# DISEASES OF THE CHEST

By H. CORWIN HINSHAW, Clinical Professor of Medicine; and L. HENRY GARLAND, Clinical Professor of Radiology, at Stanford University. 727 pages, 634 illustrations. 105s.

A complete picture of to-day's most effective techniques and procedures for managing the diseases and disorders of the chest. Particularly vital because of the new antibiotic drugs now available, the new advances in diagnostic radiology and the degree of safety with which to-day's surgeons can explore the thoracic cavity.

# A wider field in Local Anaesthesia

For a more consistent and rapidlyproduced field of local anæsthesia, Rondase—the spreading factor-can be used with any infiltration anæsthetic. In the manipulation and reduction of fractures this procedure does away with the need for a general anæsthetic. In the treatment of mild and moderate sprains of the limb-joints Rondase assists in producing

anæsthesia and also in the dispersal of effusion. In plastic surgery, anæsthesia of the donor area is assisted by Rondase; the addition of  $\frac{1}{1000}$  adrenaline prevents systemic dispersal of the anæsthetic and demarcates the area anæsthetised. Information on other uses for Rondase and fuller details of technique are available from the Medical Information Department.

# cicatrin

# to counter the changing of bacterial

All the available evidence of the development of bacterial resistance points to the need for a safe and effective means of securing control of local infections without the employment of those antibiotics which are of greatest value for systemic use.

# a new advance in wound therapy:

CICATRIN POWDER has advantages over existing modes of wound therapy for the following reasons:—

- \* is bactericidal and bacteriostatic.
- ★ minimises the risk of the development of resistant strains.
- ★ is effective against most of the pathogens including those resistant to penicillin and streptomycin.
- ★ Healing is stimulated by selected amino acids.
- \* is not cyto-toxic.
- ★ is active in the presence of blood and tissue exudates.
- \* is non-allergenic.

FORMULA: Each gramme contains:

Neomycin Sulphate 5 mg. Zinc Bacitracin 250 units. 1-Cystine 2 mg. dl-Threonine 1 mg. Glycine 10 mg.

PACK: 15 gramme sprinkler.

# Spreading smooth and even . . .

Smoothly, thinly and painlessly Ef-Cortelan Skin Lotion (hydrocortisone Glaxo) spreads over tender surfaces. Swiftly, safely, effectively—sometimes in a few hours—it suppresses inflammation, exudation and allergic skin reactions.

# A little goes a long way.

Most conditions are adequately controlled by the 0.5% Ef-Cortelan Lotion and, because it has superior spreading and penetrating qualities and brings hydrocortisone into more intimate contact with the tissues, the lower strength is as effective as a 1% ointment. This, and the fact that only a little of the lotion is used, offers appreciable economic advantages. Ef-Cortelan Lotion is especially suitable for extensive, weeping surfaces and for application to the scalp.

# GLAXO EF-CORTELAN SKIN LOTION

(0.5% and 1% hydrocortisone alcohol in water-miscible base) in 20 cc. squeeze bottles.

ALSO FROM THE GLAXO CORTISONE RANGE. EF-CORTELAN SKIN OINTMENT NO. I (1% and  $2\frac{1}{2}\%$  hydrocortisone acetate in non-greasy base); EF-CORTELAN SKIN OINTMENT NO. 2 (1% and  $2\frac{1}{2}\%$  hydrocortisone acetate in greasy base). Both in 5 g. and 15 g. tubes; 50 g. jars.

GLAXO LABORATORIES LTD., GREENFORD, MIDDLESEX BYRon 3434

Strength, lightness and resistance to water combine to make this new type of plaster of Paris bandage much more economical in use

Very hard, water resistant casts result when plaster of Paris is polymer reinforced. That is why Gypsona 'Extra' has, in addition to all Gypsona's well known qualities, these extra advantages:

### Durability

Gypsona 'Extra' casts outlast all other plaster casts and are more resistant to damage and the effects of water.

# Lightness

Casts are thin, comfortable to wear, and therefore allow better functional treatment.

### X-rove

Thinner casts permit greater clarity in X-ray photographs.

# Cleanliness

Negligible plaster loss means less mess and a saving of time.

### Economy

When the recommended method of application is followed, two Gypsona 'Extra' bandages will do the work of every three plaster bandages now used, and a more durable cast results.

(Gypsona standard bandages remain available for those cases where the special qualities of Gypsona 'Extra' are not required.)

"This was by far the most effective and useful orally administered agent for reducing blood-pressure which we have yet used. In our opinion this substance is fully worthy of a trial in every case of essential hypertension in which treatment is thought to be necessary. The severe cases, which always need treatment, are as likely to respond as the mild".

British Medical Journal (1955) 1:809

'Rauwiloid' is a selected fraction of the alkaloid hydrochlorides of Rauwolfia serpentina, and combines the hypotensive activity of reserpine and rescinnamine with that of the other desirable alkaloids of the crude drug. 'Rauwiloid' should be regarded as the basic treatment for all grades of hypertension.

