

NLINICAL observation or a general feeling of exhaustion, the diet can be effectively supplemented by protein foods in a form which is easy to assimilate.

> Brand's Essence is a firstclass protein of animal origin. Being partly hydrolised, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

> > **BRAND'S** ESSENCE

(CHICKEN or BEEF)

Where the remedial benefits are equal. doctors will prefer Clarks inconspicuous Curator Heel to the cumbrous T-irons and surgical boots.

To the child, obviously, the difference is profound.

The Curator Heel was designed for use as a corrective aid in certain conditions of valgus foot, other foot ailments and leg weaknesses. Full details are available to the medical profession, to children's clinics and hospitals, on application to Clarks.

The Curator Heel can be fitted easily to certain Clarks Shoes in sizes Childs 7 to 53.

ESSENTIALS IN DISEASES OF THE CHEST FOR STUDENTS AND PRACTITIONERS

by PHILIP ELLMAN, M.D., F.R.C.P.

Consultant Physician in Diseases of the Chest to the North-East Metropolitan Regional Hospital Board at East Ham Chest Clinic, Harts Sanatorium, and Plaistow Hospital Chest Unit, London

With a Foreword by

SIR ROBERT A. YOUNG, C.B.E., M.D., F.R.C.P.

Honorary Consultant Physician to the Middlesex Hospital and to the Brompton Hospital; Consulting Physician to King Edward VII Sanatorium, Midhurst

CONTENTS include: Some Observations on the Structure and Function of the Respiratory System—Method of Investigation of the Chest Case. Its Relation to General Medicine—The Common Cold and Upper Respiratory Tract Infections. Respiratory Influenza—Asthma—Bronchitis—Emphysema. Oxygen Therapy—Bronchiectasis—Pulmonary Tuberculosis. General Considerations. Problems and Complications. Prognosis. Prevention. General Routine Treatment. Chemotherapy. Collapse Therapy and Surgery of the Lung in Treatment. Symptomatic Treatment—The Pneumonias—Lung Abscess—Intrathoracic New Growths (including Cystic Disease of the Lungs)—Industrial Diseases of the Lungs—Collapse and Atelectasis—The Lungs in Circulatory and Allied Diseases—Some Pulmonary Manifestations of Systemic Disease—Pulmonary Mycoses. Syphilis—Pulmonary Sarcoidosis—Some Observations on Chest Diseases in Childhood and Old Age—Diseases of the Pleura—Some Lesions of the Diaphragm—Diseases of the Mediastinum—Special Procedures—Index Procedures—Index.

TEXTBOOK OF CLINICAL NEUROLOGY

by J. M. NIELSEN, M.D., F.A.C.P.

Clinical Professor of Neurology and Psychiatry University of Southern California

Written specially for the general practitioner coming into daily contact with neurological problems and of value to the specialist, this text is rich in clinical essentials. The book is grounded in the author's wide experience and contains numerous case reports. This new Third Edition has been extensively revised and re-edited to achieve greater clarity throughout.

Published March 20. 684 pp. 172 illus.

AUTOPSY DIAGNOSIS AND TECHNIQUE by OTTO SAPHIR, M.D.

An authoritative work dealing with every aspect of autopsy. A complete description of the gross morbid anatomy is given, showing clearly how to recognize anatomical changes resulting from disease. It includes chapters on the legal aspect and also on the causes of unexpected death. An invaluable work of reference for pathologists and practitioners.

GENERAL PRACTICE **SPECIALTIES** THE

Written by leaders in the principal specialties, this important new work will be of tremendous value to every general practitioner and specialist. It will help the general practitioner to treat many of the patients he would otherwise have considered problems for the specialist. It pays particular attention to "danger signs"—symptoms or findings that indicate the need

for immediate treatment by a specialist. The specialties covered are: minor surgery, orthopedics, fractures, urology, proctology, gynecology, obstetrics, pediatrics, nose and throat, ophthalmology, larynx-bronch-iesophagus, otology, dermatology, psychiatry.

Edited by RUSSELL L. CECIL, M.D., Professor of Clinical Medicine, Cornell University. 818 pages, illustrated, 73s.

It depends what you mean by 'Banking'

Sucremenenemenenenenenenenenenenenenenen

OF COURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as an Executor, help with a customer's Income Tax problems, obtain currency for foreign travel. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'.

Although the adage 'life begins at forty' may be true in theory; it is in practice that we realise that it is not long before the difficult milestone of the menopause is reached. The years of stress may be eased by the timely administration of a preparation designed to counteract the depression, nervous phenomena, and vasomotor disturbances so troublesome to women patients.

