This is a month during which many households will make well-intentioned but almost always unsuccessful attempts to bring up some young wild creature which has been mislaid by its parents. The half-fledged blackbird, the baby rabbit, the young starling which comes suddenly down the chimney like Father Christmas—they throw themselves on our mercy and we take them on the strength. They seldom survive long; the caresses of our children, an empirical diet, sometimes (alas) the cat, combine to shorten their lives; they have hardly been, after much controversy, christened when there has to be a funeral behind the tool-shed.

They have, while they are with us, the rather touching charm conferred by helplessness. They arouse in us—though not in the cat, who takes an entirely different view of their inability to look after themselves—the protective instinct. Their parents spoil our fruit, cat our vegetables and block our gutters with their untidy nests, and these uninvited guests will do the same if they survive our hospitality; we cannot hope for the handsome dividend which Androcles's lion declared.

We do, nevertheless, what we have done in other Springs. We bring out the bread-crumbs or the lettuce, we charge the fountain-pen filler with milk, we shut the cat in the boot-hole. And, very occasionally, we save a life.

The protective instinct is strong in all who have young people in their charge. To safeguard the future is a pressing need, most easily satisfied by using the wise and friendly services of the MINDILAND BANK EXECUTOR AND TRUSTEE COMPANY LIMITED

THE ECZEMAS

Edited by L. J. A. LOEWENTHAL, M.D., M.R.C.P., D.T.M.&H. 272 pages. 85 illustrations.

Ten distinguished dermatologists from teaching centres in Scotland, England, the United States, Switzerland, Denmark and South Africa, have collaborated to write this book on a subject which deserves particular attention. The most recent results of research on this subject are included, and the needs of the general practitioner for a practical guide to skin diseases have been constantly borne in mind.

RESECTION-RECONSTRUCTION OF THE HIP

Arthroplasty with an Acrylic Prosthesis

By Drs. JEAN and ROBERT JUDET, J. LAGRANGE and J. DUNOYER Edited by K. I. NISSEN, M.D., F.R.C.S.

163 pages.

134 illustrations.

30s.

The field opened up by the new "Judet" technique is so large that any conclusions must be of a provisional nature. There have been so many travesties of this operation, however, that it is well that the original technique should be laid down in this clear and concise form as a guide to all orthopaedic surgeons who are interested in the search for a way to relieve painful disabilities of the hip joint.

ALMROTH WRIGHT

Provocative Doctor and Thinker

by LEONARD COLEBROOK, F.R.S.

Almroth Wright was one of the great pioneers. His name will be linked with those of Pasteur, Koch. Ehrlich, and his own pupil Fleming. He was the modern father of immuno-therapy—that branch of medicine which started with Jenner and was forgotten for a century until it was resuscitated by Wright himself at Netley when he discovered anti-typhoid inoculation. His Life, written by his friend and pupil Leonard Colebrook, gives a clear picture of the man. We see him in all his moods: his intense longing to find methods to ease the world of pain, his altruism, his belligerency, his view of women's suffrage, his skirmishes with his fellow-countryman, Bernard Shaw, his contact with the Great War.

ALETHETROPIC LOGIC

by Sir ALMROTH WRIGHT, M.D., SC.D., F.R.S. Presented by GILES J. ROMANES, M.A., M.R.C.S., D.O.M.S.

All through his long life Sir Almroth was working out a system of logic which he felt would clarify men's minds so that they saw the truth clearly, undimmed by errors of training and mental outlook. These studies are here presented posthumously. 25s net

... ferrous gluconate, an organic iron salt, has now established itself as superior to inorganic iron preparations in the treatment of iron deficiency anaemias.

Greater absorption and utilisation produce a speedy therapeutic response. Furthermore, undesirable side effects of nausea and upset of the alimentary tract do not occur, even in patients normally sensitive to iron.

The Ferrous Gluconate used in our preparations is of our own manufacture and is entirely free from ferric iron.

PROLONGED THERAPY WITH REDUCED OTOTOXICITY 'MIXTAMYCIN'

streptomycin sulphate dihydrostreptomycin sulphate

Distributed by

ALLEN & HANBURYS LTD. BRITISH DRUG HOUSES LTD. BURROUGHS WELLCOME & CO. EVANS MEDICAL SUPPLIES LTD. IMPERIAL CHEMICAL

(PHARMACEUTICALS) LTD. PHARMACEUTICAL SPECIALITIES (MAY & BAKER) LTD.

