

SALT'S ILEOSTOMY APPARATUS

This modification of the Koenig-Rutzen ileostomy set has been used extensively, both in this country and abroad. Light and inconspicuous, it gives the wearer a feeling of security, saves the use of dressings, and prevents soiled clothes and bed linen. All parts replaceable.

SALT'S WET COLOSTOMY APPARATUS

For cases where one or both ureters have been transplanted into a sigmoid terminal colostomy the Salt Wet Colostomy Appliance and detachable bag is recommended. Details will be sent on application.

CASSELL MEDICAL BOOKS-

"This is the most considerable textbook on psychiatry yet published, or likely to be published for some time, in English."

Lancet

CLINICAL PSYCHIATRY

by W. MAYER-GROSS, M.D., F.R.C.P.
ELIOT SLATER, M.A., M.D., F.R.C.P., D.P.M.
MARTIN ROTH, M.D., M.R.C.P., D.P.M.

The authors of this important new comprehensive textbook have approached their task in the belief that the foundations of psychiatry are laid in the ground of the natural sciences, especially neurophysiology and cerebral pathology. Their standpoint derives from the classical, and has led to an attempt to handle psychiatry along the lines of an essentially medical tradition. The discussions of the various forms of mental disorder are accordingly drawn up under the headings (such as may be found in any standard work on medicine): definition and classification, incidence, aetiology and pathology, clinical features, diagnosis, prognosis, and treatment.

FEBRUARY BOOKS

LIVER AND CANCER

By KASPER BLOND

 $8\frac{3}{4} \times 5\frac{1}{2}$ in.

232 pp.

27s. 6d., postage 7d.

The author has been studying the cancer problem for more than thirty years and in this book he presents a general theory which he believes is capable of being applied in every case of the disease. He selects the facts and attempts to solve the many paradoxes and contradictions by applying this theory, which is an elaboration of the ideas propounded in his earlier book entitled *The Liver*.

In order that readers may follow the author's theory from this earlier work, it has been decided to offer the two books, if ordered together, at 37s. 6d., thereby enabling a considerable saving to be achieved.

MEDICAL PROBLEMS OF OLD AGE

By A. N. EXTON-SMITH

 $8\frac{3}{4} \times 5\frac{1}{4}$ in. 344 pp. 17 Illustrations as 9 plates. 30s., postage 7d.

This book brings together modern views and knowledge concerning many of the diseases encountered in elderly patients, whose care and treatment forms such a large part of medical practice to-day.

The information given will add to the descriptions found in text-books of medicine and will be of use to students, general practitioners, and those physicians who care for elderly patients in hospital.

IOHN WRIGHT & SONS LTD., BRISTOL

Dry powder for aqueous injection

'Single-dose' vial contains: 500,000 units sodium penicillin G, 0·25 gram streptomycin base, 0·25 gram dihydrostreptomycin base. In boxes of 10 vials

CHEMOTHERAPY OF TUBERCULOSIS

The concurrent use of PAS salts and Isoniazid is now fully recognized as a major therapeutic measure against all forms of tuberculosis.

PAS Salts

'Aminacyl' PAS products, with the exception of the Granulate (Ca PAS only), are available as either Sodium PAS B.P. or as the Calcium Salt.

They include whatever commonly used forms may be prescribed in terms of physicians' choice and patients' preference-

PACKS:	Cachets 1.5 g 100's	5 0 0's
	2.0 g80's	400's
	Dragées 0.5 g. (plain) 250's 1,	,000's
	0.75 g. (enteric-coated) 250's 1,	,000's
	Bulk Powder 1 kg.	5 kg.
	Granulate (Ca PAS) 400 g 20)(A)

This new modification of PAS has the advantage of providing therapeutic effect comparable with that of Na and Ca PAS, but with smaller dosage. Furthermore, it is completely nontoxic, and is almost completely tasteless.

PACKS:

'Aminacyl' Ca B-PAS Powder: Tins of 150 and 500 envelopes each 3.5 g.

'Aminacyl' Ca B-PAS Cachets: Tins of 80 and 400×1 g. 'Aminacyl' Sodium B-PAS Cachets are also available in tins of 80 and 400×1.5 g.

combined PAS/INAH Cachets

for convenient prescription of PAS and Isoniazid concurrently 'PASINAH' Cachets each contain 1.5 g. Na PAS (Sodium p-Aminosalicylate B.P.) and 17 mg. Isonicotinic Hydrazide.

