

The importance of protein during pregnancy and the nursing period

CLINICAL observation shows that the increased protein anabolism during the latter part of pregnancy, and particularly during the nursing period, requires more protein than was at first considered necessary. Adequate protein is, therefore, desirable to ensure the ample supply of breast milk.

The inclusion of high-grade protein foods in the diet of pregnant women is now a standard practice. In cases where there is loss of appetite

or a general feeling of exhaustion, the diet can be effectively supplemented by protein foods in a form which is easy to assimilate.

Brand's Essence is a first-class protein of animal origin. Being partly hydrolysed, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The Hay-fever Problem

The control of hay-fever still remains a problem, but whatever therapy is adopted the additional use of a nasal decongestant is invaluable.

FENOX, by virtue of its unique properties, is the ideal preparation, providing immediate and prolonged relief without . . .

- ★ irritation of inflamed mucosa,
- ★ impairment of ciliary action,
- ★ undesirable side-effects.

FENOX is water-miscible and non-oily. It has the same viscosity as mucus and remains at the site of action.

UNIVERSAL PORTABLE STAND

for use with GILLIES, BOYLE or other anæsthetic equipment

Designed to meet the exacting requirements of modern surgery, this B.O.C. portable anæsthetic stand (six cylinder model) is superbly built and finished, and smoothly mobile on silent ball-bearing castors. The low centre of gravity makes it extremely stable. Notable protection features include non-interchangeable couplings, with quick coupling of cylinders on the open yoke principle, and colour identification to B.S.I. recommendations. Accommodation is provided for two oxygen cylinders, two nitrous oxide, one cyclopropane, and one carbon dioxide—with each cylinder connected and standing by for immediate use. The stand will carry either Gillies, Boyle, or other anæsthetic equipment. Further details will gladly be supplied on request.

CHEMOTHERAPY OF TUBERCULOSIS

EARLY REPORTS on clinical trials in advanced tuberculosis suggest that isonicotinyl hydrazide has considerable activity and specificity.

It has been stressed that there is an urgent need for carefully controlled clinical studies designed to assess the true value of this drug. Its indiscriminate and uncontrolled use at this stage might seriously influence its future usefulness.

The facts about Glucose

Glucose, a term used to include a substance resulting from the partial hydrolysis of starch, is in practice a general description rather than a precise one. It is applied to medical preparations which contain additives that may not always be wanted and to commercial products of varying degrees of refinement. To identify Glucose in its purest form, *and only in this form*, the term Dextrose is used.

Dextrose, as found in the blood and tissues, is the sugar into which the body converts all carbohydrates. Requiring neither digestion nor chemical alteration, Dextrose is used by the body as a source of immediate energy.

The Dextrose (pure medicinal Glucose) produced by the Pharmaceutical Division of Corn Products Company Limited is prepared in two convenient forms:—

Dextrosol Powdered Glucose

This contains no additives of any kind. It can be taken in large quantities without causing nausea, and should be prescribed in all cases where a patient needs a source of heat and energy with the least demand on the digestion. Packed in 1 lb. & $\frac{1}{2}$ lb. cartons.

Dextrosol Karo Glucose Syrup

for Infants and Children

An appetising blend of pure Glucose and selected carbohydrates, carefully balanced to provide the ideal sugar addition to the milk diet of artificially-fed infants. Of special value in cases of nutritional disorder. Spread on rusks, bread, etc., it offers an excellent supplementary source of energy for growing children. Packed in 1 lb. tins. A Karo Baby Book is available for the guidance of mothers.

Professional samples of both Dextrosol products will be gladly provided. For further information, doctors are invited to write to the Dextrosol Information Bureau, Wellington House, 125/130 Strand, London, W.C.2.

Brand

CHLORAMPHENICOL EAR-DROPS FOR TOPICAL APPLICATION

in Suppurative, Chronic and Postoperative Aural Conditions

Uses

Chloramphenicol B.P. has now assumed an important place in otology. Among its recognized uses is its local application in cases of chronic suppurative middle ear disease, long-standing external otitis and hitherto intractable chronic mastoiditis. Excellent results are also reported from the use of Chloramphenicol B.P. in the treatment of postoperative fenestration and tympano-mastoid cavities. In these cases application of Chloramphenicol solution by the wick method often proves satisfactory.

Case Selection

Chloramphenicol B.P. is active against *Ps. pyocyanea* and many penicillin-resistant strains of *Staphylococcus* and *Streptococcus*. Ideally, sensitivity tests should anticipate its use, but in the absence of laboratory facilities a trial of 'Otophen' is justified when other antibiotics have failed.

Formula

'Otophen' ear-drops are formulated in accordance with the recognized solution now employed by the majority of E.N.T. clinics — Chloramphenicol B.P. 10% w/v in Propylene glycol.

Packings

'Otophen' ear-drops are available in bottles of 15 c.c. ($\frac{1}{2}$ fl. oz.) and 5 c.c. fitted with drop applicator.

When side effects are an obstacle to treatment...

... the administration of a combination of Veriloid with phenobarbitone enables Veratrum therapy to be continued successfully in a majority of those patients who cannot tolerate Veriloid alone because of frequent nausea.

