ZOPLA

MEDICAL AND SURGICAL PLASTERS

Developed in collaboration with some of the leading hospitals, the ZOPLA range of self-adhesive, zinc oxide plasters covers every medical, surgical, and dermatological need.

The range includes:

STRAPPINGS—for surgical use. Powerfully adhesive, on white, flesh, and elastic cloths.

FELTS of selected Merino Wool, for all padding and protective purposes. Only pure wool felt will retain its resilience and will not harden in use.

HELVIA—First Aid Flexible Dressing—elastic adhesive plaster with medicated gauze.

ZOPLA-BANDS—Elastic adhesive bandage of superior quality.

Details of the full ZOPLA range, together with samples, will gladly be sent on request.

SALT'S ILEOSTOMY APPARATUS

This modification of the Koenig-Rutzen ileostomy set has been used extensively, both in this country and abroad. Light and inconspicuous, it gives the wearer a feeling of security, saves the use of dressings, and prevents soiled clothes and bed linen. All parts replaceable.

SALT'S WET COLOSTOMY APPARATUS

For cases where one or both ureters have been transplanted into a sigmoid terminal colostomy the Salt Wet Colostomy Appliance and detachable bag is recommended. Details will be sent on application.

Why MIXOGEN is prescribed for menopausal symptoms

Because it is now established that :—

- combined male and female hormone treatment is the most effective in this condition.
- the correct balance of the two hormones is essential both for efficacy and economy—determined by extensive clinical trial in the U.K. and unique to Mixogen.
- both the hormones in Mixogen are completely effective when swallowed—thus maximum, immediate relief is given in the simplest and most convenient way.

Dosage: Initially 1-2 tablets daily, reducing when possible.

Packs: Perspex tubes of 25 tablets and bottles of 100, 250 and 500.

Literature on request.

CASSELL MEDICAL BOOKS

NOW AVAILABLE

**THE
PHYSIOPATHOLOGY
OF CANCER**Edited by **FREDDY HOMBURGER, M.D.,**
and **WILLIAM H. FISHMAN, Ph.D.**

This work provides a comprehensive cross-section of the scope and direction of current cancer research, each of the 28 eminent contributors having produced a critical evaluation of all work in his own field. The material has been carefully organized so that the reader is led from the basic biological and chemical studies through the problems of clinical investigation to the practical applications in diagnosis and treatment.

By following the chapters consecutively the work provides a textbook for students, but its scope is so broad and each chapter so detailed that it may also be used by research workers as a reference book to the present state of progress in fields adjacent to their own.

NOW WIDELY PRESCRIBED— Transvasin

Contains skin-penetrating esters of salicylic, nicotinic, and p-aminobenzoic acids. It brings real relief to deep-seated muscular rheumatism by simple inunction.

Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, and now available for prescription in this country, contains polar esters of salicylic, p-aminobenzoic and nicotinic acids. These esters readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed. Transvasin not only induces vasodilation of the skin with a superficial erythema but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on the skin.

It is now being widely prescribed, with highly successful results. There is evidence, also, that since a very small quantity is sufficient for each application the cost of treatment is extremely low.

Salicylic acid tetrahydrofurfuryl-ester	14%
Nicotinic acid ethyl-ester	2%
Nicotinic acid n-hexyl-ester	2%
p-Aminobenzoic acid ethyl-ester	2%
Water-miscible cream base ad	100%

Transvasin is not advertised to the public. It is available in 1 oz. tubes at 3/4d. plus 7½d. P.T., and is obtainable on Form E.C.10.

Samples and literature will be gladly sent on application.

HARVEY

1578—1637

This scientist and doctor of medicine rose to great eminence and became Physician Extraordinary to James I. He is most famed, however, for his research work on the blood and his discovery of its circulation.

