OXFORD UNIVERSITY PRESS

A new combination

CODIS

soluble aspirin with codeine phosphate and phenacetin

-CANO-

Codis presents a familiar grouping of analgesic drugs; aspirin, phenacetin, codeine phosphate; with an important advantage. The "aspirin" in Codis is rendered soluble, as in 'Solprin'.

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein, Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION Each Codis tablet contains:—Acid. Acetylsalicyl. B.P. 4 grs., Phenacet. B.P. 4 grs., Codein Phosph. B.P. 0.125 grs., Calc. Carb. B.P. 1.2 grs., Acid. Cit. B.P. (Exsic.) 0.4 grs., Excip. ad. 11.45 grs.

Codis is not advertised to the public

The new

PENICILLIN COMPOUND

'PENIDURAL' is the new ready-for-use fluid oral penicillin, containing 300,000 units to each large teaspoon (5 c.c.). It will retain its full potency in aqueous suspension *for eighteen months at room temperature*, and is thus ideal for treatment both in hospital and home.

Extract from
Editorial of the British Medical Journal, dated
11th April, 1953, page 823.

"A standard dose of 300,000 units (of 'Penidural') was given, and after a single dose a therapeutic blood concentration was invariably found after 3 hours. When the dose was repeated at six-hour intervals a cumulative effect was observed, with continuous maintenance of a therapeutic concentration".

Below is a diagram based upon recent work as reported in the British Medical Journal, April 11th, 1953, pp. 805 and 823.

118 Patients (101 children and 17 adults) were given, irrespective of age and weight, 300,000 units of 'PENIDURAL'. No less than 100% showed therapeutic blood levels after 3 hours.

The introduction of this pleasantly flavoured liquid penicillin banishes the need for any tedious mixing by the patient, who now merely has to pour out the specified dose.

Supplied in bottles of 2 fl. ozs. (12 large teaspoonsful)

'PENIDURAL'

N.NI-dibenzylethylenediamine dipenicillin G

Oral Suspension

JOHN WYETH & BROTHER LIMITED, CLIFTON HOUSE, EUSTON ROAD, LONDON, N.W.I.

Good health for all \cdots

If every child in the world could have the physical advantages of these children, many of the ills that plague juvenile and adult life would disappear. Good health and nutrition go hand-in-hand; but, unfortunately, well-fed does not always mean well-nourished. Where there is any deficiency of the factors of the B complex, as the result of malabsorption, deficiency in the diet, or other causes, an ideal supplement and therapeutic aid is . . . vitamin B complex Lederle Administered in adequate dosage, daily, LEDERPLEX will supply all the deficient vitamins of the B complex which tend to promote normal cellular life and growth. BLETS Each tablet contains: Thiamine HCI (B₁) 2.0 mg. Riboflavin (B₂) 2.0 mg. Niacinamide 10.0 mg. Pyridoxine HCI (B₆) 0.1 mg. Calcium Pantothenate 3.0 mg. FOLVITE Folic Acid 0.2 mg. Insoluble Liver Fraction 250.0 mg. Vitamin B₁₂ 1.0 microgram LIQUID Each teaspoonful (4 cc.) contains: Thiamine HCl (B₁) 2.0 mg. Riboflavin (B₂) 2.0 mg. Niacinamide 10.0 mg. FOLVITE Folic Acid 0.2 mg. Pyridoxine HCl (B₆) 0.2 mg. Pantothenic Acid 2.0 mg. Choline 20.0 mg. Inositol 10.0 mg.

to ensure a perfect fitting surgical stocking prescribe

E-L-A-S-T-I-C

FEATHERWEIGHT NET STOCKING

MADE ALWAYS TO MEASURE Guaranteed for six months

In cases where a surgical stocking is required it is wise to specify a

Lastonet which is carefully and accurately made to your patient's measurements.

For this reason a Lastonet stocking always fits perfectly. Measurement forms, full details and particulars of medical opinion will be sent on request.

