

M E D I C I N E

An important new work in two volumes
by 42 distinguished specialists

Edited by

HUGH G. GARLAND, T.D., M.D., F.R.C.P.

and

WILLIAM PHILLIPS, M.D., B.Sc., F.R.C.P.

Foreword by

F. A. E. CREW, T.D., D.Sc., Ph.D., F.R.S.

For this important new work forty-two distinguished specialists have produced selected discussions covering the nature, meaning, manifestations and measurement of health and disease, both physical and mental. Volume I, in thirty-four sections, covers among other things social medicine, vitamin deficiency, skin and venereal diseases, psychiatric medicine, and illnesses fostered by industrial conditions and modern communications. Volume II, in eight sections, treats of the digestive, nervous, locomotor, haemopoietic, reticulo-endothelial, cardiovascular, respiratory and urinary systems. The work contains over 2,000 pages size 10" × 7½", 54 pages of plates (including seven in colour) and numerous half-tone and line illustrations in the text. £6 net the set of two volumes.

MACMILLAN & CO., LTD., St. Martin's Street, W.C.2

The relief of NIGHT CRAMPS by QUININE

The painful condition of idiopathic night cramps of the extremities may seriously interfere with sleep. They can, however, be abolished in 9 cases out of 10 by the administration of small oral doses of quinine (3-5 grains) at bedtime.

LIQUID**TABLETS****INFANTS**

Easily assimilable **IRON**

CROOKES NEO-FERRUM is a stable colloidal ferric hydroxide with traces of copper and manganese. 1 teaspoonful contains the equivalent of 30 grains of iron and ammonium citrate. 1 tablet contains the equivalent of 15 grains of iron and ammonium citrate. 1 drop from the Infant's Pack ($\frac{1}{4}$ minim) contains the equivalent of $\frac{3}{8}$ grain of iron and ammonium citrate.

CROOKES NEO-FERRUM (liquid or tablets) is extremely pleasant to the taste and is tolerated by patients who previously have been unable to tolerate other iron preparations.

CROOKES NEO-FERRUM (Infants) is readily miscible with the infant's feeds and the Infant's Pack makes its administration a very simple procedure. The extremely low incidence of gastro-intestinal disturbances is of great importance in this respect.

Specimens and full literature on request.

Neo-Ferrum

LIQUID 4 oz. (114 ml.), 8 oz. (227 ml.), 80 oz. (2 $\frac{1}{4}$ l.).

TABLETS Bottles of 50 and 250.

INFANTS $\frac{1}{2}$ oz. Bottles (with pipette).

Fewer Skin Risks

PoroPlast, the new porous elastic adhesive bandage, has already shown that it can very considerably reduce the skin hazards associated with the use of an ordinary elastic adhesive bandage. Not only is PoroPlast fully porous, giving ventilation over its entire surface even where two layers overlap, *it contains no rubber, no solvents, and none of the irritating resins usually embodied in ordinary elastic adhesive bandages.* In widespread tests it remained in situ for long periods, even on the most sensitive skin, without causing irritation.

PoroPlast

Ample supplies available to hospitals and general practitioners, costing no more than ordinary adhesive bandages. Samples on application.

Elastoplast in the treatment of a sprained wrist

In certain cases of sprain, restriction of extreme movements, but not complete immobilization is required. A useful method of achieving this by Elastoplast strapping is illustrated in the accompanying photographs. A roll of 3 inch Elastoplast is used, and the bandaging consists essentially of figure-of-eight turns around the thumb.

However, because a 3 inch width of bandage passing across the cleft between thumb and index finger would result in undue limitation of their movement, the bandage is split longitudinally for a distance of 2 to 3 inches at each alternate turn to produce a band about 1 inch wide across this cleft, while the other 2 inches of its width pass across the base of the thumb.

