

# when nourishment

is the main problem ...

Brand's Essence is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weightreducing diets is especially appreciated by the patient.

# Brand's Essence

(BEEF OR CHICKEN)

it provides the maximum concentration in the most easily assimilated form. Many doctors recommend it in cases where the patient needs "building-up" after illness. Perhaps

# The facts about Glucose

Glucose, a term used to include a substance resulting from the partial hydrolysis of starch, is in practice a general description rather than a precise one. It is applied to medical preparations which contain additives that may not always be wanted and to commercial products of varying degrees of refinement. To identify Glucose in its purest form, and only in this form, the term Dextrose is used.

**Dextrose**, as found in the blood and tissues, is the sugar into which the body converts all carbohydrates. Requiring neither digestion nor chemical alteration, Dextrose is used by the body as a source of immediate energy.

The Dextrose (pure medicinal Glucose) produced by the Pharmaceutical Division of Corn Products Company Limited is prepared in two convenient forms:--

# Dextrosol Powdered Glucose

This contains no additives of any kind. It can be taken in large quantities without causing nausea, and should be prescribed in all cases where a patient needs a source of heat and energy with the least demand on the digestion Packed in 1 lb. & 1 lb. cartons.

# Dextrosol Karo Glucose Syrup

for Infants and Children

An appetising blend of pure Glucose and selected carbohydrates, carefully balanced to provide the ideal sugar addition to the milk diet of artificially-fed infants. Of special value in cases 'of nutritional disorder. Spread on rusks, bread, etc., it offers an excellent supplementary source of energy for growing children. Packed in 1 lb. tins. A Karo Baby Book is available for the guidance of mothers.

Professional samples of both Dextrosol products will be gladly provided. For further information, doctors are invited to write to the Dextrosol Information Bureau, Wellington House, 125/130 Strand, London, W.C.2.

# THE TREATMENT OF

# oro-pharyngeal infections

'PONDETS'

A unique presentation of penicillin for the treatment of minor superficial oro-pharyngeal infections.

The ingenious and novel method of presenting penicillin in 'Pondets,' enables a high therapeutic concentration to be maintained in the immediate vicinity of the oro-pharyngeal mucosa, for a prolonged period.

Each 'Pondet' contains 5,000 units of crystalline penicillin-G in a pleasantly flavoured, hard, fruit-sweet base, which dissolves slowly in the mouth.

'Pondets' are indicated for all minor superficial oral infections due to penicillin sensitive organisms.

Individually wrapped in bottles of 20.

PENICILLIN TROCHES

JOHN WYETH & BROTHER LTD., CLIFTON HOUSE, EUSTON ROAD, LONDON, N.W.1

# below surface

Effective treatment of dermatophytoses requires that the fungicide be carried to the most deep-seated spores. In 'Tineafax' Ointment, the fungicides, chief of which is zinc undecylenate, are incorporated in a base of exceptional penetrating power. 'Tineafax', a bland non-staining ointment, containing no mercurial compounds, does not irritate or break down the skin. It will clear most cases of "athlete's foot ", "dhobie itch" or other types of ringworm of the body in 7 to 21 days. It is issued in tubes of 1 oz. and jars of attack is six companion product, 'Tineafax' Powder, is available in sifter top tips containing 40 gm. available in sifter-top tins containing 40 gm.

when fungus is afoot . . .

# 'TINEAFAX'

COMPOUND UNDECYLENATE OINTMENT AND UNDECYLENATE POWDER

# Notes on High-Protein Diets

(2)

# PROTEIN DEFICIENCY IN PREGNANCY

### Fresh Evidence

Considerable evidence 1,2,3,4 points to a close relationship between protein metabolism and the toxaemias of pregnancy. By ensuring adequate dietary protein, toxaemia is less likely to develop. Anaemia, hypotonia of the uterus and lowered resistance to infection may all result from a low intake of protein. At least 85 G. of protein should be given during the latter half of pregnancy.

# Easiest method of giving protein

Clearly, additional protein should be given to every pregnant woman. By far the easiest way of doing this is to provide the patient with Sanatogen concentrated protein supplement. Sanatogen contains 95% casein combined with 5% sodium glycerophosphate and has a specific nutrient and tonic action. It supplies all the essential amino acids together, has a high rate of utilisation, and is easily digested and rapidly absorbed. Sanatogen contains neither fats nor carbohydrate.

