Because CIDAL soap contains Hexachlorophene (G-II) it has remarkable germicidal properties which help it to purify the skin as no ordinary toilet soap can do.

CIDAL attacks bacteria that settle in pores and folds of skin, and forms an anti-bacteria barrier which gives protection between washes. By destroying the bacteria that ferment perspiration, CIDAL eliminates unpleasant body odours at source.

CIDAL is useful in treating all skin ailments where soap and water are part of the therapy. Regular use helps to reduce the incidence of cellulitis and folliculitis, and prevents secondary infections of minor cuts and abrasions.

CIDAL CREAM SHAMPOO also contains Hexachlorophene and shares CIDAL soap's germicidal powers. It protects hair follicles against infection by staphylococci and ishelpful in treating dandruff.

From Boots, Timothy Whites, and many other good chemists.

Members of the Medical Profession are invited to write for samples to the Technical Sales Department (Antiseptic Division),

A new combination

CODIS

soluble aspirin with codeine phosphate and phenacetin

-**-**

Codis presents a familiar grouping of analgesic drugs; aspirin, phenacetin, codeine phosphate; with an important advantage. The "aspirin" in Codis is rendered soluble, as in 'Solprin'.

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein. Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION

Each Codis tablet contains: Acid. Acetylsalicyl. B.P.4 grs., Phenacet. B.P. 4 grs., Codein Phosph. B.P. 0.125 grs., Calc. Carb. B.P. 1.2 grs., Acid. Cit. B.P. (Exsic.) 0.4 grs., Excip. ad. 11.45 grs.

Codis is not advertised to the public

UNIVERSITY PRESS OXFORD

1953 CURRENT THERAPY

By 373 Contributors selected by a distinguished Board of Editorial Consultants, headed by Editor-in-Chief HOWARD F. CONN 835 pages.

1953 CURRENT THERAPY is the fifth in a series of annual volumes devoted to the latest approved methods of treatment. It is a complete reference on therapy, describing the most effective treatments known to-day for more than 400 commonly encountered diseases and disorders. The material in 1953 CURRENT THERAPY is not based on last year's literature. All contributions were written especially for this book and every method recommended here is being used in practice to-day by the man who describes it.

FOREMOST IN PENICILLIN

THERAPY

Both in research and production, Imperial Chemical Industries Limited has taken a leading part in the development of penicillin. Improved methods of production have resulted in greatly increased supplies, and a substantial reduction in price. Today, penicillin remains the most useful, the least toxic, and the most inexpensive of the antibiotics.

CRYSTALLINE PENICILLIN G 'Avlon' brand

SODIUM SALT

Conforms to the highest standards of purity and potency, and may be used with confidence wherever a pure soluble salt of penicillin is required.

Vials of 0.1, 0.2, 0.5 and 1.0 mega unit

REPOSITORY PREPARATIONS

'AVLOPROCIL' A.S. Crystalline Penicillin G (Procaine Salt) Aqueous Suspension

Presents the procaine salt of penicillin G in sterile aqueous suspension, ready for injection. Each c.c. contains 300,000 units of penicillin together with buffering and suspending agents. A convenient preparation for obtaining a prolonged level of penicillin in the blood.

Vials containing 10 x 1 c.c. doses

'AVLOPROCIL' N.A. Procaine Penicillin Injection Fortified

This preparation provides in addition to a sustained therapeutic level, an initial high peak level. It is issued as a dry powder, specially prepared so that an aqueous suspension is formed almost immediately, when sterile water is added.

Single-dose vials containing a total of 0.4 mega unit penicillin as: 300,000 units crystalline penicillin G (procaine salt) 100,000 units crystalline penicillin G (sodium salt)

Multi-dose vials containing a total of 4.0 mega units penicillin as: 3,000,000 units crystalline penicillin G (procaine salt) 1,000,000 units crystalline penicillin G (sodium salt)

'AVLOPROCIL' Procaine Penicillin G Oily Injection

A sterile suspension of the procaine salt of penicillin G with $2\frac{9}{0}$ aluminium stearate in arachis oil. Each c.c. contains 300,000 units of penicillin and a single injection achieves a therapeutic blood-level which is maintained for a period ranging from 36-48 hours.

Vials containing 10 x 1 c.c. doses. Vials of 1 c.c. Boxes of 10.

'Thiomerin'

SODIUM (MERCAPTOMERIN SODIUM)

THE NEW MERCURIAL DIURETIC FOR SUBCUTANEOUS INJECTION

'Thiomerin' differs from other mercurial diuretics in that the mercury is in combination with an organic group plus another compound—sodium thioglycollate, which has a marked detoxicating action on the mercury. The volume of urine excreted is mainly determined by the size and frequency of the injections. Intravenous injections merely speed up the process by a few hours but have no effect on the final weight loss. 'Thiomerin' diuresis induced by subcutaneous injection (0.5 to 2 cc) is

gentle, slower in onset but equal in output to that of any other mercurial, however administered. The patient benefits, both from a painless injection and because less frequent bladder emptying, especially at night, permits muchneeded rest and imposes less strain.

