*Corrective Efficiency
and Absolute Comfort*

SALT'S SACRO-ILIAC BELT

The adoption of Salt's Sacro-iliac Belt affords quick relief of pain and discomfort, together with a rapid restoration of the sacral and iliac bones. A beneficial effect is also exerted on the tone of the abdominal viscera. This efficiency is joined with real comfort, so that the patient can make an early resumption of normal activities. Styles are available for both sexes. Further details and Measure/Order forms are obtainable on request.

no
dandruff
on
my
comb

In just four to six weeks, SELSUN restores the scalp to a clean, healthy condition. Then—without further

care—the patient's scalp remains free from the scaling,

itching and burning of seborrhoeic dermatitis for one

to four weeks. Clinical reports covering more than 400 cases show

that SELSUN controls 92 to 95 per cent of common dandruff cases, 81 to 87 per

cent of all seborrhoeic dermatitis cases. SELSUN is remarkably simple to use.

Patients just add it to their regular hair-washing routine. It rinses out easily,

leaves the hair and scalp clean and easy to manage. SELSUN Suspension

is available in 2 and 4 fluid ounce bottles, with special direction label.

Try SELSUN yourself and prove its effectiveness. Technical literature will gladly be sent on request.

ABBOTT LABORATORIES LTD · PERIVALE · GREENFORD · MIDDLESEX

A NEW ADJUVANT IN THE TREATMENT OF RESPIRATORY DISORDERS

Lloyd-Hamol Ltd., of London and Zurich, presents to the medical profession a new decongestive salve, Thoracin, for the symptomatic relief of coughs, colds and respiratory disorders.

This diagram shows how Thoracin components penetrate the skin, are carried by the bloodstream to the alveoli and excreted there to exert their effect.

FORMULA

Phenyl Ethyl Nicotinate	2.0% w/w
Guaiacol Furoate	5.0% w/w
Tetrahydrofurfuryl Salicylate	10.0% w/w
Camphor	3.0% w/w
Eucalyptol	2.0% w/w
Water-Miscible Base to	100.0%

► The Thoracin formula is based on the same principles that have made Transvasin so successful in the treatment of rheumatic conditions.

► Thoracin is composed of esters of substituted hydroxy aromatic derivatives.

► Thoracin achieves the effect of the classic counter-irritant remedies — poultices, plasters and cupping — without irritation of the skin.

► Thoracin contains a new ester of Guaiacol that is entirely free from the evil smell and irritant effect associated with this phenol derivative in its pure form. This ester easily penetrates the skin, and is excreted in the alveoli, where it exerts its well-known action.

► Thoracin ensures vasodilation of the superficial skin vessels by the use of esters of nicotinic acid.

► Thoracin relieves reflex spasm of the pectoral muscles by the use of the tetrahydrofurfuryl-ester of salicylic acid.

► Thoracin brings to the alveoli via the bloodstream the sedative, antispasmodic, and expectorant properties of camphor and eucalyptus.

THORACIN is available in 1 oz. tubes — basic price 2/6 plus 7½d. P.T. It is an ethical product, and is not advertised to the public. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low. *Samples and literature will be gladly sent on application.*

Leadership in oral-iron therapy

FERROMYN

(Ferrous Succinate)

THE NEW ORGANIC IRON

FERROMYN is an original and logical approach to the problem of iron absorption and utilisation in the treatment of hypochromic anæmias. FERROMYN brings oral iron therapy a step nearer the ideal.

