## When nourishment is the main problem . . .

BRAND'S ESSENCE is a first-class protein of animal origin. Being partly hydrolized, it is capable of easy ingestion, digestion and absorption. It is extremely palatable, and may be taken either as a jelly or as a liquid. It helps to support convalescence and assists in restoring a positive nitrogen balance.

The major indications for the administration of Brand's Essence are loss of appetite during fatigue, acute infections, and dysphagia or digestive disturbances due to organic or bacterial lesions of the mouth, oesophagus and alimentary tract, and after surgical procedures.

The addition of Brand's Essence to low residue and weight-reducing diets is especially appreciated by the patient.

## **MORE HOURS OF ALLERGY RELIEF**

... 8 TO 24 FROM A SINGLE DOSE

Prolonged action and a low incidence of side-effects are two good reasons why **DI-PARALENE**, the antihistamine with the piperazine side chain, is outstanding.

Clinical reports show that in many cases allergy relief up to twenty-four hours can be obtained from a single dose. Initially, **DI-PARALENE** should be administered in 50 mg. doses three times a day, but in the majority of cases this dosage can soon be reduced to one or two doses a day. Often a single dose at bedtime will provide symptomatic relief until the next bedtime. Undesirable side-effects are comparatively few and mild.

Why not try **DI-PARALENE** in your difficult allergy cases this season? This longer-acting antihistamine is available as 50 mg. tablets in bottles of 25, 100 and 500.

## highest utilisation

The therapeutic value of any preparation is in direct ratio to the amount absorbed and utilised. That FERROMYN is an improved form of iron medication is confirmed by achieving a utilisation factor of  $40 \text{ per cent} \pm 5$ . This figure is considerably higher than any obtained from contemporary oral iron preparations. The clinical response is in keeping with the above factor, realising a mean daily Hb. response of 1.2 per cent in 150 cases reviewed during a recent clinical trial.

# Next patient, please...

What a blessing it is — to doctor and patient alike—that prompt, effective relief can nowadays be prescribed in cases of rheumatic pain.

The value of salicylate in rheumatoid disease and rheumatic fever has long been recognised, but until recently its use was restricted by the toxic effects accompanying the necessarily high dosage.

In Berex, the combination of acetylsalicylic acid and calcium succinate enables toleration of massive aspirin dosage without lowering the prothrombin level, with the encouragement of tissue respiration and with less gastric disturbance.

## SUMMARY OF STUDY ON SUCCINATE-SALICYLATE THERAPY \*

A succinate-salicylate combination was found superior to acetylsalicylic acid in rheumatic states both on grounds of therapeutic efficacy and lower toxicity. Adequate amounts of the former could be administered with more lasting effect and with fewer and milder side effects. Furthermore, succinate-salicylate affects the disease process itself, as well as relieving painful symptoms and does not abnormally increase prothrombin time even after prolonged dosage.

**INTEGRATED**

By sharply reducing the frequency and severity of attacks, and effecting a marked improvement in mental alertness and general well-being, 'Mysoline' enables the adult epileptic to become a confident, self-supporting member of the community. The outstanding value of 'Mysoline' in grand mal and psychomotor epilepsy has been confirmed in widespread trials carried out over the past four years, in the leading neurological centres of many countries. A noteworthy feature of these

investigations is that the majority of cases selected were patients who had hitherto failed to respond to all other forms of treatment. Now internationally recognised as an important advance in the treatment of epilepsy, 'Mysoline' combines powerful anticonvulsant activity with low toxicity and freedom from hypnotic effect. Its usefulness in petit mal has also been studied, and some workers have reported that substantial or complete control of attacks is frequently obtained.

Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer

Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

### NULACIN

is available throughout the British Commonwealth, in the U.S.A. and many other countries. It is known as Nulactin in Canada and Sweden.

NEUTRALIZATION of gastric hyperacidity has long been acknowledged as the first requirement of successful peptic ulcer therapy. In the past it has only been possible to achieve this with milk-alkali drip therapy under hospital conditions.

Now NULACIN provides all the advantages of milk-alkali drip therapy without the discomfort of a tube and without inconvenience to the patient.