* Thiomerin ' is indicated in Cardiac Oedema (peripheral or pulmonary)
Nephritic Oedema * Ascites of Liver Disease
Carefully selected cases of Subacute and Chronic Nephritis

PACKING—'Thiomerin' is supplied in vials of 1.4 G, to which the addition of 10 cc. Water for Injection, B.P. will provide a solution containing the equivalent of 40 mg. Mercury per cc.

'THIOMERIN' SODIUM

JOHN WYETH & BROTHER LIMITED, CLIFTON HOUSE, EUSTON ROAD, LONDON, N.W.1

LIVER INJECTION U.S.P. - 20 MICROGRAMS

NOW AVAILABLE IN GREAT BRITAIN

LEDERLE'S undisputed reputation for superior Liver Extracts stems from a quarter of a century's experience in liver-extract research. Their latest liver extract—Liver Injection U.S.P.—20 Micrograms—described in a recent British study as "significantly more potent" than other extracts* is now available to doctors in Great Britain. Liver Injection U.S.P.—20 Micrograms Lederle contains 20 μ g. of vitamin B₁₂ activity in each cc. and is especially suited to the prolonged treatment of pernicious anaemia because of its small volume, high concentration of antianaemic substance and low concentration of solids—qualities which ensure minimum patient discomfort and maximum therapeutic effect. In addition it is outstandingly useful in everyday practice for hepatic and metabolic stimulation.

*A review of pernicious anaemia patients on liver extract maintenance over several years showed a deterioration in their red-cell count and clinical conditions. A change to Solution Liver Extract Concentrated Lederle (now known as Liver Injection U.S.P.—20 Micrograms) brought about striking improvement in 20 of the 25 patients who had been maintained on extracts, as well as in 3 patients who had neglected their treatments. The author concluded from the definite response to the change of treatment that the Lederle Extract was significantly more potent than those previously used.

HE age-old ritual of "touching" for the King's Evil was practised by Elizabeth the First with understandable reluctance. Yet, believing as she did in the power of English monarchs to remedy the disease, she denied the royal touch to none who were genuinely afflicted and past hope of other cure. The picture shows the ceremony in progress at Kenilworth, the Earl of Leicester's home, on 18th July, 1575, when, as a contemporary letter tells, Elizabeth

touched nine of her subjects who had come to her beseeching aid.

As then, so now, in this Elizabethan Age: the interest of HER MAJESTY THE QUEEN in the welfare of the sick and suffering has made a deep impression on her people. It is therefore particularly appropriate that, at this time of solemn national celebration, all who serve the cause of healing should tender their loyal greetings to the Throne.

HORMONES OR SALICYLATES?

Rheumatic Fever

Some observations on

A.C.T.H., CORTISONE and

SALICYLATE THERAPY

(British Medical Journal, 1952, 2.582)

I^N 1951 we published and distributed amongst the Medical Profession a booklet entitled 'The Similarity in the Mode of Action of Salicylates and Cortisone in the Treatment of Rheumatism'.

It is interesting to note the report of the treatment of Rheumatic Fever published in the British Medical Journal (1952, 2, 582) which provided evidence that salicylates (in the form of Berex) act in a similar manner to A.C.T.H. An abstract of this report is now available in booklet form on request.

succinate - salicylate Therapy for the relief of symptoms associated with all rheumatic disorders.

'Eskamel' for acne

Resorcinol (2%) and sulphur (8%) in a stable, grease-free, flesh-tinted base. Issued in specially lined 1-oz. tubes. 'Eskamel' hides his spots for him. It is delicately flesh-tinted so that it is almost invisible when applied, and it often produces such marked improvement that, in a matter of weeks or days, there is nothing to hide.

MILIQUACILLIN

Penicillin powder with diluent, buffered

While or al penicillin therapy remains unsatisfactory for adults, it is a fortunate fact that in infants and children or al administration is much more effective, probably giving to the higher pH of the gastric contents.

LIQUACILLIN'

provides in each fluid drachm (approx. 1 teaspoonful) 100,000 units of penicillin G contained in a pleasantly flavoured, buffered liquid medium. The dose should be such that about three times the amount of penicillin is given as would be used intramuscularly under the same conditions.

LIQUACILLIN'

is supplied in packages, which provide, when the powder is mixed with the diluent, 2 ft. oz. (i.e. 16 1-drachm doses, each of 100,000 units.)

ELI LILLY AND COMPANY LIMITED

HANTS

A PRACTICAL SERVICE for the Practitioner

—free of charge

In addition to the standard diet cards for common ailments which have been issued by the Energen Dietary Service for nearly 25 years, special diets are planned to suit the needs of individual cases on receipt of appropriate clinical information from the doctor concerned.

FREE TO MEDICAL PRACTITIONERS

"Diet and the General Practitioner", a 40-page book of monographs on specific dietary problems, is available free of charge to medical practitioners. Cut out this advertisement and send it with your professional card, or apply on a postcard to the Energen Dietary Service.

