nourishment

is the main problem ...

Brand's Essence is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weightreducing diets is especially appreciated by the patient.

Cutting the coat to suit the cloth

With insurance policies as with clothes—it's the well-fitting ones that give the greatest satisfaction. The many ready-made policies often do not meet the needs of the individual. We have always borne this in mind when planning our policies. To keep them flexible rather than rigid; and to plan them personally to fit both the needs—and the pocket—of the prospective policyholder. If you are concerned for your future or for the future of your dependants, see how simple it is to guarantee now what you need. For example, at the age of 25 by setting aside the modest sum of £5 a month we could provide:

FOR YOU

In 20 years a cash sum of £1,000 plus profits. Should you become disabled, your premiums cease during disability and an income of £10 monthly is paid to you.

FOR DEPENDANTS

Benefits up to a maximum of £3,400. Immediate cash payment of profits plus Pension of £10 monthly for balance of 20 years . . . £2,400 Plus cash at end of Pension period . . £1,000

£3,400

This type of plan is bringing PEACE OF MIND to many men in your calling. Send for full particulars to-day.

OXFORD UNIVERSITY PRESS

PHARMACOLOGY IN CLINICAL PRACTICE

By HARRY BECKMAN, M.D.

839 pages, with 152 figures. 63s. (U.K. and Eire only)

The name of Dr. Harry Beckman is a household word among many thousands of doctors who have read his famous "Treatment in General Practice." This new book is directed at a much wider field, and it is proving of inestimable value to senior students, house officers, consultants and general practitioners. The following extracts from reviews will show how well the book has been received in this country:

- "... Dogmatism, clarity of expression and sound knowledge of clinical medicine are the hallmarks of this book . . . wide in its scope, for it includes obstetrics and surgery as well as medicine. . . . This is one of the best books on therapeutics that has been published in the English language, and one which should be owned and carefully studied by every senior medical student, house officer and registrar, and there will be few practitioners who will not benefit from it."—The Practitioner.
- "... The serious purpose of the book is to look at pharmacology from the point of view of the doctor standing by his patient, and not to teach the subject as a science... It is an excellent book, written with good judgment and wide knowledge, in advance of books on therapeutics which are available in Britain... The book is to be recommended to the consultant as well as to those in general practice, for it is a comprehensive and very practical guide to modern therapy."—BRITISH MEDICAL JOURNAL.

THE NATIONAL HEALTH SERVICE

A Guide for Practitioners

Edited by MAX SORSBY, L.M.S.S.A. 280 pages. 12s. 6d.
"Without question this book should be read from cover to cover by all doctors in the Service. It should be read by everyone whose heart is set on making the new Health Service something of which future generations may be proud."— British Medical Journal.

ACCIDENT PREVENTION AND FIRST AID IN THE HOME

Compiled by the Surgical Staff, Royal Hospital for Sick Children, Edinburgh. 28 pages. Beautifully illustrated. Is. 6d.
This booklet is not intended to give first aid instruction, but it will help the mother should an accident occur in the home or, better still, it will show her how to take the necessary simple precautions to avoid accidents. Any profit resulting from the publication will be devoted to further the investigation and treatment of children

admitted to the Children's Hospital, Edinburgh, as a result of home accidents. MEDICAL JURISPRUDENCE

MEDICAL JURISPRUDENCE
Third Edition. By I. GORDON, M.B., Ch.B. (Cape Town), R. TURNER, M.B., Ch.B., D.P.H., and T. W. PRICE, Ph.D., M.A., LL.B. (Cantab.), B.A., LL.B. (South Africa). 143 illustrations. 75s.
This third edition is virtually a new book. Although intended primarily for South African readers, reference is made to many cases in the United Kingdom and the United States of America, and the legal section of the work, which is completely new, is unique in its detailed examination of the legal responsibilities of medical practitioners.

COMPRESSION ARTHRODESIS

Including Central Dislocation as a Principle in Hip Surgery By JOHN CHARNLEY, B.Sc., M.B., F.R.C.S. 276 pages. 208 illustrations. 42s. "As this book will show, it is believed that mechanical forces exist which can give to osseous union a purposeful direction, to turn what otherwise would be a random and aimless process of osteogenesis into an orderly progress towards a single objective. It is possible that in arthrodesis the use of strong mechanical compression will eventually become a commonplace."—Extract from Preface.

