

CURRENT THERAPY 1953

To-day's best treatments, as being used by America's leading authorities. Each of the 373 physicians who contributed was selected as the man using the most effective treatment known to medical science to-day for the disease he writes about.

Edited by HOWARD F. CONN, M.D., 860 pages.

New (19th) Edition—Completely Revised and Reorganized.

Definitely a POCKET size. For half a century the "American Pocket " has been the choice of doctors, dentists, nurses, pharmacists, students, and office workers having need to refer to medical terminology. Now contains more than 37,500 different terms. Plain edition 17s., thumb-indexed edition 19s.

DORLAND'S AMERICAN POCKET

MEDICAL DICTIONARY

PRACTICAL DERMATOLOGY

By GEORGE M. LEWIS, M.D., 328 pages, with 99 plates. 37s. 6d.

". . . discussing with much common sense the various groups of dermatological ills in a manner that any doctor can understand . . . a most important and valuable addition to the literature . . . just the type of work which the student and practitioner require."

BRITISH MEDICAL JOURNAL.

PHARMACOLOGY IN CLINICAL PRACTICE

By HARRY BECKMAN, M.D., 839 pages, 152 figures.

"... one of the best books on therapeutics that has been published in the English language, and one which should be owned and carefully studied by every senior medical student, house officer and registrar, and there will be few practitioners who will not benefit from it."

THE PRACTITIONER.

MANUAL OF CLINICAL ALLERGY

By JOHN M. SHELDON, M.D., ROBERT G. LOVELL, M.D., and KENNETH P. MATHEWS, M.D., 413 pages, illustrated. 42s. 6d. Provides clear and specific instructions on clinical diagnosis and treatment of allergic disorders.

SPECIALTIES IN GENERAL PRACTICE

By RUSSELL L. CECIL, M.D., 818 pages, 470 illustrations. 75s. ". . . specifically for reference by those engaged in general practice. It will undoubtedly meet a much-needed demand . . . a useful reference THE PRACTITIONER. book of such high standard."

(The prices quoted are special prices which apply only to United Kingdom and Eire.)

NOW AVAILABLE!

A single capsule providing adequate adequate daily dosage of eleven vitamins...

WANDIN

ADVANTAGES

Economy of pack and price Comprehensiveness of formula renience of shape and size Adequate daily dosage in each capsule

EACH WANDERVITE CAPSULE provides not merely supplementary quantities to counteract nutritional insufficiency, but the approximate adult daily requirement of each of its eleven constituent

FORMULA (each capsule):-

Vitamin A . . . 5,000 1.11. Vitamin B1. Nicotinamide....15 mg Vitemin B2... Vitamin C.... 50 mg. d-Calcium Vitamin D....1,000 Lp. Vitamin B. ... pantothenate.. 5 mg. Vitamin E..... 5 mg. Vitamin B₁₂..... 1 μg. Folic acid.....0.1 mg.

Because a diagnosis of deficiency of one vitamin or group often implies shortage of other vitamins, treatment of vitamin deficiencies requires a balanced supply of the important accessory factors whose presence is known or believed to be essential to normal health. Wandervite' Capsules provide this.

PACK: Tin of 36 Capsules (1 month's supply)

The Chronically Overworked

The overworked patient is familiar to every doctor. He cannot concentrate in his office, yet his sleep is disturbed by the intrusion of business worries. He suffers from morning depression, and vague gastro-intestinal symptoms appear.

IN THESE CIRCUMSTANCES, A COURSE OF 'NEURO PHOSPHATES' WILL PROVE
BENEFICIAL BY RESTORING BODILY AND MENTAL VIGOUR

Recommended dosage:
Two teaspoonfuls,
with water,
t.i.d. before meals.

'Neuro Phosphates' ('ESKAY')

Prescribed so widely because it works so well

MENLEY & JAMES, LIMITED, COLDHARBOUR LANE, LONDON, S.E.5

'Thiomerin'

SODIUM

(MERCAPTOMERIN SODIUM)

THE NEW MERCURIAL DIURETIC FOR SUBCUTANEOUS INJECTION

'Thiomerin' differs from other mercurial diuretics in that the mercury is in combination with an organic group plus another compound—sodium thioglycollate, which has a marked detoxicating action on the mercury. The volume of urine excreted is mainly determined by the size and frequency of the injections. Intravenous injections merely speed up the process by a few hours but have no effect on the final weight loss. 'Thiomerin' diuresis induced by subcutaneous injection (0.5 to 2 cc) is

gentle, slower in onset but equal in output to that of any other mercurial, however administered. The patient benefits, both from a painless injection and because less frequent bladder emptying, especially at night, permits much-

needed rest and imposes less strain.