This new preparation presents Ferrous Succinate and exhibits the following advantages over all other forms of oral iron therapy:

1. **Highest utilisation ($42\% \pm 5\%$) ensuring quickest restoration of Hb. values. It is significant to note that the utilisation factor for FERROMYN is 50% greater than that obtained with contemporary preparations.**
2. **In the recommended dosage of two tablets t.d.s. there is no evidence of intolerance or other gastric reaction.**

PREPARATION	IRON UTILISATION COEFFICIENT
FERROMYN	 42%
FERROUS GLUCONATE	 28%
FERROUS SULPHATE	 14%

Ferromyn is presented in tablet and liquid form:

To-day, the new diabetic has many facilities to enable him to lead and enjoy a normal life. The introduction of I.Z.S. (Insulin Zinc Suspension) A.B. has greatly simplified the treatment of the majority of cases, one injection being sufficient to control the blood-sugar level for 24 hours.

I.Z.S. offers the following advantages over other prolonged action insulin preparations :—

1. No protein or peptide material present other than insulin itself.
2. Rapid onset with prolonged action.
3. It meets the needs of a higher percentage of diabetics.

I.Z.S. (Insulin Zinc Suspension) A.B. is supplied in vials of 10 c.c. containing 40 or 80 units per c.c.

NULACIN

for successful peptic ulcer therapy

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

NULACIN

is available throughout the British Commonwealth, in the U.S.A. and many other countries. It is known as Nulactin in Canada and Sweden.

NEUTRALIZATION of gastric hyperacidity has long been acknowledged as the first requirement of successful peptic ulcer therapy. In the past it has only been possible to achieve this with milk-alkali drip therapy under hospital conditions.

Now NULACIN provides all the advantages of milk-alkali drip therapy without the discomfort of a tube and without inconvenience to the patient.

INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-). Also Available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

DOUBLE - BARRELLED

The value of combining penicillin with 'Sulphamezathine' in the treatment of serious bacterial infections has been confirmed by clinical experience — 'Sulmezil' now enables this to be done in the simplest and most convenient way.

THE ADVANTAGES OF 'SULMEZIL'

- Enhanced antibacterial effect
- Active against a wide range of organisms
- Especially useful in mixed infections
- Resistant bacteria less likely to occur
- Minimum risk of toxic side-effects
- Maximum convenience

'SULMEZIL' ORAL SUSPENSION contains 0.5 gramme 'Sulphamezathine' Sulphadimidine B.P. and 150,000 units 'Dibencil' benzathine penicillin, in each fluid drachm (3.5 c.c.). Ready for use, the Suspension is pleasantly flavoured, and free from the characteristic taste of either penicillin or sulphonamide. It is therefore particularly suitable for children. 'SULMEZIL' TABLETS are also available, containing the same dosage.

Treatment of the Streptococcal Throat

'PONDETS' Penicillin are a new and ingenious vehicle for local oral penicillin therapy that combine the striking advantages of extreme palatability with prolonged action. Each 'Pondet' contains 5,000 international units of crystalline potassium penicillin-G in a delicious hard, fruit, toffee-like base that completely masks the bitter taste of penicillin.

Because of the nature of their hard base, 'Pondets' dissolve slowly and uniformly, supplying an uninterrupted high concentration of penicillin to infected areas of the oro-pharyngeal mucosa.

INDICATED in minor superficial oral infections due to penicillin sensitive organisms ranging from the 'Streptococcal Throat' to the less common Vincent's infection and recommended for routine prophylactic use following Tonsillectomy.

Individually wrapped in bottles of 20.

Children accept 'Pondets' as readily as a sweet, and they are particularly useful in controlling throat infections in juvenile communities.

There's more to it than meets the eye

How often this is true, and how true it is! For instance, when one looks at a pithead, it gives little indication of all that it stands for and over.

Far below, a teeming world of brain and brawn relentlessly pursues its task of providing us with the fuel so vital to our existence. Similarly, a Cow & Gate tin conveys little of the vast amount of scientific research and painstaking testing always going on behind the scenes. But

it is because of this that its contents are as effective in infant feeding practice as human ingenuity can make them.

Fluoroscopy in Diagnostic Roentgenology

The first all-inclusive single volume work on the complete range of use of the fluoroscopic method of diagnosis. It shows how to obtain the utmost benefit from fluoroscopy as a diagnostic window on the inner workings of the body.

