EPHAZONE tablets

Rational, symptomatic treatment in Asthma & Bronchitis

Each tablet contains Ephedrine, the important antispasmodic for bronchial spasm, Theobromine, for its relaxing effect on the bronchial muscle and for stimulation of the coronary circulation, Phenazone, for its soothing effect on the higher centres, and Calcium gluconate, a readily absorbable calcium salt, for diminishing capillary permeability and checking the secretion of mucus.

These active ingredients with complementary effects in bronchial asthma are presented in the following proportions in the 'EPHAZONE' Tablet:

Ephedrine hydrochloride - - - \(\frac{1}{2}\) grain Theobromine - - - \(\frac{1}{2}\) grain Phenazone - - - I grain Calcium gluconate - \(\frac{1}{2}\) grain This preparation is sanctioned for prescription under N.H.S. Please write for sample and descriptive leaflet.

The case of Pseudococcus kenyae.

P. kenyae is a mealy bug which feeds on the sap of Kenya's coffee trees and spreads disease through the plantations. Given the chance, predatory insects soon clean up infestations — but between the mealy bug and the predators stands a species of ant. In return for a secretion of 'honeydew' the ants protect the mealy bugs from their

Direct control of the pest has always been difficult, because mealy bugs wear waxen coats which throw off insecticides. However, Kenya coffee growers have solved the problem by using the Shell insecticide dieldrin — against the ants.

Dieldrin is a powerful and persistent ant destroyer. One low-cost application to the stems of the trees acts as a lethal barrier to the ants for at least two months, by which time the predators have moved in and killed the mealy bugs.

Dieldrin is one of the newer Shell insecticides, effective against a very wide range of crop-destroying pests. Its exceptional persistence, surer kill and lower dosages are now aiding agricultural production throughout the world. It is also extensively used as a residual spray against disease-carrying insects.

Aldrin - another recent Shell development - is fast becoming recognised as the best of all insecticides for the control of pests in the soil.

Is there an urgent pest problem in your area?

dieldrin

dieldrin and aldrin are (SHELL) insecticides for world-wide use

To-day, the new diabetic has many facilities to enable him to lead and enjoy a normal life. The introduction of I.Z.S. (Insulin Zinc Suspension) A.B. has greatly simplified the treatment of the majority of cases, one injection being sufficient to control the blood-sugar level for 24 hours.

I.Z.S. offers the following advantages over other prolonged action insulin preparations:—

- 1. No protein or peptide material present other than insulin itself.
- 2. Rapid onset with prolonged action.
- 3. It meets the needs of a higher percentage of diabetics.

I.Z.S. (Insulin Zinc Suspension) A.B. is supplied in vials of 10 c.c. containing 40 or 80 units per c.c.

The Philips' Synchro-cyclotron at Amsterdam, with which radioisotopes are produced by Philips-Roxane

Atomic energy for medical purposes

Inside this cyclotron nuclei of heavy hydrogen are accelerated to an energy of 30 million electron volts by means of combined very strong magnetic and alternating electric fields. The particles, thus reaching a velocity of 50,000 km/sec. are used for bombarding elements, the atoms of which are changed by "nuclear reactions", forming new, radioactive elements.

As Philips-Roxane has also a contract with the Norwegian-Dutch Uranium Reactor in Norway, radioisotopes of a large number of elements can be produced.

Nowadays particular interest is centred around vitamin B_{12} —not only on account of its specific action in pernicious anaemia (that, of course, is undoubted), but because it appears to be of marked benefit in other spheres. B_{12} has, in fact, brought prompt—sometimes dramatic—results in trigeminal neuralgia. The vitamin has also been used with good effect in herpes zoster, osteoarthritis and osteoporosis, seborrhoeic dermatitis and certain neuropathies such as those resulting from alcoholism and malnutrition. Moreover, B_{12} therapy is frequently followed by a marked improvement in appetite, vigour and well-being—indeed for this "tonic" effect, a few doses of 50 micrograms every second day usually suffice.

GLAXO LABORATORIES LIMITED, GREENFORD, MIDDLESEX, ENGLAND

Research Leboratories: Manufacturers of medical products and foods. Agents or associate companies in almost every country in the world

The need for a safe, potent oral drug for the rapid treatment of oedema has long been felt by doctors in hospital and general practice. This need is now adequately fulfilled by the introduction of DIAMOX Acetazoleamide, a new oral diuretic that is neither a mercurial nor xanthine derivative.