ALFICETYN EYE OINTMENT

Containing 1% Chloramphenicol B.P., in collapsible tubes of 60 grains.

Literature on the above A & H products on request.

A new combination

CODIS

soluble aspirin with codeine phosphate and phenacetin

Codis presents a familiar grouping of analgesic drugs; aspirin, phenacetin, codeine phosphate; with an important advantage. The "aspirin" in Codis is rendered soluble, as in 'Solprin'.

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein. Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION

Each Codis tablet contains:—Acid Acetylsalicyl. B.P. 4 grs., Phenacet. B. P. 4 grs., Codeine Phosph. B.P. 0.125 grs., Calc. Carb. B.P. 1.2 grs., Acid. Cit. B.P. (Exsic) 0.4 grs., Excip ad. 11.45 grs.

Codis is not advertised to the public DISPENSING PACK (Purchase Tax free) 300 tablets in distinctive gold foils of 6 tablets each 16/6 per box.

PUBLIC SIZES Packs of 20 tablets 2/9 each inc. P.T.

An Effective Antacid of established value

Immediate neutralization of gastric acid, yet unaccompanied by the

disadvantages arising from carbonate medication, clearly indicates the clinical superiority of 'Milk of Magnesia'* as a therapeutic antacid.

Non-systemic in action, 'Milk of Magnesia' may confidently be prescribed in

a wide variety of conditions associated with gastric acid disturbance — from the mild case of dyspepsia to the acute ulcer stage — where intensive alkaline treatment is essential.

'Milk of Magnesia' reacts with the acids of the stomach to form a neutral laxative salt which promotes gentle but effective elimination.

Milk of Magnesia ANTACID LAXATIVE

The Chas. H. Phillips Chemical Co. Ltd., 1 Warple Way, London, W. 3.

* 'Milk of Magnesia' is the trade mark of Phillips' preparation of magnesia.

nourishment

is the main problem ...

Brand's Essence is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weightreducing diets is especially appreciated by the patient.

Brand's Essence

(BEEF OR CHICKEN)

Gastro-Duodenal Ulceration

AMINO ACID AND ANTACID THERAPY

The Medical Management of Gastro-Duodenal Ulceration Rapid disintegration ensures prompt relief from Epigastric pain due to hyperacidity and gastro-duodenal ulceration.

A prolonged "buffering action" for over three hours is established causing no "acid rebound." The liberation of the amino acid glycine stimulates the granulation of the ulcer bed and the normal enzyme activity is ensured whilst the mucosa is protected by the freely formed colloidal gel.

FORMULA: Dihydroxy aluminium aminoacetate—250 mgms.; Glycine—30 mgms.

In bottles of 100 tablets (84/- per doz.), bottles of 1,000 tablets (62/- each). (Prices plus P. Tax.)

SECOND VOLUME

OF

"ANY QUESTIONS?"

FOR TEN YEARS a number of experts have each week constituted a Brains Trust for answering questions sent to the

BRITISH MEDICAL JOURNAL

from all over the world.

The second volume of "Any Questions?" complements the 1st volume, of which 10,000 copies have been sold. Subjects covered lightly in the 1st volume, such as "Marital Problems" and "Immunization," receive more detailed treatment in the new volume.

Please reserve your copy now as the edition is limited. The book is bound in cloth, fully indexed, small enough to fit the pocket, and quite indispensable to the general practitioner in his daily work.

224 pages, price 7/6, post 6d. extra

REFRESHER COURSE

FOR

GENERAL PRACTITIONERS

The first collection of refresher course articles, now published as a book, comprises the 55 chapters printed in the *British Medical Journal* between October, 1949, and December, 1950. Each chapter has been specially revised by its author and brought up to date, and there is a full index. Although the volume is primarily for general practitioners, it will also appeal to specialists who wish to be kept informed of work in fields other than their own.