### Equal to 6 oz. lean beef daily

Sanatogen is very easily administered. It is taken mixed as a hot or cold drink, sprinkled on food or mixed in cooked dishes. Taken three times daily, Sanatogen provides the pregnant woman with the equivalent protein nourishment of 6 oz. of lean beef. The routine administration of Sanatogen is your easiest, safest and most effective way of eliminating all danger of protein deficiency during pregnancy.

One would be hesitant to suggest that Lucretius when he wrote "Quod aliis cibus est aliis fuat acre venenum" was making an observation on the specificity of allergic reactions to food substances. Such is the multiplicity of allergens among foods, and so varied in origin the compound foods eaten today that the rapid identification of the causative agent is not always easy. Symptoms often demand treatment before a thorough investigation can be carried out, and antihistaminics are necessary until the offending substance has been discovered.

# ANTHISAN' mepyramine maleate

ANTACID ADSORBENT

Literature, samples and further information from the Medical Department BOOTS PURE DRUG COMPANY LIMITED NOTTINGHAM ENGLAND

HERTS PHARMACEUTICALS LTD., WELWYN GARDEN CITY, ENGLAND.

Naturally Induced The Science of Therapeutics recognizes that all reparative processes require maximal rest-and that naturally induced sleep is its ideal form.

Restorative Sleep For promoting natural sleep, a hot, readily digestible food

beverage is your first choice, especially when insomnia results from pain or restlessness, or from either psychical or dyspeptic syndromes. A nutritious food drink is equally valuable in encouraging undisturbed rest in cardiac distress, lobar pneumonia and other states in which insomnia is a common feature—but where narcotics are contra-indicated. 'Ovaltine' is an invaluable adjunct in these cases because it counteracts sleeplessness while providing in soluble, palatable and easily digestible form important nutritional principles essential for tissue repair.

In the Service of Rehabilitation 'Ovaltine' encourages sedation by day, restorative sleep by night; concurrently it supplies promptly assimilable nutriment, including vitamins, whose easy digestion leaves your patients' tranquillity undisturbed throughout. In diseases, such as myocardial insufficiency and pneumonias, which present the two-fold problem of irritability and difficult feeding, you may confidently prescribe 'Ovaltine'.

Vitamin Standardization per oz.—Vitamin B<sub>1</sub>, 0.3 mg.; Vitamin D, 350 i.u.; Niacin, 2 mg.

A. WANDER LIMITED, LONDON W.1

# Now available ! OTOPHEN

# CHLORAMPHENICOL EAR-DROPS FOR TOPICAL APPLICATION

in Suppurative, Chronic and Postoperative Aural Conditions

### Uses

Chloramphenicol B.P. has now assumed an important place in otology. Among its recognized uses is its local application in cases of chronic suppurative middle ear disease, long-standing external otitis and hitherto intractable chronic mastoiditis. Excellent results are also reported from the use of Chloramphenicol B.P. in the treatment of postoperative fenestration and tympano-mastoid cavities. In these cases application of Chloramphenicol solution by the wick method often proves satisfactory.

### Case Selection

Chloramphenicol B.P. is active against Ps. pyocyanea and many penicillin-resistant strains of Staphylococcus and Streptococcus. Ideally, sensitivity tests should anticipate its use, but in the absence of laboratory facilities a trial of 'Otophen' is justified when other antibiotics have failed.

### Formula

'Otophen' ear-drops are for-mularized in accordance with the recognized solution now employed by the majority of E.N.T. clinics — Chloram-phenicol B.P. 10% w/v in Propylene glycol.

## **Packings**

'Otophen' ear-drops are available in bottles of 15 c.c.  $(\frac{1}{2}$  fl. oz.) and 5 c.c. fitted with drop applicator.