PACKS: Standard Tins of 100 and 500. Details of institutional quantities on request.

> Wander tuberculostatic products are all available from usual pharmacists or from:

> > A. WANDER LIMITED

PARENTROVITE

for the treatment of NEUROSES and PSYCHOSES

associated with:

Drugs e.g. narcotics and barbiturates

Infections e.g. influenza and pneumonia

Alcohol

PARENTROVITE consists of injectable preparations of the vitamin B complex and vitamin C, designed especially to satisfy the needs created by the toxic effects of drugs and infective agents. The formulae, for intravenous and intramuscular use, have been determined in relation to interactions known to occur between these vitamins in intracellular metabolism. When the enzyme systems concerned in the oxidation of glucose are deranged or inhibited, as they are in certain toxic states, whether caused by virus infections, alcohol or barbiturates, the co-enzymes in the vitamin B group must be supplied in very high concentration to initiate recovery.

The immediate effect of treatment is the restoration of normal cerebral function:—

the return of consciousness after coma or delirium.

rational thinking after confusion,

a co-operative and calm outlook after resistance or depression.

This changed attitude must be maintained by repeated injections while the patient is being given other treatment suitable for the underlying condition, whether this is psychotic or somatic in origin.

High potency preparations are available for both intravenous and intramuscular use to detoxicate patients at the beginning of treatment, and lower potencies for subsequent maintenance.

Some papers indicating the course of developments leading to the introduction of PARENTROVITE.

1944 J. Amer. med. Ass., 126, 752. 1944 J. ment. Sci., 90, 95. 1948 Amer. J. Psychiat., 105, 2, 107. 1948 J. nerv. ment. Dis., 110, 1. 1950 Ann. intern. Med., 32, 261. 1950 Lancet i, 287. 1951 Lancet ii, 1057, 1951 Brit. med. J., ii, 411. 1952 Amer. J. Psychiat., 108, 888. 1953 Lancet i, 570. 1953 Med. World, 79, 579. 1954 Proc. Roy. Soc. Med., 47, 215. 1954 J. Amer. med. Ass., 155, 114. 1954 Brit. J. Addict., 51, 29 & 39.

The following are some of the conditions for which PARENTROVITE is being found effective:

Acute alcoholic psychosis, including delirium tremens

Coma or delirium from drugs e.g. barbiturates

Collapse after continuous narcosis

Drug withdrawal symptoms

Psychiatric reactions to prolonged ill-health

Toxic syndrome of and sequalae to influenza and pneumonia.

Ampoules are supplied in pairs of 5 c.c. for intravenous injection in acute conditions and in smaller volumes for intramuscular injection. Boxes of 3 pairs.

Transvasin is the registered trade mark of Lloyd-Hamol Ltd.

A new Haemostatic for the Control of Capillary Bleeding in Medical and Surgical Conditions

Clinically proven to reduce bleeding-time without effect on coagulation or blood pressure, and to have no undesirable side effects

This graph gives dramatic evidence of the effect of Adrenoxyl on capillary resistance and bleeding-time

During recent years, research has been carried out on a new chemical substance that reduces the mean bleeding-time by decreasing capillary permeability and increasing contractility and capillary resistance. The product of this original research is called Adrenoxyl (adrenochrome monosemicarbazone) and has been clinically proven to be of value in controlling capillary haemorrhage.

ADRENOXYL has no effect on coagulation. It neither increases nor decreases blood pressure.

ADRENOXYL is non-toxic, and there are no contra-indications to its use.

ADRENOXYL is indicated in the preventive and curative treatment of all types of capillary bleeding.

ADRENOXYL has been successfully used for the control of capillary bleeding in a wide range of surgical operations, and has proved particularly useful in ear, nose, and throat surgery, ophthalmic surgery, thoracic surgery, gastro-intestinal surgery, plastic surgery, and urogenital surgery.

It has also been used successfully in many medical conditions associated with capillary haemorrhage or where capillary fragility is a feature.

ADRENOXYL may be administered by mouth or by subcutaneous or intramuscular injection. The oral form is for routine treatment, though when rapid action is desired the intramuscular route is recommended.

ADRENOXYL is now available in boxes of 6 or 50 ampoules: tubes of 25 tablets or bottles of 500 tablets.

IMPROVED PRESENTATION

OR IRON DEFICIENCY ANAEMIAS, ferrous sulphate is universally accepted as the most efficient compound for oral administration. The improved method of presentation in 'Plastules' ensures maximum absorption and utilisation. The tasteless, easy-to-swallow capsules rapidly disintegrate and the ferrous sulphate in a semi-liquid medium is quickly absorbed, with avoidance of gastric irritation.

