soluble aspirin with codeine phosphate and phenacetin

Codis presents a familiar grouping of analgesic drugs; aspirin, phenacetin, codeine phosphate; with an important advantage. The "aspirin" in Codis is rendered soluble, as in 'Solprin'.

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein. Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION *Each Codis tablet contains:—Acid. Acetylsalicyl. B.P. 4 grs., Phenacet. B.P. 4 grs., Codein Phosph. B.P. 0.125 grs., Calc. Carb. B.P. 1.2 grs., Acid. Cit. B.P. (Exsic.) 0.4 grs., Excip. ad. 11.45 grs.*

PoroPlast

TRADE MARK

Research during the past ten years into skin irritation associated with the use of adhesive plaster has resulted in notable improvements over the old type of elastic adhesive bandage.

PoroPlast contains no rubber, and it is entirely free from the irritating solvents and resins usually embodied in elastic adhesive bandages. PoroPlast is porous over its whole surface, giving ventilation *even where two layers overlap*. It offers greatly increased plaster toleration even on the most sensitive skins. Samples on application.

N.H.S. PoroPlast conforms to the Specification for Flexible Adhesive Bandages Porous of the Drug Tariff (April 1953 Amendment) and is freely prescribable in widths 2½ in. and 3 in. on E.C.10 from 1st July, 1953, under the name "PoroPlast."

Gastro-Duodenal Ulceration

AMINO ACID AND ANTACID THERAPY

The Medical Management of Gastro-Duodenal Ulceration.

Rapid disintegration ensures prompt relief from epigastric pain due to hyperacidity and gastro-duodenal ulceration. A prolonged "buffering action" for over three hours is established causing no "acid rebound." The liberation of the amino acid glycine stimulates the granulation of the ulcer bed and the normal enzyme activity is ensured whilst the mucosa is protected by the freely formed colloidal gel.

FORMULA: Dihydroxy aluminium aminoacetate—250 mgms.; Glycine—30 mgms.

ANTIPRURITIC FUNGICIDE

Epidermophytoses and allied fungoid infections often resist treatment owing to re-infection from scratching and from poor penetration of the medication. CALPED CREAM provides the anti-pruritic fungicide parachlorophenylether, proved to have a very marked inhibitive action on many types of fungi.

Salicylic acid contributes to the fungicidal properties by encouraging desquamation of infected skin, allowing direct contact with invading fungi.

CALPED is also available in powder form. A polythene insufflator facilitates application.

A new and logical therapy for Rheumatic conditions

Water-soluble esters of salicylic, p-aminobenzoic and nicotinic acids, that readily pass the skin barrier

The local treatment of rheumatic conditions has hitherto presented certain difficulties; drugs which penetrated the skin often caused intense irritation and their use was of doubtful value.

Transvasin, a new preparation developed by Hamol, S.A., our Swiss associates, and now available for prescription in this country, contains esters of salicylic, p-aminobenzoic and nicotinic acid. These esters, being both water- and fat-soluble, readily pass the skin barrier in therapeutic quantities without causing irritation, and enable an adequate concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilatation of the skin with a superficial erythema but also brings about a deep hyperaemia of the underlying tissues.

Salicylic acid tetrahydrofurfuryl-ester	14%
Nicotinic acid ethyl-ester	2%
Nicotinic acid n-hexyl-ester	2%
p-Aminobenzoic acid ethyl-ester	2%
Water-miscible cream base ad	100%

Transvasin is available in 1 oz. tubes at 4/-, which are obtainable on form E.C.10, and is not advertised to the public.

A PRACTICAL SERVICE for the Practitioner

—free of charge

In addition to the standard diet cards for common ailments which have been issued by the Energen Dietary Service for nearly 25 years, special diets are planned to suit the needs of individual cases on receipt of appropriate clinical information from the doctor concerned.

FREE TO MEDICAL PRACTITIONERS

"Diet and the General Practitioner", a 40-page book of monographs on specific dietary problems, is available free of charge to medical practitioners. Cut out this advertisement and send it with your professional card, or apply on a postcard to the Energen Dietary Service.

