

1956 CURRENT THERAPY

400 of the most effective treatments now known to medical science.

The coverage of 1956 CURRENT THERAPY constitutes a complete reference on treatment, not merely recent advances alone. The material is all original and is written by 279 American Authorities. Each contributor was chosen as the physician best qualified to give the description of a particular therapeutic method. CURRENT THERAPY commenced publication in 1949, since when it has gained in popularity each year. No other publication can match its usefulness as a concise and complete compendium of modern therapy for the clinician.

INDICATIONS Functional fatigue, depressive states and debility. 'MERATRAN' is ideally suited for the depressed geriatric patient and is effective in relatively small doses.

FORMULA: α -(2-piperidyl) benzhydrol hydrochloride (pipradrol hydrochloride) with the following structure

DOSAGE: 'MERATRAN' 6 mgs. (six tablets) in divided doses daily, later reduced as required.

Individualisation of dosage is essential.

Geriatrics. One or two tablets a day (the latter dose being divided).

'MERATRAN' WITH RESERPINE. One tablet three times a day.

COMPOSITION: 'MERATRAN' is available in pink tablets each containing 1 mg. pipradrol hydrochloride.

'MERATRAN' WITH RESERPINE tablets are white and each contains 1 mg. pipradrol hydrochloride and 0.25 mg. of reserpine.

Each form is available in bottles of 30, 100 and 500 tablets.

Although a new drug, 'MERATRAN' has been extensively tested, and published reports cover its successful use in many hundreds of patients. Full details are given in the 'MERATRAN' booklet, a copy of which will be sent on request.

The key to successful peptic ulcer treatment

NULACIN

Nulacin effectively controls gastric acidity. The value of Nulacin in the treatment of peptic ulcer and the prevention of relapse has been confirmed by clinical studies in Great Britain, Australia, the U.S.A. and India. Nulacin tablets are palatable and convenient.

INDICATIONS

Nulacin tablets are indicated whenever neutralization of the gastric contents is required: in active and quiescent peptic ulcer, gastritis, gastric hyperacidity.

Beginning half an hour after food, a Nulacin tablet should be placed in the mouth and allowed to dissolve slowly. During the stage of ulcer activity, up to three tablets an hour may be required. For follow-up treatment, the suggested dosage is one or two tablets between meals.

Nulacin tablets are not advertised to the public, have no B.P. equivalent and may be prescribed on E.C.10. The dispensing pack of 25 tablets is free of Purchase Tax. (Price to pharmacists is 2/-.) Also available in tubes of 12.

Nulacin tablets are prepared from whole milk combined with dextrans and maltose, and incorporate Magnesium Trisilicate 3.5 grs.; Magnesium Oxide 2.0 grs.; Calcium Carbonate 2.0 grs.; Magnesium Carbonate 0.5 grs.; Ol. Ment. Pip. q.s.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

FOR GERIATRIC PATIENTS safe, comfortable, effective HERNIAL SUPPORT

Because each Spencer Support is designed to order to meet the patient's individual needs, results are demonstrably superior.

The patient shown on left, aged 74, developed a left ventral hernia following surgery fourteen years previously. A left inguinal hernia resulted from the long wearing of a cast following a hip injury 3 years ago. "Stock" supports proved ineffective. A Spencer Support as shown was prescribed with excellent results. Her Spencer gives safe, comfortable and effective control of the hernias—improves and maintains posture—protects and supports the weak muscles of old age. With the aid of her Spencer, the patient runs her household, does all her own work, and—as she says—still has time "to enjoy life."

Prescribe Spencer with confidence for men, women, children—for abdomen, back, breasts. No case is too difficult for Spencer Designers!

Elastoplast Bandaging Technique

in the treatment of

Sprains

TWO SOLUTIONS of everyday first aid problems are illustrated below, using Elastoplast elastic adhesive bandages and plasters. The tidy, effective result is typical of the modern approach in the treatment of sprains.

SPLINT METHOD

in the treatment of Finger Sprains

The injured finger is strapped to an adjacent uninjured finger by two strips cut from a 1" wide Elastoplast Plaster. The strapping is applied transversely around the two fully extended fingers so that the interphalangeal joints are not covered. Lateral movement of the injured joint is impossible; but flexion and extension are unimpaired.

