## The case of *Odontotermes obesus* . . .

In Pakistan, groundnuts have considerable potential value as a cash crop — provided that they can be protected from the attacks of the termite *O. obesus*.

Termites are subterranean pests which normally feed on dead plant tissues but, once they have invaded cultivated ground where vegetable debris from previous crops is always plentiful, they soon augment their diet from the growing crop. Groundnuts, because the tips of the shoots enter the soil to bury the seed are particularly liable to attack.

In 1954, following the destruction of 200 acres of groundnuts on a single farm, the Shell insecticide aldrin was used for termite control. The result was a bumper

harvest with yields up ten times in the irrigated areas and up six times without irrigation. Germination was 99% throughout, against 20-30% in the untreated plot which was retained for check purposes.

Since this demonstration of its effectiveness as a soil insecticide, aldrin has come into general use and, at 1 lb. per acre, is giving complete protection from termites to Pakistan's valuable groundnut production.

*Aldrin, dieldrin, endrin . . . these three advanced insecticides developed by Shell are complementary to each other. Between them they control most of the major insect pests which menace agricultural production and public health throughout the world. Have you an urgent pest problem in your area?*

The esters in Transvasin, a new preparation developed by Hamol S.A., our Swiss associates, readily pass the skin barrier in therapeutic quantities and enable an effective concentration of the drugs to be built up where they are needed.\* Transvasin

not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant, and can be safely used on delicate skins. It is now being widely prescribed with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

# LIL-LETS

## the new vaginal tampon without applicator

A tampon which has been successfully marketed on the Continent during the last five years has now become widely accepted in this country under the name LIL-LETS.

Following extensive clinical trials, LIL-LETS have won the support of leading gynaecological opinion. Samples will gladly be sent to medical practitioners on request.

### LIL-LETS have these main advantages:

**LIL-LETS need no applicator.** By inserting the tampon with the fingers, the risk of bruising is eliminated.

**LIL-LETS assist personal hygiene.** At 1/6 for 10 they are so much cheaper than other leading tampons that women will be encouraged to change them often. They are easily carried about and easily disposed of.

**LIL-LETS are highly absorbent.** They absorb almost ten times their own weight in moisture and swell sideways, not lengthways. They are, therefore, really safe.

**LIL-LETS are individually wrapped.** Each tampon is sealed in a transparent cover. There is no risk of soiling or infection when it is carried loose.

## NOW INTRODUCE

"Mictine," the new non-mercurial oral diuretic, is distinctive in showing no contra-indications. Its mode of action is believed to be by inhibiting resorption of sodium ions by the renal tubules, and neither succinic dehydrogenase nor carbonic anhydrase is involved.

"Mictine" is useful in maintaining an oedema-free state in any patient requiring diuretic therapy, and in the *initial* diuresis of all patients but those with severe congestive failure.

# THEODROX

—the oral aminophylline  
preparation which ensures  
full therapeutic response

The efficiency and value of aminophylline therapy has long been acknowledged, but difficulties of administration have restricted to some extent its use. Though plain aminophylline was very effective if a certain blood concentration of the active component theophylline had been attained, the oral dosage necessary to produce such blood levels often gave rise to gastric distress, so that parenteral administration was almost unavoidable. 'Theodrox' overcomes the disadvantages of conventional aminophylline therapy. Consisting of aminophylline combined with specially prepared aluminium hydroxide, 'Theodrox' when given orally enables doses of aminophylline to be given which produce blood levels of theophylline hitherto only obtainable by parenteral administration.

## *indications*

For the treatment of Bronchial or Cardiac Asthma; as a diuretic in Congestive Heart Failure; as a supplement to emergency treatment in Status Asthmaticus; Angina Pectoris.

## THE EXTRA PHARMACOPŒIA

(MARTINDALE)

Volume 1, 23rd Edition

In this new edition will be found information on the composition and character of practically every substance used in medicine, together with a concise summary of its use, its method of administration and its contra-indications, with abstracts of the world literature. The book gives details, with references, of the most recent innovations in medical practice.