### INDICATIONS

NULACIN tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half-an-hour after food, a NULACIN tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. May be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-). Also Available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

# *Let Sanatogen help you in treatment of Psychosomatic Disorders*

Hippocrates, in the fifth century B.C., taught that deductions are to be made only from observed facts. Though this basic principle was neglected for more than two thousand years, in the last hundred years it has borne fruit, and the harvest increases year by year. Today the general practitioner treats many diseases with confidence and exact knowledge. But what of psychosomatic disorders?

## EVIDENCE FOR SANATOGEN

Sanatogen (a casein-glycerophosphate complex) has been successfully used as a nerve tonic for more than fifty years. In this period there must have been hundreds of proprietary tonics, now forgotten. Yet the demand for Sanatogen has continued to increase each year. Now that is a statement of observed fact which deserves consideration. Of course, we do not suggest that Sanatogen is the complete answer to psychosomatic disorders. Nevertheless, all the clinical evidence shows that the chemical combination contained in Sanatogen does produce remarkable results.

## THE ROLE OF SANATOGEN

Sanatogen is 95% casein chemically combined with 5% sodium glycerophosphates. Three teaspoonfuls of Sanatogen t.d.s. (the normal dosage) provide the patient with 24 grams of protein daily, free from fat and cholesterol, at a cost of less than a shilling a day; whilst by reason of its glycerophosphate content it has a specific tonic effect on body and nerve tissue. Although Sanatogen is not prescribable owing to its high food value, it is being increasingly recommended by practitioners today because of the excellent results obtainable with this tonic. On the evidence, it is a fair deduction to say that Sanatogen is by far the best tonic available today for treatment of stress and strain. You can with confidence say to your patient: "A course of Sanatogen will do you good."

The topical use of ACHROMYCIN tetracycline is rapidly gaining favour in present-day treatments of skin and eye infections. Because of its unsurpassed broad antibacterial range and remarkable freedom from sensitizing effects, ACHROMYCIN Ointment (3%) ably and safely combats a wide variety of skin infections. Rapidly active, it can be employed to arrest infection . . . to protect skin surfaces in contact with infected tissue fluids . . . to treat infected abrasions and burns . . . as a prophylactic measure after surgical incision or minor excision. The striking versatility of ACHROMYCIN plus its unusual freedom from side-effects make the Ophthalmic Ointment (1%) a particularly reliable means of controlling ocular infections. It is particularly useful for combating infections of the conjunctiva and deeper structures of the eye; and for preventing infection in traumatic and operative injury to the eye. SUBLINGUAL/SUBLABIAL TABLETS

*For complete absorption*

SUBLINGS, because they are non-irritant, are less likely to be swallowed by the patient, when much of their activity would be lost. Excessive salivation is also avoided. These factors, which make sure of maximum absorption through the buccal mucosa, are due to the water-soluble wax base which is used.

SUBLINGS are ideally shaped tablets, their surface area assisting the specially formulated base to give the correct rate of absorption, thus providing steady, continuous liberation of the hormone which is therefore completely absorbed.

## *Efficacy and Convenience in Antacid Therapy*

In the management of gastrointestinal disorders associated with hyperchlorhydria, \*'Milk of Magnesia' Tablets have proved of outstanding value.

Exerting an immediate and prolonged neutralising action, 'Milk of Magnesia' Tablets offer a valuable prescription to the

physician for the treatment of simple digestive upsets, including gastritis and duodenitis, and equally so, for those cases where frank ulceration has occurred.

Pleasantly mint flavoured and conveniently portable, they are always ready to hand whenever the need of alkalisation arises.

A PLATINUM-PROCESSED MOTOR SPIRIT

# New BP Super

—the petrol with  
more energy per gallon

*Another success for The British Petroleum Company!*

**D**URING THE LAST FEW WEEKS, motorists in this country have been enjoying their first experience of a platinum-processed spirit. And 'enjoying' is the word! Because this new BP Super is the petrol with more energy per gallon. It gives an immediate 'fillip' to performance. It doesn't

matter what sort of car you run, new or old — high or low compression — you get all these benefits from this new super motor spirit:—  
**More energy per gallon • Smoother, swifter acceleration • Greater freedom from engine-knock • More miles per gallon • Less engine deposits • Longer engine life**

## British Empire Trophy won on new BP Super

W. A. Scott-Brown used new BP Super in his two-litre Lister-Bristol and won the British Empire Trophy race for sports cars. But even if you are not a racing man — and whatever sort of car you drive — you will find new BP Super gives greater freedom from engine-knock and more energy per gallon.

