Patients are superbly comfortable on an Intalok mattress. Every one of the many hundreds of very fine high grade springs is interlinked, coil by coil, with its neighbours to create a firm, even surface that is sensitive to the slightest movement. This is comfort that goes a long way to help the patient's recovery.

*More good reasons why Intalok is the ideal hospital mattress:*

- 1 All metal parts are rustless—can be sterilized repeatedly.
- 2 The spring centre gains by repeated stoving.
- 3 The special Intalok spring system make the mattress unusually light and easy to handle.

4 Intalok mattresses can be made to special thicknesses or sizes, or in segments to suit special cases.

5 Existing hair mattresses can be converted to Intalok. This cuts costs.

6 Every Intalok springing unit is guaranteed for ten years.

— the outstanding tar-sulphur-salicylic-acid ointment — is effective in many common skin disorders. The cetyl-alcohol-coal-tar distillate retains the therapeutic activity of crude coal-tar but is less likely to irritate and does not stain.

The effectiveness of all the active components is enhanced by the special oil-in-water emulsion base. 'Pragmatar' is convenient to use on both glabrous and hairy surfaces, and is therefore particularly useful in the general care and hygiene of the seborrhoeic scalp.

# NOW WIDELY PRESCRIBED— Transvasin

Contains skin-penetrating esters of salicylic, nicotinic, and p-aminobenzoic acids. It brings real relief to deep-seated muscular rheumatism by simple inunction.

Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, and now available for prescription in this country, contains polar esters of salicylic, p-aminobenzoic and nicotinic acids. These esters readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilation of the skin with a superficial erythema but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on the skin.

It is now being widely prescribed, with highly successful results. There is evidence, also, that since a very small quantity is sufficient for each application the cost of treatment is extremely low.

# The Advantages of the non-irritating adhesive used in **Poroplast**

*Arm photographed after removal of ordinary porous elastic adhesive bandage applied on sensitive skin for 24 hours*

*Arm of same subject after 7 days' application of non-irritating Poroplast.*

The possibility of skin irritation is always present when applying adhesive bandages. This varies widely from patient to patient, but even the mildest reaction may bring serious discomfort. The risk can be minimized, but porosity alone is not sufficient. Poroplast has many *additional* advantages.

No irritating solvents nor the irritating resins which are usually embodied in elastic adhesive bandage.

No rubber. The plaster mass and the cloth used in Poroplast are completely free of rubber.

Porous over its whole surface, for ventilation and permeation of secretions.

The same characteristics of elasticity, stretch,

and compression as in standard elastic adhesive bandages.

Same Price. The advantages of Poroplast are obtainable at Standard Prices. Widths 2½ in. and 3 in. (5-6 yds. stretched).

Suspension Chloromycetin Palmitate. A pleasantly-flavoured preparation containing a tasteless derivative of Chloromycetin,

# When coughing causes insomnia...

**I**N TRACHEITIS and bronchitis the sleeplessness caused by a persistent, unproductive cough can be very exhausting. Tusana Cocillana Cough Linctus is invaluable in such cases. It provides a blend of expectorants to loosen the tenacious mucus, and the central sedative, codeine, to depress the cough reflex.

By breaking the vicious circle of

coughing and irritation, Tusana allows the patient to sleep and gather strength for recovery. The tendency of codeine to cause constipation is offset by the inclusion of a little extract of senna in the formula.

## Why MIXOGEN is prescribed for menopausal symptoms

Because it is now established that :—

- combined male and female hormone treatment is the most effective in this condition.
- the correct balance of the two hormones is essential both for efficacy and economy—determined by extensive clinical trial in the U.K. and unique to Mixogen.
- both the hormones in Mixogen are completely effective when swallowed—thus maximum, immediate relief is given in the simplest and most convenient way.

# A perfect source of Vitamin C

**RIBENA** (*Syrupus Ribis Nigri B.P.C.*)

HIGH CONCENTRATION OF VITAMIN C—  
REMARKABLE STABILITY

Four characteristics of Ribena make it  
a perfect source of Vitamin C:

- 1 It contains a high concentration of Vitamin C—and it is very stable.
- 2 The vitamin is in its natural state. \*
- 3 Ribena is very well tolerated even by sensitive stomachs. It is completely free from all cellular structure. It is suitable for infants almost from birth, for peptic ulcer cases, and for women suffering from "morning sickness"; they can take it when almost everything else increases discomfort.
- 4 In addition to its therapeutic values, it is delicious in its own right as sweet blackcurrant syrup.