Information is provided on the toxicity of chemicals and drugs, on reports of cases of poisoning, and on treatment of overdosage. It is unlikely that any medicinal agent of established value has been omitted from the Therapeutic and Pharmacological Index, which is about half as long again as that of the last edition and contains approximately 750 headings.

## Something Lacking . . .

The practitioner frequently encounters circumstances when that "something" is likely to be the vitamin B-complex. Administration of antibiotics, acute infections, surgery of the alimentary tract are particularly associated with impaired absorption or utilisation of these essential factors, with resultant insufficiency.

Initial intensive therapy (oral or parenteral) is provided by Becovite, with subsequent maintenance by Befortiss.

## **St Ivel** stimulates the appetite

St. Ivel is a delicious cheese and has an immediate appeal to jaded appetites. The skill of the cheese-maker together with scientific control of manufacture have been used to produce a cheese which activates and stimulates the complex psychological and physiological mechanisms associated with appetite, deglutition, and digestion.

It is a valuable food to include in the diet after an oral course of antibiotics or the sulpha drugs.

# The many uses of 'CETAVLON' in general practice

**Skin diseases** A 1% aqueous solution quickly removes ointments, and the scabs and crusts in impetigo, dermatitis, and eczema.

**Ear drops** For the removal of wax and debris from the ear, use a 1% aqueous solution.

**Shampoo** In solutions of from 1 to 3%, 'Cetavlon' provides an excellent shampoo for the treatment of seborrhoea of the scalp. After lathering, rinse well to remove the 'Cetavlon'.

**Wounds and burns, etc.** A 0.1% solution provides efficient antisepsis. In cases involving contamination with dirt and grease, use a 0.5 or 1% solution.

**Obstetrics** A 1% aqueous solution effectively cleans and disinfects the patient's skin prior to delivery.

**Napkin rash** After laundering, rinse napkins thoroughly to remove all soap, and then immerse in a 0.05% solution. Allow to dry without rinsing out the 'Cetavlon'.

'Cetavlon' possesses a wide range of bactericidal activity against both Gram-positive and Gram-negative organisms, including *Ps. pyocyanea*. In concentrations of from 0.5% to 1% 'Cetavlon' also exerts a powerful detergent effect. For bactericidal action only, however, strengths of from 0.05% to 0.1% are adequate.

In the recommended dilutions, 'Cetavlon' has no irritant or harmful effects on the skin, on delicate tissues, or on raw surfaces.

# Where vitamin C is indicated

... Delrosa Rose Hip Syrup provides Vitamin C in a convenient form. It is readily tolerated by babies, and children of all ages find it extremely palatable. Delrosa is made from rose-hips, the richest source of Natural Vitamin C and contains nearly three times as much Vitamin C as Blackcurrant Syrup B.P.C. and three times as much as Fresh Orange Juice.

Every fluid ounce of Delrosa contains 57 mgms. of Vitamin C.

We shall be pleased to send a full size bottle for clinical trial, on request.

# THE NEW ROVER PROGRAMME

New high performance specification and new power-braking for the 90. Greater comfort in all three models:—the 60, 75 and 90.

## THE NINETY

**HIGH PERFORMANCE** By increasing the compression ratio, the acceleration has become still more vivid. An optional overdrive ensures a higher maximum speed, exceptionally fast and silent cruising at low engine speeds and a useful saving in petrol consumption. Top gear flexibility, so valuable when driving in traffic, is unaffected.

**EXTRA SAFETY** To match this livelier performance, a new Servo-assisted braking system is introduced. This ensures impressive light-pressure stopping from high speeds and maximum safety under modern road conditions.