For the first turn, slit a 3 inch Elastoplast bandage off-centre for about 4-5 inches to give two tails — one 1 inch and the other 2 inches wide. Apply to the palmar aspect of hand, each side of thumb, so that the narrower tail is close to the clefts of the fingers (Fig. 1). At the next turn, the bandage is split as previously described (Fig. 2). The third turn of complete 3 inch width is passed round the wrist, under tension sufficient to obtain required support and dorsiflexion of the hand. Bandaging is continued, alternately slitting for thumb and passing round wrist, until about four complete figures-of-eight are applied.

Dienoestrol Cream

(Ortho)

VAGINAL OESTROGEN THERAPY

**in atrophic and senile vaginitis
and postmenopausal pruritis vulvae**

By maximum concentration at the point of need and rapid absorption into the vaginal epithelium, Dienoestrol Cream (Ortho) quickly controls symptoms in senile vaginitis, postmenopausal pruritis and atrophic vaginitis. Diminished risk of oestrogen-induced bleeding and freedom from untoward reactions have been noteworthy in patients using Dienoestrol Cream (Ortho) over long periods.

DOSAGE: One applicatorful per day for one or two weeks, reduced to one applicatorful every 48 hours for a similar period.

On original prescriptions specify "Dienoestrol Cream (Ortho) with applicator."

METHADONE (AMIDONE) HYDROCHLORIDE

BURROUGHS WELLCOME & CO. (The Wellcome Foundation Ltd.) LONDON

Nervous Exhaustion

Practitioners often encounter patients whose ill-health is due mainly to emotional or neurotic disturbance. Frequently there appears to be no physical basis and their principal symptoms are usually undue nervousness, fatigue and poor appetite.

For these mildly neurasthenic and exhausted cases 'BEPLETE' Wyeth is uniquely appropriate. It contains Phenobarbitone and Vitamin B-complex as an appetising Elixir, and so provides a quieting relaxation, while at the same time supplying nutritional factors known to be essential for the energy requirements of nervous metabolism.

'BEPLETE' contains:—
Phenobarbitone B.P. 4gr.: Aneurine Hydrochloride 1.5 mg.: Riboflavin 1.0 mg.: Pyridoxine Hydrochloride 0.35 mg.: Nicotinamide B.P. 10.0 mg.: Pantothenyl Alcohol 0.2 mg. (equivalent to 0.212 mg. Pantothenic Acid): Alcohol 15%.

"F99" in the treatment of FURUNCULOSIS

Diagnosis: Severe furunculosis, present for years. Photograph taken on June 29, 1949, before treatment with "F99".

Photograph taken on July 21, 1949. Treatment one "F99" capsule and one application of "F99" ointment daily.

"F99"—available in capsule, liquid and ointment forms—is a concentrate of the active isomers of linoleic and linolenic acids, of the highest achievable purity and standardized biological activity.

It is indicated in skin disorders due to essential fatty acid deficiency of dietetic or "absorption" origin, i.e., chronic furunculosis, eczemas of various types including infantile eczema and in some cases of acne. It is also excellent in the healing of all wounds free from serious infection—particularly leg ulcers. Sufficient success has also been reported to warrant its use—as an unsaturated substance—in the treatment of psoriasis.

"F99" has no N.F. equivalent, is not advertised to the public and may be prescribed on E.C.10. The average weekly cost to the chemist, with full dosage, can be as little as 3/6.

EVANS

make a contribution to

The Treatment of Protein Deficiency States

Quartz spectrophotometer

1 Utilisation by the body of protein hydrolysates is deficient in the absence of vitamins which act as co-enzymes in the synthesis of tissue proteins. In the treatment of hypoproteinæmia, therefore, administration of protein hydrolysates should be accompanied by administration of vitamins.

2 In hypoproteinæmia part of any protein hydrolysates administered may be used as fuel for energy purposes and thus diverted from their specific role in rebuilding tissue protein, unless carbohydrates are simultaneously given. Administration of carbohydrates with hydrolysates prevents 'squandering' of the amino acids.

