RHEUMATISM AND KINDRED AILMENTS

Harrogate, the largest treatment centre in Great Britain, is actively engaged in providing all types of physical treatment in connection with the rheumatic diseases and all types of physical rehabilitation. Extensive alterations have taken place, including the equipment of the establishment with DEEP POOL THERAPY, medical gymnastic facilities and occupational therapy.

HARROGATE

Treats both private patients under its All-inclusive Treatment Scheme, and National Health patients.

Medical enquiries as to cost, and how treatment can be obtained, will be welcomed by :

E. ROBERTS, Manager
Section I

**THE ROYAL BATHS
HARROGATE**

The original easy-to-take,
two-in-one tablet

for the prompt and prolonged
relief of **ASTHMA**

ISO-BRONCHISAN was first produced in 1953 and offers a fresh approach to the problem of effective asthma control. The tablets, which are pleasant to take, have a coating containing easily dissolved Isopropyl-Nor-Adrenaline, a most potent bronchodilator, which, when absorbed by the sublingual route, produces the prompt relief of bronchospasm. The rest of the tablet, when swallowed, releases Ephedrine and Theophylline in balanced proportions and these, slowly absorbed along the alimentary tract, ensure long sustained antispasmodic action on the bronchial smooth muscle.

ISO-BRONCHISAN

Prescribable on Form E.C.10.

IMMEDIATE RELIEF

PROLONGED ACTION

Each tablet contains Isopropyl-Nor-Adrenaline (Isoprenaline) sulphate gr. $\frac{1}{4}$; Ephedrine hydrochlor. gr. $\frac{2}{5}$; Theophylline gr. 2.
In tubes of 20 tablets and bottles of 100 tablets.
Tablets containing smaller quantities of the effective ingredients are now available for use in Paediatrics.

Samples and literature available on request.

TRADE MARK

Reagent Tablets for the detection of
GLYCOSURIA **KETONURIA**
Both tests performed simultaneously in one minute!

'Clinitest' tablets have been widely used and prescribed since 1947. Many valuable hours have been saved. Following successful clinical trials, the makers of 'CLINITEST' have produced 'Acetest' reagent tablets for the detection of Ketonuria. Reliable routine sugar and acetone tests can now be carried out *together* in one minute!

'CLINITEST'

No external heating. No measuring of reagents.

Approved by the Medical Advisory Committee of the Diabetic Association.

Available under the N.H.S. on Form E.C.10.

(Basic Drug Tariff Prices: Set 6/8d. complete. Refill bottles of 36 Tablets 2/4d.)

'CLINITEST' HOSPITAL EQUIPMENT

An invaluable time-saver in wards and clinics. Write for details and hospital prices.

The advantages of 'ACETEST'

A single tablet provides all the reagents required. Low cost permits use as a screening procedure or as a routine for diabetic patients. No danger of false positives with normal urine. No caustic reagents.

- 1 Put 1 drop of urine on tablet.
- 2 Take reading at 30 seconds. Compare tablet to colour chart provided.
- 3 Record results as negative, trace moderate or strongly positive.

Available under the N.H.S. on Form E.C.10. Basic Drug Tariff price 3/10 per bottle of 100 tablets (with colour scale).

"In these days of economy in prescribing"

Extract from a letter in the BRITISH MEDICAL JOURNAL. August 11th. 1956, p. 374

"A recent annotation in the Journal, on the treatment of constipation, incriminates liquid paraffin as a cause of lipoid pneumonia and as an obstacle to the absorption of fat-soluble substances such as carotene and to the healing of wounds. In these days of economy in prescribing . . . the biologically standardized form of senna . . . is cheaper by half than paraffin, is far easier to dispense, and there is no wastage of storage space."*

POLYBACTRIN

antibiotic powder spray

INVALUABLE IN ALL BRANCHES OF SURGERY

Polybactrin provides a unique and economical means of applying a combination of Zinc Bacitracin, Neomycin Sulphate and Polymixin 'B' Sulphate—the three antibiotics of choice for topical use. The antibiotics are presented in an ultra-fine powder form dispersed under pressure with a propellant, and unlike other means of powder insufflation in common use, there is no risk of contamination of the antibiotics by airborne pathogens obtaining entry into the unit by suction.

