SURGICAL DRESSINGS

and Specialities

"GAMGEE TISSUE"

REGISTERED TRADE MARK

Soft, comfortable and highly absorbent, this economical dressing is the best of its kind. The woven tubular gauze covering ensures the cotton wool filling remaining in place, and prevents it breaking up when handled or being used as a dressing.

"CESTRA" LAMINATED POST-OPERATIVE DRESSING

P.O.D.'s

A NEW dressing designed for general use where ordinary gauze pads would normally be used in dressing wounds. Softer, more bulky and LESS EXPENSIVE than ordinary gauze swabs. Fewer pads are needed per dressing.

"CESTRA" STANDARD GAUZE SWABS

Available in a wide range of stock sizes and in several qualities. Also available in larger sizes and to individual requirements, sewn, with tapes etc.

"CESTRA" MASKS

The perfect surgical mask for the prevention of droplet infection. Highly efficient, comfortable, and easily sterilised.

"CESTRAFOLD" RIBBON GAUZE

A very efficient substitute for Fast Edge Ribbon Gauze. Suitable for plugging and making up into Gauze Pads. Can be supplied in assorted widths.

"CESTRA" STERILIZED MATERNITY OUTFITS

These can be offered in various sizes.

"CESTRA" PREMATURE BABY SETS

Made from our well known "Gamgee Tissue". A garment specially designed for immediate use. Soft and warm.

"CESTRA" CELLULOSE PAPER HANDKERCHIEFS

Essential in cases of Nasal and Pulmonary complaints. Also Capsicum Tissue and Medilintex Poultice Dressings.

Like father a

-like son

The Confederation Life Association announce the introduction of their new, and unique in this country, "Junior Partnership" Policy. In one document, covering father and son, and at a guaranteed low rate of premium, it provides:

- ★ ENDOWMENT INSURANCE FOR YOUR SON FROM AGE 21
- * INSURANCE PROTECTION ON YOUR LIFE WHILE YOUR SON IS STILL DEPENDENT ON YOU

This means that for a low premium, based on your son's insurance to start when he is 21, you can also provide for your dependents if you die before this.

THIS IS A NEW INEXPENSIVE WAY OF PROVIDING FOR YOUR CHILDREN

Full details will be given on request to Dept. G.4

It's a tonic to see her the picture of health!

The tonic is Minadex—no temporary stimulant, but a balanced vitamin-mineral tonic fortifying through the body's natural mechanisms. With its pleasant orange flavour, Minadex is the tonic that is eagerly taken.

MINADEX The reconstructive vitamin-mineral tonic

Contains vitamins A and D, iron, manganese, copper and glycerophosphates of calcium, sodium and potassium. 60z. and 12 oz.: 80 oz. winchesters.

when its standing room only . . .

Influenzal states are unwanted companions of winter which persist in greater or lesser degree each season. Recourse to a suitable medicament becomes of paramount importance for the early abatement of symptoms.

The rapid therapeutic effect of Hypon tablets is now accepted, being of extreme value in relieving pain and reducing temperature during influenza epidemics, when time is a factor of importance to both patient and General Practitioner.

HYPON tablets possess a powerful anagesic-antipyretic action.

HYPON tablets contain Caffein to counteract mental and post-influenzal depression.

HYPON tablets also provide sufficient phenolphthalein to maintain normal peristalsis.

Indications: Influenza, Tonsillitis, Rheumatic conditions, Spastic Dysmenorrhoea, Neuralgia.

Formula: Acid Acetylsalicyl B.P. 40.22% Phenacet. B.P. 48.00% Caffein B.P. 2.00% Codein. Phosph. B.P. 0.99% Phenolphthal. B.P. 1.04% Excip. 7.75% (each tablet 8 grains)

Upjohn of England Ltd · 4 Aldford Street · London W1

The use of stabilized Trypsin

A NEW TREATMENT
FOR ULCERS
ABRASIONS
BURNS
PYODERMIAS

ANY MEDICAL PRACTITIONER knows how stubbornly resistant to any therapy a long-standing varicose ulcer can be. The reason is partly the diminished blood supply, but more perhaps the formation of a pus-containing layer and of crusts which cover the ulcer and impede the healing process. Similar difficulties are often encountered in the treatment of wounds and abrasions.