Permissible on E.C.10 Forms

MULTIPAX CHEMICALS LTD., 32 SHAFTESBURY AVE., LONDON W.I

# IMMOBILIZATION OF YOUNG PATIENTS BY THIN GYPSONA CASTS

This illustration and details below are from a case where a thin Gypsona cast was used to immobilize a very young boy after a skin grafting operation. Gypsona bandages are evenly impregnated with a uniform content of plaster of Paris, enabling the weight and thickness of the cast to be carefully controlled. This makes Gypsona very suitable for forming thin lightweight casts, such as the one shown on the child below. Gypsona has added convenience in its ready-for-use and quick-setting properties.

Case History: A 22 month old boy scalded his trunk, right axilla and leg—15% of his body surface being affected. Plasma transfusion was given and the scald dressed with penicillin cream.

A fortnight later, at the second re-dressing, the thigh scalds were healed, but on the trunk there was *complete* skin destruction, with dead collagen overlying early granulations.

These were removed under a general anæsthetic. Raw area was covered with split skin grafts from the thighs. Grafts fixed with a pressure dressing and child immobilized by a thin Gypsona cast.

A week later the cast was removed. 100% take of grafts. Paraffin gauze dressing applied. 11 days later the scalds were soundly healed and the child sent home.

# OTHER SMITH & NEPHEW PRODUCTS USED IN THIS TECHNIQUE

JELONET is a paraffin gauze dressing containing 1.225% Balsam of Peru. Its non-adherent properties prevent dressing trauma, making it particularly suitable for wound areas encountered in skin grafting operations.

without the adhesive spread. It therefore maintains uniform tension when stretched for long periods, keeping the pressure dressing firm throughout the period of immobilization.

# GYPSONA · ELASTOCREPE · JELONET

are made by T. J. Smith & Nephew Ltd., Hull. Full details are available on request to the Medical Division of the manufacturers. Outside the British Commonwealth, Elastocrepe and Elastoplast are known as Tensocrepe and Tensoplast respectively.

In addition to the established use of Myanesin Elixir in the treatment of neuro-logical conditions associated with muscular rigidity and tremor it has now been successfully employed in the relief of psychological states characterised by anxiety and tension.

Amer. J. Med. Sci., 1950, 220, 23 describes a group of patients in which anxiety states and obsessional conditions were

present and which following the administration of mephenesin, the active constituent of Myanesin Elixir, obtained complete relaxation.

Best results occurred in anxiety states, however chronic, and 47 out of 50 patients treated for this condition improved.

Dosage of from ½ to I tablespoonful, one to six times daily, is suggested.

# 'MYANESIN' ELIXIR

Containing 1 gramme mephenesin in each tablespoonful. Bottles of 8 fl. oz. 6s. 4d.; 40 fl. oz. 26/1d.

Also available 'Myanesin' Tablets each containing 0.5 gramme mephenesin. Bottles of 50 at 9/8d.

Dosage adjustment to suit the responsiveness of the individual patient can be accomplished in a week or two. Tolerance to Veriloid is not likely to develop, and treatment can be continued

indefinitely without deleterious effect.

Veriloid is available on prescription through all pharmacies in 1.0 mg. tablets, in bottles of 100 and 500. It may be prescribed. on Form E.C.10 without restriction. Literature available on request.

RIKER LABORATORIES LTD., 29, KIRKEWHITE STREET, NOTTINGHAM.

### VERILOID-YP AND VERILOID INTRAVENOUS

Veriloid is also available as Veriloid-VP, containing Veriloid 2 mg and Phenobarbtone B.P. 15 mg. for administration to patients who find it difficult to tolerate Veriloid alone.

For injection in cases of hypertensive crises, it may be obtained in ampoules containing Veriloid 0.4 mg. per cc. in 0.25% acetic acid, under the style of Veriloid Intravenous Solutions.

# 'Benzedrine' tablets

Issued in containers of 50 tablets each containing 5 mg. amphetamine sulphate

'Benzedrine' Tablets for a variety of disorders is evidence of their therapeutic efficacy. When stimulation of the central nervous system is required — in numerous conditions - it can be accomplished with ease and safety by 'Benzedrine' Tablets. They have rightly earned the description, 'a versatile remedy'.

Literature is available on request

# A Matter of Minutes ...

HE common head louse, *Pediculus humanus capitis*, has proved completely vulnerable to SULEO HAIR EMULSION. One treatment with SULEO will clear the most heavily infested head in a matter of minutes. Formulated with D.D.T. *plus* Pyrethrum SULEO acts instantly and remains toxic for at least fourteen days, thus exceeding incubation period of nits by some days. An outstanding advantage is that the hair may be washed during this period without lessening the lethal effect.