*Photograph by courtesy of "The Autocar"*

## For cars of today— and tomorrow

To produce the new BP Super, petroleum spirit is passed through a \*catalyst impregnated with pure platinum. This reforms the petroleum molecules so that you get a smoother-burning petrol which gives greater freedom from engine-knock and has more energy per gallon. This means that while new BP Super is ideal for all cars, now on the road it will also suit higher-than-ever compression ratios. New BP Super, because it is platinum-processed, opens the way to further progress in engine design.

## Livelier performance here and now

Have you driven on the new BP Super yet? You're missing a lot if you haven't. From the very first tankful you'll notice far more 'go' about your car's behaviour. And you'll keep on enjoying this livelier performance for a considerably longer period before your engine needs overhaul.

One more word about this platinum-processed petrol before you try it yourself. You don't have to pay a penny extra. New BP Super costs no more than ordinary premium-grade petrols produced by less advanced methods.

\*A catalyst is an agent which assists in producing a chemical change in other substances without being changed itself.

## RYOTOL for Chronic Discharge of the Ear

because

RYOTOL is lethal to *Ps. pyocyanea*, *Staphylococcus aureus*, *Proteus vulgaris* and *Streptococcus pyogenes* found in C.S.O.M. and Otitis Externa. The presence of *Ps. pyocyanea* has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

*SUBLAMIN has the following advantages:*

The excipient evaporates quickly, leaving the therapeutic substances, in finely particulate form, in intimate contact with the affected areas. In consequence, the maximum destructive effect on the invading fungus is rapidly achieved. Being non-greasy SUBLAMIN obviates the need for dressings and will not promote the growth of secondary infective organisms. Its application is extremely simple.

In your profession, we understand, its interest lies in the fact that a small dose followed by alcohol causes vomiting. In our business it is one of many complex substances which have marked effects on the properties of rubber when added to it.

The rubber which forms the tread of John Bull tyres is carefully compounded to produce softness with extreme toughness. This helps the tyre to really GRIP the road, cutting down 'dither' and skid, thus reducing surface abrasion. That's one of the reasons why John Bull tyres are so safe, and why they last such a long time.

*Mothers are grateful  
when you advise  
canned strained foods*

When you recommend a varied diet for baby based on Heinz Strained Foods, you are recommending a diet which can easily be followed by even the busiest mothers. And baby will benefit not only from the nourishment of these foods, but also from accustoming his palate to a variety of flavours at an early age.

And another point is this. It is often impossible for a mother — particularly if she lives in a town — to make foods as nourishing as Heinz. Heinz have the advantage of buying farm-fresh fruits and vegetables and also of having cooking and straining equipment that keeps the maximum amount of goodness in the foods.

For a FREE booklet giving the exact nutrient values of all 19 varieties of Heinz Strained Foods, please write to Dept. 1P, H. J. Heinz Company Ltd., London, N.W.10.

**HER MAJESTY'S OVERSEA CIVIL SERVICE  
Medical Branch, Kenya**

Vacancies exist for

**MEDICAL OFFICERS**

for general duties in the Medical Department of Kenya. A vacancy also exists for a Medical Officer interested in parasitology. Successful candidates may be posted to any station in Kenya. During the earlier years of service an officer will be expected to carry out general medical and surgical duties, including a varying amount of public health administration. In most stations, even if remote from the larger towns, it is possible for an officer to maintain interest in any particular branch of medicine or surgery to which he is attracted. As far as possible the interests of an officer are considered when postings are made. The work of every medical officer is based on a hospital which may vary in size and facilities from a small district hospital meeting the needs of a comparatively primitive community to a large and modern provincial hospital. Appointments can be made on a permanent basis with pension (non-contributory) at age of 55, or on short-term contract with gratuity payable on satisfactory completion of service. Salary ranges from £1,116 to £1,836 a year; starting point is determined by experience, and four extra increments are given to successful candidates possessing the M.R.C.P., D.P.H., or other approved higher qualifications. Temporary cost-of-living allowance at the rate of 10 per cent of salary is also payable, subject to a maximum of £162 a year, making gross emoluments of £1,228 to £1,998 a year. Permanent Medical Officers are eligible to be considered at any time for promotion to super-scale posts in Kenya and other territories in medical administration or, if they possess higher qualifications and suitable experience, in specialist posts. Quarters are generally available at rental of 10 per cent of salary. Free passages in both directions for officer and wife, and up to cost of one adult fare for children. Taxation at local rates. Annual local leave permissible, and generous home leave granted after each tour of from 40 to 48 months. Education facilities are available. Candidates must possess medical qualification registrable in the United Kingdom and at least one year's post-graduate hospital experience. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (Quoting Reference BCD 117/7/02).