PROTEOLYTIC ACTION

It has long been known that the proteolytic enzyme trypsin could digest crusts by the process of physiological curettage. The difficulty has been to incorporate the trypsin in a stable preparation. In Biotrase, trypsin remains active physiologically for over one year. It rapidly dissolves crusts and scabs and leaves a clean, granulating surface. A certificate of stability has been issued by a Department of Bio-chemistry.

Biotrase has been designed by Lloyd-Hamol of London and Zurich for the treatment of infected skin lesions. Apart from trypsin, it contains two new antiseptic agents of proved bacteriolytic properties, Ca-N-Hydroxymethylglutaminate and 2,2' thiobis-(4,6-dichlorophenol), designated bithionol, both of which are effective against a wide range of gram-positive and gram-negative pathogenic organisms and do not cause skin sensitivity. Biotrase also contains carbamide, included for its buffering properties.

INDICATIONS FOR USE

Biotrase may be used wherever there is an infected—or potentially infected—breach of surface of the skin. Common conditions for its use include the following: Varicose, diabetic and post-thrombotic ulcers; wounds, and second and third degree burns; infected and necrotic skin conditions, including pyodermias; boils and carbuncles (following incision).

COMPOSITION OF BIOTRASE	
Trypsin pur.	0.16%
Ca-N-Hydroxymethylglutaminate	5.00%
2,21 thiobis-(4,6-dichlorophenol)	0.50%
Carbamide B.P. In polyethylene glycol	5.00%

Biotrase is available in 35 g. tubes at a basic N.H.S. price of 3/9d. plus Purchase Tax. Samples and literature are available to medical practitioners on request.

"But that's just the point, Mr. Baxter...

... it's quite important to remember the difference between the two. Globin insulin contains a foreign protein, globin, to modify the action of the insulin, whereas I.Z.S. contains no protein or peptide, other than the insulin itself. Let me stress once again, gentlemen, that the prolonged effect of I.Z.S. depends entirely on the appropriate adjustment of the particle size of the zinc insulin compound. It is because the effect of I.Z.S. is independent of any modifying protein, that allergic reactions following its use are practically unknown.

That is precisely why I.Z.S. is so suitable as the single daily injection of insulin in about 90 per cent. of diabetic patients. Any other questions?"

I.Z.S. A.B. Vials of 10 c.c. 40 or 80 units per c.c.

I.Z.S. (Amorphous) A.B. Vials of 10 c.c. 40 or 80 units per c.c.

ALLEN & HANBURYS LTD LONDON E2 THE BRITISH DRUG HOUSES LTD LONDON N1

Rubriment relieves pain in such conditions as muscular rheumatism, fibrositis, strains and sprains.

Some minutes after application the skin becomes flushed and there is a comforting feeling of warmth which persists for many hours.

R U B R I M E N T

A new long-acting rubefacient safe and effective

Rubriment is a product of original research.

For some years it has been known that some chemicals when applied to the skin produce redness and warmth. Rubriment is based on a new substance, the benzyl ester of nicotinic acid, which has been demonstrated to give a long-lasting rubefacient effect without any damage or irritation to the skin even after prolonged and repeated application.

Ten minutes after application of Rubriment there is a comforting feeling of warmth and the area is seen to be

flushed. This redness is due to the dilatation of the small cutaneous blood-vessels. This persists, without danger of irritation to the skin. Clinical reports have been received of the efficacy of Rubriment for the relief of pain in such conditions as muscular rheumatism, lumbago, fibrositis, strains and sprains. The immediate and prolonged vasodilatory action of Rubriment also provides effective relief for unbroken chilblains.