Euvalerol M contains an odourless preparation of valerian with ‡ grain (16 mg.) phenobarbitone and 0·1 mg. stilbæstrol in each fluid drachm. Its use is followed by marked diminution of symptoms and rapid restoration of emotional balance.

EUVALEROL M

In bottles of 4 and 8 fluid ounces.

MEPILIN'

For menopausal disorders, pre-menstrual tension and dysmenorrhæa

THE ASSOCIATION of methyl-testosterone with ethinyl cestradiol as in Mepilin permits a marked reduction to be made in the effective dosage of æstrogen for the control of menopausal symptoms.

Advantages of Mepilin are:—

- 1. Production of an increased sense of well-being
- 2. Avoidance of undesirable side effects such as breast turgidity and pelvic congestion
- 3. Reduced risk of inducing uterine hæmorrhage or withdrawal bleeding

Mepilin contains ethinyl æstradiol o.or mg., and methyl-testosterone 3 mg. Bottles of 25 and 100 tablets. Dosage—Menopause: 2 to 6 tablets daily. Pre-menstrual tension and dysmenorrhæa: 2 tablets daily from 10th to 22nd day of menstrual cycle.

Literature and specimen packings are available on request to THE BRITISH DRUG HOUSES LTD. (Medical Department) LONDON N.I

NYDRAZID

SQUIBB

A NEW ANTI-TUBERCULOUS DRUG

During intensive screening tests on several thousand compounds, carried out in the Squibb Institute of Medical Research in the last few years, NYDRAZID (iso-Nicotinic Acid Hydrazide) showed considerable activity against tubercle bacilli.

NYDRAZID has been subjected to extensive pharmacological investigation and later to clinical trials which indicated that the drug had real promise in the treatment of tuberculosis.

Initial supplies of NYDRAZID have been handed through the Ministry of Health to the Medical Research Council who have begun clinical trials in this country so that a thorough scientific evaluation of the drug can be made as early as possible. Other trials are already in progress under leading clinicians in British hospitals.

Plans for producing NYDRAZID commercially have been completed and supplies will be made available to the medical profession as soon as the early therapeutic expectations of the drug have been confirmed. It will then be made available to sanatoria and hospitals where the greatest need exists.

Preliminary information on NYDRAZID will be sent gladly on request:

A Delicious, Concentrated, Vitamin Food of the Highest Quality

A Product of the Ovaltine Research Laboratories

 T^{O} the physician requiring a product which incorporates important vitamins in a form acceptable to every patient, "Vimaltol" presents special advantages.

"Vimaltol" is made from specially prepared malt extract of high protein content; yeast—one of the richest sources of vitamin B_1 —and Halibut Liver Oil, an important source of vitamins A and D. It is also fortified with additional vitamins and mineral salts, and is deliciously flavoured with orange juice.

Vimaltol" is standardized to contain in each ounce 1,420 international units of vitamin A and 710 of vitamin D, also 0.35 milligrammes of vitamin B_1 , 0.2 of vitamin B_2 (riboflavin), 2.8 of Niacin (P.P. vitamin), and 3.3 of iron, in a readily assimilable form.

The routine use of "Vimaltol" helps normal development of the growing organism and the maintenance of correct metabolism, while raising the general resistance against infection.

"Vimaltol" has thus a very wide application in general practice for patients of all ages. It can be prescribed with advantage at all seasons.

A liberal supply for clinical trial sent free on request.

The 'Ovaltine' Factory in a Country Garden

ASPIRIN is an acidic substance, sparingly soluble

SOLPRIN is stable, soluble—and palatable

The reasons for preferring calcium aspirin to aspirin lie chiefly in the fact that it is a neutral, soluble and bland compound, whereas aspirin is acidic, sparingly soluble and may act as a gastric irritant. But calcium aspirin has a defect of its own — chemical instability;

and in consequence attempts to manufacture it in the form of tablets that could be depended upon to remain free of nauseous breakdown products, under reasonable conditions of storage, have hitherto met with little success. These difficulties have now been overcome. 'Solprin', a stable, tablet preparation, readily

dissolves to yield a substantially neutral and palatable solution of calcium aspirin that can be prescribed in all conditions in which acetylsalicylate administration is indicated.

Extended clinical trials show that Solprin in massive dosage, even over long periods, can be tolerated without the development of gastric or systemic disturbances except in cases of extreme hypersensitivity.