IMPROVED PRESENTATION

FOR IRON DEFICIENCY ANÆMIAS, ferrous sulphate is universally accepted as the most efficient compound for oral administration. The improved method of presentation in 'Plastules' ensures *maximum* absorption and utilisation. The tasteless, easy-to-swallow capsules rapidly disintegrate and the ferrous sulphate in a semi-solid condition is quickly absorbed, with avoidance of gastric irritation. The addition of Folic Acid stimulates production of erythrocytes, and the dried yeast increases appetite and reinforces the action of the iron.

'Plastules' are available in four varieties—

Each capsule contains:

Plain: Exsiccated Ferrous Sulphate 5 gr., Dried Yeast $\frac{1}{2}$ gr.

With Hog Stomach: Exsiccated Ferrous Sulphate $2\frac{1}{2}$ gr., Dried Yeast $\frac{1}{2}$ gr., Desiccated Hog Stomach 1.47 gr.

With Liver Extract: Exsiccated Ferrous Sulphate $2\frac{1}{2}$ gr., Dried Yeast $\frac{1}{2}$ gr., Extract of 52 gr. of fresh liver.

With Folic Acid: Exsiccated Ferrous Sulphate $2\frac{1}{2}$ gr., Dried Yeast $\frac{1}{2}$ gr., Folic Yeast 1 mg., Extract of 26 $\frac{1}{2}$ gr. of fresh liver.

LIVER INJECTION U.S.P. - 20 MICROGRAMS

**NOW AVAILABLE IN
GREAT BRITAIN**

LEDERLE'S undisputed reputation for superior Liver Extracts stems from a quarter of a century's experience in liver-extract research. Their latest liver extract—Liver Injection U.S.P.—20 Micrograms—described in a recent British study as "significantly more potent" than other extracts* is now available to doctors in Great Britain. Liver Injection U.S.P.—20 Micrograms *Lederle* contains 20 μ g. of vitamin B₁₂ activity in each cc. and is especially suited to the prolonged treatment of pernicious anaemia because of its small volume, high concentration of anti-anaemic substance and low concentration of solids—qualities which ensure minimum patient discomfort and maximum therapeutic effect. In addition it is outstandingly useful in everyday practice for hepatic and metabolic stimulation.

*A review of pernicious anaemia patients on liver extract maintenance over several years showed a deterioration in their red-cell count and clinical conditions. A change to Solution Liver Extract Concentrated *Lederle* (now known as Liver Injection U.S.P.—20 Micrograms) brought about striking improvement in 20 of the 25 patients who had been maintained on extracts, as well as in 3 patients who had neglected their treatments. The author concluded from the definite response to the change of treatment that the *Lederle* Extract was significantly more potent than those previously used.

Like aspirin

it is analgesic, sedative,
anti-rheumatic

Like pure calcium aspirin

it is soluble and bland

By providing calcium aspirin in stable, soluble, palatable tablet form, 'Solprin' overcomes the physical and chemical defects, not only of aspirin, but of calcium aspirin itself as generally prepared. Extensive clinical trials with 'Solprin' have shown just such gratifying results as might be expected from so remarkable a combination of properties. Except in cases of extreme hypersensitivity, aspirin, in the form of 'Solprin' can now be administered in large doses over prolonged periods, without gastric or systemic disturbances.

No Other Hypotensive Combines these...

Veriloid, a product of Riker Laboratories research, is an alkaloidal extract of hypotensive principles obtained by fractionation from *Veratrum viride*. It is biologically assayed in mammals using reduction of arterial pressure as the criterion of potency.

12

IMPORTANT FEATURES

VERILOID

IN HYPERTENSION

- 1 Uniformly potent. Its constancy of pharmacological action permits calculation of exact dosage in milligrams . . .
- 2 A unique process of manufacture produces a tablet which dissolves slowly, assuring absorption and action over a considerable period . . .
- 3 Moderates blood pressure by vaso-relaxant action independent of vagomotor effect . . .
- 4 No ganglionic or adrenergic blocking . . .
- 5 Lability of blood pressure, so important in meeting the demands of an active life, is not interfered with; no danger of postural hypotension . . .
- 6 Cardiac output is not reduced . . .
- 7 No compromise of renal function . . .
- 8 Cerebral blood flow is not decreased . . .
- 9 Tolerance or idiosyncrasy rarely develops . . .
- 10 Hence can be given over long periods with the aim of arresting or lessening progression of hypertension . . .
- 11 Well tolerated in properly adjusted dosage; does not occasion headache . . .
- 12 Produces a prompt and sustained reduction of blood pressure in all forms of hypertension . . .