Whenever counter-irritation is indicated, Rubriment is the preparation of choice for the patient.

Available in two forms

Rubriment (2.5% nicotinic acid benzyl ester and 0.1% Capsicin) is available either as a cream or as a liniment, both of which are non-greasy.

The cream is rapidly absorbed and needs only gentle

application. It is supplied in tubes of 20 g. (Approx.).

BASIC PRICE to N.H.S., 2/2d.
The liniment lends itself to massage, if this is required. It is supplied in bottles of 2 fl. ozs. (approx.). BASIC PRICE to N.H.S., 3/-.

Directions for use Apply Rubriment to the affected area. As Rubriment causes a stinging sensation in contact with the eyes and face, the hands should be well washed after use. One application per day has been found to be effective for the majority of patients, though a fresh application may be made, if necessary, at more frequent intervals.

Rubriment is not advertised to the public and can be prescribed on form E.C.10.

RUBRIMENT

Instilled intranasally, 'Sulfex' deposits a fine, even frosting of microcrystalline sulphathiazole throughout the nasopharyngeal cavity. Unlike solutions, this bacteriostatic coating is not quickly washed away: it clings for hours to the inflamed mucosa wherever ciliary action is impaired by infection. Bacteria in the post-nasal drip are inhibited before they can reach the nasopharynx to intensify the infection.

Part of the suspension drifts down over the nasopharynx and pharynx, producing potent, long-lasting bacteriostasis just where it is needed most—at the site of infection in the throat.

Sulfex a suspension of microcrystalline sulphathiazole

highly effective in sore throat

"So many patients I meet nowadays give themselves away as soon as they start describing their symptoms. You know the sort I mean ... they don't feel really ill but they're edgy and irritable . . . they can't concentrate . . . can't get a proper night's rest . . . they feel they need something to calm them down. Long before they've finished I say to myself 'typical case for MILTOWN.' I like MILTOWN Meprobamate for cases of that sort. I find that it calms them down in body and mind better than any tranquillizer I know. I gather that's because of selective action on the thalamus. Everyone I've put on MIL-TOWN so far seemed to benefit right away, and I for one fully endorse the good reports published on Miltown in anxiety and tension states."

Miltown

Has far-reaching value in anxiety, tension, stress and allied conditions.

Tablets of 400 mg. for oral use. Bottles of 50 and 500.

'CORTISPORIN' kills the bacteria of surface infections

This new ointment contains bacitracin, neomycin and polymyxin B sulphate. It has a wider range of activity than any single antibiotic, destroying grampositive and gram-negative organisms, including Ps. pyocyanea, proteus and staphylococci. Bacterial resistance or skin sensitisation are unlikely with 'Cortisporin'; nor does it induce crossresistance or cross - sensitisation to penicillin or other antibiotics. It often succeeds where other antibiotics fail.

'Cortisporin', by virtue of its other constituent, hydrocortisone, also reduces inflammation.

For further information please apply to BURROUGHS WELLCOME & CO., The Wellcome Building, Euston Road, London, N.W.1.

*Cortisporin **OINTMENT**

Issued in collapsible tubes of 10 gm. with nozzle for economical use.

on this comb

COMPLETE CONTROL of common dandruff in 92 to 95% of cases... control of seborrhoeic dermatitis of the scalp in 81 to 87% of cases... this represents the clinically proved effectiveness of SELSUN. It restores the scalp to a normal, healthy state, keeps it free of scales and excessive sebum for a period of one to four weeks after each application. Itching and burning usually stop after two or three applications. SELSUN is applied while washing the hair. It reaches all areas of the scalp, is simple and pleasant to use. Rinses out easily, leaving the scalp clean and odourless. Does not discolour the hair; leaves no greasy stains.

Available in 2 and 4 ft. oz. bottles, with directions for use.

Aspirin and Ulcer

"ASPIRIN is a serious gastric irritant, particularly in peptic ulcer patients".