SUPPORT *for Sprained Wrist*

Bandaging consists essentially of figure-of-eight turns round hand and wrist—alternate turns slit to accommodate the thumb.

Elastoplast elastic adhesive bandages (Porous) are available in 3 yard lengths and 2", 2½", 3" and 4" widths. (Prescribable on Form E.C.10)

Outside the British Commonwealth Elastoplast is known as Tensoplast

Prompt disposal of pus and clotted blood is an all-important step in the successful treatment of infected lesions and wounds. Until these barriers are removed, adequate drainage may be impossible, access denied to antibiotic medication and the natural defences may be seriously hampered. VARIDASE breaks down such barriers by dissolving pus and blood clots through enzymatic action. Apart from its many applications in surgical procedures, VARIDASE is a weapon of immeasurable value in day-to-day practice—as a dressing for varicose ulcers, suppurating wounds, infected burns and other topical lesions. When VARIDASE is used with C.M.C. (Carboxymethylcellulose) Jelly, enzymatic action is maintained for up to 24 hours and the need for wet dressings is eliminated.

CHILDREN WHO LOVE BANANAS will readily take the prescribed dose of Compocillin Oral Suspension, the NEW Penicillin Salt of hydrabamine.

It is prepared in a palatable, highly stable and

fluid form which permits easy oral administration of penicillin. High and even peak blood levels of Compocillin appear within 30 minutes—concentrations remain significant for more than 4 hours.

Compocillin is indicated in the treatment of infections produced by penicillin-sensitive organisms including

staphylococci, gonococci, streptococci, pneumococci and in the type of case in which oral penicillin therapy is known to be therapeutically effective. It may also be used prophylactically where secondary infection is a recognised danger.

The recommended initial dose of Compocillin Oral Suspension is one or two 5 cc. teaspoonfuls every six hours.

For small children the dosage should

be calculated according to age and weight. Alterations in dosage should be guided by the patients' therapeutic response.

and other fungal dermatoses

The combined use of Mycil Ointment and Powder has proved to be highly effective in both prophylaxis and treatment of fungal dermatoses.

Mycil Ointment is formulated to ensure penetration of the active constituent, chlorphenesin, to the site of the infection.

Mycil Powder, used alone, prevents reinfection. Because of its adsorptive properties it is useful in combating the effects of excessive perspiration.

Both preparations are non-mercurial and odourless and may be used over long periods, if necessary, without adverse effects.

How severe a gastric irritant is aspirin ?

FURTHER RESEARCH has now been done into the irritant effects of aspirin upon the gastric mucosa. A detailed report on this work appears under the heading "Aspirin and Ulcer" in the B.M.J., July 2, 1955.

The summary of the discussion appended to this report is as follows:

"Aspirin is a serious gastric irritant, particularly in peptic ulcer patients."

Here is a further extract from the report: "In conclusion it is suggested that aspirin should never be given to patients with peptic ulceration, or indeed to those who have any gastric intolerance to it, however mild. Such an instruction should be given a prominent place in peptic ulcer advice charts, usually in place of much that could be safely left out. Some of these patients took aspirin on a full stomach only in powder form, with serious

results, and, although this method almost certainly mitigates its irritant effects, it does not guarantee immunity. Calcium aspirin does not have this irritant action unless it has deteriorated through standing, and it can be used with impunity, especially if prescribed in soluble form. This simple measure would, in our opinion, cut down significantly the incidence of haematemesis and exacerbations of ulcer symptoms."

SOLPRIN provides calcium aspirin in pure and stable form

CODIS is a compound tablet that provides codeine and phenacetin and calcium aspirin, in place of the ordinary aspirin in Tab. Codein. Co. B.P.

Psychosomatic or somatopsychic?

The influence of emotional and physical strain in provoking a wide range of psychosomatic manifestations is well known to every medical practitioner. Indeed, the incidence of these disturbances has recently been rated as high as 15% in rural and 25% in urban practice.¹

No one would dispute the fundamental importance of simple psychotherapy which the family doctor is so well placed to dispense; yet he, himself, recognises the need for a more material adjunct, a tonic and restorative which will assist the nervous system as well as the organism as a whole. Sanatogen is an active nutrient tonic, and the choice of many physicians in such circumstances.