The volume has 512 pages medium 8vo, and is strongly bound in red cloth. An early order is advised.

The

"Cestra" Mask

For SURGEONS and NURSES

BACTERIOLOGICALLY TESTED AND SPECIALLY DESIGNED FOR THE PREVENTION OF DROPLET INFECTION

After many bacteriological experiments, this mask was designed to arrest all droplets from the mouth and nose, and so prevent contamination during operations. The "Cestra" mask consists of 4 layers of Fine Dental Gauza. It fastens securely under the chin, has an air gap at the sides, is comfortable to wear for long periods and may be estily sterilized.

Obtainable from Chemists and Medical Stores

Made by: Robinson & Sons, Ltd., Wheat Bridge Mills, Chesterfield.

London Office: King's Bourne House, 229/231, High Holborn LONDON, W.C.I.

Elastic Bandage

A Lastonet bandage provides firm and constant support without restricting movement. It will not easily work loose.

> The 'advantage of Lastonet is that it stretches equally in all directions to afford full and even support in every movement of the limb. The net is also light in weight and self-ventilating.

When the need is SUPPORT

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scotlish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter.

month thereafter.
An "R" pract month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year;

\$890 per annum in the second and any subsequent years.

(b) \$SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years; £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

one year only: £5/0 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

CHEST AND TUBERCULOSIS

SCOTLAND, WESTERN REGIONAL HOSPITAL BOARD

Three vacancies exist for
Whole-time CONSULTANT CHEST PHYSICIANS
with primary duties in tuberculosis. These are to
be regarded as the first instalment of five appointments which will be made under a scheme for
the reorganization of the tuberculosis service in
the Citty of Glasgow. Each of the five sectors
will comprise a population of approximately
200,000. Successful applicants will be required to
assume responsibility within their sectors for the
clinic arrangements, and will be given in-patient
facilities. They will also be required to co-operate
with the Public Health Department of the City.
The present appointments will be related in the
first instance (a) to the Northern Sector (Ruchill
Hospital, Glenfarg Street and Black Street Clinics);
(b) to the South-Western Sector (Mearnskirk Hospital, Florence Street and Govan Town Hall
Clinics); and (c) to the Eastern Sector (Belvidere
Hospital and Acorn Street Clinic). One of the
Consultant Physicians appointed will be further
required to assume overall responsibility for the
organization and general administration, in liaison
with the Medical Officer of Health, of the tuberculosis arrangements within the City area. A successful applicant must be prepared to accept an
appointment in any one of these sectors. Additional information may be obtained from the Senior
Administrative Medical Officer. Applications (sixteen copies), stating date of birth, qualifications,
experience, present appointment, and the names of
three referees, to reach the Secretary. Western
Regional Hospital Board, 64, West Regent Street,
Glasgow, not later than thirty days after the publication of this advertisement. These appointments
are subject to the National Health Service (Scotland) (Superannuation) Regulations. (4557)

ROFFEY PARK INSTITUTE (Department of Occupational Health and Social Medicine)

POSTGRADUATE COURSE ON RESETTLEMENT AFTER ILLNESS

The next residential course starts on Monday, May 11, 1953, and last five days. The course is intended for medical and surgical consultants and senior registrars, for whom Regional Boards normally pay the comprehensive cost of £10 10s. Some vacancies are available for general practitioners under N.H.S. regulations. Accommodation is provided in a comfortable residential club. Apply, Medical Director, Roffey Park Institute, Horsham. Sussex. (4530)

SOCIETY OF APOTHECARIES OF LONDON (M.M.S.A.)

(M.M.S.A.)

The Mastery of Midwirery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Infant Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent; the Examination, written, oral, and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maiernal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars' Lane. E.C.4.