3 Where a protein deficiency state exists there

is frequently a co-existing anæmia present. To counteract this hæmatopoietic stimulants are required and are best provided by administration of the anti-anæmia factors of proteolysed liver.

HEPOVITE contains protein hydrolysates and hæmatopoietic principles from liver, vitamins and carbohydrates. It is palatable and acceptable to invalids. Available in hermetically sealed tins of 5 oz. (140 grm.).

A Selection of Ethical Pharmaceuticals

'DORMUPAX'

— a superior barbiturate
sedative-hypnotic

'Dormupax' Tablets are characterized by their high efficacy and low toxicity, provided by the combination of a new barbiturate of remarkably low therapeutic index (high ratio of toxic to effective dose), and carbromalum.

Clinical trials confirm their reliable action, good compatibility and wide therapeutic margin.

EACH TABLET: *Calcium n-butyl-allyl-barbiturate 3.75 gr.*
Carbromalum B.P.C. 1.50 gr.

PACKS: *Tube of 12; Bottle of 250 (dispensing).*

'NYXOLAN'

— specific anthelmintic
against thread worm
infestation

'Nyxolan' provides up to 90% cure rate against threadworms. It has none of the disadvantages of dye substances or diphenan. Its active agent, Aluminium 8-hydroxyquinoline sulphate, is confirmed clinically as absolutely non-toxic.

PACKS: *Dragées: 60's and 600's (dispensing).*
Syrup: Bottle of 8 fl. oz.

Literature on dosage course on request.

'HYPERYSIN'

— containing an improved
papaverine salt in relief of
hypertension

Because of the more gradual and persistent action of its papaverine *nitrite* as compared with the hydrochloride, 'Hyperysin' provides superior anti-hypertensive effect in essential hypertension, angina pectoris and related cardiovascular diseases.

EACH TABLET: *Papaverine nitrite 0.7 gr.*
Hexamethylenetetraminadichloralhyd. 3.0 gr.

Carbromalum B.P.C. 3.0 gr.

PACKS: *15's and 500's (dispensing).*

'TRISAN'

— for the symptomatic relief
of bronchial asthma

'Trisan' contains *Potassium Iodide B.P. 6.03%, Chloral Hydrate B.P. 7.11%, Barbitone Sodium B.P. 0.24%, Alcohol 4.00%.*

This combination effects relief of bronchial spasm, expectoration and mental sedation, being particularly useful in cases of nocturnal asthma. Contra-indicated in hyperthyroidism and allergy to iodine.

PACKS: *Standard: 4 fl. oz.; 16 fl. oz. bottle (dispensing).*

From KOCH to NYDRAZID

Robert Koch
(1843-1910)

Isonicotinic Acid Hydrazide (Isoniazid),

SQUIBB

It is now 70 years since Robert Koch delivered his epoch-making paper on "The Aetiology of Tuberculosis." In the long struggle against the tubercle bacillus, one of the most important landmarks has been the introduction of NYDRAZID.

Using isoniazid supplied as NYDRAZID by E. R. Squibb & Sons, the Medical Research Council have now completed two investigations into the treatment of pulmonary tuberculosis. The second Report, published in the *British Medical Journal*, March 7, 1953, indicates that over a three-month period, a combination of isoniazid and streptomycin is clinically the most effective chemotherapy yet investigated in these trials.

The conclusions of this communication support the views, expressed by this Company at a very early stage, regarding the need for combination therapy in order to minimise bacillary resistance.

Further information on NYDRAZID will gladly be provided by:—

NYDRAZID is presented as:—
Tablets of 100 mg. and 50 mg.
Syrup (10 mg. per c.c.)
Injection (100 mg. per c.c.)

For the 'bilious' or 'liverish' patient

DEHYDROCHOLIN B.D.H. is the most active and least toxic of the bile acids. Since it is highly effective in promoting the secretion of bile and therefore aids the digestion and absorption of foodstuffs, particularly fats, it is indicated particularly for the treatment of 'bilious' or 'liverish' conditions.