The two substances are now available together as Veriloid-VP, each tablet of which contains 2 mg. of Veriloid with 15 mg. of Phenobarbitone B.P.

VERILOID-VP

VERILOID WITH PHENOBARBITONE

IN ALL DEGREES OF HYPERTENSION

Given concomitantly, phenobarbitone raises the threshold of tolerance of the Veratrum alkaloids and relieves the emotional tension which is so often present in the hypertensive patient. Therapeutically effective doses can thus be given with little or no side-effects.

Dosage of Veriloid-VP is adjusted to individual requirement, an average dose being one to one and one-half tablets four times daily, after meals and at bedtime.

Reference : *Lancet*, 261 : 1002 (Dec.) 1951.

Veriloid-VP may be prescribed on Form B.C.10. It is available in bottles of 100 and 500 scored tablets.

NOTE

Veriloid, plain, remains available as before in tablets of 1 mg. Veriloid is a unique, biologically standardised fraction of Veratrum viride and has been used with marked success in all forms of hypertension. Blood pressure is significantly lowered, without loss of the postural reflexes essential to normal living. Great relief of subjective symptoms is a common feature of therapy.

In contrast to other salicylates, salicylamide does not form free salicylic acid in the stomach and is therefore much better tolerated. To these advantages are added the stimulant and potentiating effect of caffeine together with the analgesic and anti-tussive action of codeine. Lederle

ARTANE*, a product of Lederle research, is effective in all forms of Parkinsonism—postencephalitic, arteriosclerotic, and idiopathic. It is a highly potent antispasmodic which combines a marked degree of clinical effectiveness with unusually low toxicity.

ARTANE response is characterized by improvement in rigidity, and either control or lessening of tremor, drooling, and oculogyria.

ARTANE produces a mild cerebral stimulation and increases emotional stability; patients become more cheerful, alert and responsive; reduction of rigidity and tremor leads to increased activity and independence.

ARTANE has benefited even patients with advanced symptoms of 20 years' duration, as evidenced both by their improved physical status and by their ability to assume some care of their persons.

ARTANE has proved almost as beneficial to postencephalitic patients with an illness of more than 10 years' duration as it has to more recent cases.

ARTANE is effective for patients with arteriosclerotic Parkinsonism; hypertension, renal and heart disorders are not contra-indications for its use. The slight mydriatic effect produced, as compared with that produced by the belladonna alkaloids, is not likely to cause glaucoma.

ARTANE has been reported to produce no ill effects on blood pressure, respiration, blood cell count, kidneys, liver, carbohydrate metabolism, growth or reproduction. **ARTANE** is so relatively free from serious toxic reactions that it can be used by the young and the old, the ambulatory and the infirm, the hypertensive, the cardiac and the nephritic.

One would be hesitant to suggest that Lucretius when he wrote "Quod aliis cibus est aliis fuat acre venenum" was making an observation on the specificity of allergic reactions to food substances. Such is the multiplicity of allergens among foods, and so varied in origin the compound foods eaten today that the rapid identification of the causative agent is not always easy. B₁₂ enters general practice

Among the many factors contributing to sound nutrition, vitamin B₁₂ is taking a recognised place. Its marked tonic effect when given by injection has been widely recognised; and, more recently, the introduction of CYTACON has enabled doctors to give the vitamin *by mouth* for purely nutritional purposes.

In appropriate cases, the effects of CYTACON have been most promising; they include increase in appetite, improvement in general well-being during convalescence, and accelerated weight gain in underweight children. And, because it seems that oral B₁₂ has especial value in the treatment of the younger patient, CYTACON is today available not only in tablet form but also as a sweet, pleasantly flavoured liquid—for teaspoonful dosage.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER**: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

The County Council, and the County District Councils of the County of Montgomery, invite applications from duly qualified and registered medical practitioners who possess a Diploma in Public Health, Sanitary Science, or State Medicine, for the following whole-time mixed appointments:

(1) One medical officer to act as **ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH**, and as **MEDICAL OFFICER OF HEALTH**, respectively, to the following districts: the Borough of Llanfyllin; the Borough of Montgomery; the Borough of Welshpool; the Forden Rural District; and the Llanfyllin Rural District:

(2) One medical officer to act as **ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH**, and as **MEDICAL OFFICER OF HEALTH**, respectively, to the following districts: the Borough of Llanidloes; the Newtown and Llanfihangel Rural District; the Machynlleth Urban District; the Machynlleth Rural District; and the Newtown and Llanidloes Rural District.