Conversely, the considerable effect of the general bodily health on the psyche merits consideration. That the mental outlook may be adversely affected by a poor nutritional state has long been recognised. Here again, the merits of Sanatogen as a high protein tonic nutrient are apparent.

Sanatogen is a protein-glycerophosphate complex; 95% casein rich in essential amino-acids; 5% sodium glycerophosphate, yielding most readily assimilable phosphorus. Because of its high nutrient value and accepted tonic and restorative effects on the entire nervous system, it is of signal value in all forms of physical and mental debility.

There is half-a-century of clinical confirmation of the successful prescription of Sanatogen in all types of asthenia and psychasthenia.

A large number of cases of peptic ulceration have been successfully treated with "Pro-Banthine". By its anticholinergic action inhibiting transmission of neural stimuli at both sympathetic and parasympathetic ganglia and at parasympathetic myoneural junctions, hypermotility of the stomach and duodenum is reduced. This results in rapid relief of pain. "Pro-Banthine" is easily administered, orally. It has few side-effects, which are all readily eliminated by adjustment of dosage.

PREMARIN

an effective oestrogen with
minimal side effects

'PREMARIN' is a preparation of conjugated oestrogens for oral administration in tablet form.

Unlike stilboestrol, 'Premarin' is comparatively free from side effects even on prolonged and high dosage.

Indicated for :

- * Functional uterine bleeding
- * Inhibition of lactation
- * Hypogenitalism and functional amenorrhœa
- * Symptoms of the menopause
- * Prostatic carcinoma
- * Senile vaginitis, Kraurosis vulvae and Pruritus vulvae

Tablets of 0.625 mg. (total conjugated natural oestrogens) in containers of 100 and 1,000.

Tablets of 1.25 mg. (total conjugated natural oestrogens) in containers of 30, 100, and 1,000.

'Premarin' contains:

Oestrone sulphate plus the sulphates of equilin, equilenin, β -oestradiol, and β -dihydro-equilenin. Other α - and β -oestrogenic "diols" are also present in varying amounts as water-soluble conjugates.

**DAPTAZOLE**

BRAND OF AMIPHENAZOLE

2:4-Diamino-5-phenylthiazole hydrochloride

and Morphine
in the treatment of intractable pain

A further clinical report on the use of "Daptazole" and Morphine published in the "British Medical Journal" of 21st January, 1956, confirms that the administration of "Daptazole" with large doses of Morphine results in the alleviation of the intractable pain of terminal carcinoma.

In this paper
the results of the treatment in
127 cases are
described and the main
advantages of the com-
bination summarized thus:—

"Administration of large amounts of morphine without respiratory depression, narcosis or depression of the cough reflex; amiphenazole apparently prevents the onset of any marked tolerance to morphine, and possesses a central nervous stimulant action of the caffeine type; and treated cases have a bright mental outlook under otherwise hopeless conditions."

TACE

A NEW FAT-STORED OESTROGEN

TACE may change present-day concepts of oestrogen therapy, because while resembling stilboestrol and hexoestrol chemically it differs clinically in these important respects:

TACE

is stored in body fat—its activity is gradually released in a manner closely resembling natural oestrogen secretion.

TACE

is free from side effects. Nausea, vomiting and oestrogen withdrawal bleeding in the female and painful gynaecostasia in the male are not produced.

TACE

has virtually no effect on the pituitary gland. Resistance does not develop on prolonged therapy—'TACE' is therefore of particular value in the treatment of prostatic carcinoma, where it will often continue to control the condition when resistance to other oestrogens has developed.

'TACE' is available in capsules each containing 12 mg. chlorotrianisene in bottles of 60 and 300 capsules. Detailed literature is available on request.

INDICATIONS

1. MENOPAUSAL SYNDROME. 2. INHIBITION OF LACTATION. 3. PROSTATIC CARCINOMA.

THE EXTRA PHARMACOPŒIA

(Martindale)

Volume II

23rd Edition

The second volume of the Extra Pharmacopœia supplements the information in the first volume published in 1952, the two volumes forming a comprehensive work of reference on materia medica and allied subjects. The whole book has been revised, rewritten and reset. It has been compiled for general practitioners in pharmacy and medicine, for specialists and experts engaged in associated activities, for research workers and for students. The sections dealing with the analysis of drugs, clinical biochemistry, and bacteriological notes have been extended.