Problems of Fertility in General Practice

STALLWORTHY, WALKER, MALLESON, **JACKSON**

"Such a book as this has long been needed"

-LANCET

The first part of this book covers thoroughly the investigation and treatment of infertility, surveys the sexual difficulties that may cause childlessness, the prevention of repeated miscarriage, the clinical significance of the Rhesus factor and the difficult psychological and ethical problems involved in artificial insemination by donated semen. The second part deals with contraception and, besides much useful information on various methods, this section contains valuable and sensible chapters on occlusive caps, the "safe" period, genetical prognosis and eugenic sterilisation. Assisting THE MOVEMENT

In cases where colonic stimulation is indicated, 'Petrolagar' assists the movement surely but subtly. By supplying an unabsorbable emulsion that augments the intestinal fluid content, it provides a soft ductile fæcal mass that promotes a comfortable, natural bowel action, and encourages the return of normal habit. Agreeable to take, 'Petrolagar' is issued in two varieties: Plain and with Phenolphthalein.

Cortisone

MADE IN ENGLAND

This molecule is *Cortisone*, now being produced in England from abundant, low-cost vegetable-source materials by the simplified method of THE UPJOHN COMPANY.

Increased quantities of the hormone are becoming available in Great Britain (as yet, for the Ministry of Health) and for overseas countries for the treatment of rheumatic arthritis and the great number of other diseases in which *Cortisone* exhibits its remarkable therapeutic powers.

Cortisone is as protean in its application as the metabolic and inflammatory disorders it combats. The medical profession will welcome the fact that the production of Cortisone will no longer be limited by the high cost of its synthesis from scarce bovine bile acids.

This bread-mould is *Rhizopus arrhizus*, a fermenting agent that plays a most essential role in the new upjohn method of *Cortisone* production. The *Rhizopus* mould has a specific 'talent' for manoeuvring oxygen atoms within organic (particularly steroid) molecules. Thus the single-step fermentation eliminates many of the previous stages involved in its production. From this, any one of several available steroid substances (e.g. progesterone) emerges desirably transformed, with a

Rhizopus-shifted or Rhizopus-affixed oxygen atom at the appropriate molecular position. It is clear that the plentiful supply of vegetable raw materials and simplified microbiological production augurs very well indeed for the increased production of Cortisone in England. It is probable that decreases in price will also come about as production grows. Hospitals here will be able to extend the benefits of Cortisone therapy to larger numbers of patients, but it must be borne in mind that Cortisone is not yet in general distribution in Great Britain, where supplies are only at present obtainable through Health Departments for use in selected hospitals.

Upjohn Cortisone Acetate is issued in tablets of 25 mg. — in bottles of 20 tablets. Literature is available on request.

UPJOHN OF ENGLAND LTD., 4 ALDFORD STREET, PARK LANE, LONDON, W.1

GROSVENOR 5561

IN "SUMMER DIABBHOEA"

Precisely how warm weather influences the incidence of infective diarrhoea in children is uncertain, but the increased number of flies and amount of dust makes it more likely that milk and food will become contaminated, while the rapid multiplication in warm weather of the various organisms known to be associated with the disease may lead to increased virulence.

'Thalazole' is indicated when dysentery bacilli are responsible for sporadic or epidemic cases. But it is often not possible to isolate the causal organism in outbreaks, and since even the mildest cases may suddenly assume a grave character, it is suggested that treatment with 'Thalazole' should be considered as an immediate routine measure.

Supplies: Bottles of 4 and 40 fl. oz. Each 3.6 c.c. (approx. 1 teaspoonful) contains 0.75 Gm. phthalylsulphathiazole.

BEEF EATERS!

The name 'Beefeaters' is supposed to have originated in 1669, when the Duke of Tuscany wrote of them:—
"They are very great eaters of beef, of which a very large ration is given to them daily at Court—
they might be called 'Beefeaters'."

Though the name has prevailed through the years, the same cannot be said of the beef ration. Indeed, most protein foods—foods which constitute the very foundation of the recovery diet—are in short supply. How, then, can you make sure that your patients have all the protein they need? Simple enough—by supplementing their diets with Cashan. Every ounce provides 26 grams of protein—more than in four eggs or a pint and a half of milk. And Cashan is flavourless... goes unnoticed in almost any food or drink... just the thing now that "beef eating" is restricted to one or two days a week.

"But what can I eat now?"

While the dental equipment of our lion appears impressively complete, man is often faced with temporary deficiencies. It is then that the desire for a 'square meal' often asserts itself some time before the mouth can cope with anything but the softest fare. So here is yet another occasion when your advice about Farex will be really appreciated. The same smooth texture that makes Farex so suitable for babies is often equally welcome to adults. And remember, Farex provides genuinely adequate nourishment . . . delightful nourishment, too, for it can be given literally any flavouring the patient fancies!