A FRACTIONAL RELEASE GIVES COMPLETE DISPERSAL OF POWDER OVER THE WOUND

1. The *Polybactrin* unit offers a new technique for topical application of antibiotic therapy, enabling an efficient, economical and dry coverage of the wound area to be made.
2. The extensive range of bactericidal activity afforded by the triad of bacitracin, neomycin and polymixin gives an extremely wide coverage of wound pathogens without the risk of inducing resistant strains of organisms.
3. *Ps. pyocyanus*, particularly present in burns, is completely inhibited by polymixin, considerably reducing the healing time.
4. *Polybactrin* is not readily absorbed and there is no risk of systemic toxicity occurring.
5. The propellant gas is non-toxic and does not support combustion.
6. There are no contra-indications to the use of *Polybactrin*. Systemic therapy may be given concurrently if necessary.

FORMULA: Each pack contains: Neomycin Sulphate 750 mg. Polymixin 'B' Sulphate 150,000 units. Zinc Bacitracin 37,500 units. Propellant 83.5 g. Net contents 85 g.

In therapeutic doses Diphenatil (diphe-manil methylsulphate Glaxo) blocks that part of the parasympathetic nervous system concerned with gastric motility and secretion. It provides profound relief from pain and permits ulcer healing. By delaying the gastric emptying time Diphenatil may enhance the effect of antacid and dietary treatment.

Dosage is e-l-a-s-t-i-c Tablets are scored for half dosage. Initially one tablet (100 mg.) every four to six hours is usually sufficient. Up to two tablets may be given.

Wide safety margin With Diphenatil there is unusual freedom from side-effects and a wide margin of safety between therapeutic and toxic doses.

DIPHENATIL

The esters of NICOTINIC, SALICYLIC and p-AMINOBENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Roter tablets contain a balanced content of recognised buffers with supportive carminative and mildly laxative agents.

FORMULA PER TABLET

Magnesium Carbonate (400 mg.), Bismuth Subnitrate (350 mg.), Sodium Bicarbonate (200 mg.), Rhizoma Calami (25 mg.), and Cortex Rhamni Frangulae (25 mg.).

ROTER

TABLETS

F.A.I.R. LABORATORIES LTD., TWICKENHAM, MIDDLESEX.

Results

"The immediate clinical results were assessed after the first month's treatment in four main groups: (A) pronounced relief (symptom free); (B) definite relief (minor symptoms with no pain); (C) doubtful relief (symptoms persisting but improved); (D) no relief.

"Table II shows that 81% of cases became symptom-free—70% of them during the first week and 30% during the second week; a further 9% were relieved of the majority of their symptoms. Thus there was a satisfactory response in 90% of cases.

TABLE II

Group	Active Ulcers	Presumptive Ulcers	Totals
A	63 (79.6%)	17 (89.0%)	80 (81.7%)
B	8 (10.2%)	1 (5.5%)	9 (9.2%)
C	6 (7.6%)	1 (5.5%)	7 (7.1%)
D	2 (2.5%)	0 (—)	2 (2.0%)
TOTALS	79 (100%)	19 (100%)	98 (100%)

"Four of the nine cases in groups C and D have elected to go to surgery, and one of the remaining cases has a hiatus hernia as well as a duodenal ulcer. Experience of treating these 'Failures' over the past six years leads one to believe that no form of medical treatment will be effective and that surgery is the only hope of relieving their symptoms. In 75% of cases the patients were of the opinion that the tablets were superior to alkaline powders, and they found that they were able to take foods which they had avoided for years."

Extracts from the
BRITISH MEDICAL JOURNAL
1955, 2, 827

"SUMMARY: Seventy-nine cases of peptic ulcer and 19 of presumptive peptic ulcer have been treated with Roter tablets. Immediate clinical response was satisfactory in 90% of patients, with a relapse rate of 57% in the first year; a reduction in the average number of relapses was recorded in 15 cases kept on a maintenance dose for one year."

PACKINGS: Tins of 40, 120, 640, and dispensing size 720 (P.T. exempt). Basic N.H.S. price: 1/- for 10 tablets.