As Medical Officer of Health, the officer will be responsible to each District Council in his combined area. As Assistant County Medical Officer of Health, he will act under the general control and supervision of the County Medical Officer. His duties will be those prescribed by statute or regulation, and will be such as are usually attached to such appointments, respectively. He should have had experience of School Health Services (including the examination of handicapped children) and of Child Welfare Services, and a Diploma in Child Health is desirable. The commencing salary will be £1,306 5s. per annum, rising by four annual increments of £56 5s., followed by two annual increments of £31 5s., to a maximum of £1,593 15s., per annum. A motor-car allowance will be paid in accordance with the scales recommended by the National Joint Council for Local Authorities' A.P.T. and C. Services. The appointments are subject to superannuation (and the selected candidates will have to pass a medical examination), and are subject to the provisions of section 110 of the Local Government Act, 1933, and the Sanitary Officers (Outside London) Regulations, 1935, as amended by the Sanitary Officers (Outside London) Regulations, 1951. Forms of application may be obtained from my office, and applications, accompanied by two recent testimonials, and the names of two other persons to whom reference can be made, must reach me not later than June 16, 1952.—P. E. White, Clerk of the County Council, County Offices, Welshpool. (4311)

ROXBURGH AND SELKIRK, COUNTIES OF

Applications are invited by the County Councils of the Counties of Roxburgh and Selkirk for the appointment of

CHIEF MEDICAL OFFICER OF HEALTH and CHIEF SCHOOL MEDICAL OFFICER

for these two Counties jointly. Applicants must be registered medical practitioners (male), holding a Diploma in Public Health, or equivalent registered qualification, and have had clinical and administrative experience in public health and school health work. The salary and conditions of service will be in accordance with the national arrangements approved by Committee "C" of the Medical Council of the Whitley Councils for Health Services (Great Britain), the present salary scale being £1,650, rising by annual increments of £50 to £1,850 a year. The appointment of the applicant selected will, for superannuation purposes, be subject to a satisfactory report of medical examination, and he will be required to assume duty about the middle of September next. Applications (twelve copies), stating age, full particulars of qualifications, experience, etc., accompanied by copies of not more than three recent testimonials, should be lodged with the undersigned not later than May 21, 1952. Canvassing, directly or indirectly, will disqualify.—James R. Hulme, County Clerk of Roxburghshire, County Offices, Newtown St. Boswells. (4209)

MIDDLESEX COUNTY COUNCIL County Health Department SENIOR ASSISTANT MEDICAL OFFICER (Male)

Required initially in Area 1 (Enfield and Edmonston) for administrative and some clinical duties, particularly school health service. Must be prepared to undertake also duties of Medical Officer of Health or Deputy of one or more of County districts in area, in which case salary amended as appropriate nationally negotiated scale. Preference given to candidates approved by Ministry of Education for ascertainment of educationally sub-normal children. Established, pensionable, whole-time post, subject to medical assessment and prescribed conditions. Salary as Whitley Council £1,150 by £50 to £1,400 per annum inclusive. Previous service in same grade considered in determining commencing salary. Applications (no forms), stating age, qualifications, experience, two referees, to Joint Area Medical Officer, Public Offices, Enfield, Middlesex, by May 24 (quoting K.728, B.M.J.). Canvassing disqualifies.—C. W. Radcliffe, Clerk of the County Council. (4208)

NORTHAMPTONSHIRE

Applications are invited from registered medical practitioners holding a D.P.H. for appointment of **DISTRICT MEDICAL OFFICER OF HEALTH** for the **Brickworth** and temporarily for the **Northampton Rural District** and

ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH for the same area

The officer will act under the County Medical Officer of Health as Assistant School Medical Officer. Salaries based on awards of the Industrial Court, the aggregate scale being £1,306 5s. by six annual increments to £1,593 15s. The revision of the scheme under Section 111 of the Local Government Act, 1933, may require the officer at some future date to take over a different area in which the allocation of duties will be approximately similar. Travelling allowances on the scale from time to time approved by the County Council will be paid and office accommodation and clerical assistance provided. Appointment subject to (a) the Sanitary Officers (Outside London) Regulations, 1935 and 1951; and the Local Government Act, 1933, (b) the Local Government Superannuation Acts, and (c) the passing of a medical examination. The officer will be required to devote his whole time to the duties of appointment, to reside within the area for which he acts, and to discharge the obligations imposed on a district medical officer of health by the relevant Acts, Orders, and Regulations. Appointment will be determinable upon three months' notice on either side. Applications, stating age, qualifications, and experience, with a copy of a recent testimonial and names of two referees, should reach undersigned by May 23, 1952. Canvassing will disqualify.—J. Alan Turner, Clerk of the County Council, County Hall, Northampton. (3785)

Efficient Salicylate Medication

'ALASIL' is an analgesic, antipyretic and sedative of established value. It provides the physician with an efficient form of salicylate medication which combines the advantages of high tolerability and greater freedom from the possibility of unpleasant gastro-intestinal sequelae.

This tolerability is due to the fact that 'Alasil' is a combination of acetylsalicylic acid and 'Alocol' (Colloidal Aluminium Hydroxide), an effective gastric sedative and antacid.

For these reasons 'Alasil' can be administered with confidence—over prolonged periods if necessary—to children, adults, the aged, and patients with finely balanced digestive capacities.

Alasil

As 'Alasil' is a purely ethical product and not advertised to the public, it can be prescribed under the N.H.S. on Form E.C.10.

Each tablet contains 5 grs. Acetylsalicylic Acid and 6 grs. 'Alocol' (Colloidal Aluminium Hydroxide).

A supply for clinical trial, with full descriptive literature, sent on request.
