ZOPLA

MEDICAL AND SURGICAL PLASTERS

Developed in collaboration with some of the leading hospitals, the ZOPLA range of self-adhesive, zinc oxide plasters covers every medical, surgical, and dermatological need. The range includes:

STRAPPINGS — for surgical use. Powerfully adhesive, on white, flesh, and elastic cloths. FELTS of selected Merino Wool, for all padding and protective purposes. Only pure wool felt will retain its resilience and will not harden in use.

HELVIA—First Aid Flexible Dressing—elastic adhesive plaster with medicated gauze.
ZOPLA-BANDS—Elastic adhesive bandage of superior quality.

Details of the full ZOPLA range, together with samples, will gladly be sent on request.

MEDICAL STUDENTS AND MEDICAL SCIENCES

Some Problems of Education in Britain and the United States

by D. C. SINCLAIR, M.A., M.D.

'This book can be read with considerable profit, much enjoyment, and with many a quiet chuckle, since the author has an attractive style, a dry, even pungent wit, a gift of phrase, and an aptitude for making his points. It can be recommended to all, but especially to those who feel that medical education is a dull subject or one which can look after itself.'

To-day, the new diabetic has many facilities to enable him to lead and enjoy a normal life. The introduction of I.Z.S. (Insulin Zinc Suspension) A.B. has greatly simplified the treatment of the majority of cases, one injection being sufficient to control the blood-sugar level for 24 hours.

I.Z.S. offers the following advantages over other prolonged action insulin preparations:—

- 1. No protein or peptide material present other than insulin itself.
- 2. Rapid onset with prolonged action.
- 3. It meets the needs of a higher percentage of diabetics.

I.Z.S. (Insulin Zinc Suspension) A.B. in supplied in vials of 10 c.c. containing 40 or 80 units per c.c.

Their hearts are in their mouths

Many fat people overeat because inwardly they are unhappy and ill at ease. In food they find solace, and a substitute for the affection their obesity denies them. Their hearts are in their mouths.

Such patients find dieting particularly hard, for it involves the removal of the psychological prop that supports them in their daily life, besides the ordinary difficulties.

For them 'Drinamyl' is often very helpful. Given before meals it curbs the appetite, and because it produces a feeling of calm cheerfulness, helps to relieve the emotional tension that lies behind the patient's excessive appetite.

"DRINAMYL"

an aid in the treatment of overweight

Each 'Drinamyl' Tablet contains 5 mg. 'Dexedrine' and 32 mg. amylobarbitone

Issued in bottles of 100 tablets

They stir in GlucoDin...

and drink in energy

Pure medicinal glucose—the swiftest source of energy and calcium and vitamin D are supplied by GlucoDin. Instantly absorbed, pleasant to take in hot and cold drinks, GlucoDin rapidly restores expended energy; and as rapidly, it provides a glycogen reserve to 'take the strain of illness.'

ENERGY — SWIFT AND SWEET

As more and more doctors are adopting the use of Diamox Acetazoleamide in the control of cardiac oedema, evidence is rapidly accumulating to show how satisfactorily the early expectations of the drug are being fulfilled. Preference for this new approach to diuresis by the oral administration of Diamox is based on the safety and simplicity of the therapy and the rapidity and efficiency of its results. A single morning dose produces copious diuresis lasting 6—12 hours. Encouraging results have also been obtained in glaucoma with Diamox which inhibits the secretion of aqueous humour and, by so doing, decreases intraocular pressure. Diamox is neither a mercurial nor xanthine derivative.

POTENT SAFE ORAL DIURETIC

For the long-term treatment of cardiac oedema

Antihistamines for old and young

When the contents of Pandora's Box were released, Hope alone remained. To the patient of allergic diathesis, threatened by a veritable Pandora's Box of ills, the antihistamines 'Histantin' and 'Actidil' represent far more than hope.

For adults 'Histantin' is the product of choice, giving prolonged relief with a minimum of side-effects.

