

## THE BRITISH DIABETIC ASSOCIATION

Since its founding in 1934, the Association has contributed greatly to the welfare of the whole diabetic community. Membership is now about 18,000 consisting of lay diabetics, doctors, almoners, nurses and other persons interested in the progress of treatment of diabetes and in improving the economic, social and psychological conditions of diabetics.

Medical practitioners are requested to call the attention of their diabetic patients to the Association's aims and achievements.

A reduced subscription rate of 10/- p.a. is allowed to doctors during the five years following medical registration.

## High-speed pen recorders for medical use

SAFE—HIGH DEFINITION—NON-CLOGGI

Kelvin Hughes high-speed ink writing recorders are, by virtue of their design, perfectly safe for use in operating theatres. The ink is quick drying and does not clog, since it is immediately evacuated whenever the apparatus is switched off. Frequency responses of the recorders are very high, resulting in extremely good definition. Units can be adapted for use with existing chart tables.

Kelvin Hughes welcome enquiries from the Medical profession regarding any application of pen recording.

*Highest peak concentrations and sustained  
therapeutic effect with 'ESKACILLIN'*  
*the palatable liquid oral penicillin*

Some authorities stress the value of high, if intermittent, peak penicillin serum concentrations; others favour lower, but sustained, plateau levels. With 'Eskacillin' the advantages of both patterns are available. A very high peak concentration is achieved within about one hour of the first dose, succeeded by a more than adequate therapeutic level sustained for several hours.

## The case of the *Culicine larvae* . . .

In Algeria the still, shallow waters of the rice fields are perfect breeding grounds for mosquitoes; anopheline mosquitoes that transmit malaria and culicine mosquitoes that plague man and beast. Control measures are now being intensified throughout the infested areas, aimed at controlling all mosquitoes in the larval stage. The Shell insecticide dieldrin — in granule form — has been chosen for this important work.

Dieldrin granules have been chosen with good reason. Dieldrin is deadly to all species of mosquitoes, even the difficult-to-control culicines. In the rice fields, conventional dusts and sprays are caught by vegetation above the surface and largely wasted, but the specially prepared dieldrin granules, applied from the air, penetrate the foliage and get right down to the larvae in the water.

15 to 20 lbs. of granules to the acre — only a few ounces of actual dieldrin — are bringing even the heaviest infestations under complete control.

*Dieldrin's range of control is unique: all mosquitoes and all other major disease-carrying insects. More powerful, exceptionally persistent, giving surer kill at lower dosages, dieldrin is the outstanding insecticide developed in recent years for the protection of health against insect attack.*

*Another recent Shell development is aldrin, fast becoming recognised as the most widely effective and most economical of all insecticides for use in the soil.*

*Have you an urgent pest problem in your area?*

# dieldrin

dieldrin and aldrin are  insecticides for world-wide use

For further information apply to your Shell Company

Issued by The Shell Petroleum Company Limited, London, E.C.3, England.

# Transvasin

brings the esters of **NICOTINIC ACID**  
**SALICYLIC ACID**  
**p-AMINO BENZOIC ACID**

to the focal point of  
soft-tissue rheumatism

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed. Transvasin

not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins. It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low!

<i>Salicylic acid tetrahydrofurfuryl-ester</i>	14%
<i>Nicotinic acid ethyl-ester</i>	2%
<i>Nicotinic acid n-hexyl-ester</i>	2%
<i>p-Aminobenzoic acid ethyl-ester</i>	2%
<i>Water-miscible cream base ad</i>	100%

Transvasin is available in 1 oz. tubes, basic price 2/6 plus 7½d. P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

LLOYD-HAMOL LTD., 11 WATERLOO PLACE, LONDON, S.W.1. WHITEHALL 8654/5/6  
Transvasin is the registered trade mark of Lloyd-Hamol Ltd.