Roter Tablets are not advertised to the public, and may be prescribed on E.C.10 forms. Literature and samples on request.

Handicaps or Revicaps?

REVICAPS ARE a valuable aid in solving the problems of weight reduction. They help the patient to follow a restricted diet, simultaneously providing all essential vitamins and minerals to prevent dieting deficiencies.

The methylcellulose content (200 mg.) provides bulk and the inclusion of 5 mg. of d-amphetamine sulphate suppresses appetite and elevates the mood of the patient—thereby improving his co-operation.

MICTINE*

Effective,
Non-Mercurial
Oral Diuretic

STRUCTURE

"Mictine," brand of aminometradine, is 1-allyl-3-ethyl-6-aminotetrahydropyrimidin-2-one. It avoids the undesirable side-effects associated with mercurial, xanthine or sulphonamide agents.

ACTION AND EFFECTIVENESS

"Mictine" is believed to act by inhibition of sodium ion absorption in the renal tubule. In therapeutic dosage it has not caused any effect on glomerular filtration rate, renal plasma flow, cardiac output, heart rate or blood pressure, nor any alteration in the blood or blood-forming tissues or in renal or hepatic function. In a group of unselected patients 70 per cent. may be expected to respond to "Mictine".

TOLERANCE

"Mictine" is not toxic at therapeutic dosages. On the other hand, side-effects do occur such as headache and gastro-intestinal symptoms. These are reduced to a minimum if an interrupted dosage scheme is adopted.

ADMINISTRATION

"Mictine" is indicated in the maintenance of an oedema-free state in any patient requiring diuretic therapy and the effecting of initial diuresis in all patients but those with severe congestive failure. For these purposes the dosage is one to four tablets daily in divided doses *during meals* on alternate

THE NEPHRON UNIT

days or on three successive days followed by four days without therapy. "Mictine" is not intended to produce initial diuresis in more severe congestive failure; however, "Mictine" may be given when other diuretics are contra-indicated, or if tolerance to them has developed.

Available in bottles of 25, 100 and 500 tablets each containing 200 mg. aminometradine.

Full literature is available to the medical profession on request. G. D. Searle & Co. Ltd., High Wycombe, Bucks. Tel. High Wycombe 1770.

Surgical and Orthopaedic Supports

AN efficient system of support designed for use in the treatment of physical disability, deformity or disease. CAMP Supports are used for treatment in Abdominal Surgery, Spinal Conditions, Gynaecology and Obstetrics. The CAMP service includes belts designed for use in Emphysema, Spinal, Ante-natal and Post-natal conditions. Also Post-operation, Visceroptosis, Hernia, Pendulous Abdomen, Pelvic Traction and Cervical Traction. Camp Supports embodying dominant features not existing in other makes combined with correct anatomical design, give an adaptable rigid support with the required pressure and uplift without constriction to organic function.

The unique CAMP single-pull adjustment operates through self-locking buckles to the precise degree required.

Illustrated Reference Books and full, information sent on request

THE CAMP-VARCO PELVIC TRACTION

system is designed to avoid the complications of thrombophlebitis, swollen ankles and knees. The Traction Belt has been developed for use in the treatment of low-back injuries and has been applied with good results in cases of herniation of the nucleus pulposus in the lumbar intervertebral spaces. Also for the relief of minor fractures of the lumbar and sacral vertebral appendages and of the pelvis, and in Spondylolisthesis.

CAMP CERVICAL TRACTION

The CAMP "Angle-Flexion" Head Halter has been designed and constructed to operate at a recommended angle of 35 degrees from the horizontal, that is, with the patient in a recumbent position and head supported on an approximately 4 in. deep pillow. It can be used effectively in the treatment of conditions arising from Brachial-Plexus Syndrome, "Slipped Disc," Osteoarthritis (hypertrophic and atrophic), Spondylitis, Stiff Neck, strains, sprains, etc.

THEODROX

Brit. Pat. 727831.