SAFE TO USE—HARMLESS TO HAIR & SCALP—EASILY APPLIED—PLEASANTLY PERFUMED—UNDETECTABLE.

Used by Medical Officers throughout the United Kingdom.

# SULEO HAIR EMULSION

Doctors are invited to write for Sample and Literature from JEYES' LABORATORIES LTD. MILLBROOK CHIGWELL ESSEX

# It depends what you mean by 'Banking'

OF COURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as an Executor, help with a customer's Income Tax problems, obtain currency for foreign travel. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'

WESTMINSTER BANK

LIMITED

bottles of 20 and 100
capsules. Original prescriptions
should specify no more than 25
capsules since this quantity is usually
sufficient for complete control. Designs
one capsule 30 to 45 minutes before
meets in the usual case; may
be increased to 2 to 3 capsules

Is rational therapy
Since the problem is complex, NIDOXITAL provides five effect agents for a full range of the rapeutic and prophylactic action:

For the 50% of pregnant women who suffer gestric distress, NEDQXITAL provides rapid relief. In almost all

patients treated with NIDOXITAL, symptoms disappear within one to three days,\*

Since the problem is complete, NIDOXITAL provides five effective agents for a full range of the speutic and prophylactic action:

Betraccine—to diminish gastric excitability

Nicotinamide—to reduce excessive peristalsis

Pentobarbital sodium—to depress central excitability

di-Michionine—to support normal liver function

Pyridoxine—for fatty acid and protein metabolism,

maintenance of nerve function and erythropolesis. Pyridoxine is reported by many clinicians to have a favourable effect in neusea and vomiting of pregnancy and is a firmly established agent in treatment of this condition.

# APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

\*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present urrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years: £775 per annum in the first year; £890 per annum in the second and any subsequent years: £1,000 per annum in the first year; £1,000 per annum in the second year; £1,000 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades Whole-time

### Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

### ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

# **ANY QUESTIONS?**

3rd IMPRESSION

A selection of practical questions and expert answers from the "Any Questions?" section of the British Medical Journal.

"The series has been so successful that repeated demands were received for a selection of the answers to be published. In this first book they have been fairly evenly apportioned over the whole field of medicine, so that there is something to every one's taste." From a review by Professor L. J. WITTS.

To secure a copy, cut out the form opposite and post with your remittance to The Publishing Manager. An early order is advised.

### SERVICES

ROYAL ARMY MEDICAL CORPS
Short Service and Regular Commissions
The War Office invites applications from registered medical practitioners, men and women, for Short Service Commissions in the Royal Army Medical Corps, for a period of eight years, of which from two to eight years is on the active list and the balance on the reserve. Civilian applicants liable for service under the National Service Acts are not accepted for less than four years on the active list. Extensions up to a maximum of eight years on the active list are admissible. Appointment is in the rank of licutenant, with promotion to captain after one year's service. An of eight years on the active list are admissible. Appointment is in the rank of licutenant, with promotion to captain after one year's service. An unmarried applicant with no previous service receives initially total emoluments of approximately £750 a year, rising to £860 a year on promotion to captain. This rises to £914 after two years as a captain, to £960 a year later, to £1.015 after a further year, and to £1,070 after six years in captain's rank. Married male officers aged 25 years of age receive about £137 a year more. Antedates of up to two years for civil experience in the hospital field may be given. Applicants appointed for four or more years on the active list are eligible after six months' total service for specialist training. Those appointed within twelve months of leaving superannuable employment as medical practitioners on the staff of an employing authority under the National Health Service may continue contributions during the active list period of their short service commission and preserve their superannuation position. On satisfactory termination of active list service, officers not appointed to a regular commission are eligible for

gratuities ranging from £450 for three years up £1,200 for eight years' active list service. Male officers may apply for Regular Commissions on completion of six months as a short service medical officer. Previous full pay service as an R.A.M.C. officer. Previous full pay service as an R.A.M.C. medical officer counts towards seniority, increments of pay, promotion, and pension. Regular commissions are not available for women. Regular commissions are not available for women. Regular officers retire at ases varying from 53 to 60 years, the majority at 57 years of age. Rates of retired pay vary from £500 to £1,200 a year, the majority getting £875 a year. Officers eligible for full retired pay qualify for a terminal grant up to £1,000. Further details may be obtained on application to the War Office (AMD 1), Lansdowne House, Berkeley Square, London, W.1. Visits to the above address (Room 130) will be welcomed. Telephone GROsvenor 8040, Extension 548. (5738)