Based on a new concept—the induction of diuresis by inhibiting the enzyme carbonic anhydrase—DIAMOX is rapidly absorbed and excreted largely unchanged by the kidney. It is not a renal irritant, nor is it cumulative. After a single morning dose copious diuresis results. In most cases of left-sided heart failure, DIAMOX alone will maintain the patient oedema-free. Patients with severe right-sided heart failure, involving accumulations of fluid, may require paracentesis or mercurial injections to initiate response, after which dry weight can usually be maintained with DIAMOX alone.

Not a mercurial or xanthine derivative

Single dose induces diuretic response for 6-12 hours

Potent yet remarkably safe

Permits undisturbed sleep at night

Ideal for long-term therapy and for regular use at home

In scored tablets of 250 mg. Bottles of 25 and 100 tablets

a safe SINGLE-DOSE ascarifuge

'ANTEPAR' ELIXIR, already established as the anthelmintic of choice for oxyuriasis, is now revealed as an effective answer to the ascariasis problem. Trials carried out by Wellcome Foundation workers in East Africa have established that a single dose of 'Antepar' Elixir (4 teaspoonfuls for infants and 6 teaspoonfuls for children and adults) will expel the entire roundworm content of the host gut, within 24 hours, in more than 90 per cent of the cases treated. A particular advantage of 'Antepar' is its safety in use; no toxicity or side-effects were observed in any one of over 300 cases which included children.

a single dose produced this result

This reproduction is from a photograph taken during the clinical trials. It shows the roundworms expelled from a 2-year-old child after taking a single dose of piperazine citrate equivalent to 4 teaspoonfuls of 'Antepar' Elixir.

ANTEPAR' ELIXIR presents piperazine citrate equivalent to 500 mgm. piperazine per fluid drachm. It is available in bottles of 4 fl. oz. and 20 fl. oz.; in overseas countries a bottle of 1 fl. oz. is also available.

"POLLERGEN" (DUNCAN)

A COMBINED POLLEN EXTRACT

Indicated in

- SEASONAL HAY FEVER
- **OCRYZAL ASTHMA**

Researches in Allergy have clearly demonstrated that more success is to be achieved by treatment with a combined pollen extract than with simple extracts of pollen such as Timothy Grass. Pollergen is a combined extract of those pollens which have proved to be the most frequently responsible for the onset of Hay Fever and Hay Asthma, and treatment should be commenced early in the year so as to ensure maximum dosage is attained before the Pollen Cloud is at its height.

Pon . - A-tonid An Effective Antacid of established value

Immediate neutralization of gastric acid, yet unaccompanied by the

disadvantages arising from carbonate medication, clearly indicates the clinical superiority of 'Milk of Magnesia'* as a therapeutic antacid.

Non-systemic in action, 'Milk of Magnesia' may confidently be prescribed in a wide variety of conditions associated with gastric acid disturbance -- from the mild case of dyspepsia to the acute ulcer stage — where intensive alkaline treatment is essential.

'Milk of Magnesia' reacts with the acids of the stomach to form a neutral laxative salt which promotes gentle but effective elimination.

A NEW PUBLICATION OF OUTSTANDING IMPORTANCE

BRITISH OBSTETRIC AND GYNÆCOLOGICAL PRACTICE

Edited by

Sir EARDLEY HOLLAND, M.D., F.R.C.S., F.R.C.O.G., and ALECK BOURNE, M.B., F.R.C.S., F.R.C.O.G.

The two volumes of this work include contributions from 46 distinguished authors drawn from almost all the universities and teaching centres of this country. They are presented by the Editors as an exposition of Obstetrics and Gynaecology as practised in Britain to-day. Prospectus available.

Publication February

In two volumes, sold separately:

OBSTETRICS, 1,164 pages, 400 illus.

105s. net. 84s. net.

GYNAECOLOGY, 850 pages, 370 illus.

HEINEMANN

99 GT. RUSSELL STREET, LONDON

NOTEWORTHY FEATURES:

★ An aqueous suspension, ready for use, is very speedily obtained when water for injection is added.

★ The prepared suspension is easy to inject, causes the minimum of pain and there is no risk of needle blockage.

- ★ The presence of a bacteriostat ensures sterility.
- ★ The suspension shows no tendency to "clay" even after prolonged storage and only requires to be shaken before it is again ready for injection.
- ★ The suspension retains its full potency for at least one month after preparation when stored at temperatures not exceeding 25°C. (77°F.)

