INNERAZE -

The in-built wedge
for the treatment of flat feet

There is nothing new about the use of a wedged heel for the treatment of pronation, but the Inneraze method of applying it *inside the shoe* is new and much superior. For the in-built wedge (of non-absorbent plastic) and the buttressed heel give a degree of correction that is as lasting as the shoe. Neither wear nor repair will alter it, and so the surgeon is relieved of much time-consuming supervision. And at all times Inneraze is practically indistinguishable from a normal shoe. Inneraze was designed, in the closest collaboration with an eminent orthopaedic surgeon, by the makers of the very well-known 'Start-Rite' shoes for children. 'Inneraze' shoes are only supplied against a medical prescription.

Modern Treatment for

FUNGOUS SKIN INFECTIONS

It is now firmly established that the skin protects itself against infection by its "acid mantle." Experiments have proved that the higher fatty acids are extremely effective fungicides which do not produce contact dermatitis. Decilderm Ointment and Powder (Duncan) present the particularly effective fatty acid, undecylenic acid, and its zinc salt. Both preparations are pleasantly perfumed and are easy to apply. They can be used for long periods, if necessary, and are valuable for the treatment of tinea pedis (athlete's foot), tinea cruris (dhobi itch), moniliasis, etc.

The B-complex group of vitamins is responsible for the utilization of carbohydrate in the diet. It also plays an important part in other cellular oxidation systems. In convalescence associated with debility, B-complex is an essential adjunct to treatment, but it is important that a correctly balanced preparation be selected. Such a one is Crookes B-Complex, each sugar-coated tablet containing:

aneurine	1.0 mg.	nicotinamide	10 mg.
riboflavine	1.25 mg.	yeast	227 mg.

THE GILLIES MARK III anæsthesia apparatus

After extensive clinical trials, here is the latest Gillies equipment—compact as ever and readily adaptable to all conditions and all types of gas cylinder.

The Gillies III combines three different circuits in one. It provides for circle-type closed circuit anaesthesia, continuous flow, and atmospheric air with the volatile agents. As with the Boyles Apparatus a Waters Absorber (not included) may be used for "to and fro" closed circuit administration. Incorporating a carbon dioxide absorber the Gillies Mark III is in fact the smallest complete apparatus that combines all these functions. In hospitals it is equally convenient on a stand or a table; for Service use it will fit in with emergency arrangements.

Laxatives for Children

To aid the Physician in choosing a laxative for children, we give the chief characteristics of Andrews. The dosage is easily adjusted according to age. Andrews is pleasant tasting, and children accept it readily. Its laxative action is mild, and is due to the presence of magnesium sulphate and other salts in balanced proportion which increase the fluid content of the bowel by osmotic action and so lead to easy non-

gripping evacuation. Andrews has a soothing effect on the stomach, stimulates the bile-flow, and generally aids digestive processes. It is also useful as a gastric sedative in bilious attacks. Andrews has no costive reaction when discontinued.

Active constituents:

Tartaric Acid ..	24.600%
Sodium Bicarbonate ..	25.142%
Magnesium Sulphate ..	19.000%

PIONEERS OF PENICILLIN

Intensive and prolonged research by British scientists, the pioneers of penicillin, gave this great anti-bacterial drug to the world. In the field of research and manufacture I.C.I. played a leading and important part and was one of the first manufacturers to produce penicillin in commercial quantities. Since then, I.C.I. have carried out a continuous programme of research and development, and now produce a comprehensive range of penicillin formulations.

The 'HEXOPHENE' Pre-operative Technique

- cuts scrubbing time by two-thirds
- cuts costs by one-quarter
- compares favourably* with the standard surgical scrub and spirit rinse

* Independent clinical tests in the surgical wards of a large English hospital have demonstrated that the HEXOPHENE pre-operative technique compares favourably with the routine surgical scrub and alcohol rinse in maintaining surgical sterility of the skin of the surgeon's hands. The tests extended over six months and covered 120 operations. The low re-infection rate and the wound-sepsis rate of the HEXOPHENE technique paralleled that of the standard scrub and alcohol rinse.

In a second series at another large hospital the material costs of the routine surgical scrub and alcohol rinse indicated that the HEXOPHENE technique is lower in cost by some 26%.

The time taken for the HEXOPHENE technique is approximately one-third that taken for the standard scrub.

A SPENCER SUPPORT for Intervertebral Disc

In both conservative and surgical treatment of intervertebral disc, application of a back support is usually indicated.* We invite the surgeons' investigation of Spencer as an adjunct to treatment. Each Spencer is *individually designed, cut and made* for each patient—after a description of the patient's body and posture has been recorded and detailed measurements taken. Thus, individual support requirements are accurately met. The Spencer Spinal Supports shewn incorporating rigid Spinal Brace were individually designed for both man and woman patients. Note exterior pelvic binder for added pelvic stability.

Most of us find Nature at her best between May and July. New leaves and lush grass reclothe the countryside and almost forgotten sights and sounds return to hedgerow, hill and meadow.