For some patients, however, personal considerations make it difficult to follow a set dietary without detailed explanation. In such cases, where it would help your patients to observe their régimes intelligently and strictly and thus achieve better results, you are invited to arrange an interview for them with the senior dietitian of the Energen Dietary Service. (Dietary advice is not given to the lay public except at the direct request of their doctor.) These services are offered entirely free of charge and you are invited to apply for further details to the Energen Dietary Service.

When side effects are an obstacle to treatment...

... the administration of a combination of Veriloid with phenobarbitone enables Veratrum therapy to be continued successfully in a majority of those patients who cannot tolerate Veriloid alone because of frequent nausea.

The two substances are now available together as Veriloid-VP, each tablet of which contains 2 mg. of Veriloid with 15 mg. of Phenobarbitone B.P.

VERILOID-VP

VERILOID WITH PHENOBARBITONE

IN ALL DEGREES OF HYPERTENSION

Given concomitantly, phenobarbitone raises the threshold of tolerance of the Veratrum alkaloids and relieves the emotional tension which is so often present in the hypertensive patient. Therapeutically effective doses can thus be given with little or no side-effects.

Dosage of Veriloid-VP is adjusted to individual requirement, an average dose being one to one and one-half tablets four times daily, after meals and at bedtime.

Reference: *Lancet*, 261: 1002 (Dec.) 1951.

Veriloid-VP is available in bottles of 100 and 500 scored tablets.

NOTE

Veriloid, plain, remains available as before in tablets of 1 mg. and 2 mg. Veriloid is a unique, biologically standardised fraction of Veratrum viride and has been used with marked success in all forms of hypertension. Blood pressure is significantly lowered, without loss of the postural reflexes essential to normal living. Great relief of subjective symptoms is a common feature of therapy.

Various treatments aimed at either dehydration or a correction of the disturbed hormonal ratio have proved partially effective. Treatment with a progestogen is almost invariably successful. In mild cases relief is usually obtained by the oral administration of ethisterone in a dosage of 25 mg. twice daily during the second half of the menstrual cycle. A large proportion of patients can be relieved by the intramuscular injection of progesterone, 25 mg. on alternate days during the same phase of the cycle. Such cases are more effectively treated, with less labour for the patient, by the implantation of progesterone, which remains effective for many months."

Nutrition in Convalescence

It has been suggested that special
attention should be paid to pre- and
post-operative nutrition. During con-
valescence there may be an increased
need for the essential nutrients and
particular care should be taken to
ensure that the patient receives an
adequate supply of these.

In planning meals for the convalescent
the protective foods are therefore
important. Marmite yeast extract
supplies essential B₁ vitamins and is
especially useful in the convalescent
diet, as it adds an appetising flavour
to many dishes and can also be served
as a drink.

Cutting the coat to suit the cloth

With insurance policies as with clothes—it's the well-fitting ones that give the greatest satisfaction. The many ready-made policies often do not meet the needs of the individual. We have always borne this in mind when planning our policies. To keep them flexible rather than rigid; and to plan them personally to fit both the needs—and the pocket—of the prospective policyholder. If you are concerned for your future or for the future of your dependants, see how simple it is to guarantee now what you need. For example, at the age of 25 by setting aside the modest sum of £5 a month we could provide:

FOR YOU

In 20 years a cash sum of £1,000 plus profits. Should you become disabled, your premiums cease during disability and an income of £10 monthly is paid to you.