Light-weight net

The net which is selfventilating and exceptionally light in weight, stretches equally in all directions to afford an even degree of support over the whole area of the limb.

SCALDS

OPTULLE consists of an open mesh gauze evenly impregnated with a Petroleum jelly compound containing Balsam of Peru.

OPTULLE is an ideal dressing for scalds even if blisters are present.

OPTULLE is sterile being heat treated after packing in its container, is immediately soothing on application and is removable without pain or injury to tender or blistered areas.

These qualities of OPTULLE are of particular advantage in the treatment of children with whom change of dressing is frequently associated with fear of pain, nervous tension and strain.

Serous discharges pass through the open mesh gauze and can be absorbed in an outer dressing. Frequent change of dressing is therefore unnecessary avoiding risk of infection or damage to healing tissues. These factors considerably shorten the time of healing.

THE FULL RANGE OF OPTULLE DRESSINGS COMPRISE:

NHS PACKS

Paraffin Gauze Dressings B.P.C. Individual dressings 3\(\frac{1}{2} \) sq. packed 12 to a carton. Tins of 5, 10 and 36 Dressings

TRAINING MADE EASIER FOR THE COLOSTOMY PATIENT

Training is the key to normal living for the colostomy patient.* SPENCER'S new colostomy support—individually designed, cut, and made for each patient—makes training easier, because:

- ★ Abdominal section opens instantly by means of zippers—facilitating the change of pads.
- ★ This section is lined with moisture-proof material—easily cleaned—protects outer clothing.
- ★ Spencer's co-relation of abdominal and back support improves posture, body mechanics.
- Cosmetic results are appreciated by both male and female patients.
 - * The Care of the Permanent Colostomy, Can. Med. Ass. Jr., 60: 71-2 (Jan.), 1949.

'What was it you gave me, doctor?'

Relaxed and contented, the mother expresses an understandable interest in the analgesic that freed her from so much exhausting pain.

Today, the value of 'Trilene' in labour is widely recognised. A pleasant and efficient means of producing deep and constant analgesia, it is safe for both mother and infant, and is administered conveniently in various types of compact and portable inhaler. There are no contra-indications, and recovery is rapid with no unpleasant after-effects.

The advantages of 'Trilene' analgesia ensure the ready co-operation of the patient.

A MEDICAL EXHIBITION

to be held at

St. George's Hall, Liverpool

May 18th—22nd, 1953

Presented by the Organisers of the London Medical Exhibition

Open daily from 11 a.m. to 6.30 p.m.

Here is an excellent opportunity for those who were unable to visit the London Medical Exhibition to see many of the most important of the London Exhibits, as well as new and additional exhibits of equal interest.

Admission is by official invitation card only and these will be posted to reach practitioners and hospital officers over a wide area by May 6. Letters referring to non-arrival of invitations, or applying for entry tickets, should not be sent before May 7.

Exhibits will cover a wide range, and will include ethical medical preparations, surgical instruments, and hospital and other equipment, and will demonstrate latest developments in almost every field of medical practice.

Applications for further information should be sent to:
THE BRITISH & COLONIAL DRUGGIST LTD.,

194-200, BISHOPSGATE, LONDON, E.C.2

or direct to:

LIVERPOOL MEDICAL EXHIBITION, ST. GEORGE'S HALL, LIVERPOOL

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter. month thereafter.
An "R" pract

month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scotlish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year: £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held; £400 per annum for the second post held: £450 per annum for the third and any subsequent post held: with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

PUBLIC HEALTH

HAMPSHIRE

Mapplications are invited from duly qualified medical practitioners for the mixed whole-time

medical practitudies of appointment of ASSISTANT COUNTY MEDICAL OFFICER and MEDICAL OFFICER OF HEALTH to the Basingstoke Borough and Rural District Councils

The salary for this mixed appointment based on the terms of the Industrial Court award will be approximately £1,264 to £1,553. The point of entry will depend upon the present salary and experience of the selected candidate. The Diploma in Public Health is essential and that in child health desirable. The appointment will be subject to the provisions of the Local Government Superannuation Act, 1937. Forms of application, to be obtained from the County Medical Officer, The Castle, Winchester, should be returned to him not later than May 9, 1953.