Marked decrease of pyogenic infections

follows

the use of DERL containing

HEXACHLOROPHENE

The use of "Derl", containing Hexachlorophene, has proved effective in causing a marked decrease in the incidence of pyogenic infections such as Whitlows, Sycosis, Impetigo, Furuncles, Carbuncles Cellulitis, and can be prescribed with confidence to patients liable to these conditions.

The introduction of "Derl" has secured the interest of the Medical Profession and Health Authori-A report recently received from a large British hospital states: "The incidence of septic skin conditions is increasing at the hospitals which we are using as a 'control' but it has not increased at the hospital where we are using DERL."

A wash with Derl lasting from one to three minutes will reduce the bacterial flora of the skin to a level unheard of by the use of ordinary soap, or by the combination of ordinary soap with other chemicals.

The high germicidal activity of this remarkable new soap is known to be due to the absorption of Hexachlorophene by the skin in sufficient quantity to exert a continuous bacteriostatic effect. No cases of sensitization have been reported.

We gladly send testing samples to members of the medical profession.

The key to successful peptic ulcer therapy

WHENEVER continuous neutralization of gastric acidity is required—in active and quiescent peptic ulcer, gastritis, hyperacidity—NULACIN TABLETS are indicated.

The successful clinical behaviour of NULACIN TABLETS is accounted for by their composition and unique manner of use.

Dosage

Beginning half-an-hour after food a NULACIN TABLET should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity up to three tablets an hour may be required. For follow-up treatment the suggested dosage is one or two tablets between meals.

NULACIN TABLETS are not advertised to the public and there is no B.P. equivalent. NULACIN is supplied in tubes of 25 and 12 tablets. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to Pharmacists . . . 2/-.)

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets 3 an hour). Note the return of acidity when Nulacin is discontinued.

SLOUGH · BUCKS

good night Doctor

A patient rests particularly comfortably on an Intalok mattress, yet is firmly supported in a natural position. The unique Intalok spring system makes this possible. Large numbers of fine gauge springs flex gently under 'local' pressure, but, because they are interlinked coil by coil right through the mattress, their combined resilience over larger areas is firm and even. The complete rest Intalok brings makes a real contribution to the patient's recovery.

Here are other good reasons why Intalok is the ideal hospital mattress:

- I All metal parts are rustless—can be sterilized repeatedly. 2 The spring centre gains by
- repeated stoving. The special Intalok spring
- system makes the mattress unusually light and easy to handle.
- Intalok mattresses can be made to special thicknesses or sizes, or in segments to suit special cases.
- Existing hair mattresses can be converted to Intalok. This cuts costs.

6 Every Intalok springing unit is guaranteed for ten years.

Write for illustrated leaflet and prices.

HOSPITAL MATTRESS

Intalok Ltd., Caldwell Road, Nuneaton

INTALOK IS A PRODUCT OF THE SLUMBERLAND GROUP

Based on the well-proved Dalmas formulæ containing zinc oxide. glycerine etc. Each Dalzoband number identifies a distinct medication additive specific to certain conditions. Write for descriptive pamphlet and for samples of Dalzoband 4 and 5, which should be of especial interest.

The five products listed below conform to the specifications of the Drug Tariff issued by the Ministry of Health.

Zinc Paste Bandage. B.P.C.

Zinc Paste and Ichthammol Bandage. B.P.C.

Zinc Paste with Urethane and Ichthammol Bandage.

Zinc Paste with Urethane and Calamine Bandage.

Coal Tar and Zinc Paste Bandage.

PETRONET NON-ADHERENT SURGICAL DRESSINGS

Write for the illustrated folder which describes this highly efficient dressing, its purpose and applications in cases of wounds and skin grafting. Absence of pain and discomfort in both applying and removing, absolute non-adherence and free drainage, commend Petronet Squares, impregnated with Petroleum Jelly and Balsam of Peru, to your critical analysis.

PoroPlast

Research during the past ten years into skin irritation associated with the use of adhesive plaster has resulted in notable improvements over the old type of elastic adhesive bandage.

PoroPlast contains no rubber, and it is entirely free from the irritating solvents and resins usually embodied in elastic adhesive bandages. PoroPlast is porous over its whole surface, giving ventilation even where two layers overlap. It offers greatly increased plaster toleration even on the most sensitive skins. Samples on application.