'Plastules' are available in four varieties—

Each capsule contains:

Plain: Exsiccated Ferrous Sulphate B.P. 5 gr., Dried Yeast B.P.C. 3 gr., Aneurine Hydrochloride B.P. 0.5 mg.

With Hog Stomach: Exsiccated Ferrous Sulphate B.P. 2½ gr., Dried Yeast B.P.C. ½ gr., Dessicated Stomach 1.47 gr. The equivalent of the anti-anaemia factor from 29.3 gr. of whole liver.

With Folic Acid: Exsiccated Ferrous Sulphate B.P. 2½ gr., Folic Acid I mg., Dried Yeast B.P.C. 3 gr. Total water-soluble constituents of 26½ gr. fresh liver.

With Liver Extract: Exsiccated Ferrous Sulphate B.P. 2½ gr., Dried Yeast B.P.C. ¾ gr. Total water-soluble constituents of 52 gr. fresh liver.

Especially notable among the merits of AUREOMYCIN is the ease with which effective concentrations can be produced precisely where they are needed. This feature is well demonstrated in the case of ear, nose and throat infections—the majority of which show prompt and positive response to this most versatile antibiotic.

In severe conditions, AUREOMYCIN is wisely given in capsule or soluble tablet form, to secure a rapid concentration in the tissues. And this measure is ably supported by appropriate local therapy such as AUREOMYCIN Otic, for instillation into the auditory canal... AUREOMYCIN Troches, which furnish a continuous bacteriostatic lavage of the mouth... or AUREOMYCIN Nasal, which swiftly arrests a wide variety of infections of the upper respiratory tract.

PACKAGES: CAPSULES (50 mg.), bottles of 25 and 100; 250 mg., bottles of 16, 100 and 1,000: SOLUBLE TABLETS (50 mg.), bottles of 100: OTIC, vial of 50 mg. with 10 cc. vial of diluent and dropper: TROCHES (15 mg.), bottles of 25: NASAL, vial of 10 mg. with 10 cc. vial of vasoconstrictor and dropper.

a safe SINGLE-DOSE ascarifuge

'ANTEPAR' ELIXIR, already established as the anthelmintic of choice for oxyuriasis, is now revealed as an effective answer to the ascariasis problem. Trials carried out by Wellcome Foundation workers in East Africa have established that a single dose of 'Antepar' Elixir (4 teaspoonfuls for infants and 6 teaspoonfuls for children and adults) will expel the entire roundworm content of the host gut, within 24 hours, in more than 90 per cent of the cases treated. A particular advantage of 'Antepar' is its safety in use; no toxicity or side-effects were observed in any one of over 300 cases which included children.

a single dose produced this result

This reproduction is from a photograph taken during the clinical trials. It shows the. roundworms expelled from a 2-year-old child after taking a single dose of piperazine citrate equivalent to 4 teaspoonfuls of 'Antepar' Elixir.

'ANTEPAR' ELIXIR presents piperazine citrate equivalent to 500 mgm. piperazine per fluid drachm. It is available in bottles of 4 fl. oz. and 20 fl. oz.; in overseas countries a bottle of I fl. oz. is also available.

NOTEWORTHY FEATURES:

An aqueous suspension, ready for use, is very speedily obtained when water for injection is added.

★ The prepared suspension is easy to inject, causes the minimum of pain and there is no risk of needle blockage.

★ The presence of a bacteriostat ensures sterility.

★ The suspension shows no tendency to "clay" even after prolonged storage and only requires to be shaken before it is again ready for injection.

★ The suspension retains its full potency for at least one month after preparation when stored at temperatures not exceeding 25°C. (77°F.) 'Avloprocil' formulations have long been known to doctors for their high quality and reliability. 'Avloprocil' Dry is the latest addition to the range. It presents the procaine salt of penicillin G as a stable, dispersible powder from which an aqueous injection can be readily prepared. 'Avloprocil' Dry can

always be relied upon as an effective means of obtaining a sustained therapeutic level of penicillin in the blood.

Available in bottles of 50 tablets.

Prescribable on N.H.S. Form E.C.10.

Professional Sample and Literature gladiy available on request.