'Avloprocil' formulations have long been known to doctors for their high quality and reliability. 'Avloprocil' Dry is the latest addition to the range. It presents the procaine salt of penicillin G as a stable, dispersible powder from which an aqueous injection can be readily prepared.

'Avloprocil' Dry can always be relied upon as an effective means of obtaining a sustained therapeutic level of penicillin in the blood.

✓ THIN END ✓ OF THE WEDGE FOR FLAT FEET!

The largest single cause of foot trouble in childhood—pronation—could easily become the least. 'Inneraze' shoes provide the complete answer: they apply the wedge principle at its most sensible, built into the shoe itself. This, together with the buttressed heel, gives a corrective support that lasts the life of the shoe, unaffected by wear or repair. And because the wedge cannot be seen 'Inneraze' is practically indistinguishable in wear from any of the first-class shoes made for normal young feet by Start-rite.

INNERAZE Shoes by

Supplied only against medical prescription

NULACIN

for successful peptic ulcer therapy

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

NULACIN

is available throughout the British Commonwealth, in the U.S.A. and many other countries. It is known as Nulactin in Canada and Sweden. NEUTRALIZATION of gastric hyperacidity has long been acknow-ledged as the first requirement of successful peptic ulcer therapy. In the past it has only been possible to achieve this with milk-alkali drip therapy under hospital conditions.

Now NULACIN provides all the advantages of milk-alkali drip therapy without the discomfort of a tube and without inconvenience to the patient.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-). Also Available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

UAEGER

Jaeger body-belts are made of pure wool, for these reasons. Wool keeps its wearer cool in summer, warm in winter. Wool disposes quickly of perspiration, retaining body warmth. Wool, being porous, allows both the escape of exhalations from the skin, and the access of pure air to the skin. Jaeger body-belts sit well, stay in position, and give support without pressure. They are available in all sizes.

JAEGER HOUSE, 204-206 REGENT STREET, W.I

It depends what you mean by 'Banking'

incipendendendendendendendendendendendenden

OF COURSE we safeguard money and cash cheques. But we go further. We maintain specialist departments whose functions, although not 'banking' in the usual sense, can nevertheless be used to very good purpose. These departments will, for example, act as an Executor, help with a customer's Income Tax problems, obtain currency for foreign travel. They will do many more things besides. But the moral of this multiplicity of functions is simply this: if you have any problem of finance or business, the chances are that we can help you deal with it. And that is what we mean by 'banking'.

WESTMINSTER BANK

LIMITEI

I5 years of clinical opinion supports the use of vaginal tampons

the healing of infected conditions is unimpaired

Clinical observation over the past 15 years makes it clear that the widespread and increasing use of vaginal tampons for the absorption of the menstrual flow is justified and healthy (1-5). To the healthy woman they offer many physical and psychological benefits and give greater freedom for work, social activities and sport (1-5). Furthermore, their use is by no means contra-indicated in the presence of unhealthy vaginal conditions. Many observers agree that, even where there is a pelvic abnormality, tampons cause no harm and sometimes accelerate healing. One (2) found that the progress of cervical erosions compared favourably with a control series using the perineal pad. Another (4) deliberately uses tampons as an aid to treatment in vaginal infections to hasten the cure. A further research worker (5), studying a series of women with cervical erosions, found that 60 per cent of the cases improved after changing over from external to internal protection, and that none were made worse. Intelligently used, vaginal tampons represent a decided advance in feminine hygiene. They may be recommended with confidence.

"That sounds like the Legal & General"

" RIGHT FIRST TIME - Why is it they always come to mind when Life Assurance is mentioned?"

"That's not easy to explain, but through the years they have

built up a great tradition for service . . . and a very personal service at that."

" How do you mean? . . . I know they are a friendly office but . . .

"Well, they really do advise on Life Assurance matters — and you feel at once that they are taking a personal interest in your own particular problem."

"I see . . . a sort of common bond. Now I begin to understand why they've made so many friends for Life."