## HER MAJESTY'S COLONIAL SERVICE, Malaya

Doctors having medical qualifications registrable by the General Medical Council in the United Kingdom with at least one year's experience after qualification, are required for the following posts:

MEDICAL OFFICERS AND MEDICAL OFFICERS OF HEALTH

of general medical and health duties, including training of hospital assistants and nurses and to assist in teaching clinical work to students.

BACTERIOLOGIST
for duty in the Institute for Medical Research, Malaya. Candidates should have a good academic record. Experience in bacteriology is desirable.

MEDICAL OFFICERS (Anaesthetists)
to administer anaesthetics in larger hospitals and
to instruct junior medical officers. Candidates
must have a Diploma in Anaesthetics.

MEDICAL OFFICERS (Alienists)
to take charge of beds in a mental hospital, under
the supervision of the Medical Superintendent and,
if required, to give evidence in medico-legal cases.
Candidates must possess a Diploma in Psychological Medicine and have had experience in mental
hospitals

hospitals.

PATHOLOGIST

to carry out the diagnostic examination of pathological and bacteriological specimens and to undertake research as directed. Post-mortem examinations and some medico-legal work would also be required. Candidates should have at least two years' experience of clinical pathology, general bacteriology, and particularly of morbid histology and give evidence of ability to undertake research.

RADIOLOGISTS

RADIOLOGISTS for general medical duties and as hospital radio-logists. Candidates should have either a Diploma in Medical Radiology or considerable experience in radiological work.

ASSISTANT PATHOLOGIST

ASSISTANT PATHOLOGIST for duty in the Singapore Medical Department on routine pathological, bacteriological and serological investigation. Preference is for single men aged between 25 and 35 years of age.

Appointments can be made (a) on probation for permanent establishment, (b) on employment from the National Health Service, and (c) on short-term contract with gratuity.

the National Health Service, and (c) on short-term contract with gratuity:

(a) Permanent terms. Subject to three years' probation, appointments are permanent with pension (non-contributory) at age 55. Salary is paid in the scale £952 by £42 to £1.204, to £1.274 by £42 to £1.652 per annum. There is also a cost-of-living allowance at varying rates, according to family circumstances, with minimum of £336 per annum for single men, rising to maximum of £707 per annum for marrièd men with children (both rates rather higher when stationed in Singapore). Note.—Doctors with more than one year's approved experience after age 25 (including service in

H.M. Forces) enter the salary scale at points above the minimum according to their experience, and four increments of salary are also given to holders of approved higher qualifications (e.g. F.R.C.S., M.R.C.P., D.P.H., D.A., etc.).

(b) National Health Service. Doctors may resign from the National Health Service but retain their superannuation rights during their time in Malaya (up to six years) and receive a resettlement grant of 20 per cent of the aggregate of their Malaya salary on leaving Malaya at the end of their engagements. Emoluments as under (a) including incremental credit for experience and higher qualifications as in note under (a). Doctors so appointed may be considered for permanent terms at any time during their colonial employment provided they surrender their rights to the resettlement grant and payment by Malayan Governments of superannuation contributions.

(c) Contract terms. The contract will be for

(c) Contract terms. The contract will be for three years' resident service, renewable for a further tour of three years by mutual agreement. Salary and cost-of-living allowance as under (a) including incremental credit for experience and higher qualifications as in note under (a). In addition a gratuity earned at the rate of £300 to £450 per annum according to salary is paid on expiry of

contract.