# PRECISELY!

## 'Penavlon' penicillin tablets ensure precision in dosing

'Penavlon' Tablets are supplied in two strengths, 200,000 units and 500,000 units of penicillin respectively, to facilitate the prescribing of convenient dosage schedules.

**'Penavlon'** can always be relied upon

- **the tablets are uncoated**

They rapidly disintegrate after ingestion and the penicillin is quickly absorbed.

- **full potency is assured**

Moisture-free processing during formulation and special packing ensure full potency at the time of dispensing. Storage tests under normal conditions of usage have proved their stability.

'PENAVLON' Penicillin Tablets B.P., contain soluble crystalline penicillin G (potassium salt) of the highest quality and potency. They provide an effective and convenient means of giving penicillin by the mouth and are at the same time the least expensive oral formulation of the antibiotic.

**Presentation**

Issued in tablets of 200,000 and 500,000 units penicillin respectively. Tubes of 10 and bottles of 100.

Available under the National Health Service at Ministry of Health Drug Tariff prices.

Ph.504

# Nulacin

## for milk-alkali drip therapy

## without inconvenience

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

# HORLICKS LIMITED

PHARMACEUTICAL DIVISION • SLOUGH • BUCKS

The use of milk-alkali drip therapy in establishing and maintaining a state of gastric anacidity has for many years been accepted as a standard practice in the treatment of peptic ulcers.

Such a continuous antacid effect could only be achieved by administering the drip through a tube, with its attendant inconvenience and discomfort to the patient. NULACIN tablets, held in the buccal cavity, give continuous neutralization without inconvenience or discomfort.

### INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrans and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Ment. Pip. q.s.

**These noxious creatures**

Tyrosolven is a lozenge containing tyrothricin, an antibiotic, and benzocaine, a local anaesthetic. It is of particular value during influenza epidemics, since it is effective against most of the potentially noxious creatures which proliferate in the mouth and pharynx under such conditions, e.g. haemolytic, streptococci, enterococci, vibrioform and fusiform bacilli and spirochaetes.

**Dosage:** Place 1 lozenge under the tongue hourly. Allow to dissolve. Do NOT chew. Repeat until condition improves, then continue dosage 3-hourly.

**Formula:**  
Tyrothricin 1 mg.,  
benzocaine 5 mg.  
**Packing:**  
Packs of 20 lozenges;  
dispensing packs of 250  
supplied at 15/-.  
Tyrosolven is not  
subject to Purchase Tax.

Especially notable among the merits of AUREOMYCIN is the ease with which effective concentrations can be produced *precisely where they are needed*. This feature is well demonstrated in the case of ear, nose and throat infections—the majority of which show prompt and positive response to this most versatile antibiotic.

In severe conditions, AUREOMYCIN is wisely given in capsule or soluble tablet form, to secure a rapid concentration in the tissues. And this measure is ably supported by appropriate local therapy such as AUREOMYCIN Otic, for instillation into the auditory canal . . . AUREOMYCIN Troches, which furnish a continuous bacteriostatic lavage of the mouth . . . or AUREOMYCIN Nasal, which swiftly arrests a wide variety of infections of the upper respiratory tract.

**PACKAGES :** CAPSULES (50 mg.), bottles of 25 and 100; 250 mg., bottles of 16, 100 and 1,000; SOLUBLE TABLETS (50 mg.), bottles of 100; OTIC, vial of 50 mg. with 10 cc. vial of diluent and dropper; TROCHES (15 mg.), bottles of 25; NASAL, vial of 10 mg. with 10 cc. vial of vasoconstrictor and dropper.

Over four years' usage in general medical practice throughout the world has established Chloromycetin\* as today's foremost broad spectrum antibiotic. Among the significant advantages that have placed Chloromycetin in this unrivalled position are its rapidity and effectiveness of absorption, swift consistent response, outstanding tissue diffusibility plus a remarkable flexibility of treatment to meet varying clinical conditions. Development of resistance to Chloromycetin by the common pathogens is extremely rare and the facility with which it is absorbed accounts for the low incidence of gastro-intestinal upset.