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment. The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) SENIOR PECISTRAR: Proceedings of the process of the proc

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1.400 per annum in any subsequent years

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners. £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

CLARE COLLEGE

HARRISON WATSON STUDENTSHIP FOR MEDICAL RESEARCH

MEDICAL RESEARCH

The Governing Body of Clare College, Cambridge, invite applications for a Harrison Watson Studentship commencing on October 1, 1955. The studentship commencing on October 1, 1955. The studentship which is open to male graduates of any University in any country, is for research or training in research into the causes and cure of tuberculosis, and/or other diseases of an allied character. The Governing Body intend to interpret these terms in the widest possible sense and they invite detailed inquiries. The Studentship may be (i) a Junior Studentship of value between £500 and £650 a year, normally tenable for three years, or (ii) a Senior Studentship of value between £800 and £1,000 a year, tenable for one, two or three years. The student may also hold another award or post, and may engage in a limited amount of teaching, if in the opinion of the Governing Body these do not interfere with his research. The student will be required to become a member of Clare College and the University of Cambridge, and to reside and work in Cambridge. Applications should contain an account of the applicant's career, and a general statement of his proposed course of research. No testimonials need be submitted, but the names and addressed to the Master, Clare College, Cambridge. The closing date for application is April 16. (7335)

UNIVERSITY OF ABERDEEN

FORTNIGHT'S GENERAL INTENSIVE REFRESHER COURSE FOR MEDICAL PRACTITIONERS

A Fortnight's Intensive Course, intended mainly for general practitioners, will be held from May 16 to 28, 1955, in the University Medical Buildings, Foresterhill, and the associated hospitals in Aberdeen. There are schemes for financial assistance whereby the fee for the course (ten guineas) and the expenses of travelling and of the provision of a locum may, subject to certain conditions, be repaid to doctors engaged in practice under the National Health Service. Numbers attending the Course will be limited and early application should be made to the Chairman, Postgraduate Medical Committee, Department of Child Health, University Buildings, Foresterhill, Aberdeen, from whom further information may now be obtained. (7405)

UNIVERSITY OF LONDON

INSTITUTE OF OBSTETRICS AND GYNAECOLOGY (Incorporating the teaching facilities of Queen Charlotte's Maternity Hospital, Chelsea Hospital for Women, and the Department of Obstetrics and Gynaecology at Hammersmith Hospital)

A few vacancies remain for the Spring Term (March 7 to June 4, 1955). Applications are invited from graduates with a registrable qualification. Graduates attend each of the constituent hospitals in turn for clinical work, and attend lectures and special demonstrations at all three hospitals. Enrolment fee £3. Tuition fee £36 a term. General practitioners wishing further experience in obstetrics may be accepted to attend the course at Queen Charlotte's Maternity Hospital for shorter periods—i.e., two to four weeks. They will be allowed to do normal deliveries, and will have the opportunity of attending the combined classes of lectures and demonstrations at the three hospitals of the Institute. Ministry of Health grants are payable to approved general practitioners attending for a period of two weeks. Hostel accommodation is available at Queen Charlotte's Hospital and at Hammersmith Hospital. Further particulars can be obtained from the Secretary, Institute of Obstetrics and Gynaecology, Chelsea Hospital for Women, Dovehouse Street, S.W.3. (7460)

UNIVERSITY COLLEGE LONDON

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

For Nervous and Mental Disorders
President: The Earl Spencer. Medical Supt.:
Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.
This Registered Hospital is situated in 130 acres of park and pleasure grounds Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks on mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a teature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing

Wantage House.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croque grounds, and gentlemen have their own gardens and facilities are provided for handicrafts such as carpentry, etc. BRYN-Y-NEUADD HALL.—The seaside house of

For terms and further particulars apply to the Medical Superintendent (Telephone No: Northampton 4354 (3 lines)), who can be seen in London by appointment.

CHEADLE ROYAL, CHEADLE, **CHESHIRE**

Registered Mental Hospital

President:
The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:
W. V. Wadsworth B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation; the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema. television, etc.

GERIATRIC UNITS for mild cases of sentlity are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home, overlooking the sea at Colwyn Bay It is extremely comfortable and well appointed, and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent Telephone: GATLEY 2231.

RIKER LABORATORIES LIMITED

A crowning

Suppliers of Domed's Sberry to the late King George VI.

DOUBLE CENTURY

"Double Century" is the sherry of all sherries. Some are too dry; some too sweet. "Double Century" is a sherry to suit all tastes, selected specially to celebrate the 200th birthday of the famous house of Pedro Domecq.

Try a bottle or a glass today and see if you ever tasted such a lovely wine.

The finest of Sherries obtainable through your usual channels of supply.