—the oral aminophylline
preparation which ensures
full therapeutic response

The efficiency and value of aminophylline therapy has long been acknowledged, but difficulties of administration have restricted to some extent its use. Though plain aminophylline was very effective if a certain blood concentration of the active component theophylline had been attained, the oral dosage necessary to produce such blood levels often gave rise to gastric distress, so that parenteral administration was almost unavoidable. 'Theodrox' overcomes the disadvantages of conventional aminophylline therapy. Consisting of aminophylline combined with specially prepared aluminium hydroxide, 'Theodrox' when given orally enables doses of aminophylline to be given which produce blood levels of theophylline hitherto only obtainable by parenteral administration.

indications

For the treatment of Bronchial or Cardiac Asthma; as a diuretic in Congestive Heart Failure; as a supplement to emergency treatment in Status Asthmaticus; Angina Pectoris.

THEODROX

is available in bottles of 25, 100 and 1,000 tablets, each containing 3 gr. of aminophylline B.P., and 4 gr. dried aluminium hydroxide.

THEODROX WITH PHENOBARBITONE is also available, each tablet containing in addition $\frac{1}{2}$ gr. phenobarbitone.

Detailed literature will be gladly sent on request.

OLEANDOMYCIN TETRACYCLINE

Pfizer

Σ

Pfizer, the world's largest producer of antibiotics, announce the introduction of Sigmamyacin. This is a 2:1 combination of tetracycline and the newly-discovered medium-spectrum antibiotic oleandomycin. It has been clearly shown, both *in vitro* and *in vivo*, that this combination demonstrates synergism.

Sigmamyacin capsules contain 167 mg. tetracycline and 83 mg. oleandomycin. Available in bottles of 16 and 100.

Effective in a wide range of Childhood Illness

Suspension Chloromycetin* Palmitate, a palatable liquid preparation of Chloromycetin, simplifies the administration of this potent broad-spectrum antibiotic to infants and children, or to those patients unable to swallow capsules. Each teaspoonful (4 c.c.) provides 125 mg. Chloromycetin. Suspension Chloromycetin Palmitate has been used successfully in many serious respiratory infections of childhood, including staphylococcal pneumonia, bronchiolitis, laryngotracheobronchitis and early pertussis, as well as in acute infantile gastroenteritis and urinary infections.

Pixcyl and Psorox

Coal Tar has long been accepted as one of the most effective medications for use as a topical application in the treatment of Psoriasis.

The Genatosan tar fractions incorporated in Pixcyl, Psorox, Genisol and Sebigen, offer tar therapy without many of the disadvantages associated with crude coal tar. Extensively screened against sensitization, and in bases to suit each phase of the disorder, they offer the physician the three essential factors in his choice of an effective topical application that combine to give a suitable approach to Psoriasis.

Pixcyl, Psorox, Genisol and Sebigen are all available on E.C.10.

Containing:
Pixcyl Purified tar fractions
(equivalent to crude coal tar) 3%
Salicylic acid B.P. 1%
Starch B.P. 11.5%
Zinc oxide B.P. 11.5%
Non drying base.

Containing:
Psorox Purified tar fractions
(equivalent to crude coal tar) 10%
Salicylic acid B.P. 3%
Ammoniated mercury B.P. 2% w/w
Mixed paraffin base.

'Infant Feeding
with Evaporated
Milk'.

Safety, simplicity and digestibility in

INFANT FEEDING

Safe—Libby's Evaporated Milk is fresh cow's milk concentrated, sealed in cans and sterilized so that it remains sweet and safe indefinitely. It cannot cause diarrhoea or other digestive symptoms due to bacterial contamination.

Simple—In making the formula, no boiling or straining of the milk is required. It is prepared simply by adding boiled water and granulated sugar.

Easily Digested—Digestibility depends upon low curd tension and small curd particle size.—The sterilization by heat of Libby's Milk is far more effective than is boiling in lowering curd tension.

BUT curd particle size is an even more important index of digestibility than is curd tension, as shown by Doan and co-workers in the United States. Libby's Evaporated Milk, reconstituted with water and curdled with rennin, which approximates conditions occurring in the infant's stomach, remains liquid with suspension of extremely fine curds, similar to human milk, and much finer than curd from boiled or any other kind of cow's milk.