Dehydrocholin B.D.H. is also useful in establishing normal bowel action in patients with a deficiency of bile and in patients needing mild peristaltic stimulation. Dosage of three tablets three times a day is recommended.

DEHYDROCHOLIN B.D.H.

Tablets for oral administration, each containing 0.25 gramme in bottles of 20 at 4/1 and 100 at 17/7. Solution for injection—ampoules containing 2 gramme of sodium dehydrocholate in 10 ml. Box of 3 ampoules 18/11; box of 25 at 74/3. Prices in Great Britain to the Medical Profession.

Following successful trials carried out with Ambulance and Hospital Authorities, Oxygenaire have now produced their new

PORTABLE INCUBATOR

for
ambulance
work

This achievement makes it possible to move a small or premature baby to hospital in controlled, stable conditions of temperature and oxygen—an undertaking hitherto fraught with difficulty, if not danger. The incubator is easy to handle and simple to operate. It can be rapidly heated from the mains supply and the temperature thermostatically controlled from the batteries (12 v.) of the car or ambulance.

The cylinder carrier shown is detachable from the body of the incubator and can be supplied as an extra.

TO ALL PATHOLOGISTS

THROMBOPLASTIN (MAW)

is now available ready for use
and at a new economical price

THE HIGH price of imported Thromboplastin has hitherto forced many hospitals to prepare their own laboratory requirements for prothrombin tests. Now, however, the House of Maw are pleased to announce that they can supply prepared Thromboplastin at only 18/- per box of 6 ampoules. A detailed leaflet gives full instructions for use.

Each of these ampoules contains 0.2 grams of Thromboplastin, and each one will therefore

give sufficient extract to make either

40 tests by the Quick method

80 tests by the Link-Shapiro dilute plasma technique or

480 simplified Smith bedside tests

We feel sure that the truly economical price of Thromboplastin (Maw) and the guarantee of quality with which the name of Maw is always associated will be of the greatest help to pathologists in the saving of valuable laboratory time.

Should you have any enquiries on this or any other of our products, please write to: The Medical Research Dept.

IN THOSE CASES WHERE BREAD IS PERMITTED, THE

Procea Diabetic Loaf

IS INDICATED BECAUSE . . . it is attractive and palatable, while at the same time it conforms to medical requirements, as a study of the Average Analysis will show. This acceptable and nutritious Diabetic Loaf is in fact useful in any diet designed to reduce starch intake or to increase dietary protein.

AVERAGE ANALYSIS

* One ounce of this bread at 30% moisture content contains :—

Protein	...	6.5 grams
Mineral matter	...	0.5 grams
Fat	...	2.5 grams
Carbohydrates	...	10.5 grams
Protein-Carbohydrate ratio	...	1 to 1.6 approx.
Carbohydrate content per slice	...	2.5 grams approx.

DESIGNED FOR EASY MEASUREMENT

An interesting feature of this Procea loaf is that its exterior is ribbed. This allows the amount of bread to be pre-determined with some degree of accuracy.

The Procea Diabetic Loaf is baked to the formula prescribed by medical authorities for the attainment of a suitably low starch content for the diabetic subject, and is obtainable from authorised bakers, chemists, health stores, etc. For further particulars, please write to the address below—giving, if possible, the names and addresses of your local bakers or other stockists.

PROCEA PRODUCTS LIMITED, Procea House, 47, Dean Street, London, W.1

* One ounce of average National bread at 36% moisture content contains :—Protein 2.4 grams, Mineral matter 0.6 grams, Fat 0.3 grams, Carbohydrates 14.7 grams. Protein/Carbohydrate ratio—1 to 6.1.