"Calcium aspirin does not have this irritant action unless it has deteriorated through standing, and it can be used with impunity, especially if prescribed in soluble form. This simple measure would, in our opinion, cut down significantly the incidence of haematemesis and exacerbations of ulcer symptoms."

British Medical Journal, July 2nd 1955.

RECKITT & COLMAN LTD., HULL & LONDON (PHARMACEUTICAL DEPT., HULL)

Treating Bucco-Pharyngeal Infections Without Recourse to Antibiotics

The dangers of using antibiotics for local application in the treatment of infections is constantly being stressed in the medical press. There has been a gradual increase in organisms resistant to antibiotics and alarm has been expressed at the number of cases where patients have become sensitised to an antibiotic during treatment.

Dequadin, which has a wider antimicrobial spectrum than penicillin, is not an antibiotic and Dequadin
Lozenges can be used freely in the treatment of infections of the mouth and throat without any ifear of sensitising the patient and without the risk of resistant strains developing.

DEQUADIN LOZENGES

In tubes of 20 lozenges each containing 0.25 mg. decamethylene-bis (4-aminoquinaldinium chloride).

'MEPAVLON', I.C.I.'s new tranquilliser, is distinguished by its ability to relieve both mental and muscular tension without dulling consciousness. It has proved to be particularly suitable for calming the nervous patient troubled with anxiety, restlessness and irritability. In such cases, 'Mepavlon' stabilises the emotions, relaxes tension and relieves nervous insomnia by inducing natural sleep. No less important: its toxicity is low, it is well tolerated, and side effects are rare.

'Mepavlon' thus combines effectiveness with safety and provides a most satisfactory treatment for the psychoneuroses and for the restoration of repose.

Fully active by mouth, 'Mepavlon' is presented in tablets each 400 mgm. in containers of 30 and a dispensing pack of 250.

A VITAMIN FOOD SUPPLEMENT OF WIDE APPLICATION

'VIMALTOL' is a delicious vitamin food concentrate of value to infants, children and adults. Its formula has been developed in the 'Ovaltine' Research Laboratories in the light of prolonged investigations by scientific experts in the field of dietetics. The malt extract, yeast, halibut liver oil, vitamins and iron in 'Vimaltol' are presented in a palatable and easily digestible form, which is taken readily over long periods.

When the quantity of vitamins supplied by the diet is known or suspected to be insufficient, 'Vimaltol' will provide some of the essential accessory factors to help to render the diet balanced and adequate,

'Vimaltol' is widely recommended as a dietary adjunct of use towards meeting the higher metabolic requirements of growing children.

Standardized to contain in each ounce not less than 2,000 i.u. Vitamin A; 200 i.u. Vitamin D; 0.4 mg. Vitamin B_1 ; 0.3 mg. Vitamin B_2 (Riboflavin); 4 mg. Niacin (P.P. Vitamin); 3.3 mg. Iron in a readily assimilable form.

The original easy-to-take, two-in-one tablet

for the prompt and prolonged relief of ASTHMA

ISO-BRONCHISAN was first produced in 1953 and offers a fresh approach to the problem of effective asthma control. The tablets, which are pleasant to take, have a coating containing easily dissolved Isopropyl-Nor-Adrenaline, a most potent bronchoditator, which, when absorbed by the sublingual route, produces the prompt relief of bronchospasm. The rest of the tablet, when swallowed, releases Ephedrine and Theophylline in balanced proportions and these, slowly absorbed along the alimentary tract, ensure long sustained antispasmodic action on the bronchial smooth muscle.

ISO-BRONCHISAN

Each tablet contains Isopropyl-Nor-Adrenaline (Isoprenaline) sulphate gr. ½; Ephedrine hydrochlor, gr. 2/5; Theuphylline gr. 2. In tubes of 20 tablets and bottles of 100 tablets. Tablets containing smaller quantities of the effective ingredients are now available for use in Paediatrics.