N.H.S.

PoroPlast conforms to the Specification for Flexible Adhesive Bandages Porous of the Drug Tariff (April 1953 Amendment) and is freely prescribable in widths $2\frac{1}{2}$ in. and 3 in. on E.C.10 from 1st July, 1953, under the name "PoroPlast."

It depends what you mean by 'Banking'

OF COURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as an Executor, help with a customer's Income Tax problems, obtain currency for foreign travel. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

**SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter. month thereafter

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scotlish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year: £890 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years; £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICER: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

For IRON DEFICIENCY ANAEMIAS A New Bayer Product

better absorption less irritation In hypochromic anaemias of pregnancy 'Fergon'—a specially prepared tablet form of ferrous gluconate—is an advance on current iron therapy. Ordinary iron preparations produce digestive disturbances; the patient may 'skip' doses and so recovery is delayed. 'Fergon', on the other hand, does not interfere with gastro-intestinal function so that there is no vomiting, constipation, or diarrhoea. Maximum therapeutic effect is assured because absorption and haemoglobin response are not reduced by gastro-intestinal upsets. Apart from anaemia of pregnancy, 'Fergon' is well suited for the treatment of anaemia in children and other iron deficiency anaemias. The basic N.H.S. price of one week's treatment is 1/2d.

Packings: tablets, gr. 5, in bottles of 100 and 1,000.

Medical literature on request

Hommel's

A Selection of Ethical Pharmaceuticals.....

'DORMUPAX'

— a superior barbiturate sedative-hypnotic

'Dormupax' Tablets are characterized by their high efficacy and low toxicity, provided by the combination of a new barbiturate of remarkably low therapeutic index (high ratio of toxic to effective dose), and carbromalum.

Clinical trials confirm their reliable action, good compatibility and wide therapeutic margin.

EACH TABLET: Calcium n-butyl-allyl-barbiturate 3.75 gr.
Carbromalum B.P.C. 1.50 gr.

PACKS:

Tube of 12; Bottle of 250 (dispensing).

'NYXOLAN'

-specific anthelmintic against threadworm infestation

'Nyxolan' provides up to 90% cure rate against threadworms. It has none of the disadvantages of dye substances or diphenan. Its active agent, Aluminium 8-hydroxyquinoline sulphate, is confirmed clinically as absolutely non-toxic.

PACKS:

Dragées: 60's and 600's (dispensing). Syrup: Bottle of 8 fl. oz.

Literature on dosage course on request.

HYPERYSIN

containing an improved papaverine salt in relief of hypertension

Because of the more gradual and persistent action of its papaverine *nitrite* as compared with the hydrochloride, 'Hyperysin' provides superior anti-hypertensive effect in essential hypertension, angina pectoris and related cardiovascular diseases.

Carbromalum B.P.C. 3.0 gr.

PACKS: 15's and 500's (dispensing).

'TRISAN'

— for the symptomatic relief of bronchial asthma

'Trisan' contains Potassium Iodide B.P. 6.03%, Chloral Hydrate B.P. 7.11%, Barbitone Sodium B.P. 0.24%, Alcohol 4.00%.

This combination effects relief of bronchial spasm, expectoration and mental sedation, being particularly useful in cases of nocturnal asthma. Contra-indicated in hyperthyroidism and allergy to iodine.

PACKS:

Standard: 4 fl. oz.; 16 fl. oz. bottle (dispensing).

OCTOR, I just feel continually tired and run down..." Now why should this phrase be heard more and more in the surgery today? Is it overwork, worry about the post-war world, fashion, a neurosis (assuming it is not traced to constitutional causes), lack of sleep (as the advertisers would have us believe), nervous strain or lack of adequate food? This last supposition bears the closest investigation for most of us now get less protein than we did before the war.

Have you ever considered the use of a protein tonic for such patients? Sanatogen is probably the best known and most widely used. This preparation contains 95% protein combined with 5% sodium glycerophosphate, has a specific nutrient and tonic effect and a high rate of utilisation. The protein in Sanatogen supplies all essential amino-acids together,

thus permitting tissue regeneration in accordance with the all-or-none dietetic law.

Its acknowledged success over a great many years seems to indicate that the relationship between an inadequate protein intake and what patients call "being run down" may be very much closer than has been thought. Have you considered the use of Sanatogen in this light?

Sanatogen

THE PROTEIN NERVE TONIC

The word 'Sanatogen' is a registered trade mark of Genatosan Ltd., Loughborough, Leics.