Gastro-Duodenal Ulceration**AMINO ACID
AND ANTACID
THERAPY**

Rapid disintegration ensures prompt relief from epigastric pain due to hyperacidity and gastro-duodenal ulceration. A prolonged "buffering action" for over three hours is established causing no "acid rebound." The liberation of the amino acid glycine stimulates the granulation of the ulcer bed and the normal enzyme activity is ensured whilst the mucosa is protected by the freely formed colloidal gel.

FORMULA : Dihydroxy aluminium aminoacetate 250 mgms ;
Glycine—30 mgms.

In bottles of 100 tablets (84/- per doz.)

Bottles of 1,000 tablets (62/- each). (Prices plus P. Tax)

Lestreflex (Diachylon) Bandages and Dalzoflex Self-Adhesive Bandages feature

DALMAS

"STRIP VENTILATION"

FOR GREATER COMFORT, TOLERANCE,
AERATION, EXTENSIBILITY AND FLEXIBILITY

For the patient who is sensitive to the occasional discomfort caused by conventional plaster dressings, Dalmas "Strip Ventilation" is a valuable feature endorsed by medical opinion. Excessive warmth is dissipated, thus removing a main cause of reaction. Where there is no plaster idiosyncrasy Lestreflex and Dalzoflex fully spread are still available, and are prescriptable on E.C.10s. So far, ventilated bandages although an undoubted advance are not prescriptable from the N.H.S. and permission is being sought.

● LESTREFLEX BANDAGES

Rolls 3-yds. long in 3" and 4" widths. Both allowed on E.C.10. Manufactured also with strip ventilation, 2½" and 3" widths, but not prescriptable on N.H.S.

● DALZOFLEX BANDAGES

Rolls 3-yds. long in 2", 2½", 3", and 4" widths. All allowed on E.C.10. Also available in 2½" and 3" widths *with* strip ventilation, but not prescriptable on N.H.S.

● DALZOFLEX STRAPPING

Rolls 1-yd. long in 1" and 2" widths. Rolls 3-yds. long in 1" and 2" widths. Both *without* strip ventilation and prescriptable on N.H.S.

Full details of Lestreflex (Diachylon) Bandages and Dalzoflex Self-Adhesive Bandages available upon request to Dalmas Ltd., Leicester.

MADE BY DALMAS LTD., LEICESTER & LONDON. ESTD. 1823

He sleeps soundly Doctor

Patients sleep naturally and well on Intalok mattresses. The heart of an Intalok mattress is composed of many hundreds of interlinked fine gauge springs—these offer gentle resistance to the 'local' pressure of hips, elbows and shoulders. But over larger areas their combined resilience is firm and even to ensure correct spinal support. The complete rest Intalok brings makes a real contribution to the patient's recovery.

Here are other good reasons why Intalok is the ideal hospital mattress:

- 1 All metal parts are rustless — can be sterilized repeatedly.
- 2 The spring centre gains by repeated stoving.
- 3 There are no tufts or piping to collect dust — and the mattress is light for easy handling.
- 4 Intalok mattresses can be made to special thicknesses or sizes, or in segments to suit special cases.
- 5 Existing hair mattresses can be converted to Intalok. This cuts costs.
- 6 Every Intalok springing unit is guaranteed for ten years.

Write for illustrated leaflet and prices.

INTALOK IS A PRODUCT OF THE SLUMBERLAND GROUP

This

TWO WEEKS' TEST

will tell you why more people are smoking du MAURIER

Although there are many good reasons why more and more people are changing to du Maurier, you won't discover them in a single day's smoking. But smoke du Maurier and nothing else for two weeks, and you will appreciate the SPECIAL appeal of these fine filter tipped cigarettes — cork tip in the red box and plain tip in the blue box.

Flexoplast
bandages
in three styles

EDWARD TAYLOR LTD. . MONTON . LANCS.

Flexoplast products are manufactured to the highest standards. The woven edge, elastic fabric is unequalled for quality, it gives greater elasticity and when applied lies flat and does not cause a ridge. The Flexoplast Bandage can be called the Economical Bandage — opens to the end — every inch usable — no waste. The Flexoplast Bandage is second to none in quality and better than most. Special terms are available for Hospitals and Clinics. Write for illustrated catalogue and price list.