But for a few unhappy hay-fever sufferers this season is a phase of physical misery which, until recently, had to be accepted as inevitable.

Benadryl has been found to relieve the acute discomfort of hay-fever in a striking proportion of cases, and has brought new hope to thousands for whom spring and early summer were seasons to be dreaded.

The solubility curve of Urolucosil* reaches a maximum of 98% at pH 7. The product is consequently ideal for treatment of B.coli infections of the urinary tract. In such conditions high urinary concentration is essential: during Urolucosil therapy, therefore, only the minimum amount of fluid should be taken. This would appear to be directly contrary to normal practice with sulphonamides, but the high solubility combined with a low percentage of acetyl derivatives in Urolucosil ensures that a dose so small as 0.1G. Urolucosil four-hourly will give a urinary concentration as high as 20 mg. per 100 c.c. — a concentration more than adequate for sterilization of the urine. The smallness of the dose and the low acetylation rate combine with the high solubility to make the risk of side-effects negligible with Urolucosil.

Each tablet contains 0.1G. 2-sulphanilamido-5-methyl-1-thio-3 : 4-diazole.

Trufood or some other milk food— what's the difference?

Humanised Trufood is different because it is not just "another dried cow's milk". Cow's milk is, of course, our raw material. But the resemblance between Trufood and other dried milk foods ends there. The process of its manufacture makes Trufood a food specifically adapted to the nutritional needs of the infant who must be artificially fed. Because of this we sincerely believe that Trufood is the most satisfactory alternative for the baby who cannot have breast milk.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of call-up for "R" practitioners (i.e., practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow an "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that he obtains it without delay. Under present arrangements the Committees also normally allow an "R" practitioner to hold a Second House Officer post (£400) and a Senior House Officer post (£670), provided in each case that the higher appointment is secured before the termination of the practitioner's current appointment.

"R" practitioners may not accept Third House Officer posts (£450 per annum) unless they have obtained the special permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER**: £350 per annum for the first post held, £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

These appointments together will constitute whole time, the present allocations, which may be varied from time to time, being six half-days (including one half-day for clinical work as an Assistant County Medical Officer), two half-days and three half-days per week respectively. The proportionate salary for the first mentioned appointment is calculated in accordance with the County Council scale and the others with the latest Industrial Court award, and increments will be given for previous service in the same capacities, the scales being: Medical Officer to Area Health Committee, £700 5s. 8d. by £27 9s. 3d. to £919 19s. 7d.; Assistant County Medical Officer, £93 7s. 5d. by £5 9s. 10d. to £122 6s. 6d.; Medical Officer of Health, Kidsgrove Urban District £281 16s. 4d. by £9 1s. 10d. to £318 3s. 8d.; Medical Officer of Health, Newcastle Rural District, £422 14s. 7d. by £13 12s. 9d. to £477 5s. 5d. The selected candidate will be required to provide a motor car, the allowance for which will be in accordance with the County Council scale. The appointments with the District Councils will be subject to the provisions of the Local Government Superannuation Act, 1937, and the appointment with the County Council to that Act as modified, where applicable, by the National Health Service (Superannuation) Regulations. The successful candidate will be required to pass a medical examination and produce his birth certificate. Applicants must be fully qualified medical men with experience in public health duties, and must hold the Diploma of Public Health. The candidate appointed will, as regards his duties as Medical Officer to the Newcastle Area Health Committee, act under the direction of the County Medical Officer of Health, and will be required to perform such duties as may from time to time be prescribed. As regards his duties as District Medical Officer of Health, he will be subject to the sole control and direction of the local Sanitary Authorities. The appointment of Medical Officer to the Newcastle Area Health Committee will be terminable by three calendar months' notice in writing on either side. Forms of application may be obtained from the Clerk of the County Council, and should be returned to the County Medical Officer of Health, County Buildings, Stafford, by first post on June 24, 1952, together with copies of not more than three recent testimonials.—T. H. Evans, Clerk of the County Council, O. Lloyd Hurst, Clerk of the Kidsgrove Urban District Council, A. Moorley, Clerk of the Newcastle Rural District Council, County Buildings, Stafford. (6188)

ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombieres treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

Efficacy and Convenience in Antacid Therapy

In the management of gastrointestinal disorders associated with hyperchlorhydria, *'Milk of Magnesia' Tablets have proved of outstanding value.

Exerting an immediate and prolonged neutralising action, 'Milk of Magnesia' Tablets offer a valuable prescription to the

physician for the treatment of simple digestive upsets, including gastritis and duodenitis, and equally so, for those cases where frank ulceration has occurred.

Pleasantly mint flavoured and conveniently portable, they are always ready to hand whenever the need of alkalisiation arises.

'Milk of Magnesia' TABLETS

Available in bottles of 30, 75 and 150 tablets.

The Chas. H. Phillips Chemical Co. Ltd. 1, Warple Way, London, W.3.