## THE SIXTY, SEVENTY-FIVE AND NINETY

**EXTRA COMFORT** Rover cars have a fine reputation for driver and passenger comfort. There is now a choice of two styles in the front seating—a bench type seat or, as an optional extra, two individual seats independently adjustable. The deep hide upholstery is pleated to retain its shape and the rear arm rests have been redesigned for greater comfort.

# The value of Ice Cream in invalid dietary

---

A LARGE NUMBER OF HOSPITALS in this country include ice cream in their invalid dietaries. Its palatability is a strong recommendation. The very nature of good ice cream, combining as it does the qualities of a food with the appeal of a treat, makes it acceptable to patients, even where there is little or no appetite for other types of food.

Good ice cream has a high fat and carbo-hydrate content. Its calorific value also is high, and it is assimilated easily and rapidly.

under the National Health Service is a matter of National Importance.

In this matter of cost EFFICO Tonic need not fear comparison with any equivalent preparation — the basic National Health Service cost of the 8 oz. bottle is 2/-.

EFFICO presents a well balanced combination of Vitamins, traditional stimulants and bitter stomachics in a pleasantly flavoured syrup base.

It can be confidently prescribed when a good general Tonic is indicated.

**Overseas (Vacant)—contd.****GOLD COAST LOCAL CIVIL SERVICE**  
Ministry of Health, Gold Coast**MEDICAL OFFICERS FOR MEDICAL FIELD UNITS**

Medical Officers (single or married) are required for work in Medical Field Units in the Gold Coast. Possession of the D.T.M.&H. and previous tropical experience are desirable but are not essential. Selected candidates may be required to do the D.T.M.&H. course before leaving for the Gold Coast, in which case fees and an allowance will be paid. The work consists of the control of endemic and epidemic disease by field survey and mass treatment. Medical officers are normally in sole charge of a unit working in an area of many hundreds of square miles and consisting of some fifty lay assistants under direct supervision. A house is provided at every Field Unit headquarters, but considerable travelling is necessary. Most travelling is done in the officer's own car, for which generous maintenance and mileage allowances are paid. As Field Units operate almost exclusively in remote areas with few social amenities officers of an adventurous spirit who can make their own leisure amusements are best suited. The work offers great scope for field research into largely unknown epidemiological problems and is likely to appeal to men with an inclination towards preventive medicine who enjoy an active life. Terms: (a) On contract to the Gold Coast Local Civil Service, initially for two tours of duty of 18 to 24 months with gratuity (taxable) at the rate of £12 10s. for each completed month of service; salary in the scale £1,330 to £2,310 a year; initial salary according to experience; or (b) On three years' probation for permanent and pensionable employment in the Gold Coast Local Civil Service. Pension (non-contributory) is earned at the rate of 1/600th of the final pensionable emoluments for each completed month of service. Salary in the scale £1,055 to £1,850. Initial salary according to experience; credit may be given for a period of national service. When circumstances permit officers are granted a period of study leave on pay during the course of their service in which to sit for higher degrees or diplomas. (c) Doctors in the National Health Service may leave that service but retain their superannuation rights while in the Gold Coast (up to six years) and receive, on termination of their engagement, a gratuity (taxable) of 20 per cent of their Gold Coast salary. (d) Basically furnished quarters are provided at rental not exceeding £150 a year. Income tax at local rates, which are favourable. Free passages provided for officer, wife and up to three children under 13 years of age. Generous home leave after each tour. Applications to the Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, Westminster, quoting BCD 117/13/04. (5239)