Oral dosage forms: Veriloid (plain) in tablets of 1 mg. and 2 mg., Veriloid-VP (Veriloid 2 mg. and Phenobarbitone 15 mg.), Rauwiloid + Veriloid (Rauwiloid brand standardized alkaloids of *Rauwolfia serpentina* 1 mg. and Veriloid 3 mg.) Intramuscular solutions for the treatment of hypertensive crises, encephalopathy and similar conditions are also manufactured.

*"Rauwiloid" and "Veriloid" are Registered Trade Marks.

RIKER LABORATORIES LIMITED, 29, KIRKEWHITE STREET, NOTTINGHAM

Descriptive Literature available on request

A New development providing **CONTROLLED** antacid therapy

Prodexin is a new product containing aluminium glycinate, and belongs to the buffer group of antacids. It depends for its action upon the slow release, on hydrolysis, of active aluminium hydroxide gel and glycine (amino acetic acid). Glycine rapidly raises the pH to 2, sparing the aluminium gel for the later stage of raising it into the "safe zone" of pH 3.5 to 4.5. Prodexin maintains an equable gastric environment for long periods without alkalinisation.

Prodexin provides a convenient, economical and safe treatment for HYPERACIDITY and PEPTIC ULCER.

The tablets, sucked one at a time, maintain the pH of the stomach contents within the "safe zone" for up to two hours. With Prodexin there is no risk of acid rebound or alkalosis. Prodexin tablets are pleasant to suck and they do not form gritty particles in the mouth or give rise to constipation.

PRODEXIN

Each tablet contains:—

Aluminium glycinate.....0.9 gramme.
(dihydroxy aluminium aminoacetate)

Light magnesium carbonate.....0.1 gramme.

The basic N.H.S. cost of treatment at the rate of 6 Prodexin tablets daily is 8½d.

Manufactured in the laboratories of

C. L. BENCARD LIMITED

MINERVA ROAD · PARK ROYAL · LONDON N.W.10

HICOSEEN

HOMMEL

A new highly effective expectorant with reliable sedative action

'Hicoseen' provides for the first time a new chemical entity—2-Diethylaminoethyl-phenylethyl acetate—which has been shown on clinical investigation to be a distinct advance in serving the basic requirements of anti-tussic therapy.

ACTION

Published reports confirm that 'Hicoseen' can inhibit *cough irritation* promptly; *liquefaction* and *expectoration* are noteworthy features; it has an excellent *sedative effect*; the new component is shown to possess high antispasmodic activity in experimental studies.

ADVANTAGES

'Hicoseen' does not induce side-effects. Unlike morphine alkaloids the new agent in it does not affect the respiratory centre. The content of codeine phosphate is small, thereby permitting wide dosage latitude.

FORMULA

2-Diethylaminoethyl-phenylethyl-acetate (HH105) . . . 0.015 gm.
Codeine phosphate 0.012 gm.
Guaiacol albuminate 0.800 gm.

DOSAGE

Adults: 2 to 4 dessertspoonfuls daily; in cases of cough irritation, 1 teaspoonful on each occasion up to 10 teaspoonfuls daily.
Children: according to age and number of cough paroxysms 3 to 5 tea- or dessertspoonfuls daily.

PACKS

Bottle of 4 fl. oz.; 16 fl. oz. for dispensing.

NYXOLAN

HOMMEL

Entirely non-toxic anthelmintic in oxyuriasis

Unlike older anthelmintics such as piperazine hydrate and dye substances, the active agent in 'Nyxolan' is absolutely non-toxic, non-staining and free from dangerous or nuisance-producing effects.