S O L P R I N Stable, soluble, palatable calcium aspirin

Clinical sample and literature supplied on application. Solprin is not advertised to the public and is available only on prescription. (U.K. and Northern Ireland only.) It is not subject to Purchase Tax, and when prescribed costs actually less than 1d for three tablets.

THE CHEMOTHERAPY

OF TUBERCULOSIS

'PYCAZIDE'

ISONICOTINIC ACID HYDRAZIDE

(PYRIDINE - 4 - CARBOXYLIC ACID HYDRAZIDE)

Tuberculosis research workers will have read with interest the announcements that the hydrazide of isonicotinic acid is of value in the treatment of tuberculosis.

The Chemotherapy Research Unit of Herts Pharmaceuticals Ltd. announces that this substance, manufactured in their laboratories, is at present undergoing extensive animal and clinical evaluation in this country.

Although the ultimate value of this drug must await the outcome of these trials, sufficient supplies are available for more general distribution to other tuberculosis workers.

'PYCAZIDE' is supplied as tablets of 50 mg. in packs of 100, 500 and 1,000, and as a sterile solution in 2 ml. ampoules containing 25 mg. per ml.

Notes on High-Protein Diets

(2)

PROTEIN DEFICIENCY IN PREGNANCY

Fresh Evidence

Considerable evidence 1,2,3,4 points to a close relationship between protein metabolism and the toxaemias of pregnancy. By ensuring adequate dietary protein, toxaemia is less likely to develop. Anaemia, hypotonia of the uterus and lowered resistance to infection may all result from a low intake of protein. At least 85 G. of protein should be given during the latter half of pregnancy.

Easiest method of giving protein

Clearly, additional protein should be given to every pregnant woman. By far the easiest way of doing this is to provide the patient with Sanatogen concentrated protein supplement. Sanatogen contains 95% casein combined with 5% sodium glycerophosphate and has a specific nutrient and tonic action. It supplies all the essential amino acids together, has a high rate of utilisation, and is easily digested and rapidly absorbed. Sanatogen contains neither fats nor carbohydrate.

Equal to 6 oz. lean beef daily

Sanatogen is very easily administered. It is taken mixed as a hot or cold drink, sprinkled on food or mixed in cooked dishes. Taken three times daily, Sanatogen provides the pregnant woman with the equivalent protein nourishment of 6 oz. of lean beef. The routine administration of Sanatogen is your easiest, safest and most effective way of eliminating all danger of protein deficiency during pregnancy.

A new preparation of

Aspirin Children

A SAFE AND ACCURATE DOSE OF ASPIRIN-There is little fear of an anxious mother giving too large a dose of Angiers Junior Aspirin for Children. Each tablet contains 11 grains of Aspirin.

IN AN EASY TO TAKE TABLET-The pleasant orange flavour and sweetening in this small pink tablet makes Angiers Junior Aspirin acceptable to children even if sucked or chewed.

WITH A SAFEGUARD AGAINST GASTRIC IRRITATION-The combination of di-calcium phosphate with the aspirin guards against any irritation caused by the acid effect of the aspirin.

> Acid. Acetylsalicylic. 1.25 grains. Di-Calcium Phosphate 1.50 grains, sweetening and orange flavouring to taste.

> > Bottles of 50 tablets 1/6

ANGIERS JUNIOR ASPIRIN

for children

CETAVLON CETRIMIDE B.P.

'Cetavlon' is a highly effective bactericidal and cleansing agent of particular value in the treatment of burns, wounds. etc.

Pleasant to handle and economical in use, 'Cetavlon' also possesses these important advantages.

- All contaminating matter quickly and easily removed.
- Highly bactericidal in low concentration, against both Gram-positive and Gram-negative bacteria.
- Non-toxic and non-irritant.
- Does not retard healing.

ELIXIR CEREVON

* Anaemias of Pregnancy

FERROUS GLUCONATE

PROVIDES ORGANIC IRON

The need for a more suitable form of iron for the treatment of iron deficiency anaemias of pregnancy is evident from a recently published survey on 2,000 pregnancies.

IT IS REPORTED THAT 40% OF PATIENTS SHOWED INTOLERANCE TO FERROUS SULPHATE AND FAILED TO CONTINUE TREATMENT. Clinical trials have shown that for tolerance, absorption, and utilization, the organic iron of FERROUS GLUCONATE as presented in Elixir Cerevon is more

acceptable to the gastric mucosa and haemopoietic system.

Elixir Cerevon also provides adequate doses of the important factors of the Vitamin B complex and the inclusion of 15% Blackcurrant iuice provides approximately 5.0 mgm. Vitamin C per teaspoonful and makes the preparation highly palatable.