'Mixtamycin' is a mixture of streptomycin and dihydrostreptomycin. Dose for dose, 'Mixtamycin' has the same therapeutic effect as either antibiotic alone but the amount of each antibiotic administered is halved. Thus, the incidence of ototoxic reactions associated with prolonged therapy of streptomycin alone or dihydrostreptomycin alone is reduced. 'Mixtamycin' may, therefore, be given for longer periods.

Packs: injection-type vials of one mega unit (boxes of 5 vials) and 5 mega units (single packs). Each mega unit contains the equivalent of 0.5 gramme

streptomycin base and 0.5 gramme dihydrostreptomycin base.

LIVER INJECTION U.S.P. - 20 MICROGRAMS

NOW AVAILABLE IN GREAT BRITAIN

LEDERLE'S undisputed reputation for superior Liver Extracts stems from a quarter of a century's experience in liver-extract research. Their latest liver extract—Liver Injection U.S.P.—20 Micrograms—described in a recent British study as "significantly more potent" than other extracts* is now available to doctors in Great Britain. Liver Injection U.S.P.—20 Micrograms Lederle contains 20 μ g. of vitamin B₁₂ activity in each cc. and is especially suited to the prolonged treatment of pernicious anaemia because of its small volume, high concentration of antianaemic substance and low concentration of solids—qualities which ensure minimum patient discomfort and maximum therapeutic effect. In addition it is outstandingly useful in everyday practice for hepatic and metabolic stimulation.

*A review of pernicious anaemia patients on liver extract maintenance over several years showed a deterioration in their red-cell count and clinical conditions. A change to Solution Liver Extract Concentrated *Lederle* (now known as Liver Injection U.S.P.—20 Micrograms) brought about striking improvement in 20 of the 25 patients who had been maintained on extracts, as well as in 3 patients who had neglected their treatments. The author concluded from the definite response to the change of treatment that the *Lederle* Extract was significantly more potent than those previously used.

Abdominal, Lumbar and Hernia

Arrow No. I Shows how the Linia Belt acts on parts that are usually protuberant in harmony with the over-all pressure.

Arrow No. 2 Shows how the Linia Belt lifts and holds in place the lower abdominal parts that have sagged and dilated.

Arrow No. 3 Shows uplifting support on the groin, a protection against rupture and strain.

BELTS for MEN

The Linia Belt designed under medical supervision to

correct faulty posture and enteroptosis.

Invaluable for POST-OPERATION WEAR.

It avoids the danger of exercising direct restricting pressure on the abdomen. Besides affording support and restoring displaced organs to their correct position, the Linia Belt exerts a gentle massaging action, at the same time bracing the muscles. It is invaluable too, for post operation wear, and to prevent strain when older men, unused to violent physical effort, take exercise.

The Rigiflex Belt gives complete security without constriction to hernia sufferers. The special "Airollasta" pads are not inflated.

BASINGSTOKE

HANTS

"Have you considered
Sanatogen
for these patients?"

HALF THE PATIENTS in your waiting room may be people who "want a tonic, doctor". Their symptoms vary, and may be referred to any system—headaches, insomnia, fatigue, flatulent dyspepsia, constipation or diarrhoea under stress; palpitations and dyspnoea on effort; frequency and precipitancy of micturition; and the aches and pains (the largest group)—backache, arthritis, neuralgia and "rheumatism". There may be, particularly in this last group, a minor physical disability, causing discomfort which is magnified to severe pain.

Though symptomatic treatment is often prescribed for many of these patients, a factor common to them all is the strain of coping with life's difficulties—either because the conditions of their lives are too much for even the strongest to bear, or because for a weak character the ordinary worries of life are too great a burden.

These people come to the doctor for help; he does help, just by listening; but they also want something they can take which will make them feel better, able

to face life again. What tonic is really needed? A mere pick-me-up or a first-class protein tonic which gives lasting benefit to the patient?

Have you considered Sanatogen for these patients?

What is Sanatogen? It is 95% casein, with 5% sodium glycerophosphate in the form of a casein-glycero-phosphate complex. In debilitated states, or in convalescence after illness or injury, Sanatogen can be recommended with complete confidence. Sanatogen is unusual amongst tonic preparations in that it has both a nutrient and a tonic effect. By reason of its high protein content it supplies the patient with an extra 24 grams of first-class protein daily, equivalent to the protein content of four eggs (but free from fat and cholesterol) and at approximately half the cost. To this, glycerophosphates add a specific tonic effect.