MONMOUTH, ADMINISTRATIVE COUNTY OF

Local Government Act, 1933 (Section 111) District No. 4 (Ebbw Vale Urban District Council)

Applications are invited from registered medical Applications are invited from registered medical practitioners (male or female) for appointment as WHOLE-TIME DISTRICT MEDICAL OFFICER AND ASSISTANT COUNTY MEDICAL OFFICER for the above district, who will be required to take up duties on September 1, 1953. Preference will be given to persons holding the Diploma in Public Health. Candidates should have had experience in Public Health Administration and the School Health

be given to persons holding the Diploma in Public Health. Candidates should have had experience in Public Health Administration and the School Health Service. The combined salary scale will be from £1.509 1s. 10d. per annum, and will proceed by annual increments to a maximum of £1.872 14s. 6d. Consideration will be given to the payment of increments in respect of any previous service in a similar capacity. Any fees received by virtue of the appointment to be paid into the appropriate Council's fund. The person appointed will be subject to (a) the Sanitary Officers (Outside London) Regulations, 1935; (b) the General Conditions of Service approved by Committee "C" of the Medical Whitley Council and the Scheme of Conditions of Service of the National Joint Council for Local Authorities, etc.; (c) the National Health Service (Superannuation) Regulations, 1947; (d) a restriction from engaging in private practice; and (e) the approval of the Minister of Health. In addition to the duties as Medical Officer of Health for the District the person appointed will also act as Assistant County Medical Officer for such duties of the County Medical Officer for such duties of the County Council as may be laid down under their Health Scheme, also such other duties as may be assigned by the County Medical Officer from time to time, and in respect of these duties shall be under the control of the County Medical Officer. The person appointed will attend such meetings of the District Council and the Area Health Subcommittee established by the County Council as he

or she may be called upon to do by these Councils and Committee. Clerical assistance will be provided and usual travelling expenses paid. The appointment will be subject to three months' notice on either side, and the successful candidate will be required to pass an examination as to physical fitness. Applications, accompanied by at least two testimonials, to be delivered to the undersigned not later than May 23, 1953. Canvassing of members or officials of the respective Councils directly or indirectly is strictly prohibited and will be considered a disqualification, Diplomas and Certificates to be produced. On behalf of the District Council above mentioned and the Monmouthshire County Council.—Vernon Lawrence, Clerk of the Monmouthshire County Council.

NOW YOU CAN <u>CHOOSE</u> AGAIN ...See the

HUMBER HAWK

YOU'LL be thrilled to own a Humber Hawk; proud to take out your family or your clients, and pleased to give your neighbour a lift. Cushioned riding comfort, six-passenger roominess and a sparkling, low revving 2267 c.c. engine with a host of detail refinements bring you a luxury car in the medium price range. A high safety factor, long life, dependability and real running economy are the result of years of Humber experience in building quality cars.

HUMBER HAWK
A PRODUCT OF THE ROOTES GROUP

The effects can be lessened

When the storm clouds gather in the mind of the woman at the menopause, much can be done to alleviate her apprehension and to ensure that she sails through the difficult years on an "eyen keel."

Euvalerol M, the ideal sedative in menopausal conditions, alleviates nervous phenomena and vasomotor disturbances and helps the woman at the menopause to weather the storms of emotional imbalance.

Composition: Euvalerol M contains a preparation obtained from valerian root from which the unpleasant odour characteristic of valerian is eliminated. To each fluid drachm (4 c.c.) of this odourless preparation of valerian are added ½ grain (16 mg.) of phenobarbitone and 0.1 mg. of stilboestrol.