'Nyxolan' provides up to 90% cure rate against threadworms. Clinical trials show that it is effective without supportive purgation.

ADVANTAGES

'Nyxolan' is not a dye; it is non-arsenical. It does not induce diarrhoea or other side-effects. In contrast to piperazine hydrate it has never provoked published reports of toxic damage. It is entirely acceptable, even to infants.

FORMULA

Active Ingredient:
Aluminium 8-hydroxyquinoline sulphate [$Al(C_8H_6ON)_3 \cdot 3H_2SO_4$]
Syrup 0.4%
Dragées 120 mg.

PACKS

'Nyxolan' is presented in syrup form suitable for children: Standard Bottle of 8 fl. oz.

'Nyxolan' Dragées: 60's and 600's (dispensing).

Dosage and Hygienic Instructions with each pack.

“...a valuable ally in the cure of chronic constipation”

Practitioner, 1953, 170, 272

Clinical trials, in over 200 hospitals throughout Great Britain, have shown that Senokot, as well as being a highly efficient laxative for occasional use, has a valuable re-educative effect in the treatment of chronic constipation.

When used for this purpose, Senokot is at first given regularly and, with the improvement of bowel action, the dose is gradually decreased until discontinued altogether.

Senokot is also indicated during pregnancy and for nursing mothers.

Senokot

STANDARDISED SENNA GRANULES

“The pleasantest and most reliable form of senna is a biologically standardised extract made up with chocolate (Senokot).”

WESTMINSTER LABORATORIES LTD., CHALCOT ROAD, LONDON, N.W.1

For the treatment of vaginal infections of fungal and trichomonal origin

Mycil Pessaries have, as a result of extensive laboratory and clinical investigation, been reformulated to ensure improved liquefaction of the base and freedom from irritation.

The base diffuses rapidly throughout the folds and crevices of the vagina and by reason of its osmotic properties it attracts

trichomonads and immobilises them enabling the active constituents to exert their action.

Mycil Pessaries contain hydroxydichlorodiphenyl methane (D.M.238) and chlorphenesin — two highly effective non-mercurial fungicidal, anti-bacterial and trichomonocidal substances.

A NEW approach to an old problem

BLANDLAX

**Restores normal bowel function
without use of liquid paraffin**

Safe for patients of all ages

Blandlax is efficient

BLANDLAX is a liquid preparation of prehydrated sodium carboxymethylcellulose, incorporating a sub-laxative dose of magnesium hydroxide. It prevents undue faecal dehydration, encourages the restoration of normal bowel function, and is soothing to inflamed mucosa.

*Sodium Carboxymethylcellulose 2%
Magnesium hydroxide 4.1%*

Blandlax is safe

BLANDLAX is not habit forming; it contains no mineral oil or purgative and, therefore, cannot cause "leakage" or griping. It is devoid of the disadvantages associated with the administration of dry preparations of carboxymethylcellulose. With its agreeable flavour and creamy consistency, BLANDLAX is pleasant and easy to take.

Indications

BLANDLAX is specifically indicated in the treatment of constipation associated with colitis, hæmorrhoids, pregnancy, peptic and duodenal ulcer, etc.

Supplied in bottles of 8 fl. oz., 16 fl. oz., & 80 fl. oz.

Retail prices 2/6d., 4/6d. and 18/-.

All subject to the usual discounts.

S 195

The general indications for Veganin are summarized in the triad PAIN — PYREXIA — EXCITEMENT. Corresponding to these are the three constituents of Veganin — acetylsalicylic acid, phenacetin and codeine; and the three main effects that they produce — analgesia, antipyresis and sedation. In practice, it is as hard to separate one indication from another as it is to consider the action of each constituent individually. They act synergistically on a myriad of symptoms.

PACKING:
Supplied in tubes of 10 and 20 tablets. Also available in bulk packages of 100 and 500 for dispensing only; not subject to P.T. on prescription. Each tablet of 10.4 gr. contains acid acetylsalicyl. 250 mg. phenacetin 250 mg. codeine phos. 10 mg.