The **roentgenologist** will appreciate the extensive discussions on "spot radiography." The **surgeon** will derive much help in the diagnosis of many emergency conditions and in localization and removal of foreign bodies. There is a special chapter aimed particularly at the **urologist** and his problems. For the **neurologist** and **neuro-surgeon** there is practical aid in examination of the spinal column. For the **cardiologist** there is a lot of advice on getting full fluoroscopic information on size, shape, position and pulsation of the heart. The **orthopaedist** is shown how fluoroscopy can prove to be a valuable adjunct in setting multiple or splintered fractures.

THE EXTRA PHARMACOPŒIA

(MARTINDALE)

Volume 1, 23rd Edition

In this new edition will be found information on the composition and character of practically every substance used in medicine, together with a concise summary of its use, its method of administration and its contraindications, with abstracts of the world literature. The book gives details, with references, of the most recent innovations in medical practice.

Information is provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. It is unlikely that any medicinal agent of established value has been omitted from the Therapeutic and Pharmacological Index, which is about half as long again as that of the last edition and contains approximately 750 headings.

Pp. xxii + 1352.

The Spencerflex for Men

- ★ Co-relates back and abdominal support
- ★ Allows complete freedom of action
- ★ Protects scar following upper abdominal surgery

Individually designed, cut, and made for each patient, this Support provides pelvic control, abdominal uplift, freedom for muscular action. Thus, at work, or play, or during convalescence, the Spencerflex favourably influences better posture and body mechanics.

Safe because it is made in non-elastic material that will not yield or slip under strain. Comfortable because it is individually designed according to the prescribed needs of each patient.

The extra width at back gives exceptional back support. It is light, flexible—with no pressure on prominent part of hip bones.

The photograph at left illustrates a Spencerflex designed as adjunct to treatment following upper abdominal surgery. Especially helpful in early ambulation and where drainage has been maintained for a considerable period. Completely covers and protects the scar without "digging in" at lower ribs. Relieves fatigue and strain—even that caused by deep breathing and coughing—on tissue and muscles of the wound area. *We know of no other abdominal support for men which provides these benefits.*

'I had a funny feeling, Doctor, at the bottom of my spine; — and then I broke into a cold sweat

. . . The road was wet, the corner was much sharper than I expected. How I got round it I'll never know'. 'Well, you're riding on John Bull, I see, that would help a great deal because they have a remarkable grip. Nevertheless, I would advise safer driving. Despite the time you will have to wait, you don't want your tyres to outlive you, do you?'

Made for the man who will have the best

15 years of clinical opinion supports the use of vaginal tampons

chafing is eliminated and there is no local irritation or internal inflammation

The chafing and itching of the vulva and thighs often associated with the use of external pads for menstrual hygiene is eliminated by changing to vaginal tampons (1). Women greatly appreciate the increased comfort and sense of freedom.

Over the past 15 years observers (1-5) have noted that tampons do not give rise to irritation of the cervix or vagina. One (5) found that cervical erosions present at the initial examination were often improved and never aggravated by the change to internal protection. No erosion, vaginitis or cervicitis is caused by this form of menstrual guard (3).

Another observer (2) stated categorically that she found no evidence that vaginal tampons are prejudicial to health. Some gynaecologists use them deliberately in cases of trichomonas and monilia infections for treatment, or in other conditions for the prevention of additional contamination by extra-vaginal pathogens (4-6). Intelligently used, vaginal tampons represent a decided advance in feminine hygiene. They may be recommended with confidence.

3 New G. & S. Books — JUST PUBLISHED

J.A.M.A. CLINICAL ABSTRACTS OF DIAGNOSIS AND TREATMENT

Selected by **Noah D. Fabricant, M.D.**, Editorial Associate of the J.A.M.A.