Sanatogen, it should be remembered, has been used most successfully for more than 50 years and has a unique record for "toning up" the debilitated patient.

Sanatogen

THE HIGH PROTEIN TONIC

The word 'Sanatogen' is a registered trade mark of Genatosan Limited, Loughborough, Leicestershire.

MIXOGEN is prescribed Why menopausal for symptoms

Because it is now established that :-

- combined male and female hormone treatment is the most effective in this condition.
- the correct balance of the two hormones is essential both for efficacy and economy—determined by extensive clinical trial in the U.K. and unique to Mixogen.
- both the hormones in Mixogen are completely effective when swallowed-thus maximum, immediate relief is given in the simplest and most convenient way.

Graph showing percentages average age of onset of menopause, drawn from figures compiled by the Council of Medical Women's Federation in England.

Dosage: Initially 1-2 tablets daily, reducing when possible. Packs: Perspex tubes of 25 tablets and bottles of 100, 250 and 500. Literature on request.

A new combination

CODIS

soluble aspirin with codeine phosphate and phenacetin

Codis presents a familiar grouping of analgesic drugs; aspirin, phenacetin, codeine phosphate; with an important advantage. The "aspirin" in Codis is rendered soluble, as in 'Solprin'.

Placed, uncrushed, in water, a Codis tablet disperses in a matter of seconds to form a solution of calcium aspirin and codeine phosphate with finely suspended phenacetin. The chance of irritation of the gastric mucosa by undissolved particles of aspirin is thus minimised.

Codis is recommended for all those conditions for which Tab. Codein. Co. B.P. would be prescribed. It has the added advantages of greater ease of administration and far less likelihood of aspirin intolerance, while the rapid absorption of the soluble aspirin promotes prompt relief.

COMPOSITION

Each Codis tablet weighs 11.45 grs. and contains:—Acid. Acetylsalicyl. B.P. 4 grs., Phenacet. B.P. 4 grs., Codein. Phosph. B.P. 0.125 grs., Calc. Carb. B.P. 1.2 grs., Acid. Cit. B.P. (Exsic.) 0.4 grs. Codis is not advertised to the public.

DISPENSING PACKS (Purchase Tax Free) 300 tablets in distinctive gold foils of 6 tablets each.

OTHER SIZES - Packs of 20 tablets (in bottles or foil).

Consider the use of

in these indications

Symptomatic treatment of various acute phases of mental disease, and also of the minor psychological disturbances met with in general practice.

2 For the treatment of intractable nausea and vomiting due to a variety of causes.

3 An adjuvant in various anaesthetic techniques before, during and after operation.

These are the uses of 'Largactil' with which clinical studies have been mainly concerned. The extent of the clinical usefulness of 'Largactil' in other fields, including its use to enhance the effect of analgesics in the control of severe pain is still under investigation. Detailed literature available on request.

PRESENTATIONS

25 mgm. sugar-coated tablets. 2 c.c. ampoules of 2.5% solution for injection. 5 c.c. ampoules of 0.5% solution for injection.

ALLEN & HANBURYS LID LONDON E 2

RAUWILOID + VERILOID

The calming, relaxing and mildly hypotensive effect of Rauwiloid, when combined with the more potent Veriloid (brand of standardized alkaloids of Veratrum viride), leads to a unique type of drug complementation. The patient's Veriloid requirement is decreased, side effects, if present, disappear and significant hypotensive response is produced. Not only are the diastolic and systolic pressures lowered significantly, but also at the same time the patient

feels better. Headache and dizziness disappear and tachycardia, when present, is replaced by mild bradycardia.

On the basis of this apparent synergism, Rauwiloid+Veriloid leads to excellent results in moderate, severe and resistant hypertension. Each tablet contains 1 mg. of Rauwiloid and 3 mg. of Veriloid. Average dose: one tablet three or four times daily, preferably after meals, at intervals of not less than four hours.

In mild and labile hypertension

RAUWILOID

Rauwiloid produces excellent results in early, mild or labile hypertension. Blood pressure is significantly reduced, a sense of well-being is quickly experienced and mild bradycardia replaces tachycardia. Toxic reactions do not occur, even when the amount of drug administered is three or four times the usual

dose. Side effects are rare. Initial dose: 4 mg. (2 tablets) once daily; maintenance dose: 2 mg. daily. Rauwiloid is a standardized alkaloidal extract of Rauwolfia serpentina. Each batch is tested in dogs for its sedative, hypotensive and bradycardic effects. Hence pharmacological uniformity is assured.