VEGANIN

INDICATED IN

Feverish Conditions

Teething

Minor Muscular Pains

and

other ailments of

Children

A SAFE AND ACCURATE DOSE OF ASPIRIN—There is little fear of an anxious mother giving too large a dose of Angiers Junior Aspirin for Children. Each tablet contains $1\frac{1}{2}$ grains of Aspirin.

IN AN EASY TO TAKE TABLET—The pleasant orange flavour and sweetening in this small pink tablet makes Angiers Junior Aspirin acceptable to children even if sucked or chewed.

WITH A SAFEGUARD AGAINST GASTRIC IRRITATION—The combination of di-calcium phosphate with the aspirin guards against any irritation caused by the acid effect of aspirin alone.

Acid, Acetylsalicylic, 1.25 grains. Di-Calcium Phosphate 1.50 grains, orange-flavoured and sweetened.

ANGIERS

JUNIOR

ASPIRIN

for children

FOR ADULTS. A palatable tablet incorporating Di-Calcium Phosphate makes this preparation especially valuable for use by those adults to whom plain aspirin is unacceptable.

. . . the Actor said to me

“A farce without a Guinness first

would be a tragedy.

When on the road, or resting, in Rep. or in revue,

It looks the same, it tastes the same,

it's just as good for you.

So join me in the chorus,

and have a Guinness, too.”

Life is brighter after

WRIGHT'S IS RIGHT!

IN THE THEATRE AND IN THE SURGERY

WRIGHT'S

COAL TAR LIQUID SURGICAL SOAP

Used in hospitals throughout the country, Wright's Coal Tar Liquid Surgical Soap, containing Coal Tar derivatives and Hexachlorophene, ensures quick destruction of infective agents. Tests prove that, when used for pre-operative "scrub-ups", it will kill most pathogenic organisms in less than half a minute.

Literature and prices on request.

For personal use

IN THE HOME FOR TOILET, BATH & NURSERY

WRIGHT'S

COAL TAR TOILET SOAP

This fine soap, which the medical and nursing professions find invaluable, justly merits being recommended for everyday use to those whose health is your concern. Its abundant antiseptic lather guards against infection, its pure emollients condition the skin, leaving it smooth, supple and stimulated.

Obtainable from all chemists.

EPHAZONE tablets

Rational, symptomatic treatment in Asthma & Bronchitis

Each tablet contains Ephedrine, the important anti-spasmodic for bronchial spasm, Theobromine, for its relaxing effect on the bronchial muscle and for stimulation of the coronary circulation, Phenazone, for its soothing effect on the higher centres, and Calcium gluconate, a readily absorbable calcium salt, for diminishing capillary permeability and checking the secretion of mucus.

These active ingredients with complementary effects in bronchial asthma are presented in the following proportions in the 'EPHAZONE' Tablet:

Ephedrine hydrochloride	- - -	$\frac{1}{2}$ grain
Theobromine	- - -	$\frac{1}{2}$ grain
Phenazone	- - -	1 grain
Calcium gluconate	-	$\frac{1}{2}$ grain

This preparation is sanctioned for prescription under N.H.S. Please write for sample and descriptive leaflet.

● CONTROLLED ● SAFE ● CONFIDENT

Reduction in the frequency and severity of attacks, combined with increased alertness and efficiency, enables the epileptic to become a confident, self-supporting member of the community.

'Mysoline' has produced these marked improvements in a high proportion of cases, including many which have failed to respond to other forms of treatment. An entirely new anticonvulsant, possessing the advantages of high efficacy, low toxicity, and freedom from hypnotic effect, 'Mysoline' is now internationally recognised as an important advance in the treatment of epilepsy.

JAEGER

Jaeger body-belts are made of pure wool, for these reasons. Wool keeps its wearer cool in summer, warm in winter. Wool disposes quickly of perspiration, retaining body warmth. Wool, being porous, allows both the escape of exhalations from the skin, and the access of pure air to the skin. Jaeger body-belts sit well, stay in position, and give support without pressure. They are available in all sizes.