**ST. VINCENT'S HOSPITAL CLINICAL SCHOOL  
University of Melbourne**

Applications are called for the position of **JOHN HOLT DIRECTOR OF BIOCHEMICAL RESEARCH** in the St. Vincent's Hospital School of Medical Research

The successful applicant will be in full charge of the biochemical research work but would merely have supervisory control over the hospital's routine biochemical department. The research laboratories have been newly built and occupy approximately 4,500 square feet. Adequate funds are available for equipment. Initially the department staff will comprise the Director, two Assistant Biochemists and two Technicians. The assistant staff will be appointed on the advice of the Director. Study leave will be granted after a period of five years' service. A limited amount of money for the attendance at important scientific meetings will be available. Salary is £3,000 a year Australian currency. Superannuation according to F.S.S.U. Reasonable travelling expenses to Melbourne will be paid for successful applicant and family. Assistance will be given in finding suitable accommodation. Further details and plans of the laboratories may be seen at the office of the Secretary of the Association of the Universities of the British Commonwealth, Gordon Square, London, W.C.1, or at St. Vincent's Hospital. Closing date for applications August 20. Arrangements will be made to interview selected overseas applicants in London between August 23 and 30.—E. W. R. Grace, Chief Executive Officer and Secretary. (5798)

**KENYA  
Medical Department**

Applications are invited for appointment as **HOUSEMAN**

at the King George VI Hospital, Nairobi. Appointment will be on agreement for one year in the capacity of a House Physician and House Surgeon. Applicants must have completed their national service or not be liable for it. These posts are recognized for pre-registration training by the University of London and certain other licensing bodies, but candidates should confirm from their Licensing Bodies that these posts are acceptable to them for the purposes of the Medical Act, 1950. Consolidated salary £570 a year for the first six months and £630 a year for the second six months. Income tax at local rates. Furnished quarters including linen, cutlery and glassware, together with light, fuel and water are provided free of charge. Married quarters are not provided, married candidates may not be accompanied by their wives. Free passages are provided on appointment and on satisfactory completion of internship. Eighteen days local leave a year is granted. If the selected candidate applies for and obtains appointment to the Medical Branch of Her Majesty's Overseas Civil Service in Kenya at the expiration of his internship, previous service as Resident Medical Officer will count for leave, but he will be required to serve the usual probationary period. The period of internship will not count for seniority. Ample opportunities for clinical experience with systematic teaching and a large measure of personal responsibility under specialist guidance are afforded. Candidates should apply for forms of application to the Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. BCD 117/7/03). (5702)

Registered Mental Hospital

President:

The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation; the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

**OCCUPATIONAL THERAPY** is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

**GERIATRIC UNITS** for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

**GLAN-Y-DON** is the hospital's convalescent home overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent. Telephone: GATLEY 2231.

### ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

**MOULTON PARK.**—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

### SPRINGFIELD HOUSE, near BEDFORD

# THEODROX<sup>Regd.</sup>

## The only oral aminophylline preparation which ensures full therapeutic response

Clinical evidence shows that when, as in "THEODROX", aminophylline is combined with specially prepared aluminium hydroxide, gastric irritation is minimised. Large ORAL doses of aminophylline can, therefore, be tolerated to produce consistent, high blood levels of theophylline.

Each tablet of "THEODROX" contains 3 gr. of aminophylline and 4 gr. of dried aluminium hydroxide gel.

**INDICATIONS**—Congestive heart failure, bronchial or cardiac asthma and angina pectoris.

"THEODROX" with PHENOBARBITONE tablets contain in addition  $\frac{1}{4}$  gr. phenobarbitone and are indicated in conditions where a degree of sedation is also required.

Both forms are available in bottles of 25, 100 and 1,000 tablets.

Detailed literature supplied on request.