For some patients, however, personal considerations make it difficult to follow a set dietary without detailed explanation. In such cases, where it would help your patients to observe their régimes intelligently and strictly and thus achieve better results, you are invited to arrange an interview for them with the senior dietitian of the Energen Dietary Service. (Dietary advice is not given to the lay public except at the direct request of their doctor.) These services are offered entirely free of charge and you are invited to apply for further details to the Energen Dietary Service.

ENERGEN DIETARY SERVICE

The headache, vertigo, dyspnoea and malaise associated with severe hypertension can be promptly controlled or greatly mitigated by Veriloid Intramuscular Solution. This intramuscularly administered hypotensive agent produces a prompt, sustained and significant reduction in blood-pressure, and provides welcome relief from the distressing subjective symptoms.

A single injection of Veriloid Intramuscular Solution lowers the blood-pressure for 3 to 6 hours. In many instances symptomatic relief persists for considerably longer periods. By repeated injections, the arterial tension may be depressed for many hours or even days. Thereafter, oral medication with Veriloid tablets may be employed.

Veriloid Intramuscular Solution is indicated in hypertensive states accompanying cerebral vascular disease, malignant hypertension, hypertensive crises (encephalopathy), toxaemia of pregnancy, eclampsia and pre-eclampsia.

Veriloid Intramuscular Solution reduces blood-pressure by a central action independent of ganglionic function, and has no direct relaxing action on the blood vessels. It contains the equivalent of I mg. per cc. of the standardized alkaloids of Veratrum viride assayed for potency in dogs.

Veriloid Intramuscular Solution is supplied in boxes of 6 ampoules of 2 cc. Detailed information will gladly be sent on request.

PACKS:

Tube of 12; Bottle of 250 (dispensing).

'NYXOLAN'

—specific anthelmintic against threadworm infestation

'Nyxolan' provides up to 90% cure rate against threadworms. It has none of the disadvantages of dye substances or diphenan. Its active agent, Aluminium 8-hydroxyquinoline sulphate, is confirmed clinically as absolutely non-toxic.

PACKS:

Dragées: 60's and 600's (dispensing). Syrup: Bottle of 8 fl. oz.

Literature on dosage course on request.

'HYPERYSIN'

containing an improved papaverine salt in relief of hypertension

Because of the more gradual and persistent action of its papaverine *nitrite* as compared with the hydrochloride, 'Hyperysin' provides superior anti-hypertensive effect in essential hypertension, angina pectoris and related cardiovascular diseases.

3.0 gr.
Carbromalum B.P.C. 3.0 gr.

PACKS: 1

15's and 500's (dispensing).

'TRISAN'

— for the symptomatic relief of bronchial asthma

'Trisan' contains Potassium Iodide B.P. 6.03%, Chloral Hydrate B.P. 7.11%, Barbitone Sodium B.P. 0.24%, Alcohol 4.00%.

This combination effects relief of bronchial spasm, expectoration and mental sedation, being particularly useful in cases of nocturnal asthma. Contra-indicated in hyperthyroidism and allergy to iodine.

PACKS:

Standard: 4 fl. oz.; 16 fl. oz. bottle (dispensing)

Glucose— in a most refreshing form

LUCOZADE has solved a sick-room problem which has existed ever since the virtues of glucose have been recognised. All too often, glucose has proved to be distasteful to the invalid palate, and much of its therapeutic value has therefore been lost. But in LUCOZADE the Patient discovers a most acceptable solace, a refreshing source of strength and optimism.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter. month thereafter.

month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR. Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years; £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year: £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

How much is a cheque book?

Lloyds Bank makes no specific charge for a cheque book, but the Bank has to recover from its customers the stamp duty which it paid to the Inland Revenue when the stamps were impressed on the cheques. Look closely at a cheque stamp and you will see figures showing the date when the Bank made this payment.

How to use a cheque book is explained fully in the booklet "Banking for Beginners". You can obtain a copy at any branch of the Bank.

Let LLOYDS BANK look after your interests

THREE ESSENTIALS TO EVERY **DOCTOR'S OFFICE**

Details Free on Request

The average doctor doesn't want elaborate correspondence cabinets.

But every doctor needs somewhere to keep his correspondence and records.

There is a Shannon unit which fits neatly on to any desk, side-table, or other convenient place. It is inexpensive and handy. Complete with all the necessary triply-strong suspended (on metal) folders, it costs very little. Yet it controls the doctor's correspondence safely and will last for many years.

Most doctors would find this Shannon unit invaluable in simplifying routine.

Then there are the readyprinted visible Case-History and Accounts records which control the history of every patient, give visible indication of impending visits, warnings of confinements, indications of cases to watch. . . . These, too, cut down the time spent on routine and help the doctor to control his practice as rigidly as any business or professional man.

Hundreds of doctors rely on these Shannon systems to keep close control of their multifarious activities. Why not you?

Just write "Send Details" on your card or letter heading and post it to The Shannon Ltd., of 991 Shannon Corner, New Malden, Surrey. You will receive full details of all the above by return free and without any obligation.

Manufacturing LHC. Stage 1. LHC is made from New Zealand milk lamb intestines, thoroughly cleansed and frozen within two hours of the animal being killed, thus reducing to a minimum the growth of bacteria.

London Hospital Catgut is manufactured under unified control from intestine to sterile tube