When
nourishment
is the main problem . . .

BRAND'S ESSENCE is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weight-reducing diets is especially appreciated by the patient.

Brand's Essence
(BEEF OR CHICKEN)

**For short-term
muscle relaxation**

SUXAMETHONIUM CHLORIDE

(Duncan)

SUXAMETHONIUM CHLORIDE (Duncan) gives complete muscle relaxation for 2 to 6 minutes by single injection. Full muscular power is rapidly restored after use; there are no cumulative effects with successive injections, and the usual anaesthetics do not potentiate its effects.

SUXAMETHONIUM CHLORIDE (Duncan) is indicated in intubation, short operations, manipulations and electro-convulsive therapy, and to supplement longer lasting relaxants. Contra-indications are few, but since no chemical antidote exists, facilities for oxygen or air inflation must be available.

Availability:

Boxes of 6 and 50, 2 ml. Hypules (No. 117) each containing 100 mg. succinylcholine chloride (dihydrate). Rubber-capped, 10 ml. vials, containing 50 mg. succinylcholine chloride (dihydrate) per ml.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose 3 copies (unless otherwise specified) of recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical or dental practitioner and held normally for two years: £775 per annum in the first year; £890 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical or dental practitioner and held normally for four years: £1,000 per annum in the first year; £1,100 per annum in the second year; £1,200 per annum in the third year; £1,300 per annum in any subsequent years.

Other Grades, Whole-time

(a) **HOUSE OFFICERS** (including Dental)

(i) *Provisionally registered medical practitioners*: £350 per annum for the first post held; £400 per annum for the second and any subsequent post held.

(ii) *Fully registered practitioners*: £350 per annum for the first post held; £400 per annum for the second post held; £450 per annum for the third and any subsequent post held. provided that a medical practitioner who has held house posts under (i) above whilst provisionally registered shall be remunerated at the rate of £450 per annum for each post held after obtaining full registration; and provided that in exceptional circumstances, subject to the consent of the Minister (in Scotland of the Secretary of State), the rates under (ii) may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

A deduction at the rate of £100 per annum shall be made from the remuneration of House Officers in respect of board and lodging and other services provided. Each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical or dental practitioner and normally held for one year only: £670 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £700 (for an officer appointed no less than two years after registration as a medical practitioner) by £50 to £1,000 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

ROYAL AUSTRALIAN NAVY

Applications are invited from legally qualified medical practitioners for appointment as

SURGEON LIEUTENANTS

in the Royal Australian Navy. First appointment is for a period of either two or four years, with prospect of transfer to the Permanent Naval Force, or alternatively an extension of short service up to a maximum of eight years with gratuity payable pro rata. Minimum yearly emoluments are married officers £1,508, single officers £1,294. All money figures quoted are Australian currency, but payment of the above rates will be made in Sterling currency until departure from the United Kingdom. "D" grade, first-class passage, including wife and family, to Australia at Government expense. A uniform gratuity of £219 10s. is paid on entry. Increment of £54 15s. is payable after two years' service. On completion of period for which entered a gratuity of £250 will be paid for two years' service and £500 for four years' service. If a two-year commission is extended for a period less than two years, gratuity will accrue pro rata. Medical officers serve in Royal Australian Navy hospitals, ships and establishments in Australia or abroad. Generous leave is allowed, and free travel warrants in Australia to visit next of kin are given under specified conditions. Retirement provisions and invaliding benefits are provided by contributions to the Defence Force Retirement Benefit Fund. These contributions are refunded if taking discharge (other than on medical grounds) at end of Short Service Commission. Full details may be obtained from the R.A.N. Liaison Officer, Australia House, Strand, London, W.C.2, or from the Secretary, Department of the Navy, Melbourne, S.C.1. (6955)

UNIVERSITY OF ABERDEEN

FORTNIGHT'S GENERAL INTENSIVE
REFRESHER COURSE FOR MEDICAL
PRACTITIONERS

A Fortnight's Intensive Course, intended mainly for general practitioners, will be held from May 17 to 29, 1954, in the University Medical Buildings, Forehill, and the associated Hospitals in Aberdeen. There are schemes for financial assistance whereby the fee for the course (ten guineas) and the expenses of travelling and of the provision of a locum may, subject to certain conditions, be repaid to doctors engaged in practice under the National Health Service. Numbers attending the course will be limited and application should be made by April 17 to the Chairman, Postgraduate Medical Committee, Department of Child Health, University Buildings, Forehill, Aberdeen, from whom further information may now be obtained. (5739)

Educational and Lectures—contd.