Prescribing a Laxative

When the Physician is called upon to prescribe a laxative for prolonged or occasional use, Andrews merits special consideration. Andrews is pleasant tasting. Its effervescence has a refreshing quality that makes it an acceptable draught. Andrews causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion, which, acting by osmosis, induce easy, painless evacuation.

Andrews is particularly suitable for patients liable to digestive upsets. It allays gastric discomfort and nausea. It also improves the flow of bile, and helps to check biliousness and sick headaches. No costive reaction results when Andrews is discontinued.

Active constituents :

Tartaric Acid ..	24.600%
Sodium Bicarbonate ..	25.142%
Magnesium Sulphate ..	19.000%
(B.P.C. Exsicc.)	
Sugar	31.250%
Saccharin	0.008%

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years; £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER**: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

The County Education Committee invite applications from registered medical practitioners (men and women) for appointment as

ASSISTANT SCHOOL MEDICAL OFFICERS

to act under the direction of the School Medical Officer. Applicants must have had at least three years' experience in the practice of their profession, and the possession of a Diploma in Public Health is desirable. Commencing salary in each case £850 per annum, rising by annual increments of £50 to a maximum of £1,150 per annum. The successful candidates will be required to pass a medical examination and to contribute in accordance with the provisions of the appropriate superannuation act. For conditions of appointment and form of application, which must be returned not later than April 18, 1953, apply, enclosing stamped and addressed foolscap envelope, to the Director of Education, Shire Hall, Durham.—A. A. Denholm, Director of Education, Shire Hall, Durham. (4819)

ESSEX, COUNTY COUNCIL OF**ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH**

Applications invited from registered medical practitioners for the above-mentioned appointment in the Mid-Essex Health Area (Braintree and Dunmow districts). Preference will be given to candidates with experience in school medical and maternity and child welfare duties, and to those possessing the Diploma in Child Health and/or a certificate or diploma in public health and/or approved by the Ministry of Education for the purposes of ascertainment of educationally subnormal children. Salary scale £850 by £50 to £1,150 a year. Appointment subject to medical examination and contributions towards superannuation. Canvassing forbidden. Application forms obtainable from, and returnable to, the County Medical Officer of Health, County Hall, Chelmsford. (4737)

GLAMORGAN COUNTY COUNCIL

Applications are invited from registered medical practitioners for appointments as

ASSISTANT MEDICAL OFFICERS

in the Caerphilly and Gelligaer and South-East Glamorgan Health Divisions at a salary of £850 by £50 to £1,150 per annum. The duties will be mainly medical inspection and treatment of school-children, including refractions and attendance at Infant Welfare and Ante-Natal Clinics. Application forms, together with particulars of conditions of service, can be obtained from the County Medical Officer, County Hall, Cardiff, to whom applications should be returned not later than April 18, 1953.—D. J. Parry, Clerk of the County Council, Glamorgan County Hall, Cardiff. (4824)

KINGSTON-UPON-HULL CORPORATION**Health Department**

Applications are invited from registered medical practitioners for the post of

ASSISTANT MEDICAL OFFICER (Male or female)

Under the Corporation's scheme for the inter-availability of medical officers, the post involves duties in the School Health Service, Maternity and Child Welfare Section, and other Local Health Authority Services, and, in the event of the appointment of a male officer, duties under the Hull and Goole Port Health Authority. The salary is £850 per annum, rising by annual increments of £50 to £1,150 per annum, and regard will be had to previous service in the grade in fixing the commencing salary. The possession of a qualification in public health or the D.C.H. will be an advantage, and preference will be given to candidates who are approved by the Ministry of Education for the purpose of ascertainment of educationally subnormal pupils. Forms of application and schedules of conditions relating to the appointment may be obtained from the Medical Officer of Health, Guildhall, Kingston-upon-Hull. (4738)