Travelling first class. The Rover driver's enthusiasm for his car is shared by his passengers. They enjoy the restfulness of riding in a Rover . . . the silence and smoothness over all surfaces . . . the commanding view of road and countryside. They appreciate, too, the many refinements that lift the Rover above the rank and file of modern cars. "No other manufacturer in the price range," said the *Autocar* (23.9.55) "could justly claim a higher standard of workmanship, of good taste or of mechanical refinement on the road."

With a Rover 60, all this is yours for a moderate outlay. Running costs are low and when at last the time comes to exchange it, your 60's high resale value confirms the wisdom of your choice. The Rover 60 costs £840 os. od. plus purchase tax. The famous 75 and 90 complete the Rover range.

SOBRANIE CIGARETTES & TOBACCOS

TWO ORIGINALS—it is a bold claim! Yet consider the facts—one a Smoking Mixture which combines the rarest Yenidje with choicest Virginian; another a Virginia Tobacco whose added touch of genius is a touch of finest cigar leaf. The surnames of both are the same—Balkan Sobranie. In the one or the other of these two famous brands is the final answer to present discontents and a friendship that will last a lifetime. Neither may be everybody's choice—the House of Sobranie is well content in a mass market world to continue to provide *selective smoking pleasure for the discriminating few.*

THERAPAS, first synthesized in our laboratories in 1951, was introduced into tuberculosis therapy as an alternative to P.A.S. Detailed pharmacological studies have been published in this country (1), and Swiss workers have produced evidence (2) that calcium 4-benzamidosalicylate has a therapeutic action *per se*.

Therapas delays the emergence of streptomycin resistance. Its value in the treatment of genito-urinary tuberculosis is well established (3), (4), (5). Unlike P.A.S. (to which it is converted in the body) it has a slightly sweet, not unpleasant taste.

Effective though **Therapas** has been in these respects, it now appears from recent work (6) that it is of still greater importance. Preliminary trials have indicated that:

Therapas, in combination with isoniazid or streptomycin, gives satisfactory clinical and radiological results in the treatment of pulmonary tuberculosis.

Therapas may be effective in delaying the emergence of resistance to either isoniazid or streptomycin.

Therapas can be used wherever P.A.S. is indicated, and is often better tolerated.

Dosage: **Therapas** may be administered in daily doses of 14 G.

Availability: Individual packets of 3.5 G. in boxes of 100 packets.

1.0 G. cachets in containers of 100 and 500.

Other Grades, Whole-time

(a) **HOUSE OFFICERS**:

(i) *Provisionally registered medical practitioners*: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £525 per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation, the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed and has its own farm and market garden.

for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department for Diathermy and High-frequency treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BYRN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

THEODROX

—the oral aminophylline
preparation which ensures
full therapeutic response

The efficiency and value of aminophylline therapy has long been acknowledged, but difficulties of administration have restricted to some extent its use. Though plain aminophylline was very effective if a certain blood concentration of the active component theophylline had been attained, the oral dosage necessary to produce such blood levels often gave rise to gastric distress, so that parenteral administration was almost unavoidable. 'Theodrox' overcomes the disadvantages of conventional aminophylline therapy. Consisting of aminophylline combined with specially prepared aluminium hydroxide, 'Theodrox' when given orally enables doses of aminophylline to be given which produce blood levels of theophylline hitherto only obtainable by parenteral administration.

indications

For the treatment of Bronchial or Cardiac Asthma; as a diuretic in Congestive Heart Failure; as a supplement to emergency treatment in Status Asthmaticus; Angina Pectoris.

THEODROX

is available in bottles of 25, 100 and 1,000 tablets, each containing 3 gr. of aminophylline B.P., and 4 gr. dried aluminium hydroxide.

THEODROX WITH PHENOBARBITONE is also available, each tablet containing in addition $\frac{1}{2}$ gr. phenobarbitone.

Detailed literature will be gladly sent on request.