"RAUWILOID" and "VERILOID" are Registered Trade Marks

Efficacy and Convenience in Antacid Therapy

In the management of gastrointestinal disorders associated with hyperchlorhydria, *' Milk of Magnesia' Tablets have proved of outstanding value. Exerting an immediate and prolonged neutralising action, 'Milk of Magnesia' Tablets offer a valuable prescription to the physician for the treatment of simple digestive upsets, including gastritis and duodenitis, and equally so, for those cases where frank ulceration has occurred.

Pleasantly mint flavoured and conveniently portable, they are always ready to hand whenever the need of alkalisation arises.

Milk of Magnesia?

Available in bottles of 30, 75 and 150 tablets.

The Chas. H. Phillips Chemical Co. Ltd. 1, Warple Way, London, W.3.

Safe Support for this Hernial Patient

The Spencer Abdominal Support for this hernial patient was individually designed, cut and made—after a description of the patient's body and posture had been recorded and detailed measurements taken.

The pull of supporting the abdomen is placed on the pelvis, not on the spine at or above the lumbar region. Abdominal support is from below, upward and backward, paralleling the natural pull of muscles. Made of non-elastic materials, the support will not yield or slip under strain, assuring maximum safety.

Following application of her Spencer Support, the patient obtained relief of symptoms and was able to return to her work.

For further information write to:

SPENCER SUPPORTS for women, men and children are each individually designed for each patient.

BBBBBBBB STAPLES BBBBBBBBBB

It depends what you mean by 'Banking'

SOCIO CON CONTRA CONTRA

OF GOURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as an Executor, help with a customer's Income Tax problems, obtain currency for foreign travel. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'.

Introducing Onlasses Control of the Control of the

BRAND OF HYDROCORTISONE (COMPOUND F) ACETATE

acetate ointment

Applied to the affected skin, Cortef Acetate Ointment provides directly at the tissue level the pronounced anti-inflammatory action of the most active adrenocortical steroid.

Results are often immediate and striking: lesions turn pale and flat; erythema, oedema and infiltration subside; pruritus tends to cease. Where the condition is self-limiting, the prompt suppression of symptoms with Cortef Acetate Ointment may be clinically equivalent to cure.

In a wide variety of dermatologic conditions:

Cortef Acetate Ointment in 5 Gm. tubes

Concentrations of 2.5% (25 mg. per Gm.) and 1.0% (10 mg. per Gm.)

Cortef Tablets for systemic anti-inflammatory therapy 10 mg. each, in bottles of 25

The above Cortef products are available at present only for overseas markets.

nourishment

is the main problem ...

Brand's Essence is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weightreducing diets is especially appreciated by the patient.

APPOINTMENTS, etc.

CLARE COLLEGE, Cambridge

CLARE COLLEGE, Cambridge

HARRISON WATSON STUDENTSHIP FOR

MEDICAL RESEARCH

The Governing Body of Clare College, Cambridge, invite applications for a Harrison Watson
Studentship tenable for three years, and commencing on October 1, 1954. The Studentship, which is open to male graduates of any University in any country, is for research or training in research "into the causes and cure of tuberculosis, and/or other diseases of an allied character." The Governing Body intend to interpret these terms in the widest sense and invite detailed enquiries.

The Studentship may be:

(i) a Junior Studentship of value between £500 and £650 per annum, or

(ii) a Senior Studentship of value between £700 and £850 per annum (in exceptional circumstances the value may be raised above this limit).

limit).

limit).

The Student may engage in a limited amount of teaching and hold another ward or post, If in the opinion of the Governing Body these do not interfere with his research. The Student will be required to become a member of Clare College and the University of Cambridge, and to reside and work in Cambridge.

Applications should contain an account of the applicant's career, and a general statement of his proposed course of research. No testimonials need so submitted, but the names and addresses of not less than two referees should be sent. Applications and enquiries should be addressed to the Master. Clare College, Cambridge. The closing date for application is May 15, 1954. (8253)

ROYAL COLLEGE OF SURGEONS OF ENGLAND

CONSULTING ROOMS, ETC. AVAILABLE

AVAILABLE

Attractively Furnished Ground Floor Part-time
Consulting Room, Harley Street. Excellent service.

Box 1849, B.M.J.

For Consulting Rooms and Houses in Harley
Street, etc., apply C. E. Bedford & Co., Ltd., 10,
Wigmore Street, W.1. Langham 3927.

New Building, Wimpole Street. This is of interest to five professional men who desire to compine their practice and residence and considerates.