The new quick-acting antihistamine, 'Actidil', exerts its effect for about 12 hours and is also notable for low incidence of side-effects. 'Actidil' Elixir has been specially formulated and clinically tried for the treatment of allergic conditions in children.

- 'HISTANTIN', 50 mgm., is issued in bottles of 25, 100 and 500 at list prices (subject to usual discount) of 6/6, 24/6, 110/-.
- 'ACTIDIL' compressed products of 2.5 mgm. in bottles of 25 and 500 at list prices (subject) of 6/6 and 110/-.
- 'ACTIDIL' ELIXIR in bottles of 20 fluid ounces, for dispensing, at a list price (subject) of 15/-.

The development of

Dibenzylethylenediamine Dipenicillin is one of the important milestones in antibiotic therapy¹

* This compound was first prepared and made available to the medical profession by WYETH.

Its unique physical properties contributed to the world-wide use of Penidural Oral. This reliable oral penicillin led to the production of Penidural Long-Acting, an outstanding repository penicillin, and from this has now been developed the latest addition, Penidural all-purpose, which is the complete injectable penicillin. (A single injection suffices for the complete treatment of the everyday infections caused by penicillin-sensitive organisms. Only in very severe cases need the dose be repeated.)

¹ Antibiotics and Chemotherapy, April 1953, p. 351.

ACTIVE CONSTITUENTS

Benzathine Penicillin ... 600,000 units Procaine Penicillin G ... 300,000 units Potassium Penicillin G ... 300,000 units

Penidural All-Purpose is available in single-dose, rubber-capped vials containing 1,200,000 units.

The complete answer for macrocytic anæmias

Clinical experience over a decade has established that the administration of Anahæmin constitutes the most effective form of treatment for pernicious anæmia.

Anahæmin produces, with small and comparatively infrequent doses, a prompt and satisfactory erythropoiesis in patients in relapse, it ensures the maintenance of a normal erythrocyte level in patients in remission and is effective in preventing the onset of subacute combined degeneration of the cord. Anahæmin has also been found to be of value in the treatment of herpes zoster and post-herpetic neuralgia. The suggested dosage is 4 ml. on alternate days until relief is obtained.

'ANAHÆMIN'

Anahæmin is available in:

I ml. ampoules, Boxes of 6 at II/4, 25 at 43/4

2 ml. ampoules, Boxes of 6 at 19/-, 25 at 74/
Vials of 10 ml. at 14/8 and 25 ml. at 35/10

Children
take readily to
the paediatric
forms of

ACHROMYCIN.

Patients of the impressionable age rarely take kindly to 'medicines'. Yet their first impression of the paediatric forms of Achromycin is invariably gratifying, for the good taste of these products is as telling as their therapeutic efficiency. The paediatric forms of Achromycin include a tempting cherry-flavoured oral suspension . . . cherry-flavoured oral drops . . . and Spersoids† chocolate-flavoured Dispersible Powder—all of which transform the treatment into a treat. Achromycin is effective against a wide range of infections that commonly occur in children. Small doses normally suffice . . . side effects are minimal—added reasons why Achromycin suits the young so well.

Urtication by switching with the common stinging nettle appears to have been an old Roman custom. It is related in Sowerby's "English Botany" that when Julius Caesar landed, his soldiers had with them nettle seeds which they sowed for their own uses as an epidermal stimulant. They had been told that "the climate of Britain was so cold that it would not be endured without some friction to warm the blood," so relieving stiffness and rheumatism.

Modern Treatment for FUNGOUS SKIN INFECTIONS

It is now firmly established that the skin protects itself against infection by its "acid mantle." Experiments have proved that the higher fatty acids are extremely effective fungicides which do not produce contact dermatitis.

Decilderm Ointment and Powder (Duncan) present the particularly effective fatty acid, undecylenic acid, and its zinc salt. Both preparations are pleasantly perfumed and are easy to apply. They can be used for long periods, if necessary, and are valuable for the treatment of tinea pedis (athlete's foot), tinea cruris (dhobi itch), moniliasis, etc.