Photomicrographs showing comparison of curds from:

A—Human Milk.

B—Libby's Evaporated Milk mixed with $1\frac{1}{2}$ times its volume of water.

C—Pasteurized Milk. Each specimen was curdled by the addition of rennin. During the precipitation the milks were stirred constantly to simulate conditions in a baby's stomach.

YOUR CAR WON'T LAST FOR EVER!

If you'll need hire-purchase facilities for the next one, you will have to save to meet the instalments . . . by starting earlier under the

CARSAVERS PLAN

You have these advantages:

- ★ **lower monthly payments**
- ★ **low rates of hire charges**
- ★ **no need for any lump sum**

Payments must commence at least six months before the vehicle is required—this now covers the legal deposit on a new car—and may extend up to two years afterwards (at the same rate) under a hire-purchase contract.

You don't have to decide in advance what make (new or used) you want or where to get it—till then you are not committed in any way and can withdraw your money with interest.

The sooner you start, the easier and cheaper you can make it! Write or 'phone to-day for full particulars, without obligation, to:

The interesting case of

THA NGE NA

"In this land of plenty, (Burma) imaginary fears against certain nutritious and essential articles of food, keep mothers and growing children on a practically starvation diet. Here is, therefore, one major cause of increased infant mortality, poor health, poor resistance against infectious diseases, poor development and retarded growth . . . Many mothers have brought infants to me who were in a critical and hopeless condition.

They were at a loss when asked what they thought caused the ailment. 'Tha Nge Na' ('The disease which attacks babies') was all they could think of . . . I had to explain to them that if they cared to listen to some advice regarding a preventive diet, they would not have occasion to bring their infants in a critical condition, and that any physician, having rightly diagnosed the case, could effect the same wonderful results by following the right line of treatment".

The Journal of Tropical Paediatrics, 1955. Volume 1 Page 47.

A healthy Burmese boy enjoys his mid-day feed.
U.N.O. photograph

Doctors in many parts of the world will recognise, in this interesting Burmese case, a problem similar to their own. An obvious answer is to provide a nutritionally

sound 'preventive' diet from the weaning age onwards. Farex is ideal for this purpose. In Farex a well-balanced ration of fat, carbohydrate and protein is ensured by mixed cereal flours which are pre-cooked for easy digestibility. Essential minerals and vitamins are added. In addition Farex may be given a variety of flavours including those locally familiar and trusted.

Working for the Nation's Children.
No. 5

Dad was in a mess

As an Inspector of the N.S.P.C.C. I often come across men who reckon they could run their homes far better than their wives do. I had such a case a few months ago. I found the man had been giving his wife £4 a week and expected her to keep the family (there were six children) on that, after she had paid out the rent of 28/6 a week. She just couldn't do it and so he took over; and what a mess he was in when I was sent for.

They were owing more than £10 for rent and there were bills outstanding for groceries, milk and vegetables. I had a word with him and he just went dumb, but before long mother had the reins in her hands once more. I had, of course, to see various people to whom money was owing and asked them to agree not to press their claims while a little was paid off each week.

Mother now gets £6 and all is well. Father, too, seems to be happier now he's no longer responsible for running the house. He even smiles, perhaps a bit wryly, when I meet him, and he is not adverse to a chat. Naturally, the children are very much happier.

Cases like this—an actual case on the files of the N.S.P.C.C.—are dealt with frequently by the Society; for the scope of the Society's work is very much wider than cases of cruelty or gross neglect. If the Society can do anything at any time to help children whose welfare, happiness or future is in jeopardy, it will do so. This vital humanitarian work depends on your subscriptions and support. Please send your contributions to:

announce the introduction of

A new preparation for the treatment of dysmenorrhoea. Femerital contains Dibutamide¹, a completely new and specific uterine antispasmodic, the action of which is free from side-effects in the circulatory and gastro-intestinal systems.

In Practice, Dibutamide has been found to be superior to placebos in the relief of dysmenorrhoea². In all some 600 cases have been treated and over 75% have gained relief.

In addition Femerital contains phenacetin and salicylamide for the central relief of pain and caffeine to counteract the depression which so often accompanies dysmenorrhoea.