Growing recognition of the long-term cumulative toxic effects of barbiturates, and the well-known, insidious, psychic habituation to their use—matters of considerable concern to many Doctors—are now avoidable dangers through the formulation of Noctynol Tablets. The latter present:

MEPHENESIN, which, by diminishing reflex hyperexcitability, relieving nervous tension and anxiety, and promoting muscular relaxation, not only induces the composure essential to the onset of sleep, but also ensures that the sleep is restful and refreshing.

CARBROMAL and BROMVALETONE which, by synergism, act as effective hypnotics and quickly transform the mephenesin-induced sedation to hypnosis. Unlike the barbiturates, carbromal and bromvaletone are non-toxic and non-cumulative and, as elimination is comparatively rapid, they rarely give rise to 'hangover' and depression.

In smaller doses, NOCTYNOL Tablets act as a non-depressant calmative eminently suitable for daytime sedation.

DIFFERENTIAL DIAGNOSIS OF INTERNAL DISEASES

by JULIUS BAUER, M.D.

In this second revised and enlarged edition (1955) Dr. Bauer brings this well known book again to the foreground of medical writing. "Information obtainable at the table- or bed-side is ranked at least as high as that to be had from the laboratories. The reader is not confused with a recital of a number of diverse opinions. What the author judges to be best is plainly put forward, and that is as it should be."—Southern Medicine and Surgery. (950 pages, 66 illustrations, bibliography, index.) (1955)

Journ & Country **TYRES** on rear wheels help the doctor

Snow on the roads. Treacherous driving. That's when doctors and others to whom a car is essential, can depend on the sure, safe grip, of Firestone Town & Country Tyres.

- An urgent call in the night. Grip in mud, slush and snow
 - Non-skid safety on wet and greasy roads
 - Smooth riding and quiet
 - ✓ Long, trouble-free mileage
 - **✓** All-season motoring

Firestone tyres—consistently good

TUBELESS OR CONVENTIONAL

Softening the blows of FATE...

The Ancients personified Fate by the Three Sisters; Clotho, Lachesis and Atropos, who sat spinning the thread of each man's destiny, ruthlessly cutting it as the whim took them. Although the modern mind has abandoned this picturesque image of Fate, it believes in providing for every contingency through personal and corporate insurances.

In the business and professional world the name "Legal and General" has long been associated with almost every aspect of insurance; it has always been foremost in bringing to the service of industry and the general public, new and improved insurance cover.

The "Legal and General" deals with all normal types of insurance, including -

UAEGER

Jaeger body-belts are made of pure wool, for these reasons. Wool keeps its wearer cool in summer, warm in winter. Wool disposes quickly of perspiration, retaining body warmth. Wool, being porous, allows both the escape of exhalations from the skin, and the access of pure air to the skin. Jaeger body-belts sit well, stay in position, and give support without pressure. They are available in all sizes.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

**SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment. The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

MEMBERS ABROAD. Copies of vacancies advertised in the Journal can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings Is, each.

Please state type of vacancy and remit to the Advertisement Manager, B.M.J.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelope "Vacancy."

WALTHAMSTOW, London, E.17

Applications invited for death vacancy (Urban, Intermediate). List at present approximately 1,900. Residential and surgery accommodation may be available. Apply, on Form E.C.16A, before March 18, 1955, to the undersigned.—E. Bergdahl, Clerk of the Council, Essex Executive Council, 131/3, Fillebrook Road, Leytonstone, E.11.

STRANRAER, Galloway

Applications are invited for a general practice vacancy in Stranraer. The practice is of a town and rural area type. The number of patients on the list of the present doctor is 1,687. Residence and surgery may be available to purchase. The selected candidate will be required to undertake a part-time surgical hospital appointment (which would entail approximately four notional half-days per week) in Stranraer under the control of the Western Regional Hospital Board. He should be experienced in general and emergency surgery and also possess a higher qualification in surgery. The official grading of the practitioner appointed will be in accordance with his experience and qualifications. Further information may be obtained from the Clerk, Galloway Executive Council, 12, Castle Street, Kirkcudbright, to whom applications (on the prescribed form) must be submitted within fourteen days from the date of this publication. The successful applicant will be required to take up duty not later than May 1, 1955.

COEDPOETH, near Wrexham, Denbighshire

Applications are invited for vacancy (semi-Urban) caused by death of practitioner. List at present 2,766. Residence and surgery may be available, Applications, on Form E.C.16A, to the undermentioned, before March 12, 1955.—Tudor Williams, F.C.1.I., Clerk of the Denbishshire and Flintshire Executive Council, 11, Grosvenor Road, Wrexham.