**The ONLY CHEESE**  
 containing *Lactobacilli*  
 in **ACTIVE FORM**

It is true that no other cheese is like St. Ivel, not only is this because no other cheese has the delicious Cheddar flavour and creamy texture, but also because it is the only cheese containing *Lactobacilli* in active form.

The reason for this is that instead of using an ordinary cheese starter of lactic streptococci, a culture of specially selected strains of *Lactobacilli* is used. The cultures are maintained by professional bacteriologists with specialized knowledge of bacterial selection and genetics.

Great importance is attached to this aspect and to the nutritional requirements of the *Lactobacilli* so as to maintain the activity of the culture in the cheese after manufacture, and to ensure maximum therapeutic value.

*Special hospital packs available.*

## THE EXTRA PHARMACOPŒIA

(MARTINDALE)

**Volume 1, 23rd Edition**

In this new edition will be found information on the composition and character of practically every substance used in medicine, together with a concise summary of its use, its method of administration and its contraindications, with abstracts of the world literature. The book gives details, with references, of the most recent innovations in medical practice.

Information is provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. It is unlikely that any medicinal agent of established value has been omitted from the Therapeutic and Pharmacological Index, which is about half as long again as that of the last edition and contains approximately 750 headings.

# SPECIFIC DESENSITISATION

is the key to **ALLERGY TREATMENT**

A remarkably high proportion of allergic conditions—especially those of complicated aetiology in which it is essential to track down the offending allergens—can be successfully treated with Bencard Desensitising Solutions.

The careful recording of the patient's case history, confirmed by the use of Bencard Skin Testing Solutions, enables the physician to prescribe accurately the correct desensitising solution. This method has been found to produce lasting benefit in 75% of those patients receiving only one course, and up to 95% including those who need a second or third course.

***Desensitisation removes the cause of symptoms and is not merely palliative.***

The Bencard Allergy Division has available a range of over 900 allergenic extracts for Skin Testing and the preparation of Specific Desensitising Solutions.

## THE LATEST FILM ON ALLERGY

"ALLERGIC DISEASES IN MAN" a 16 mm. colour and sound film (800 ft.) is now available for showing to Medical audiences. It describes the latest conceptions of allergy and the Bencard Methods of diagnosis and treatment.

***In many areas we can offer our own projector and operator.***

## SKIN TESTING OUTFITS

**For the G.P.**—The "A1—A13" outfit containing solutions of the most common allergens.

**For the Consultant**—A Standard Cabinet containing 72 solutions and necessary instruments.

**For Clinics and Hospitals**—The Hospital Skin Testing Cabinet, a comprehensive unit for routine skin testing of large numbers of patients.

# Motorists! SOUND YOUR APPROACH

These horns give a powerful and resonant warning, yet distinctive and pleasing. They are relatively light and compact for their power, easy to fit, and are supplied in blended pairs, one high note and one low note, operated simultaneously to give a mellow and harmonious signal. Finished in polished ebony black, complete with cables and fitting instructions etc.

List prices: 12-volt, £3.17.6.  
per pair; 6-volt (including  
necessary relay set) £4.7.6.  
per pair.

OBTAINABLE AT ALL GOOD GARAGES

JOSEPH LUCAS LTD., BIRMINGHAM. 19

## 'Eminently suitable for medicinal purposes'

'In view of these analytical and general evidences, this brandy may be described as particularly suitable for medicinal purposes'

*See Lancet, July 22, 1899, p. 219*

'The evidence both of analysis and taste indicates that the high standard of purity and quality has been maintained and that the brandy is eminently suitable for medicinal purposes'

*See Lancet, May 7, 1932, p. 992*

make friends with MARTELL

\* Seborrhoea

\* Psoriasis of

the Scalp

+ Dandruff

## \* Sebbix CREAM

A safe treatment for seborrhoea and psoriasis of the scalp. Contains 2% salicylic acid, 3% sulphur and purified fractions equivalent to 10% crude coal tar in a water miscible base.