These abstracts, carefully selected from the *Journal of the American Medical Association* of the past year (ending March 31, 1955), furnish a key to the most up-to-date and significant work being done—world-wide—in diagnosis and treatment. They deal with internal medicine, paediatrics, gynaecology and obstetrics, dermatology, ophthalmology, and many other specialties, providing a comprehensive and authoritative guide for every practitioner. (636 pages, 39s.)

THE HEMORRHAGIC DISORDERS: A Clinical and Therapeutic Approach

By **Mario Stefanini, M.D.**, and **William Dameshek, M.D.**

Not limited to simply a discussion of the principles of blood coagulation, this new monograph emphasizes, rather, disorders of the haemostatic mechanism and particularly a broad range of practical clinical problems encountered by the physician in the actual management of the bleeding patient. (378 pages, 147 illus., 16 in colour, 83s.)

DIFFERENTIAL DIAGNOSIS OF INTERNAL DISEASES

Clinical Analysis and Synthesis of Symptoms and Signs on Pathophysiologic Basis

By **Julius Bauer, M.D.**

In this second revised and enlarged edition (1955) Dr. Bauer brings this well-known book again to the foreground of medical writing. Of the first edition the *Annals of Internal Medicine* said, "This book can be highly praised. The author has combined with his individual approach to each subject in turn, an extraordinary display of knowledge. . . . There can be few living men who enjoy such evident familiarity with the medical literature of both continents. . . . This book is an education to read and will remain an invaluable work of reference." (1,004 pages, 66 illus., 105s.)

GRUNE & STRATTON, Medical Publishers

99 Great Russell Street

London, W.C.1

Smith & Nephew Ltd

introduce

a new vaginal tampon

without applicator

In collaboration with leading gynaecologists, our own research organisation, Smith & Nephew Research Ltd., have recently concluded extensive trials of a tampon which has been widely accepted as an aid to menstrual hygiene, on the Continent, during the past five years. This applicator-less tampon is now to be marketed in Britain under the name LIL-LETS. Samples will gladly be sent to medical practitioners on request.

LIL-LETS have, very briefly, the following main advantages;

LIL-LETS need no applicator. By inserting the tampon with the fingers, the risk of bruising is eliminated.

LIL-LETS are highly absorbent. They absorb almost ten times their own weight in moisture, and swell sideways, not lengthways. They are, therefore, really safe.

LIL-LETS are individually wrapped. Each tampon is sealed in a transparent cover. There is no risk of soiling or infection when it is carried loose.

LIL-LETS assist personal hygiene. LIL-LETS (1/6 for 10) are so much cheaper than other leading tampons, and so easy to carry about and to dispose of, that women will be encouraged to change them frequently.

SMITH & NEPHEW LTD WELWYN GARDEN CITY HERTS.

EAR WAX

Removed

THE EASIER WAY

The removal of wax from the external auditory meatus can now be greatly simplified—by the use of Cerumol Ear Drops. Cerumol dissolves soft cerumen, disimpacts the hard wax plug, and a simple wiping or washing out is sufficient to remove debris. Cerumol is not injurious to the lining of the external auditory meatus or to the tympanic membrane.

Anti-bacterial, safe and efficient, Cerumol is an accepted product for use in a large number of hospitals and general practices throughout the country. It is included in Category No. 4 of the Classified List of Proprietary Preparations issued by the Ministry of Health, and may therefore be prescribed on N.H.S. form E.C.10.