Detailed literature and sample for trial will be gladly despatched upon request.

¹ *J. Amer. Chem. Soc.*, 1954, 76, 6192.

² *Lancet*, 1955, 269, 122.

Dibutamide, alpha-dibutylamino-alpha-(p. methoxy phenyl)-acetamide is manufactured in accordance with patents applied for.

CHEMOTHERAPY OF TUBERCULOSIS

the newest proven modification of PAS for safe, acceptable, convenient and therapeutically reliable performance in combined regimens with Isoniazid.

B-PAS (Wander), 4-benzoylamino-2-hydroxybenzoate, first introduced by our Research Laboratories in 1948, is an acknowledged contribution to tuberculotherapy.

ADVANTAGES

CALCIUM B-PAS (Wander) is virtually insoluble.
It provides high blood levels of extended duration.
It is practically tasteless.
It is well tolerated and best suited for domiciliary use.

MULTIPLE PRESENTATION FOR COMBINED REGIMENS

CALCIUM B-PAS (Wander) is available as such in two convenient forms: Powder and Cachets. Content in each form is ranged so that the daily regimen is simplified. The 3.5 g. Powders taken with a draught of water or milk are especially acceptable. For combined regimens of B-PAS and INAH, 'B-PASINAH' Powders and Cachets according to preference supply the advantage of concurrent therapy in readily acceptable form which practically ensures the patient's co-operation in carrying out instructions.

PACKINGS

CALCIUM B-PAS **WANDER**

Powders: Tins of 150 and 500 x 3.5 g. envelopes
Cachets: " " 80 and 400 x 1.0 g.
Sodium B-PAS (Wander) also available in 1.5 g. Cachets

'B-PASINAH' (B-PAS plus Isoniazid)

Powders: Calcium B-PAS (Wander) 3.5 g.
Isoniazid 87.5 mg.
Tins of 150 and 500
Cachets: Calcium B-PAS (Wander) 1 g.
Isoniazid 25 mg.
Tins of 100 and 500

Full Abstracts from Literature on B-PAS, also details of institutional quantities and prices sent on request.

'PASINAH' Cachets of 1.5 g. Sodium PAS and 17, 25, 33 or 50 mg. Isoniazid also available.
Tins of 100 and 500

The Ambulatory Treatment of Ulceration of the leg

The plaster used in the manufacture of "Lestreflex" is innocuous to newly formed tissue cells and leucocytes and the bandage is unsurpassed in the ambulatory treatment of ulcerations of the leg. It provides a means of alleviating pain and promoting rapid healing. This bandage is often successful where allergy to other bandages has arisen. Lestreflex is also available with strip ventilation, assuring aeration to the wound.

LESTREFLEX ELASTIC DIACHYLON BANDAGE

AVAILABLE ON E.C. 10

This new booklet describing the ambulatory treatment of ulceration of the leg is now available and will be sent to members of the medical profession on request.

The "light diet" patient needs protein

KEEPING AN INVALID ON A LIGHT DIET may be no light matter to a busy housewife. Sick people tire quickly of milk foods—and in many cases there is a physical reaction against them.

Brand's Essence is a boon in sickness. It provides a useful protein supplement to the diet, in an ideal form for invalids: a fat-free, appetizing jelly that even the weakest system can rapidly absorb. Ready to serve in various ways, it is delicious just eaten with a spoon, spread on bread and butter, warmed up as a liquid, or mixed with milk.

Brand's Essence doesn't cloy—sick people often enjoy it when they can't take anything else. And it revives appetite amazingly.

The addition of Brand's Essence to low residue and weight-reducing diets is especially appreciated by the patient.

NORTHERN

NIGERIA

VACANCIES FOR MEDICAL OFFICERS

The Medical Officer in charge of an area is the Health Adviser to the local Native Administration.

His work relates preventive medicine to clinical practice.

A full and varied life of absorbing professional interest.

Pleasant living conditions : dry, high and generally healthy for Europeans.

Quarters at low rental.

Income Tax at low local rates.

Permanent appointments available carrying non-contributory pension, with opportunities for paid study leave in United Kingdom.