DECILDERM OINTMENT (Duncan)

In the severer forms of HYPERTENSION

RAUWILOID + VERILOID

RAUWILOID + VERILOID is a striking example of drug complementation. It combines in one tablet 1 mg. of 'Rauwiloid' brand alkaloid hydrochlorides of Rauwolfia serpentina and 3 mg. 'Veriloid' brand alkaloids of Veratrum viride. 'Rauwiloid', by widening the margin between the effective therapeutic dose of 'Veriloid' and that producing side actions, enables satisfactory hypotensive doses of 'Veriloid' to be given to most patients. The combination is ideal for relieving the symptoms of moderate to severe hypertension. It is effective, safe, produces a minimum of discomfort to the patient and exerts a prolonged antihypertensive action.

"The addition of 'Rauwiloid' makes 'Veriloid' easy to administer, more effective and practically does away with unpleasant side reactions".

Amer. J. Med., (1954) 17:629.

Available in Bottles of 100 and 500 Tablets

 * Trade Mark

The powerful therapeutic properties of Kendall's Compound F-hydrocortisone—have been known since 1949 when The Upjohn Company made available the first small amount for clinical testing. With the synthesis of CORTEF by The Upjohn Research Laboratories and the subsequent large-scale production, this potent steroid—probably the main product of the adrenal cortex in vivo—is now at hand for general use*.

The most dramatic effects of CORTEF therapy are seen following continuous intravenous transfusion in cases of acute adrenal failure, in situations of great stress when the patient's own adrenals are incapable of secreting the amount of cortical steroid demanded, and in acute hypersensitivity reactions such as status asthmaticus.

HYDROCORTISONE (COMPOUND F)

However, it is in less spectacular fields that the pronounced anti-inflammatory and anti-allergic properties of CORTEF find their greatest application. For example, in the local treatment—by injection into the joint cavity or bursal sac—of rheumatoid arthritis and acute bursitis, and in the systemic treatment—by oral tablet—of a wide range of common diseases.

In addition, CORTEF exerts its therapeutic properties when applied in the form of an ointment to the skin. It therefore offers distinct advantages over cortisone in this respect, and its effectiveness in many types of dermatitis has established it as one of the most important degmatological advances of recent years.

* Cortef preparations are currently available in Great Britain only to hospitals. They are freely available overseas.

Natural sleep the best ally

REPARATIVE PROCESSES are most active during the hours of sleep. When patients need natural, recuperative sleep, and when narcotics are contra-indicated, 'Ovaltine' may be safely recommended for this reason: it provides palatable, concentrated nourishment in a form which is easily absorbed without disturbing the patient's tranquillity.

'Ovaltine' contains only the best of natural foods-malt, milk, cocoa, soya and eggs-plus added vitamins in standardized quantities. It is therefore useful in the dietary management of those diseases which are complicated by insommnia. It engenders a warm, soothing feeling which helps to create the conditions most favourable to the best kind of sleep. 'Ovaltine' can be recommended with confidence

> Vitamin Standardization per oz.: Vitamin B₁, 0.3 mg.; Vitamin D, 350 i.u.; Niacin 2 mg.

Perfect Cast-after 3 weeks' hard wear!

THE BANK MANAGER of a small Essex town, fell and suffered a Colles fracture. Here is the Gypsona cast which was removed three weeks later. The thin, even formation is a characteristic of a Gypsona cast. This thin, light cast is made possible by the high plaster content of Gypsona which gives

exceptional strength and makes it the most economical plaster of Paris bandage.

The clean, porcelain-like appearance of the cast, still intact after three weeks' wear, is further evidence of the quality of the fine ground Gypsum and the high plaster content of this remarkable bandage.

Mephenesin

Carbromal Bromvaletone Ascorbic Acid

Available in bottles of 50 tablets. Prescribable on N.H.S. Form E.C.10.