UNIVERSITY OF LIVERPOOL Faculty of Medicine Department of Anaesthesia

A course of Postgraduate Instruction in Anaesthesia, limited to ten students, will be conducted at Liverpool University lasting for one academic year and commencing October 1, 1953. The course will combine instruction in the practical administration of anaesthetics with lectures and demonstrations in anatomy (including dissection), physiology, pathology, physics, pharmacology, medicine and surgery, and anaesthesia. For the purpose of gaining practical experience, the students will be found suitable appointments in recognized general hospitals within the Liverpool area. No student will be eligible to commence the course until twelve months after graduation, and he must be possessed of a registrable qualification or be a graduate in medicine and surgery to fit him to take a higher qualification in anaesthesia. Some previous experience in anaesthetic methods will be required from those applying for this course. The fee for the course is £60. Applications should be made to the Reader in Anaesthesia, The University, Liverpool, 3, not later than April 30. Forms for this nurpose are available on request. (3999) A course of Postgraduate Instruction in Anaes-

The complete answer for macrocytic anæmias

Clinical experience over a decade has established that the administration of Anahæmin constitutes the most effective form of treatment for pernicious

Anahæmin produces, with small and comparatively infrequent doses, a prompt and satisfactory erythropoiesis in patients in relapse, it ensures the

maintenance of a normal erythrocyte level in patients in remission and is effective in preventing the onset of subacute combined degeneration of the cord. Anahæmin has also been found to be of value in the treatment of herpes zoster and post-herpetic neuralgia. The suggested dosage is 4 ml. on alternate days until relief is obtained.

Anahæmin is available in:

1 ml. ampoules, Boxes of 3 at 8/3, 6 at 15/3, 25 at 58/6 2 ml. ampoules, Boxes of 3 at 13/6, 6 at 25/9, 25 at 100/-Vials of 10 ml. at 19/10 and 25 ml. at 48/5

FREEDOM FOR A DAY!

"Come again tomorrow for another penicillin injection." Tomorrow . . . tomorrow . . . how relentlessly must the attack on infection be pressed home. But how relentlessly those "tomorrows" confine the doctor to a restricted programme.

Unavoidable? Not always, by any means.

Crystapen Oral Tablets can effectively deal with the less severe and more accessible infections—boils carbuncles, tonsillitis, abscesses and cellulitis, for instance, and given a supply of tablets and a simple dosage schedule. the patient can easily carry out the treatment himself.

Two strengths: 125 and 250 mg. (200,000 and 400,000 units) crystalline potassium penicillin G per tablet: in bottles of 12 and 100.

BREATH TAKING

It is one thing to gasp for breath for a living . . . quite another to gasp for breath to live. Yet how often this fate befalls the chronic bronchitic.

How often . . . but how seldom is it inevitable.

Estopen rapidly reduces coughing and sputum production even in those obdurate cases that fail to respond to high doses of sodium penicillin.

Estopen has unique affinity for the lungsflooding the inflamed tissues with high, sustained levels of penicillin.

penethamate hydriodide

reaches the lung in strength

Single-dose vials of 500,000 and 100,000 units

THROMBIN (MAW) in Mastoidectomy

Haemostasis

THROMBIN has been successfully used in Mastoidectomy operations to control bleeding. It acts efficiently and quickly, and is very simple to apply. It may either be syringed on to the swabbed wound surface (in concentrated form), or used in conjunction with haemostatic dressings such as gelatin foam or fibrin foam.

Filling 'dead spaces' The characteristic property of Thrombin is that when mixed with plasma it produces a true physiological clot. As such it can be successfully used for filling 'dead spaces' after mastoidectomy—since physiological clots rapidly become organised tissue. The space is filled with plasma in which penicillin has been dissolved, and then clotted with a few drops of Thrombin solution.

SOME FACTS ABOUT THROMBIN

STABILITY: THROMBIN keeps indefinitely in the dry state, and therefore may be kept in stock against an emergency. **STERILITY:** THROMBIN is sterilised by filtration, and needs no re-sterilisation.

ADSORPTION: THROMBIN is easily adsorbed by solids, and should therefore be applied by syringe or spray.

APPLICATION: THROMBIN is supplied in a dry ampoule, together with an ampoule of diluent. Solution is very rapid. QUANTITY: THROMBIN is available for surgical purposes in ampoules of 50, 200, and 5,000 N.I.H. UNITS, and for oral use in packages each of five doses of 5,000 N.I.H. UNITS.

Good results for THROMBIN are being reported in many varied surgical applications,

and we shall be glad to supply further information. Inquiries should be addressed to:

The Medical Research Dept., S. MAW SON AND SONS LTD., BARNET, HERTS. Phone: BARNET 5555.