SALARIES for permanent Medical Officers in scale from £1,212-£1,950 p.a. : starting salary according to experience. Doctors possessing approved higher qualifications receive additional increments of salary. Staff pay of £100 p.a. for officers employed in posts from which private practice is debarred.

Good promotion prospects to posts carrying superscale salaries.

SHORT TERM (Non-pensionable) contracts on enhanced salary scale of £1,434-£2,286 p.a. Starting salary depending on qualifications and experience. Gratuity on termination of contract.

National Health Service Superannuation rights can be preserved.

Oversea tour of 12-24 months according to age and generous paid leave.

Free passages for doctor and wife, and cost of passages for children to maximum of one full fare.

Allowances for children of £120 p.a. for first child, £96 p.a. for second and £72 p.a. for third.

Clothing allowance of £45 on appointment (within salary limits). Baggage allowance and travelling expenses in Northern Nigeria. Disturbance allowance (when moving stations). Touring equipment allowance £40.

Apply to :—

Director of Recruitment,
Colonial Office,
Great Smith Street,
Westminster, S.W.1.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

**THE OTAGO HOSPITAL BOARD AND
UNIVERSITY OF OTAGO, NEW ZEALAND****JUNIOR SPECIALIST ANAESTHETIST
Dunedin Hospital
ASSISTANT LECTURER IN ANAESTHETICS
Otago Medical School**

Applications are invited for the above position which is vacant at the present time, from those who hold a Degree in Medicine of an approved University. The position is full-time, and private practice is not permitted. The position is designated as that of Junior Specialist under the Hospital Employment (Medical Officers) Regulations. Salary scale £1,600 to £1,900 by annual increments of £100. The commencing salary will be in accordance with the appointee's qualifications and experience. Duties will include the practical teaching of Anaesthetics to Medical and Dental students. The position is non-resident. Travelling expenses will be paid in accordance with the table set out in the Conditions of Appointment. Applications for this position should be made on the prescribed form obtainable from the office of the High Commissioner for New Zealand, 415, The Strand, London, or from the office of this journal, who will supply further information and Conditions of Appointment. Applications should be in the hands of the undersigned not later than 10 o'clock a.m. on Monday, March 25, 1957.—W. A. Williamson, Secretary, Otago Hospital Board, P.O. Box 946, Dunedin, New Zealand. (8273)

**UNIVERSITY COLLEGE HOSPITAL OF THE
WEST INDIES**

Applications are invited for the post of **RADIOLOGIST** at the above-named hospital, which is in special relationship with the University of London. The contract will be for three years in the first instance, renewable, and the salary will be at the rate of £2,000 per annum, together with an allowance of £250 per annum from the University College in respect of teaching duties. The appointment will be full-time and the holder of the post will be required to contribute 5% of his salary to the hospital's superannuation scheme. The Radiologist will be provided with an unfurnished house, for which he will be charged at the rate of 5% of his salary. Applications (six copies), stating full details of qualifications, present post and previous experience, together with the names and addresses of three referees, should be sent, not later than March 15, to the Hospital Manager and Secretary, University College Hospital, Mona P.O., Jamaica, B.W.I., from whom further information may be obtained. (9351)

WANTED, INTERNS FOR JULY, 1957. SALARY \$100 monthly with full maintenance. 12 months' rotating service. Teaching programme. Write, Thomas J. Quigley, M.D., St. Vincent's Hospital, Staten Island 10, New York, N.Y.

OVERSEAS (Wanted)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.**

APPLICATIONS ARE INVITED FOR TWO EMPIRE RHEUMATISM COUNCIL FELLOWSHIPS, at a salary, according to qualifications and experience, of up to £1,500 per annum, renewable annually for a period of three years, to prosecute research in the field of rheumatism. Medical or scientific qualifications are needed and the applications, stating age, qualifications and experience, together with details of proposed research, should be sent, with the names of two referees, to the General Secretary, Empire Rheumatism Council, Tavistock House (N), Tavistock Square, London, W.C.1. Further information available on application to the above. (9352)