Growing recognition of the long-term cumulative toxic effects of barbiturates, and the well-known, insidious, psychic habituation to their use-matters of considerable concern to many Doctors-are now avoidable dangers through the formulation of Noctynol Tablets. The latter present:

MEPHENESIN, which, by diminishing reflex hyperexcitability, relieving nervous tension and anxiety, and promoting muscular relaxation, not only induces the composure essential to the onset of sleep, but also ensures that the sleep is restful and refreshing.

CARBROMAL and BROMVALETONE which, by synergism, act as effective hypnotics and quickly transform the mephenesin-induced sedation to hypnosis. Unlike the barbiturates, carbromal and bromvaletone are non-toxic and non-cumulative and, as elimination is comparatively rapid, they rarely give rise to hangover and depression.

In smaller doses, NOCTYNOL Tablets act as a non-depressant calmative eminently suitable for daytime sedation.

Brand's

MEAT AND FISH PROTEIN FOODS FOR BABIES

The makers of Brand's Essence are pleased to introduce Brand's Strained Protein Foods (Meat and Fish) for Babies.

Brand's Strained Beef and Brand's Strained Veal are all fine table-quality meat, ground to a smooth meat purée and moistened with meat broth. A little salt is added for flavouring.

Brand's Strained Fish is all selected white fish, prepared in purée form similar to the strained meats.

Clinically tested, Brand's Strained Protein Foods were very well received and very well tolerated. They are recommended as an addition to normal infant diet, and are especially helpful during weaning. They can be given from the age of $3\frac{1}{2}$ to 4 months onwards.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment. The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

annual in the second and any subsequent years. (b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year: £1,400 per annum in any subsequent years.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

PUBLIC HEALTH

COUNTY BOROUGH OF WARRINGTON

Applications are invited from registered medical practitioners holding a Diploma in Public Health, or equivalent qualification, for the appointment of DEPUTY MEDICAL OFFICER OF HEALTH and DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER.

The present salary scale is £1,133 6s. 8d. by £50 (5) to a maximum of £1.833 6s. 8d., subject to review in accordance with Whitley Council agreements. Conditions of appointment and details of duties may be obtained from the undersigned, to whom applications should be addressed. Applications must be submitted by June 22, 1955.—Eric H. Moore, Medical Officer of Health and Principal School Medical Officer. Health Department, Sankey Street, Warrington. (5401)

Public Health-contd.

COUNTY BOROUGH OF ROTHERHAM

Applications are invited from registered medical practitioners (male) for the post of DEPUTY MEDICAL OFFICER OF HEALTH and DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER

DEPUTY MEDICAL OFFICER OF HEALTH and DEPUTY PRINCIPAL SCHOOL MEDICAL at a salary within the consolidated range of £1,166 13s. 4d., rising by five annual increments of £50 to £1,416 13s. 4d. (subject to increase on receipt of medical officers' award). The commencing salary will be determined at a point within the scale, having regard to the experience of the successful candidate. Applicants must possess a D.P.H. and have had previous experience in school health, maternity and child welfare, and general public health work. The person appointed will be responsible, under the direction of the Medical Officer of Health, for carrying out administrative and other duties in all sections of the work of the health department, and must be capable of assuming full responsibility for the department when necessary. The appointment is whole-time, and the successful candidate will not be allowed to engage in private practice. The appointment will be terminable at any time by three months' notice in writing on either side and will be subject to the Medical Whitey Council's general conditions of service for public health medical officers. The appointment is also subject to the approval of the successful candidate by the Minister of Education under the School Health Service and Handicapped Pupils Regulations, 1953. The successful candidate will be required to pass a medical examination for superannuation purposes. The tenancy of a three-bedroomed house is available, if required. Forms of application may be obtained from the Medical Officer of Health, Municipal Offices, Rotherham, and must be returned to the undersigned, giving the names of three referees, and endorsed "Deputy Medical Officer of Health," by June 13, 1955. Every application must state whether the candidate is related to any member or officer of the Rotherham County Borough Council and deliberate omission to disclose any such relationship will disqualify any candidate.—John S. Wall, Town Clerk, Municipal Offices, Rotherham.