\* Following reports of unsatisfactory response to the therapeutic use of synthetic ascorbic acid in peptic ulcer cases, controlled tests using Ribena were instituted at various large British hospitals, with striking results. Clinical experience has also shown that in ulcerative gingivitis, the routine use of Ribena as an adjunct to local therapy has given more satisfactory results than that of the synthetic vitamin. The superiority is presumably due to the presence of other factors of the Vitamin C complex, possibly the Vitamin P, as well as mineral elements.

## Therapeutic uses

Ribena is recommended for all conditions requiring Vitamin C implementation: namely, as a natural and rapid restorative from fatigue; for increasing resistance to local infection and colds; for expectant and nursing mothers; for infants from birth; for children and adolescents; in many dental conditions; in peptic ulcer cases; in fractures and wounds; in blood dyscrasias and hæmorrhagic states; in infections and fevers; and in many skin disorders.

## Reports for doctors overseas

The makers of Ribena co-operated extensively with the Ministries of Food and Health during the war, a co-operation which still goes on to some extent even now. The Royal Forest Factory has attached to it a series of very fine laboratories where research into fruit juices and vitamins is conducted to an academic level, under the direction of an expert, lately in charge of the Fruit Products Section of the University of Bristol Agricultural Research Station. Reports of much of the work done are available, on application, to doctors and scientists overseas. These are likely to be of particular interest now that Ribena is being extensively exported.

Send for further information. A booklet entitled "Blackcurrant Juice in Modern Therapy: Natural Vitamin C" will be forwarded to you with pleasure; also details of a number of controlled tests made on the use of Vitamin C, if you will write to:—

# CIDAL

THE TOILET SOAP  
THAT CONTAINS

2% **HEXACHLOROPHENE**

Because it contains Hexachlorophene, CIDAL soap has remarkable germicidal properties which help it to purify the skin as no ordinary toilet soap can do.

CIDAL is useful in treating all skin ailments where soap and water are part of the therapy. Regular use helps to reduce the incidence of cellulitis and folliculitis, and prevents secondary infections of minor cuts and abrasions. And this same protective action makes CIDAL an important factor in preventing unpleasant body odours at source.

CIDAL CREAM SHAMPOO also contains Hexachlorophene and shares CIDAL soap's germicidal powers. It protects hair follicles against infection by staphylococci and is helpful in treating dandruff.

*Hands that are  
often washed  
need CARE*

**CARE** is a new and doubly effective emulsion for the hands. It solves the problems of dryness resulting from frequent washing; it also contains Octaphen in a solution of 0.5%, which in vitro tests is shown to be bactericidal against a variety of pathogenic organisms. 'Care' is easy to use and readily absorbable. The makers' tests have proved that 'Care' meets a real need and they will gladly send a sample tube to any doctor on request.

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for four years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

#### Other Grades, Whole-time

(a) **HOUSE OFFICERS** (including Dental)

(i) *Provisionally registered medical practitioners*: £350 per annum for the first post held; £400 per annum for the second and any subsequent post held.

(ii) *Fully registered practitioners*: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held, provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £450 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £100 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

**COLONIAL MEDICAL SERVICE**

Vacancies occur from time to time in territories covered by the Colonial Medical Service for