FOR DEPENDANTS

Benefits up to a maximum of £3,400. Immediate cash payment of profits plus Pension of £10 monthly for balance of 20 years .. £2,400 Plus cash at end of Pension period .. £1,000

£3,400

This type of plan is bringing PEACE OF MIND to many men in your calling. Send for full particulars to-day.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

Deferment of recruitment for fully registered "R" practitioners (i.e., fully registered practitioners liable for call-up under the National Service Acts) is granted at the discretion of the Central Medical Recruitment Committee and (in Scotland) the Scottish Central Medical Recruitment Committee. The Committees normally allow a fully registered "R" practitioner to hold a First House Officer post (N.H.S. salary £350 per annum) provided that it commences within three months of the end of his deferment by the Ministry of Labour and National Service as a whole-time medical student; and a Second House Officer post (N.H.S. salary £400 per annum) provided that it is secured before the end of his First House Officer post and commences within one month thereafter.

An "R" practitioner requires the special written permission of the C.M.R.C. or (in Scotland) the Scottish C.M.R.C. to proceed to any further post.

The position of provisionally registered "R" practitioners has been made clear in a notice sent to them by the University Joint Recruiting Boards.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for three years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICER**: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held; with, in each case, a deduction at the rate of £100 per annum in respect of board and lodging and other services provided. Each post shall be tenable for six months.

The Minister will be prepared to authorize, in exceptional circumstances, salaries up to £50 per annum higher than the standard rates specified above where a post cannot be filled otherwise.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed not less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

HER MAJESTY'S COLONIAL SERVICE, Malaya

Doctors are required for the Malayan Medical Department as follows:

SPECIALIST OBSTETRICIAN AND GYNÆCOLOGIST

Duties comprise the training of staff and supervision of their work, and, if necessary, teaching clinical work to students. Candidates should be Fellows or Members of the Royal College of Obstetrics and Gynaecology, or Fellows of the Royal College of Surgeons with experience in obstetrics and gynaecology.

SPECIALIST ANAESTHETIST

Duties to administer anaesthetics in Government hospitals, instruction of staff in the technique and practice of anaesthetics, and, if required, the teaching of medical students. Candidates should possess the Diploma in Anaesthetics, and have had substantial experience.

Appointments to the above posts are available (a) on probation for permanent and pensionable establishment, (b) on employment from the National Health Service, (c) on short-term contract. (a) Permanent terms: Subject to three years' probation appointment is permanent with pension (non-contributory) at age of 55. Basic salary is £1,764 per annum. In addition, pensionable expatriation may be payable to all officers at the rate of £364 per annum. A non-pensionable expatriation allowance is paid to married officers without children at the rate of £133 per annum, and to married officers with children at the rate of £259 per annum. A temporary, variable, non-pensionable cost-of-living allowance is payable at the rate of £42 per annum for single men, £308 for married men, and £413 for married men with children. (b) National Health Service terms: Doctors may resign from the National Health Service but retain their superannuation rights during their time in Malaya (up to six years) and receive a resettlement grant of 20 per cent of the aggregate of their Malayan salary on leaving Malaya at the end of their engagements. Salary and allowances as under (a). Doctors so appointed may be considered for permanent terms at any time during their employment in Malaya provided they surrender their rights to the resettlement grant. Payment by Malayan Governments of superannuation contributions ceases from date of permanent service. (c) Short-term contract for three years' resident service renewable for a further tour of three years by mutual agreement. Salary as under (a). A gratuity at the rate of £450 per annum is also paid on expiry of contract. In all types of appointment the rate of salary and gratuity refer to doctors eligible for "expatriate terms" under Malayan Regulations (i.e. those whose permanent homes are in the United Kingdom, Irish Republic, Australia, Canada, etc.). The climate is, for the tropics, healthy. European children do well up to the age of about six and schools are available locally. Income tax is payable at Malayan rates, which are lower than those in the United Kingdom. Government quarters with heavy furniture are provided at a low rental, or an allowance is paid in lieu of quarters. Free passages are provided for the doctor, his wife, and children under the age of ten (not exceeding four persons besides himself) on appointment and once each way during each tour of duty of three to four years. Generous home leave is granted and local leave is permissible. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, S.W.1 (quoting ref. No. CDE117/60/04). (9504)

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, the entire Vitamin B complex should always be administered concurrently.

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

- Aluzyme is not advertised to the public and may be prescribed on Form E.C.10