Doctors on contract may be considered for appointment to the permanent establishment at any time on their agreeing to surrender their gratuity earning rights. In all three types of appointment the rates of salary and gratuity granted refer to doctors eligible for expatriate terms under Malayan regulations (e.g. whose permanent homes are in the United Kingdom, Ireland, Australia. Canada, etc.). A limited number of doctors liable for call up under the National Service Act, 1948, may apply, and if appointed will be granted indefinite deferment of call up on completion of a minimum apply, and if appointed will be granted indefinite deferment of call up on completion of a minimum period of one tour of three years in the Malayan medical service. The climate is, for the tropics, healthy. European children do well up to the age of about six and schools are available locally. Income tax is payable at Malayan rates which are lower than those in the United Kingdom. Government quarters with heavy furniture are provided at a low rental, or an allowance is paid in lieu of quarters. Free passages are provided for the doctor, is wife, and children under the age of ten (not exceeding four persons besides himself) on appointment and once each way during each tour of duty exceeding four persons besides himself) on appointment and once each way during each tour of duty of three to four years. Generous home leave is granted and local leave is permissible. Application forms can be obtained from the Director of Recruitment (Colonial Service), Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. 27215/242/52). (5777)

### HER MAJESTY'S COLONIAL SERVICE, Nigeria

HER MAJESTY'S COLONIAL SERVICE, Nigeria Applications are invited from doctors with at least one year's experience after qualification for general duties, including hospital and district work in the Medical Department of the Government of Nigeria. General duties posts offer great scope for the practice of many branches of medicine and surgery with a considerable measure of independence and personal responsibility. Doctors possessing approved higher qualifications are appointed for general duties at a higher starting salary under the title "Special Grade Medical Officers" and are posted as far as possible where their special qualifications can best be employed. Appointments may be made as follows: (a) On three years' probation for permanent and pensionable employment in the Colonial Medical Service, with retiring age of between 45 and 55. Pensions are at the rate of 1/600th of final pensionable emoluments for each completed month of reckonable service. (b). From the National Health Service but retain their superannuation rights during their time in Nigeria (up to six years) and receive a resettlement grant of 20 per cent of the aggregate of their Colonial salary on leaving Nigeria at the end of their engagement. (c) On short-term contract (two to four tours of eighteen months' duration) with inclusive salary of from £1,224 per annum, rising to £2,045 per annum; on completion of contract a gratuity is paid at the rate of £37 10s, for each completed period of three months' service (including leave). Officers appointed under (a) or (c) are required to contribute to a widows' and orphans' pension scheme. Salaries (including pensionable expatitation as) appointed under (a) or (c) are required to contribute to a widows' and orphans' pension scheme. Salaries (including pensionable 10 per cent addition to basic salary and pensionable expatriation pay) for officers appointed under (a) or (b) range from £959 to £1,720 per annum. Starting salary in all cases depends on age, experience and war service. Quarters are provided at low rents. Free passages in both directions are provided for officer and his wife. Payment of the cost actually incurred on one outward and one homeward passage for each of two children under age of sixteen, subject to maximum of £75 in respect of the return journey for each child, is also granted. Income tax at local rates. Local leave is permissible and generous home leave is granted after each tour of eighteen months' duration. Candidate must possess medical qualifications registrable in the United Kingdom. Application forms can be obtained from the Director of Recruitment, Colonial Service, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting Ref. No. 27215/89/52), (5778)

## UNIVERSITY APPOINTMENTS

UNIVERSITY OF MANCHESTER

Applications are invited for the post of RESIDENT MEDICAL TUTOR

at Lister House. Salary £650 per annum. The Medical Tutor will have opportunities for some clinical work at the Manchester Royal Infirmary, and for joining in research on the medical Professorial Unit. A higher qualification in medicine will be considered an advantage, Applications should be sent not later than June 20, 1952, to the Registrar, The University, Manchester, 13, from whom further particulars and forms of application may be obtained (5843) may be obtained.

# A NEW BAYER PRODUCT

# Ion Exchange Resin for

Graphic Representation of Cross-linked Polymerized Resin Molecule

A new cation exchange resin containing sulphonic groups (75 per cent in ammonium and 25 per cent potassium cycle), 'Katonium' is active throughout the entire gastro-intestinal tract. It is indicated in ædema where it may enhance the action of mercurial diurectics and permit a more liberal diet containing some sodium. Pleasant to take and not unduly "bulky", 'Katonium' is eminently suitable for hospital use.

Detailed literature is available on request.