**MEDICAL OFFICERS**

for general duties, including hospital and district work. These appointments offer great scope for the practice of many branches of medicine and surgery with a considerable measure of independence and personal responsibility. Appointments can usually be made on a permanent basis with pension (non-contributory) at age 50 or 55; on a temporary basis, with gratuity; or by appointment from the National Health Service for periods not exceeding six years, with continuation of National Health Service superannuation contributions and the payment of a resettlement grant of 20 per cent of the aggregate of colonial salary on leaving the colony. Salaries of Medical Officers are varied: for example from £950 to £1,850 per annum in Nigeria; from £865 to £1,590 per annum in Kenya (with a cost-of-living allowance in addition); and from £1,555 to £2,044 per annum in Malaya (with a cost-of-living allowance in addition). Starting salaries depend on age and experience, and officers holding certain higher qualifications are granted four additional increments on the salary scale. There are many specialist and administrative posts yielding higher pensionable salaries than those quoted above to which medical officers would expect to be appointed on promotion in the course of a normal career. Free passages are granted. Income tax is low. Tours of service vary from ten months in parts of West Africa to three or four years in, for example, Kenya. Houses with heavy furniture are provided in most territories at a rental of about 10 per cent of basic salary. Annual local leave is permissible and generous home leave is granted after each tour. Study leave on full pay is granted, subject to the needs of the service, to those who wish to acquire higher qualifications and so equip themselves for promotion to specialist posts. Officers serving in East and Central Africa often prefer to educate their children within that area, where schooling is available, or in South Africa. The short tours in West Africa enable frequent visits to be made to children being educated at home. Many officers have their children with them in West Africa until they reach school age. Application forms can be obtained from the Director of Recruitment (Colonial Service), Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting CDE.121/01).

## CHARGES FOR CLASSIFIED ADVERTISEMENTS

(Revised JULY 1, 1951.) CIRCULATION, 78,000.

To economize in paper, bookkeeping entries, and avoid delay, please send payment with the advertisement addressed:

Advertisement Manager,  
"British Medical Journal,"  
B.M.A. House, Tavistock Square, London, W.C.1.

The text of the advertisement itself should, where applicable, be clearly marked "MEMBER."

Every effort will be made to include "Hospital" and "Small" advertisements in the forthcoming issue provided they reach this office by not later than first post on the FRIDAY of the week preceding date of issue.

Cancellation of advertisements cannot be accepted if received after 4 p.m. on the Monday prior to date of issue (issues affected by public holidays excepted).

DO PLEASE WRITE ADVERTISEMENTS AND

ST. ANDREW'S HOSPITAL, NORTHAMPTON  
For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.:  
Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of  
park and pleasure grounds. Voluntary patients who  
are suffering from incipient mental disorders or who  
wish to prevent recurrent attacks of mental trouble,  
temporary patients and certified patients of both  
sexes are received for treatment. Careful clinical,  
biochemical, bacteriological and pathological exam-  
inations. Private rooms with special nurses, male or  
female, in Hospital or in one of the numerous villas  
in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main  
Hospital there are several branch establishments and  
villas situated in a park and farm of 650 acres.  
Milk, meat, fruit, and vegetables are supplied to the  
Hospital from the farm, gardens, and orchards of  
Moulton Park. Occupational therapy is a feature  
of this branch, and patients are given every facility  
for occupying themselves in farming, gardening and  
fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital  
in detached grounds with a separate entrance to  
which patients can be admitted. It is equipped with  
all the apparatus for the complete investigation and  
treatment of Mental and Nervous Disorders by the  
most modern methods; insulin treatment is avail-  
able for suitable cases. It contains special depart-  
ments for hydrotherapy by various methods, includ-  
ing Turkish and Russian baths, the prolonged  
immersion bath, Plombière's treatment, etc. There  
is an Operating Theatre, a Dental Surgery, an X-  
ray Room, an Ultra-Violet Apparatus, and a De-  
partment for Diathermy and High-frequency Treat-  
ment. It also contains Laboratories for biochemical,  
bacteriological and pathological research. Psycho-  
therapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of  
St. Andrew's Hospital is beautifully situated in a  
Park of 330 acres at Llanfairfechan amidst the  
finest scenery in North Wales. On the North-West  
side of the Estate, a mile of sea-coast forms the  
boundary. Patients may visit this branch for a  
short seaside change or for longer periods. The  
hospital has its own private bathing house on the  
seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket  
grounds, football and hockey grounds, lawn tennis  
courts (grass and hard courts), croquet grounds,  
golf courses, and bowling greens. Ladies and  
gentlemen have their own gardens, and facilities  
are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the  
Medical Superintendent (Telephone No.: North-  
ampton 4354 (3 lines)), who can be seen in London  
by appointment.

## Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, *the entire Vitamin B complex should always be administered concurrently.*

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

- Aluzyme is not advertised to the public and may be prescribed on Form E.C.10