Public Health—contd.**LIVERPOOL, CITY OF****SENIOR MEDICAL OFFICER
(Maternity and Child Welfare)**

Applications are invited from medical practitioners, male or female, for the above appointment. Salary £1,250 by £50 to £1,650 per annum. The duties will comprise the medical supervision of midwives and the administration of the maternity and child welfare service, under the direction of the Medical Officer of Health. Applicants must be experienced in administration and in clinical work. Possession of a Diploma in Public Health will be an advantage. Applications, stating age, qualifications and experience, together with names and addresses of three referees, should be sent to the Medical Officer of Health, Gordon House, Belmont Grove, Liverpool, 6, not later than April 30, 1953. The appointment is superannuable and subject to the Standing Orders of the City Council. Canvassing disqualifies.—Thomas Alker, Town Clerk, Municipal Buildings, Liverpool, 2 (J.A.3172). (4863)

NOTTINGHAMSHIRE COUNTY COUNCIL**SENIOR ADMINISTRATIVE MEDICAL
OFFICER (Male)**

Applications are invited for the above appointment from duly qualified and registered medical practitioners who hold a Diploma in Public Health. Applicants should have had sound administrative experience, preferably with a Local Health Authority, particularly in connexion with the school health service. Salary £1,250 by £50 to £1,650. Application forms and conditions of appointment are obtainable from my office, and applications must be returned by April 27, 1953. Canvassing disqualifies.—K. Tweedale Meaby, Clerk of the County Council. (4293)

SWANSEA, COUNTY BOROUGH OF

Applications are invited from duly qualified medical practitioners for the post of

ASSISTANT MEDICAL OFFICER

Applicants must have had postgraduate resident hospital experience and should be under 45 years of age, unless already holding a similar superannuable appointment. Salary £850 by £50 to £1,150 per annum. Application forms may be obtained from the Medical Officer of Health, Public Health Department, The Guildhall, Swansea, to whom they should be returned not later than Friday, April 24, 1953. Canvassing, either directly or indirectly, is a disqualification.—T. B. Bowen, Town Clerk, The Guildhall, Swansea. (4913)

ADMINISTRATIVE**SCOTLAND, NORTHERN REGIONAL
HOSPITAL BOARD**

Applications are invited for the post of **DEPUTY MEDICAL SUPERINTENDENT of the Inverness Group of hospitals**. The post offers good experience in hospital administration and prospects of advancement. Salary £1,033 to £1,200 per annum. Married quarters and catering services are available. Schedules of application and further particulars of the post and future prospects are obtainable from the undersigned, with whom applications should be lodged by Monday, April 20, 1953.—A. M. Fraser, M.D., Secretary and Administrative Medical Officer, Office of the Northern Regional Hospital Board, Raigmore, Inverness. (4436)

GOVERNMENTAL**TREASURY MEDICAL SERVICE**

Applications are invited from medical practitioners, practising in the districts detailed below, for appointment, in a part-time and mainly advisory capacity, as

LOCAL TREASURY MEDICAL OFFICER

for each of the places or groups of places shown. The town shown in brackets after the place-names indicates the Head Post Office area in which the place, or group of places, is situated. Successful applicants will be required to examine and report on the condition of certain Government officers, teachers, candidates for appointment, etc., who may be referred to them from time to time; and to attend when summoned to an emergency case of accident or sudden illness occurring in a Government office in the neighbourhood. Fees for this work, and mileage allowance where necessary, will be paid on a scale agreed with the British Medical Association. Intending applicants should write within fourteen days to Treasury Medical Adviser, Treasury Chambers, Whitehall, S.W.1, for a form on which application may be made. Applicants should be not more than 60 years of age. The places for which applications are invited are as follows:

England and Wales

Blyth (Newcastle-upon-Tyne).
Brixton (London, S.W.2).