SURGERY, F.R.C.S. Wednesdays, March 17, 24, April 21, 28, 5 p.m., Whittington Hospital, St. Mary's Wing. Apply Fellowship of Postgraduate Medicine, 60, Portland Place, London, W.1. Langham 4266. (6959)

UNIVERSITY OF GLASGOW**Postgraduate Medical Education Committee****COURSE IN DERMATOLOGY**

A Course in Dermatology organized primarily for specialist trainees in dermatology or in general medicine, but open also to general practitioners, will be held from April 21 to June 28, 1954. The course will consist of 30 lecture-demonstrations (syllabus on request), given thrice weekly on Mondays, Wednesdays, and Fridays, at 4.15 p.m. in the Anderson College Buildings, The University, Glasgow. In addition, those taking the course may attend two clinical demonstrations per week in one of various teaching hospitals at hours arranged so far as possible to suit applicants. The fee for the complete course, including the optional clinical demonstrations, is ten guineas. Arrangements are available whereby N.H.S. practitioners attending part or all of the course may recover the fee and travelling expenses from Government sources. Early application should be made to the Director of Postgraduate Medical Examination, The University, Glasgow, W.2, from whom further information may be obtained. (5084)

UNIVERSITY OF LONDON

A course of three lectures on "Man at Work, a Physiological Analysis" will be given by Professor E. A. Müller (Max Planck Institute of Industrial Physiology, Dortmund), at 5.15 p.m., on March 10, 11, and 12, at the London School of Hygiene and Tropical Medicine, Keppel Street, Gower Street, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (6867)

Readers frequently desire to refer to advertisements concerning appliances, preparations, etc., which have appeared in earlier issues of the *Journal*.

The Advertisement Manager can supply particulars at any time.

In dealing with written enquiries, especially from overseas, correspondents are, wherever possible, put in direct contact with the advertisers in whose products they are interested.

CHARGES FOR CLASSIFIED ADVERTISEMENTS

(Revised JULY 1, 1951.) CIRCULATION, 78,000.

To economize in paper, bookkeeping entries, and avoid delay, please send payment with the advertisement addressed:

Advertisement Manager,
"British Medical Journal,"
B.M.A. House, Tavistock Square, London, W.C.1.

The text of the advertisement itself should, where applicable, be clearly marked "MEMBER."

Every effort will be made to include "Hospital" and "Small" advertisements in the forthcoming issue provided they reach this office by not later than first post on the FRIDAY of the week preceding date of issue.

Cancellation of advertisements cannot be accepted if received after 4 p.m. on the Monday prior to date of issue (issues affected by public holidays excepted).

DO PLEASE WRITE ADVERTISEMENTS AND
NAME AND ADDRESS CLEARLY IN BLOCK LETTERS

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.
This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombiere's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

HAYDOCK LODGE NEWTON-LE-WILLOWS, LANCASHIRE

Tel.: Wootton, Ashton-in-Makerfield.
Phone: Ashton-in-Makerfield 7311.

For the reception and treatment of PRIVATE PATIENTS of both sexes suffering from mental and nervous disorders, alcoholism and drug addiction, either voluntary, temporary, or under Certificate. Patients are classified in separate buildings, according to their mental condition.

Situated in park and grounds of 400 acres. Self-supported by its own farm and gardens, in which patients are encouraged to occupy themselves. Every facility for indoor and outdoor recreation. For terms, prospectuses, etc., apply Medical Superintendent.
