See *Medical Directory*, page 1110.**LABORATORY, 14, NEWMAN STREET, OXFORD STREET, W.***All communications to be addressed to the Manager. Prospectuses and Lists sent on application enclosing stamp.***SOLUTION OF BIMECONATE OF MORPHIA.**

(Vide "LANCET," MARCH 4, 1839.)

This preparation has been used by the leading Physicians and Surgeons for the last thirty years.

DR. MACLEOD stated that it rarely produced headache, and has repeatedly answered where opium has disagreed, and succeeded in cases where the other salts of Morphia had failed to give relief.

Dr. A. T. THOMSON said it possessed anodyne properties superior to any of the salts of Morphia in ordinary use.

Dr. ROOTS states that he had taken every other preparation of Opium, but from none of them had obtained the same degree of quiet rest that he enjoyed from this Bimeconate of Morphia.

P. & P. W. SQUIRE, 277, OXFORD STREET, LONDON, W.**TAMAR INDIEN,**

A laxative, refreshing, and medicated Fruit Lozenge, very agreeable to take, and never causing irritation. Its physiological action assures the immediate relief and infallible cure of

CONSTIPATION,

CEREBRAL CONGESTION, HEADACHE, etc., etc., by augmenting the peristaltic movement of the intestines without producing undue secretion of the liquids. Its stools are not serous, but composed entirely of mucus and abundant fecal matter. Unlike pills and the usual purgatives, it does not predispose to intestinal sluggishness, and the same dose always produces the same effect, that is to say, never needs increasing.

Prepared by E. GRILLON, Pharmacien, 25, Rue de Grammont, Paris; and sold by Messrs. BARCLAY and SONS, Farringdon Street, London, and nearly all respectable Chemists. Price 2s. 6d. per box (stamped), by post 2s. 9d.