Sebbix has no unpleasant odour and is readily acceptable to female patients since

it does not mat or clog the hair. Prescribable on E.C. 10.

Basic N.H.S. cost per 1 oz tube 2/3

## + Sebbix SHAMPOO

An effective but safe shampoo for removing scale in cases of seborrhoea and psoriasis of the

scalp. Contains 1% hexachlorophene and purified fraction equivalent to 2% crude coal tar

in a soapless shampoo base. A stimulant and antiseptic preparation which quickly controls dandruff while being an ideal shampoo for routine use. Should not be prescribed

on E.C. 10, but retail price of a bottle sufficient for

6—8 good shampoos is only 3/2

## SUPPLEMENTING NATURE...

**FELOPAN** contains: Ext. Fel Bovini B.P.C. 1½ gr. Pancreatin B.P.C. ½ gr. Excipients q.s. and is supplied in bottles of 100 ORANGE-coated tablets.

**FELOPAN COMPOUND** contains: Strychnine Hyd. B.P. 1/200 gr. Ext. Bellad. Sicc. B.P. 1/40 gr. Aloin B.P. 1/5 gr. Ext. Fel Bovini B.P.C. 1 gr. Pancreatin B.P.C. 3/10 gr. Phenolphthalein B.P. ½ gr. Excipients q.s. and is supplied in bottles of 100 BLUE-coated tablets.

The combination of bile salts and pancreatic enzymes in FELOPAN stimulates normal peristalsis and readily relieves chronic constipation. The two forms of FELOPAN—with and without mild laxatives—provide the complete treatment for breaking the cathartic habit and correcting intestinal indigestion.

# FELOPAN

a supplementary source of bile salts and pancreatic enzymes

**COATES & COOPER LTD** PYRAMID WORKS, WEST DRAYTON, MIDDX.

By Appointment to the late King George VI  
Manufacturers of Land-Rovers  
The Rover Co. Ltd.

## It's revealing to drive a ROVER . . .

**You'll be astonished** at the way the car takes rough surfaces smoothly in its stride. Ruts and potholes seem almost non-existent as the car glides over them.

**You'll enjoy** having both pace and quiet at your command. Even at high speeds, engine and transmission noise has been reduced almost to vanishing point.

**You'll appreciate** the infinite care and thought that has been paid to the comfort of driver and passengers.

**You'll feel confident** even in the thickest and trickiest traffic, because a Rover is such a well-bred, obedient car to handle.

*The Rover co-ordinated suspension system allows plenty of vertical road wheel movement, while spring tensions and shock absorber settings ensure a smooth ride. The central bearing to the propeller shaft checks 'whip' and vibration.*

*The special cylinder head design of Rover engines sets the Rover pace, whilst the extensive use of rubber pads and mountings, spraying with sound-absorbing material and heavy carpeting make the naturally quiet engine almost inaudible.*

*All passengers sit well within the wheelbase, with front seat adjustable for height and rake and wide centre arm rests front and rear. Heating, demisting, ventilating and draught-proofing are exceptionally efficient.*

*Direct central gear change with synchromesh on 2nd, 3rd and top, controlled free wheel for clutchless changes and well-planned dashboard layout make clumsy handling of a Rover practically impossible.*

# ROVER

## *Sixty · Seventy-Five · Ninety*

Body and chassis are identical throughout the Rover range. However, three different engine sizes give motorists a made-to-measure service in which design and workmanship are uniformly high. New features common to all 1955 models include re-shaped luggage boot, larger rear window and flashing type direction indicators.

# Where vitamin C is indicated

... Delrosa Rose Hip Syrup provides it in a convenient form. It is readily tolerated by babies, while children of all ages find it extremely palatable.