Presentation: Euvalerol M is supplied in bottles containing 4 oz. and 8 oz. It is also available in bottles of 20 oz. and 80 oz. for dispensing purposes.

...taking your iron regularly?

It is generally agreed in Medical circles that a sufficient intake of iron is of paramount importance during pregnancy.

To prescribe iron, in some form, to expectant and nursing mothers is a simple procedure, but can you always be sure that it will be taken?

How many times do patients confess, under gentle pressure from their doctor or nurse, that they somehow forgot to take their tablets after breakfast or lunch?

You can ensure that your patients are receiving an adequate dosage of iron if you prescribe PRENATALAC for them. This food, prepared specially for expectant and nursing mothers, contains 50 mgms. of Fe et Amm Cit to the ounce, thus ensuring an adequate intake.

HEMOLAC, containing 25 mgms. of the same iron salt per ounce, is made especially for microcytic anaemia of infancy.

Cantrisin' syrup

A new presentation for children of sulphafurazole, the Roche sulphanamide

For the treatment of many common infections in children 'Gantrisin' syrup has several important advantages

i. 'Gantrisin' is a very effective sulphonamide.

ii. High blood-levels can be obtained and maintained by the oral route.

iii. Because 'Gantrisin' is comparatively soluble there is little likelihood of crystalluria or renal obstruction.

iv. Except when high doses are given or when the urinary output is very low there is no necessity to give alkali or to force fluids.

'Gantrisin' syrup contains 0.5 g. sulphafurazole in 5 c.c.

Almost a century after the clinical observations of the English physician Thomas Addison on the role of the adrenal gland in the human economy, the hormone CORTISONE was synthesized.

The usefulness of CORTISONE in the treatment of rheumatic arthritis and a host of other metabolic diseases is now established.

Use of this remarkable hormone has been limited by the laborious and expensive steps required in its synthesis from scarce bovine bile acids.

The development of a simplified method of production from plentiful low-cost vegetable source materials has now been accomplished by The UPJOHN COMPANY.

The Upjohn Company is gratified to announce the production of CORTISONE

in England from these abundant vegetable starting materials. The difficult series of chemical steps, designed to move a single oxygen atom from one molecular position to another, has been supplanted by a single-step fermentation method, in which an oxygen atom may be affixed to one of several steroids, such as progesterone.

The new fermenting agent is one of the common bread-mould family, *Rhizopus arrhizus*, selected after hundreds of mould strains were tested over a period of several years.

Larger quantities of CORTISONE than ever before will soon be available to the Ministry of Health and, as production increases, concomitant decreases in price should be possible.

Literature on CORTISONE is available on request.

"I dread the rustling of the grass"

WILLIAM WORDSWORTH

No sooner has the blossom languished and spring shed her coat of many colours than the tall grasses ripen. The air is again pollen-laden. To those who love the countryside these richly-clothed meadows are a joy: to sufferers from hay-fever they are . merely the signal for a fresh period of acute discomfort. Yet there is a solution—BENADRYL, probably one of the most potent of all histamine antagonists, may be taken just before and during the pollen seasons and, in the majority of cases, provides effective relief.

a successful anti-histamine

Capsules (25 or 50 mg.) in bottles of 50 & 500; Elixir in bottles of 4 & 16 fl. ozs.

... a new achievement in the control

of HYPERTENSIVE CRISES

A SAFE AND POWERFUL HYPOTENSIVE AGENT CAPABLE OF REDUCING BLOOD PRESSURE TO NORMAL LEVELS WITHIN MINUTES IN A GREAT MAJORITY OF PATIENTS.