New Building, Wimpole Street. This is of interest to five professional men who desire to combine their practice and residence at one address. The advertisers are proposing to erect a new sixorey building. Each of the upper floors has a area of 2,420 sq. ft. planned for one occupation. The accommodation will comprise: a consulting suite of three rooms with own toilets, etc., and living accommodation, 2 large reception rooms, 3 bedrooms, 2 bathrooms, kitchen and usual services. Whilst the living and professional accommodation are inter-communicating, each has its separate entrance and is entirely self-contained. The space available allows the planning of large, well-ventiated rooms, and individual requirements can at this stage, be incorporated. All modern conveniences will be incorporated—central heating, constant hot water, lifts and porterage. The architecture, construction and finish of the building will be in the very best style, suited to its intended purpose. There will be garage space and box rooms in the lower ground floor, with direct access to lifts serving the building. It is hoped that the building will be available for occupation within about 18 months. The advertisers are seeking to sell the 99 year lease of each floor at a modest ground rent, for a capital sum in the region of £12,500. Tenants will be required to pay the usual outgoings—rates, heating, lighting, cleaning charges, maintenance, etc. Generous mortgages may be arranged if required. A typical floor plan showing full details will gladly be supplied to interested enquirers.—Box 1852, B.M.J.

HOLIDAY ACCOMMODATION AVAILABLE

Furnished house, Hope Cove, Devon, free July 10 to 24. Three bedrooms, two living, bath, mains, £12 12s. week.—Box 1850, B.M.J.

HOUSES AND PROPERTY FOR SALE The possibility of opening up a practice is NOT implied by the appearance of an advertisement under this heading.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigations: the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital, and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

lities for indoor and outdoor recreation—terms, cricket, croquet, badminton, billiards, cinema, television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

Manchester.

GLAN-Y-DON is the hospital's convalescent home, overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed, and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent.

CHARGES FOR CLASSIFIED ADVERTISEMENTS

(Revised JULY 1, 1951.) CIRCULATION, 78,000.

To economize in paper, bookkeeping entries, and avoid delay, please send payment with the advertisement addressed:

Advertisement Manager,
"British Medical Journal,"
B.M.A. House, Tavistock Square, London, W.C.1.

The text of the advertisement itself should, where applicable, be clearly marked "MEMBER."

Every effort will be made to include "Hospital" and "Small" advertisements in the forthcoming issue provided they reach this office by not later than first post on the FRIDAY of the week preceding date of issue.

Cancellation of advertisements cannot be accepted if received after 4 p.m. on the Monday prior to date of issue (issues affected by public holidays excepted).

DO PLEASE WRITE ADVERTISEMENTS AND NAME AND ADDRESS CLEARLY IN BLOCK LETTERS

APPOINTMENTS HOSPITALS PUBLIC HEALTH SITUATIONS THE SERVICES UNIVERSITY AND RESEARCH INDUSTRIAL EDUCATIONAL AND LECTURES SCHOLARSHIPS NURSING HOMES PRACTICES (Exec. Councils)

Minimum charge £1 16s. for 4 lines (display rules counting as lines). 9s. a line thereafter. Box number address forms part of the advertisement and counts as 6 words (1 line). An additional 1s. is charged to cover box fee and addressing and postage of replies

The requirements of the C.M.R.C. appear in the notice at the top of the first page of Appointments. Since it is, therefore, not necessary to repeat this information in individual advertisements there is a consequent saving of some 3 to 5 lines on each. A nominal charge of 10s. is added to the cost of each advertisement to which the requirements of the C.M.R.C. are applicable.

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

For Nervous and Mental Disorders

President: The Earl Spencer, Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres, Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated. BRYN-Y-NEUADD HAALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: North-

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

For the treatment of vaginal infections of fungal and trichomonal origin

Mycil Pessaries have, as a result of extensive laboratory and clinical investigation, been reformulated to ensure improved liquefaction of the base and freedom from irritation.

The base diffuses rapidly throughout the folds and crevices of the vagina and by reason of its osmotic properties it attracts trichomonads and immobilises them enabling the active constituents to exert their action.

Mycil Pessaries contain hydroxydichlorodiphenyl methane (D.M.238) and chlorphenesin - two highly effective nonmercurial fungicidal, anti-bacterial and trichomonicidal substances.

MYCIL' PESSARIES

Basic N.H.S. price: Tubes of 12 pessaries 3/-Samples and descriptive literature will be sent on request