• B.M.J. 23.2.52, p. 407.

FORMULA: Ferrous Gluconate 0.3 gm., Aneurin Hydrochlor. 1 mgm., Riboflavin 1 mgm., Nicotinamide 10 mgm. With trace elements of Copper and Manganese.

A garment designed on Spirella's Exclusive Principle supports the figure by supplementing the mechanical action of the abdominal and dorsal muscles. Even when muscles have become relatively toneless their natural action is reproduced with the aid of garments designed to have their fixed positions of support corresponding to the bones of the pelvis and spine. The soft tissues around the hips are moulded into pleasing curves and the intestines and other internal organs supported in their healthiest positions, without constriction.

A Convalescent Aid following Surgery

SPENCER SUPPORTS, individually designed for each patient, can be utilized with full therapeutic effect as an aid to treatment following nephrectomy, nephropexy, herniotomy, colostomy, hysterectomy, cholecystectomy, spinal surgery, and mastectomy. Also indicated for postural hypotension following sympathectomy.

Spencer effectively aids convalescence by providing protection and support to weakened musculature.

Each Spencer Support is designed, cut and made at our manufactory in Banbury after a description of the patient's body and posture has been recorded—and detailed measurements have been taken. This assures the doctor that each patient will receive the proper design to aid his treatment.

Spencer Abdominal Support designed for this patient following Nephrectomy and Nephropexy.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical War Committee and (in Scotland) the Scotlish Central Medical War Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.W.C. or (in Scotland) the Scottish C.M.W.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months

The Minister will be prepared to authorize in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per atnum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquirfes with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

SOCIETY OF APOTHECARIES OF LONDON

SOCIETY OF APOTHECARIES OF LONDON (M.M.S.A.)

The Masiery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Infant Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent; the Examination, written, oral, and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of ApothecarRes, Black Friars' Lanc, E.C.4.

SOCIETY OF APOTHECARIES OF LONDUN.— Surgery May 12, June 9, July 14. Medicine and Pathology: May 19, June 16, July 21. Midwifery: May 20, June 17, July 22. Mastery of Midwifery: May and November. Diploma in Industrial Health: July and December. For regulations apply Registrar, Apothecaries' Hall, Black Friars' Lane, London, E.C.4.

UNIVERSITY OF ST. ANDREWS REFRESHER COURSE FOR GENERAL PRACTITIONERS

PRACTITIONERS

A two weeks' course will be held in the Medical School, Dundee, and Associated Hospitals from June 23 to July 4, 1952. Teaching will be by lecture-demonstrations and clinical rounds with emphasis on recent advances in diagnosis and treatment. Accommodation available in students' residences at moderate cost. Course fee £10 10s. Financial assistance, subject to certain conditions, from Department of Health for Scotland. Last date for enrolment April 30, 1952. Further particulars and application forms from Postgraduate Convener, Medical School, Dundee. (2503)

UNIVERSITY OF GLASGOW Postgraduate Medical Education Committee REFRESHER COURSE FOR GENERAL PRACTITIONERS

A Refresher Course of one fortnight's duration designed for General Practitioners will be held from May 19 to May 31, 1952. The greater part of the course will comprise clinical demonstrations, ward visits, and lectures in General Medicine, General Surgery and Obstetrics, but sessions on Infectious Diseases, Child Health, Ophthalmology, and Dermatology will also be included. The fee for practitioners not claiming expenses from Government sources is 10 guineas. Since the number admitted to the course is limited, early application should be made to the Director of Postgraduate Medical Education, The University, Glasgow, W.2, from whom the syllabus and further information may be obtained.

When Constipation and Hyperacidity are concurrent —

—as they usually are ...

In the treatment of chronic constipation, particularly where it is associated with gastric hyperacidity, 'Mil-Par' provides a reliable antacid laxative of unvarying efficacy.

A balanced combination of 'Milk of Magnesia'*, with a selected grade of medicinal paraffin, 'Mil-Par' neutralizes excess gastric acidity and checks the development of acid conditions

in the lower alimentary tract. In the intestine, where it readily permeates the faecal mass, 'Mil-Par' softens the bowel content and provides both lubrication and gentle stimulation.

'Mil-Par' is specially to be recommended during convalescence after operation or protracted illness; for infants and children, expectant and nursing mothers.

'MIL-PAR'

ANTACID LUBRICANT

The Chas. H. Phillips Chemical Co. Ltd. 1, Warple Way, London, W. 3.

* 'Milk of Magnesia' is the trade mark of Phillips' preparation of magnesia.