**GOLD COAST LOCAL CIVIL SERVICE**  
Ministry of Health, Gold Coast**SPECIALIST ANAESTHETIST**

required by Ministry of Health, Gold Coast, for administration of anaesthesia, to advise the Ministry on the practice of anaesthesia, including the ordering of equipment and drugs, and for training of selected personnel in anaesthetics. Candidates should be registered medical practitioners holding a Fellowship of the Faculty of Anaesthetists (F.F.A.), or a Diploma in Anaesthetics (D.A.), provided the latter qualification was obtained prior to November, 1953, and must have had not less than four years' approved full-time hospital experience in general anaesthetic work, preferably under the direction of a fully qualified specialist. The stated four-year period must be exclusive of hospital experience gained in house posts during the twelve months after medical registration. Appointment is to the Gold Coast Civil Service on contract of two tours of fifteen to twenty-four months each in the first instance with gratuity (taxable) on satisfactory completion of service. Salary scale £2,400 to £2,700 a year. Gratuity is £12 10s. for each completed month of service. Candidates in the National Health Service may leave the N.H.S. but retain their superannuation rights (up to a maximum stay of six years). Salary, in this case, would be in the scale £1,900 to £2,200 a year, and the gratuity 20 per cent of the aggregate of salary. Quarters, when available, are provided at rental not exceeding £150 per annum. Income tax at local rates. Free passages provided for officer, wife and up to three children under 13 years of age. Generous home leave is granted after each tour. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference No. BCD 117/13/01). (5188)

**POSTS AS RESIDENT AND ASSISTANT RESIDENT in Paediatrics** are available as of June, 1956, at the Children's Hospital, Halifax, Nova Scotia. This hospital is approved by the Royal College of Physicians and Surgeons to provide two years' training towards certification in paediatrics. Salaries are \$150 per month, plus full maintenance, for the post of Resident; \$125 per month, plus full maintenance, for Assistant Resident. Application forms and any further information are available on request from: F. H. Silversides, Administrator, The Children's Hospital, Halifax, Nova Scotia. (9949)

**HER MAJESTY'S OVERSEA SERVICE**  
Medical Branch—KenyaVacancies exist for  
**MEDICAL OFFICERS**

for general duties in the Medical Department of Kenya. Successful candidates may be posted to any station in Kenya. During the earlier years of service an officer will be expected to carry out general medical and surgical duties, including a varying amount of public health administration. In most stations, even if remote from the larger towns, it is possible for an officer to maintain interest in any particular branch of medicine or surgery to which he is attracted. As far as possible the interests of an officer are considered when postings are made. The work of every medical officer is based on a hospital, which may vary in size from a small district hospital meeting the needs of a comparatively primitive community to a large and modern provincial hospital. Appointments can be made on a permanent basis with pension (non-contributory), or on short term contract with gratuity payable on satisfactory completion of service. Normal retiring age is 55. Salary ranges from £1,116 to £1,836 a year, starting point is determined by experience and four extra increments are given to successful candidates possessing the M.R.C.P., D.P.H., or other approved higher qualifications. Temporary cost of living allowance at the rate of 10 per cent of salary is also payable, subject to a maximum of £162 a year, making gross emoluments of £1,228 to £1,998 a year. Permanent Medical Officers are eligible to be considered at any time for promotion to super-scale posts in Kenya and other territories in medical administration or, if they possess higher qualifications and suitable experience, in specialist posts. Quarters are generally available at rental of 10 per cent of salary. Free passages in both directions for officer and wife and up to cost of one adult fare for children. Taxation at local rates. Annual local leave permissible and generous home leave granted after each tour of from thirty to forty-five months. Educational facilities are available. Candidates must possess medical qualifications registrable in the United Kingdom and at least one year's postgraduate hospital experience. Application forms from Director of Recruitment, Colonial Office, Sanctuary Buildings, Great Smith Street, London, S.W.1 (quoting reference BCD 117/7/02). (5189)

**NEW SOUTH WALES UNIVERSITY OF TECHNOLOGY****FOUNDATION CHAIR IN HOSPITAL ADMINISTRATION**

The University invites applications for appointment to the Foundation Chair of Hospital Administration. The salary of the position will be £A.3,031 per annum. The successful appointee to the Chair, which has been endowed by the Kellogg Foundation of the United States of America, will be required to organize instruction and research in hospital administration. Applicants should possess high academic attainments and have extensive experience in hospital administration.