If sufficient lowering of blood-pressure is not apparent after 2/3 weeks use, 'Rauwiloid + Veriloid' and 'Rauwiloid' + Hexamethonium, tried in that order, are suggested as suitable agents. In each case 'Rauwiloid' reduces the side-effects of the potent antihypertensive, and in both combinations dosage is regulated solely by the patient's requirements for the more potent agent.

Dosage of 'Rauwiloid' is simple — two tablets at night are usually sufficient, and this dosage can be reduced to one for maintenance therapy.

The daily cost to the National Health Service on full dosage is 5d.

'RAUWILOID' and 'VERILOID' are Registered Trade Marks

# 'WYOVIN'

ATROPINE-LIKE ACTION WITHOUT MYDRIATIC OR SALIVARY SIDE EFFECTS

# TO CONTROL HYPERMOTILITY AND PAIN

in peptic ulcer

The use of atropine or belladonna to quieten gastric movements and "hunger pain" in the treatment of peptic ulcer has hitherto been complicated by blurring of vision and dryness of the mouth. 'WYOVIN' the new Synthetic anti-spasmodic, exhibits the smooth muscle relaxant effects of atropine to the full, without visual or oral disturbance.

10 mg. tablets available in bottles of 50 and 250.

John Wyeth & Brother Limited, Clifton House, Euston Road, London, N.W. 1.

# Further progress in the treatment of hypertension

The autonomic ganglion blocking agent, pentolinium tartrate is now widely acknowledged as being the most satisfactory single substance available for the reduction of raised arterial pressure. It is effective when given orally, has a powerful and prolonged hypotensive action, and when used with care in selected cases not only permits a resumption of more normal activities but frequently arrests or even reverses the organic changes resulting from sustained hypertension.

Recently it has been shown that considerable advantage is to be gained by using 'Ansolysen' in conjunction with the hypotensive and sedative alkaloid, reserpine. This combined therapy not only minimizes some of the effects of parasympathetic blockade associated with the unselective ganglion blocking action of 'Ansolysen', but also permits a reduction in the effective dose of this drug.

Detailed information is available on request.

# trade mark PENTOLLINIUM TARTRATE brand

**PRESENTATIONS** 

'ANSOLYSEN'—Tablets of 10, 40 and 200 mgm; 0.5 per cent and 2.5 per cent solutions for in ection; 1 per cent and 2.5 per cent solutions for injection (with 0.5 per cent ephedrine hydrochloride)\*

RESERPINE—Tablets of 0.25 mgm. and 0.5 mgm.

\* The Retard Solutions of 'Ansolysen' and of 'Vegolysen' brand hexamethonium bromide have now been discontinued, and replaced by solutions containing similar quantities of hypotensive agents, together with 0.5 per cent ephedrine hydrochloride to delay absorption from the site of injection.

Care may be necessary in using these new presentations in patients in whom the Retard Solutions have hitherto been employed, as the full hypotensive effect may be slightly more rapid in onset.

M&B brand Medical Products

# PAINFUL GUT

'Merbentyl' deals with all painful spastic conditions of the gastro-intestinal tract. It both blocks the parasympathetic nerve endings and directly relaxes smooth muscle. This dual action gives full relief without the unpleasant side reactions (changes of heart rate, mydriasis, cycloplegia, dry mouth, etc.) normally associated with natural and synthetic antichelinergic agents.

\* MERBENTYL

'Merbentyl' is available in tablets (each containing 10 mg, diethylaminocarbethoxybisyclohexyl hydrochloride), and as a syrup (each 5 c.c. containing 10 mg, 'Merbentyl'). Also combined with Phenobarbitone (15 mg, (gr. 1) per tablet or 5 c.c. syrup).

Even on the highest desage (8 tablets per day) the basic cost to the N.H.S. is less than 7d.

PPH 6/50

Quite a challenging hypothesis, Doctor, but your young patients would wish the point to be illustrated dramatically. Especially since the administration of the new Terramycin syrup is quite the most convenient, safe and palatable way to combat a wide range of bacterial, viral, and rickettsial infections. Hydrolysing quickly in the gastro-intestinal tract Terramycin Syrup readily yields the pure antibiotic in powerfully effective concentrations. Isn't this the way you —mutatis mutandis—would prefer to take your own medicine? Of course it is. And that is why you will have no difficulty in persuading paediatric patients that Terramycin Syrup is "very good medicine indeed". Even the most recalcitrant youngster will be won over by its pleasing cherry flavour.

Supplied in bottles of 60 ml. Each large teaspoonful (5 ml.) of which contains 125 mg. of oxytetracycline activity.

# **APPOINTMENTS**

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent  $\bigstar$  testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

\*\*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

# SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years.

#### Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum.

# ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Those intending to apply for resident appointments in the Registrar grades are recommended to make inquiries with regard to the deductions proposed for board and lodging at the time of submitting their applications, where this is not stated in the advertisement.