*Every fluid ounce of Delrosa contains 57 mgms. of vitamin C (10 mgms. per household teaspoon) and provides 100 calories in the form of sugar and glucose.*

**We shall be pleased to send a full size bottle for clinical trial, on request.**

## If only I had the MONEY!

How often the need for money arises—to take advantage of a business opportunity—to pay a deposit on a house—to pay for extras during disability from accident or illness.

But how much more would your family need income if the security of your earning capacity was removed.

The Confederation Life can provide income when it is most needed by yourself or your family under a very simple plan which only requires you to save a small percentage of your present earnings. It will:

**Pay you an income if you suffer lengthy disablement from an illness or accident.**

**Pay a regular monthly income to your family if you should die.**

**Accumulate a reserve fund against retirement or emergencies.**

# SUBLAMIN

Lotion

## for fungus infections of the smooth skin

ACTIVE INGREDIENTS:-  
 Acid. Benz. 4.82%  
 Acid. Salicyl. 2.018%  
 Benzalkonium Chloride .050%  
 Cetyl Pyridinium Chloride .050%

*Specifically indicated in the treatment of*  
**TINEA PÆDIS and TINEA CRURIS**  
*SUBLAMIN is the ideal fungicidal lotion for*  
*the treatment of Tinea Pædis, Tinea Cruris,*  
*and other fungus infections of the smooth skin.*

*SUBLAMIN has the following advantages:*

The excipient evaporates quickly, leaving the therapeutic substances, in finely particulate form, in intimate contact with the affected areas. In consequence, the maximum destructive effect on the invading fungus is rapidly achieved. Being non-greasy SUBLAMIN obviates the need for dressings and will not promote the growth of secondary infective organisms. Its application is extremely simple.

*For full information please write to:*

## 15 years of clinical opinion supports the use of vaginal tampons

---

# the menstrual flow is unobstructed and completely absorbed

---

There is a growing volume of clinical evidence to show that, because of the way in which tampons are made, they do not obstruct the menstrual flow and yet give complete protection and an improved sense of security (1-4). Two research workers (3) observed that any discomfort experienced was due to the use of the wrong size. With a tampon of the proper size, absolute comfort and complete absorption of the flow is obtained. Another (4) found that there was no evidence of the irritation, congestion, discomfort or pain that would follow from blocking of the flow. He agreed with other observers that, where there was initial fear of incomplete absorption, actual trial brought reassurance. Most women having tried tampons, decided not to return to the use of external pads. Intelligently used, vaginal tampons represent a decided advance in feminine hygiene. They may be recommended with confidence.

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £525 per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

### ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

**NUFFIELD FOUNDATION DOMINION**  
TRAVELLING FELLOWSHIPS  
New Zealand

The Nuffield Foundation offers a Travelling Fellowship in Medicine to nationals of New Zealand preferably between the ages of 25 and 35 years. The purpose is to enable medically qualified persons to obtain in the United Kingdom such postgraduate training and experience as may be necessary to prepare them to undertake medical teaching and research work in New Zealand. Applicants should possess high intellectual and personal qualities. A Fellow will be required to carry out at an approved institution a programme of work and training approved by the Nuffield Foundation. A Fellow will not be permitted to prepare for, or to take examinations for, higher degrees or diplomas awarded by bodies in the United Kingdom. The Fellowships are normally tenable for one year and provide for maintenance and return travelling expenses of a Fellow and, if he is married, for the travelling expenses only of his wife. The total value of an award, including travelling expenses, varies with the needs and family responsibility of the holder, but will in no case be less than £900. Applications for Fellowships to begin in 1955 should be submitted not later than April 30, 1955, to the undersigned. Copies of the conditions and forms of application are also available at the Nuffield Foundation, Nuffield Lodge, Regent's Park, London, N.W.1.—R. E. Corbett, Department of Chemistry, University of Otago, Dunedin, New Zealand. (9113)