Samples and literature available on request.

suppresses useless cough

UNRELATED to morphine derivatives or guaiacol, and with none of their disadvantages, Becantyl suppresses useless cough. The active ingredient in Becantyl is Sodium-2:6-ditertiarybutyl-naphthalene monosulphonate. This chemical, which does not cause constipation, anorexia, drowsiness or other side-effects, is the result of original research.

SAFE AND EFFECTIVE

The lack of side-effects and its high therapeutic margin of safety makes Becantyl especially valuable for the treatment of useless cough in children and old people.

DOSES: Adults: 2 teaspoonfuls

Children: 3-6 years: ½ teaspoonful

7-15 years: ½ - 1 teaspoonful

three times a day or as prescribed

BECANTYL is available in 4 fluid ounce bottles, and also in 40 fluid ounce and 80 fluid ounce dispensing bottles

BECANTYL has no B.P. or N.F. equivalent, is not advertised to the public, and may be prescribed on form E.C.10.

BECANTYL

Literature and samples available from the Medical Information Department

Now you can choose . . .

CORTELAN (cortisone Glaxo)

EF-CORTELAN (hydrocortisone Glaxo)

DELTA-CORTELAN (prednisone Glaxo)

DELTA-EF-CORTELAN (prednisolone Glaxo)

Which do you choose ...

You may find this a difficult decision to make, now that prednisone and prednisolone can be prescribed in general practice. The following are the main points to consider for, and against, the delta-derivatives of cortisone before making your choice.

FOR

Prednisone and prednisolone are about four times as active as cortisone weight for weight, and they are less liable to cause salt and water retention.

AGAINST

The delta-derivatives are more costly. Less flexible in use.

Are reported to cause gastric upset more often.

When to use them

If the patient requires long-term cortico-steroid treatment at high dosage levels.

The esters of NICOTINIC, SALICYLIC and

p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

In Cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

LLOYD-HAMOL LTD

11 Waterloo Place, London, S.W.1. Tel. WHItehall 8654/5/8

Transvasin is the registered trade mark of Lloyd-Hamol Ltd.

Thank you, doctor"

powerful bactericidal action against "frequent offenders"

Bactericidal against gram-positive and certain important gram-negative organisms, Albamycin has a range of activity which includes the following "frequent offenders": staphylococci (including "resistant" strains), streptococci, pneumococci, proteus and certain strains of pseudomonas organisms.

orally effective

blood concentrations 10 to 50 times higher than with other antibiotics + retention in the body for as long as 24 hours prompt clinical response in many common infections on 2 doses daily

ADULTS - 500 mg. every 12 hours.

CHILDREN - 15 mg./Kg. of body weight per day, usually in two equal doses.

SUPPLIED 250 mg. tablets, bottles of 16 and 100.

They like Lucozade...

and they can keep it down—

Lucozade has won its place in the sickroom because it is so very palatable. Patients enjoy it and, what is more, they can keep it down even when other food is refused, or vomited. It is difficult to assess the value of Lucozade simply in terms of the glucose it contains. It is the patient's response which is, so interesting. Its acceptance so often coincides with a distinct and happy turn for the better.

There can be no doubt that Lucozade presents the beneficial properties of glucose in a most agreeable form.

TRAINING MADE EASIER FOR THE COLOSTOMY PATIENT

Training is the key to normal living for the colostomy patient.* SPENCER'S new colostomy support-individually designed, cut, and made for each patient -makes training easier, because:

- Abdominal section opens instantly by means of zippers—facilitating the change of pads.
- This section is lined with moisture-proof material—easily cleaned protects outer clothing.
- Spencer's co-relation of abdominal and back support improves posture, body mechanics.
- Cosmetic results are appreciated by both male and female patients.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Third Collection with classfied contents list to volumes 1, 2 and 3

548 pages. Price 25s. (by post-inland 26s. 6d., overseas 26s.)