PACKS:—For Surgery Use: 10 c.c. vial, separate dropper included (Basic N.H.S. price 2s. 8d.)
For Hospital Use: 2 oz. and 10 oz. bottles.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Other Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

Registrar Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

Salary \$7,500 by \$240 to \$8,460, plus \$312 cost-of-living bonus. Excellent sick leave, holiday and pension programme. Apply to Associate Director, enclosing a photograph and three recent testimonials. (3332)

**AUCKLAND HOSPITAL BOARD
New Zealand**

Applications are invited from qualified medical officers with the requisite qualifications for the status of junior specialists for the position of

**Full-time THORACIC SURGEON
Green Lane Hospital**

The appointment is a full-time one, and the applicant may either accept the appointment for a period of one year, and if during that period he has satisfactorily carried out the duties of the position, and if he so desires, an extension of the term for a further limited period would be considered by the Board; or the appointee may take advantage of the Board's offer in respect of travelling expenses. It is desirable that the appointee take up duty as soon as practicable after notification of appointment. The position is non-residential. Salary scale: £NZ1,371 to £NZ1,671 by annual increments of £NZ150. Commencing salary within this scale according to qualifications and experience in the specialty. Conditions of appointment and form of application obtainable from the office of the High Commissioner for New Zealand, 415, Strand, London, W.C.2. Applications close with the undersigned at the office of the Board, Kitchener Street, Auckland, New Zealand, at noon on Friday, May 27, 1955.—R. F. Galbraith, Sec. (2920)

BERMUDA

A vacancy will shortly exist for a
MEDICAL OFFICER
 in the Health Department, Bermuda. Salary is fixed at £1,800 per annum, tax free. A single man under 40 years of age is preferred, with experience in public health. Reply in first instance to Messrs. Robert Tucker and Company, 23, Coleman Street, E.C.2. (2677)

GOLD COAST LOCAL CIVIL SERVICE**Gold Coast Medical Services****PATHOLOGISTS**

Required by Ministry of Health, Gold Coast, to carry out routine duties of Clinical Pathologists including haematology, bacteriology, histo-pathology and biochemistry. They may be required to carry out post-mortem examinations and other duties in connexion with forensic medicine. Candidates must have had at least two years' full time approved laboratory experience since full registration. Appointments are to the Gold Coast Civil Service on short-term contracts of two tours of eighteen to twenty-four months in the first instance with gratuity on satisfactory completion of service. Basic salary scale would be £1,330 to £2,310 a year. Gratuity (taxable) would be payable at the rate of £37.10s. for each completed three months of service. Candidates in the National Health Service may leave the N.H.S. but retain their superannuation rights (up to a maximum stay of six years). Salary, in this case, would be in the scale £1,055 to £1,850 a year, and officers would receive a gratuity (taxable) of 20 per cent of the aggregate of their salary after their engagements, if satisfactory. Starting point in both salary scales is determined according to qualifications and experience. Quarters, when available, are provided at rental not exceeding £120 per annum. Income tax at local rates. Free passages provided for officer, wife and up to three children under thirteen years of age. Annual local leave is permissible and generous home leave is granted after each tour of 18 to 24 months. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting ref. CDE 117/13/010). (3316)

**JEWISH HOSPITAL OF BROOKLYN
Brooklyn 38, New York****HAEMATOLOGY RESIDENCY**

One year, fully approved, requisites. Monthly stipend \$75 plus room and board. One year rotating internship in addition to one year medical residency, or one year of pathology residency, or one year paediatric residency, or equivalent. Apply, Executive Director. (3334)

RHODESIA AND NYASALAND GOVERNMENT SERVICE**GOVERNMENT MEDICAL OFFICERS
Federal Ministry of Health**

Applicants must be male British subjects, under 35, preferably with one to five years post-qualification experience. G.M.O.s are essentially general duty officers, and have opportunities in practically all fields of medicine. There are sufficient senior posts, filled by internal promotion, to ensure adequate career prospects. Starting salary £1,200 to £1,400, on scale rising to £1,800 per annum. Private practice permitted, or an allowance of £200 per annum in lieu. Dr. R. M. Morris, O.B.E., M.D. (London), Secretary to the Federal Ministry, will interview candidates in London in early June; applications will also be considered from doctors wishing to take up appointments up to March, 1956. Application forms and further details from the Secretary, Rhodesia House, 429, Strand, London, W.C.2. Closing date May 14. (2949)