Veriloid Intravenous Solution is an important new emergency drug. By its use, immediate control of arterial tension is possible in those conditions in which a continued hypertensive state could readily lead to disaster. It therefore finds valuable application in the emergency treatment of malignant hypertension, encephalopathy, eclampsia and hypertensive states accompanying cerebral vascular disease. After initial control of blood pressure has been achieved by Veriloid Intravenous Solution, treatment may be continued by the use of Veriloid Intramuscular Solution or by oral administration of Veriloid Tablets.

Veriloid Intravenous Solution contains 0.4 mg. of Veriloid brand alkaloids of Veratrum viride in each c.c. and is biologically assayed to ensure uniform hypotensive potency. It is a very potent agent, and should not be used before the instructions for use have been carefully studied.

In boxes of 6 ampoules of 5 cc.

THE

Original Germicidal Soap containing

HEXACHLOROPHENE

Tests show 95% reduction of Bacterial Flora compared with 15% reduction with ordinary soap

Cultural tests carried out in the United States showed a 95% reduction of bacterial flora as compared with 15% reduction with ordinary toilet soaps. Authors have stated that the remarkably lowered resident flora following the use of a soap containing Hexachlorophene has

not resulted from bacteriostasis but from actual killing. There is, too, a cumulative factor in Hexachlorophene which is important in maintaining low skin bacterial flora. In these investigations it was found that the maximum reduction

A large hospital in Britain reports:—"The incidence of septic skin conditions is increasing at the hospitals which we are using as a 'control' but it has not increased at the hospital where we are using DERL".

of bacterial flora was achieved after a period of 5 to 7 days, and did not return to normal for another 7 days after ceasing to use the soap. It follows, therefore, that the regular use of "Derl" will exert a continuous bacteriostatic effect between ablutions. No

cases of sensitization have been reported. Members of the medical profession are showing a keen interest in "Derl", the first all-British soap to contain Hexachlorophene. Samples will be gladly sent on request.

THE SOAP WITH THE MOST EFFECTIVE BACTERIOCIDAL ACTION

Available from Chemists only

A PRODUCT OF ROBERTS WINDSOR SOAP COMPANY LIMITED, GLADSTONE WORKS, WINDSOR

TERRA FIRMA

The treatment of hæmorrhoids rests on solid therapeutic grounds when it achieves relief without resort to narcotic or anæsthetic agents; these may mask the symptoms of more serious pathological conditions. Anusol* Suppositories give relief that is completely safe through decongestion, lubrication and protection. They remove inflam-

matory pressure on the nerve endings, soothe irritation and guard against the complications of bleeding and infection.

Another notable feature of Anusol Suppositories is the economy of the treatment. It is an impressive fact that Anusol Suppositories, dispensed from bulk by a chemist, are less expensive than their National Formulary equivalent. Anusol Suppositories may be confidently prescribed in the knowledge that they represent a most reliable and economical treatment for all uncomplicated hæmorrhoidal conditions.

PACKING In boxes of 12 Suppositories; also available in 100's for dispensing only, free of Purchase Tax when prescribed either privately or on the N.H.S. Anusol Ointment is available in tubes of 1\(\ext{k} \) oz.

Bism. Subgall. 2-12%, Bism. Oxid. 0-87%, Resorcin 0-87%, Bism. Oxyiodogall. 0-03%, Acid Boric 17-85%, Zinc Oxid. 10-60%, Bals. Peruv. 1-77%.

Anct/B/1

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, the entire Vitamin B complex should always be administered concurrently.

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

• Aluzyme is not advertised to the public and may be prescribed on Form E.C.10

THE EXTRA PHARMACOPŒIA

(MARTINDALE)

Volume 1, 23rd Edition

In this new edition will be found information on the composition and character of practically every substance used in medicine, together with a concise summary of its use, its method of administration and its contraindications, with abstracts of the world literature. The book gives details, with references, of the most recent innovations in medical practice.

Details are provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. It is unlikely that any medicinal agent of established value has been omitted from the Therapeutic Index, which is about half as long again as that of the last edition and contains approximately 750 headings.