This is the third collection of Refresher Course articles for General Inis is the third collection of Refresher Course articles for General Practitioners. The sixty articles first appeared in the British Medical Journal. Each article is written by an authority in his subject and has been revised to bring it up to date. Their purpose is to remind the practitioner of what is old and well established and to tell him of new developments. The book will also be of service to the specialist who wishes to keep in touch with other branches of medicine, and to students preparing for final examinations. A cumulative classified contents list of all three books in the Refresher Course for General Practitioners series adds to the usefulness of this volume.

From booksellers or by post from Publishing Manager

BRITISH MEDICAL ASSOCIATION B.M.A. HOUSE, TAVISTOCK SQUARE, LONDON, W.C.I

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent * testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,100 per annum in the first year; £1,200 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months

(b) SENIOR HOUSE OFFICER: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

(8230)

GOVERNMENTAL

GOVERNMENT OF NORTHERN IRELAND
Civil Service Commission

Civil Service Commission

MEDICAL OFFICER

Applications are invited for the post of Medical Officer in the Ministry of Health and Local Government. Subject to a probationary period of two years, the post will be permanent and pensionable. Candidates must be registered Medical Practifioners, preferably of at least ten years standing, with a wide experience of general practice and a sympathetic understanding of the problems of general practitioners working under the Health Services Scheme. Preference will be given to candidates who have also had experience in public health or hospital work. The consolidated salary scale is £1,600 per annum rising by annual increments to £2,200. The minimum of the scale is linked to age 35, minus £50 for each year below that age, and plus one increment for each year above that age, subject to a maximum entry point of £2,000. Exceptionally, a candidate age 40 or over on entry may receive starting pay above £2,000 according to qualifications and experience. Preference will be given to suitably qualified candidates who served in H.M. Forces during the 1914-18 or 1939-45 wars, provided the Commissioners are satisfied that such candidates are, or within a reasonable time will be, able to discharge the duties efficiently. Application forms and further particulars may be obtained from the Secretary, Civil Service Commission, Stormont, Belfast, Completed application forms, together with copies of two recent testimonials, must be returned so as to reach the Secretary not later than February 26, 1957. (8499)

COMMERCIAL APPOINTMENTS

INFORMATION OFFICER REQUIRED TO create and maintain an information service and card index in the field of pharmaceuticals and general medicine. The candidate should hold a pharmaceutical or medical or other suitable qualification and preferably be experienced in the searching of medical and other relevant literature, and the writing up of surveys. This is an important post with good prospects for the right man with salary commensurate with qualifications and experience, but not less than £800 per annum. Pension and bonus scheme in operation. Five-day week, Apply Managing Director, Beecham Research Laboratories Ltd., Brockham Park, Betchworth, Surrey. (8414) INFORMATION OFFICER REQUIRED

INDUSTRIAL APPOINTMENTS

Attention is drawn to the B.M.A. scale of re-muneration for Industrial Medical Officers, which is available on request from the Secretary.

is available on request from the Secretary.

AN INDUSTRIAL MEDICAL OFFICER IS required by the Birfield Group of Companies to serve as Medical Officer to several of its companies in the Birmingham area. The post calls for a man who has a vocational interest in occupational health and who is prepared to devote his activities exclusively to this appointment. He will be required in each company to give advice on working conditions in relation to health and hygiene, to conduct medical examinations, to liaise with hospitals and other members of the medical profession, and to provide medical supervision of the nursing staffs in the various medical departments. There has not previously been a full-time medical officer in the Group and as there are considerable plans for the development of health services, some industrial experience is desired. The initial salary will be determined on the basis of qualifications and experience; it will be in no case less than £1.400 and may be substantially more. Applications are invited from men who are resolved to make a career of this type of work and they are asked to write, giving particulars of age, training, qualifications, and career to date, to the Senior Personnel Manager, Hardy Spicer Ltd., Birch Road, Witton, Birmingham, 6.

Industrial Appointments—contd.

LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE (University of London) Incorporating the Ross Institute

DEPARTMENT OF MEDICAL STATISTICS AND EPIDEMIOLOGY

A course in the Application of Statistical Methods to Medicine and Epidemiology will be held from 10 a.m. to 3 p.m. on Tuesdays and Thursdays from Tuesday, March 5, to Tuesday, June 25, 1957, inclusive. Students without a medical qualification can be accepted. Details of the syllabus are obtainable on request. The fee for the course is 15 guineas. Application for admission must be made before February 26 to the Registrar, London School of Hygiene and Tropical Medicine, Keppel Street (Gower Street), London, W.C.1. (8470)

Readers frequently desire to refer to advertisements concerning appliances, preparations, etc., which have appeared in earlier issues of the *Journal*.

The Advertisement Director can supply particulars at any time.

In dealing with written inquiries, especially from overseas, correspondents are, wherever possible, put in direct contact with the advertisers in whose products they are interested.

LAWRENCE POOLE PRIZE IN REHABILITATION AFTER POLIOMYELITIS

LAWRENCE POOLE PRIZE IN
REHABILITATION AFTER POLIOMYELITIS

The second award of the above-mentioned Prize
from the Fund collected by the Edinburgh Branch
of the Infantile Paralysis Fellowship as a Memorial
to the late Lawrence N. B. Poole may be made
in 1957 to any student or graduate in the Faculty
of Medicine or the Faculty of Science (not
necessarily of Edinburgh University), under the
following conditions: (a) as an award to the
inventor of any significant equipment of proven
value in the rehabilitating of sufferers from poliomyelitis, or in facilitating their mode of life after
rehabilitation is complete, or (b) as an award to
anyone who devised some form of physical or
medical treatment which accelerated the rehabilitation of victims of poliomyelitis, or (c) as a prize
to anyone who has made a valuable contribution
to the knowledge of the prevention or cure of
poliomyelitis, or (d) as a grant for one, two or
three years to instigate and carry out any approved
investigation in the prevention, and/or cure of
poliomyelitis. Applications or nominations for the
Fraze should be lodged with the Dean of the
Faculty of Medicine, University New Buildings,
Teviot Row, Edinburgh, 8, by April 30, 1957, and
should give full particulars of the grounds upon
which the application or nomination is made.—
Charles H. Stewart, Secretary to the University.

RAUWILOID

reduces the pressure gradually and safely...

Of proved value in the treatment of mild to moderate hypertension, 'Rauwiloid' is a purified and standardized fraction of Rauwolfia serpentina in tablet form. It lowers elevated blood pressure gradually, slows the pulse rate, and so reduces cardiac effort. A calm, tranquil sense of well-being is induced, without drowsiness, and with little impairment of alertness. Dosage is not critical, and there are no important side-effects or contra-indications. Mental depression is unlikely to be encountered when 'Rauwiloid' is used in the recommended dosage. It is the medicament of choice for hypertension in its early stages, in order to arrest progression.

RIKER

*Rauwiloid' is a registered trade-mark.

Regu. Users:

RIKER LABORATORIES LIMITE

'Rauwiloid' contains 2 mg. of the active hypotensive alkaloids of Rauwolfia serpentina per tablet, undesirable constituents of the crude root being excluded by the extraction process.

Dosage is simple—two tablets at bedtime. Full literature on request.

Stop morning sickness 'ANCOLOXIN'

TABLETS

Meclozine dihydrochloride 25 mg., plus pyridoxine hydrochloride (vitamin B_6) 50 mg.

"The use of a combination of meclozine dihydrochloride and pyridoxine ('ancoloxin' tablets) in a series of cases of nausea and vomiting of pregnancy is reported. Rapid and effective control of symptoms was obtained in all cases, some of the patients having previously failed to respond to either antihistaminic treatment alone or to pyridoxine alone." (Practitioner, 1956 (Feb.). 176, 201).

DOSAGE:

2 tablets at night. 5 days of treatment is often sufficient for complete relief. Basic N.H.S. cost of treatment—
1/4 per day.

Containers of 10 and 50 tablets.