CLARE COLLEGE**HARRISON WATSON STUDENTSHIP FOR
MEDICAL RESEARCH**

The Governing Body of Clare College, Cambridge, invite applications for a Harrison Watson Studentship commencing on October 1, 1957. The Studentship, which is open to male graduates of any University in any country, is for research or training in research "into the causes and cure of tuberculosis, and/or other diseases of an allied character." The Governing Body intend to interpret these terms in the widest possible sense and they invite detailed enquiries. The Studentship may be: (i) a Junior Studentship of value between £500 and £650 a year, normally tenable for three years, or (ii) a Senior Studentship of value between £800 and £1,000 a year, tenable for one, two or three years. The Student may also hold another award or post, and may engage in a limited amount of teaching, if in the opinion of the Governing Body these do not interfere with his research. The Student will be required to become a member of Clare College and the University of Cambridge, and to reside and work in Cambridge. Applications should contain an account of the applicant's career, and a general statement of his proposed course of research. No testimonials need be submitted, but the names and addresses of not fewer than two referees should be sent. Applications and enquiries should be addressed to the Master, Clare College, Cambridge. The closing date for application is March 31, 1957. (8756)

UNIVERSITY OF LONDON

The Senate invite applications for the **READERSHIP IN CHEMICAL PATHOLOGY** tenable at King's College Hospital Medical School (salary within the range £1,900 to £2,400 or £1,450 to £2,050, according to qualification). Applications (10 copies) must be received not later than March 12, 1957, by the Academic Registrar, University of London, Senate House, W.C.1, from whom further particulars may be obtained. (9326)

SCHOLARSHIPS**THE MIDDLESEX HOSPITAL MEDICAL
SCHOOL****LEVERHULME RESEARCH SCHOLARSHIP IN
CLINICAL MEDICINE**

Applications are invited for a Leverhulme Research Scholarship, value £1,000 per annum, plus superannuation. The Scholarship shall be for one year in the first instance. The scholar must satisfy the Middlesex Hospital Medical School that the major part of his time will be spent in research, but he may be allowed to hold other appointments. The work may be related to any branch of medicine, but be essentially clinical and will be carried out in the Institute of Clinical Research attached to the Middlesex Hospital Medical School. Applications, with the names of two referees, and a summary of the proposed work should reach the Secretary of the Institute of Clinical Research, The Middlesex Hospital Medical School, 40, Hanson Street, London, W.1, not later than March 12, 1957. (9434)

HOMES

ST. ANDREW'S HOSPITAL, NORTHAMPTON for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: Insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department for Diathermy and High-frequency treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 5354 (3 lines)), who can be seen in London by appointment.

CHISWICK HOUSE, PINNER, MIDDLESEX

Telephone: Pinner 234

Private Nursing Home for Mental and Nervous illness. All modern forms of treatment. Two country houses in adjoining grounds of 5 and 6 acres respectively. 12 miles from London. Trains every 15 minutes from Baker Street to Pinner.—Douglas Macaulay, M.D., D.P.M.

Psychiatric Nursing Home, 235-7, Ballard Lane, N.3. Tel.: FINchley 5283. Resident Med. Director, Dr. R. M. Riggall, Mem. Brit. Psycho-Analytical Society. Deep insulin coma unit, psychotherapy, etc. Fees from 12 gns.

The Charges for CLASSIFIED ADVERTISEMENTS are shown on the Inside Back Cover February 9 issue

CHEADLE ROYAL, CHEADLE, CHESHIRE

Registered Mental Hospital

President:

The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation, the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema, television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent. Telephone: GATLEY 2231.

BAYER

**Nasal
decongestion
without
unpleasant
side-effects**

Neophryn is more sustained in effect than ephedrine or adrenaline, yet safer than either. Neophryn will not cause C.N.S. stimulation or sedation; stinging and secondary congestion are very rare and there is no impairment of ciliary movement. This freedom from side-effects makes Neophryn the first choice for children and infants as well as for adults.

NEOPHRYN

Trade Mark

Neophryn is a sympathomimetic amine (1-m-hydroxy-methylamino-methyl benzyl alcohol HCl) *in aqueous solution*, available in a plastic atomiser which gives a fine spray, or as drops, which are more suitable for children.

**A special Neophryn plus antihistamine spray is also available.*