**THE WOMEN'S HOSPITAL (Crown Street),
Sydney, N.S.W.**

Applications, closing with the undersigned on June 20, 1955, are invited for the position of
HONORARY RELIEVING ASSISTANT OBSTETRICIAN

Term: three years from July 1, 1955, with eligibility for re-appointment at end of term. Applications to be on prescribed forms, which will be forwarded promptly on request.—R. B. Golsby, Secretary and Chief Executive Officer. (3353)

UNIVERSITY OF TEXAS MEDICAL BRANCH HOSPITALS**PSYCHIATRIC RESIDENCIES**

A few first year positions are still available. Three year programme includes open and closed divisions of Psychiatric Hospital, General Hospital Service, Out-patient Clinic, Adolescent Clinic and Child Guidance Centre. Supervised training in intensive psychotherapy by psychoanalysts using different theoretical approaches during second and third year. Didactic curriculum covers all areas from neuropathology to cultural anthropology. Supervised research projects by second and third year residents are encouraged. First year salary is \$2,400. Applications for second and third year training will be considered from qualified applicants. Apply, Chairman, Department of Neurology and Psychiatry, University of Texas School of Medicine, Galveston, Texas. (3333)

UNIVERSITY AND RESEARCH

APPOINTMENTS, etc.

GUY'S HOSPITAL MEDICAL SCHOOL
London Bridge, S.E.1

Applications are invited for a **FULL-TIME RESEARCH FELLOWSHIP** in the Thoracic Surgical Unit for research on cardiovascular problems. It is desirable that applicants should possess a higher qualification in surgery. Salary within the range £850 to £1,100 per annum, according to experience of the person appointed. Applications, with the names of three referees, should be sent to the Dean. (3248)

INSTITUTE OF LARYNGOLOGY & OTOTOLOGY
(University of London)
330/332, Gray's Inn Road, London, W.C.1

Applications are invited for a post as **RESEARCH ASSISTANT** on the Staff of the Professorial Unit (Senior Lecturer status). Applicants should have a higher surgical qualification, and should be able to produce evidence of some original work and have had considerable experience in otorhinolaryngology up to Senior Registrar grading. The successful applicant will be required to work under the general direction of the Professor of Laryngology and Otology on research projects already commenced or proposed, but facilities will be given for him to undertake suitable new investigations. The appointment will be for an initial period of one year, subject to annual re-election thereafter. Salary within the range £1,500 to £1,800 with superannuation provision. Whole-time officer preferred but a candidate otherwise suitable applying on a part-time basis would be considered. Applications (in triplicate), with the names of two referees, should be sent to the Secretary not later than May 14, 1955. (2910)

THE HOSPITAL FOR SICK CHILDREN
Great Ormond Street, London, W.C.1
Department of Morbid Anatomy

A vacancy exists for a **RESEARCH FELLOW IN HISTOCHEMISTRY**. The post will in the first instance be tenable for one year. Salary £750 to £1,000 per annum (plus superannuation), according to age, qualifications and experience. Forms of application, which must be returned by June 15, 1955, and further particulars are obtainable from the undersigned.—H. F. Rutherford, House Governor and Secretary. (3286)

UNIVERSITY OF LONDON KING'S COLLEGE

LECTURER IN PHYSIOLOGY

Required on October 1, 1955. The appointment will be on the Junior Lecturer scale of £700 by £50 to £900, with family allowances and F.S.S.U. benefits. Particulars and application forms should be obtained from the Registrar, King's College, Strand, W.C.2, whom completed applications should reach by May 16. (2938)

UNIVERSITY OF SHEFFIELD

Applications are invited for the post of **LECTURER IN SURGERY** to begin duties as soon as possible. Salary £800 by £100 to £1,700, with F.S.S.U. provision and family allowance. Initial salary according to qualifications and experience. Further particulars should be obtained from the Registrar, to whom applications (four copies) should be sent by June 1. (3247)