CALADRYL

The ability of Benadryl[®] to relieve the itching and irritation that accompany many allergic and non-allergic skin affections has led to its widespread use by local application.

Caladryl[®] combines Benadryl with calamine in the form of a creamy and non-greasy lotion. Its soothing, antipruritic and mildly analgesic action is of particular value in alleviating sleeplessness and the impulse to scratch the affected part in cases of skin irritation in young children.

Bottles of 4 and 80 fluid ounces

Also available as a cream in 12 ounce tubes.

"Doctor, it's MY NERVES I must tell you about..." Strange how this condition increases in proportion to the amount of civilisation and industrialisation thrust upon us! Is it self-induced hysteria? An emotional reaction against life? Overwork? Should all such cases be referred to the psychiatrist? Or is it a combination of physical and emotional factors?

Have you ever considered the use of protein tonic for such patients? Sanatogen has a most excellent record in this field and is probably the most widely used. This preparation contains 95% protein combined with 5% sodium glycerophosphate, has a specific nutrient and tonic effect on the whole system and a high rate of utilisation.

Sanatogen supplies all the essential amino-acids together, thus permitting tissue regeneration in accordance with the all-or-none dietetic law. Its recorded successes seem to indicate that the relationship between an adequate protein intake and the "nerves" patient may be much closer than has been thought. Have you considered the use of Sanatogen in this light?

Sanatogen

THE PROTEIN NERVE TONIC

The word 'Sanatogen' is a regd. trade mark of Genatosan Ltd., Loughborough, Leics.

IN ESSENTIAL HYPERTENSION

A CENTRALLY-ACTING VASORELAXANT WITH A POTENT HYPOTENSIVE ACTION

VERILOID*

Veriloid (plain)

Supplied in scored tablets of 1 mg. and 2 mg. Average dose: 9 to 15 mg. divided into three doses at 6 to 8 hourly intervals, preferably after meals.

Veriloid-VP

Scored tablets of Veriloid, 2 mg., with Phenobarbitone, 15 mg. Provides mild sedation, and also enables effective hypotensive doses to be given to patients readily nauseated by Veriloid given alone.

Veriloid Intramuscular & Intravenous Solutions

Produce an immediate and pronounced reduction of bloodpressure and find valuable application in the treatment of acute episodes of hypertension, e.g. malignant hypertension, encephalopathy and eclampsia. An outstanding feature of the hypotensive action of Veriloid is its central action, which effects vaso-relaxation by impulses transmitted to the arteriolar musculature. Ganglionic function is not disturbed, therefore there is no interference with the postural reflexes essential for normal activity.

Veriloid, a unique preparation of the ester alkaloids of Veratrum viride, is specifically indicated in all grades of essential hypertension. Because it is biologically standardized in dogs, its clinical effect is significant and dependable. If dosage is carefully adjusted, control of blood-pressure throughout the whole day is entirely possible.

* Trade Mark of

RIKER LABORATORIES LIMITED 29 KIRKEWHITE ST., NOTTINGHAM

- 7 No compromise of renal function . . .
- 8 Cerebral blood flow is not decreased . . .
- 9 Tolerance or idiosyncrasy rarely develops . . .
- 10 Hence can be given over long periods with the aim of arresting or lessening progression of hypertension . . .
- 11 Well tolerated in properly adjusted dosage; does not occasion headache . . .
- 12 Produces a prompt and sustained reduction of blood-pressure in all forms of hypertension . . .

solution of vitamin B₁₂

Distributed by BURROUGHS WELLCOME & CO. EVANS MEDICAL SUPPLIES LTD.

IMPERIAL CHEMICAL (PHARMACEUTICALS) LTD.

'Distivit' B12 is highly effective in the treatment of pernicious anaemia, including the neurological complications of the disease. Megaloblastic bone marrow becomes normoblastic, there is a rapid increase in the red cell count and haemoglobin level, and clinical symptoms disappear. 'Distivit' B12 is also useful in the treatment of other types of macrocytic anaemia. There are no known contra-indications to its use and there is no evidence that it gives rise to undesirable side-effects. 'Distivit' B12 is issued

in three strengths in ampoules containing 20, 50 and 100 micrograms per ml. in boxes of 5×1 ml. ampoules.

'DISTIVIT,' a trade mark, is the property of the manufacturers
