OPENING A NEW AND QUICKER RELIEF FOR SKIN DISORDERS

The effectiveness of
Hydro-Adreson Ointment
is due to

- ★ the hydrocortisone being included in
- ★ the **Neutral Base**, thus any skin irritation due to acidity or alkalinity is avoided.
- ★ The **Smooth and Pliable Consistency** which allows adequate coverage without additional injury from friction to already damaged tissue.

This special bland base is free from excessive greasiness.

The Hydrocortisone it contains is now the acknowledged treatment of choice in many skin disorders. Hydro-Adreson effectively reduces hyperaemia and oedema, relieves pain, and

dries up exudative areas. By rapidly relieving irritation the ointment reduces the risk of further damage and infection from scratching and speeds the healing of lesions.

Hydro-Adreson (hydrocortisone free alcohol) ointment is supplied in tubes of 5gm. or 15gm. in two concentrations of 1% (10mg. per gm.) or 2.5% (25 mg. per gm.).

SYMPOSIUM OF TUBERCULOSIS

Edited by

F. R. G. HEAF, M.A., M.D., F.R.C.P.

David Davies Professor of Tuberculosis,
Welsh National School of Medicine

This book deals with all the most prevalent forms of tuberculosis and with the many problems arising therefrom, and one of its aims is to emphasise the unity of the disease—that tuberculosis is a systemic disease with local manifestations. Among subjects covered are epidemiology, prevalence, prevention and tuberculosis in animals; and respiratory and non-respiratory tuberculosis, tuberculosis in children, in the tropics and in industry; and rehabilitation.

Clinical Physiology

the functional pathology of disease

edited by ARTHUR GROLLMAN

Professor of Experimental Medicine
The University of Texas Southwestern
Medical School

Consultant in Internal Medicine
Baylor University Hospital

Twenty-six specialists have contributed to this book, which examines the principles underlying modern clinical medicine. The term 'physiology' is used in its broad sense as 'the experimental basis of medicine', and includes much that is normally considered under biochemistry, pathology, pharmacology and bacteriology. The book describes the mechanisms which control the body in health, and the deviations in those mechanisms caused by disease. It complements classical pathology by studying the functional instead of the morphological disturbance of disease. Aspects of medical research and experiment which have particular application to the daily practice of medicine are examined in detail. For this reason the book will interest the general physician as well as the specialist and research worker in internal medicine.

March 1957 800 pages illustrated about 90s

"The common association of an anaemia with rheumatoid disease has been recognised for many years . . ."

Iron?—"Blood transfusions have been given with good results but improvement has been transient".

Oral iron?—"The prolonged administration of iron by mouth has not proved very effective".

Intravenous iron?—"...the difficulty of giving such injections to patients with joint deformity is a drawback as well as the liability to cause unpleasant side reactions".

Intramuscular iron?—"Clearly, an iron preparation for intramuscular injection free from side effects and

fairly rapidly absorbed would be a great advantage.... It is concluded that... in the treatment of the anaemia of rheumatoid arthritis... intramuscular iron is as beneficial as intravenous iron and easier to administer." *Ann. Rheum. Dis.*, 1956, **15**, 51.

Conclusion :

A fall in haemoglobin is a common feature in arthritis and its restoration to normal is an essential part of the treatment. Restoration of a normal haemoglobin level can be quickly and surely achieved with Imferon.

CHEMOTHERAPY OF TUBERCULOSIS

the newest proven modification of PAS for safe, acceptable, convenient and therapeutically reliable performance in combined regimens with Isoniazid.

B-PAS (Wander), 4-benzoylamino-2-hydroxybenzoate, first introduced by our Research Laboratories in 1948, is an acknowledged contribution to tuberculotherapy.

ADVANTAGES

CALCIUM B-PAS (Wander) is virtually insoluble.
It provides high blood levels of extended duration.
It is practically tasteless.
It is well tolerated and best suited for domiciliary use.

MULTIPLE PRESENTATION FOR COMBINED REGIMENS

CALCIUM B-PAS (Wander) is available as such in two convenient forms: Powder and Cachets. Content in each form is ranged so that the daily regimen is simplified. The 3.5 g. Powders taken with a draught of water or milk are especially acceptable. For combined regimens of B-PAS and INAH, 'B-PASINAH' Powders and Cachets according to preference supply the advantage of concurrent therapy in readily acceptable form which practically ensures the patient's co-operation in carrying out instructions.

has stood the test of time

Seaks more readily than hand-rolled bandages.

Sets firmly in four to five minutes.

Stronger yet less brittle than ordinary plaster.

Casts have porcelain-like surface.

Casts are porous.

Trimmed edges do not crumble and casts have a neat appearance.

Casts may be bivalved, or cut open

and sprung apart without loss of strength.

Exact number of bandages for a particular cast can be determined beforehand.

Special interlocked woven cloth permits easy moulding.

High plaster content—90% of plaster by weight.

Will keep for a very long time without deterioration when stored in a dry place.

The absence of loose powder and the non-fray edges of the specially-woven leno cloth base of Gypsona bandages provides a distinct advantage over hospital-made bandages.

In performance, the superiority of Gypsona is even more marked. The high plaster content is fixed to the fabric by a special process, and there is a negligible loss of plaster when the bandage is soaked. A surprisingly small amount of material will produce a cast which is light, but of great strength.

Gypsona is by far the most economical plaster for the modern functional treatment of fractures.

IT is generally agreed that cases of soft-tissue rheumatism and of many types of arthritis benefit by hyperaemia of the affected tissues. Transvasin, which contains two quick-acting esters of nicotinic acid, induces such a deep and prolonged hyperaemia at the same time as it produces superficial erythema.

In addition to the esters of nicotinic acid, Transvasin contains the fat- and water-soluble esters of salicylic and p-aminobenzoic acids. Both these well-tried analgesic drugs are readily conveyed through the skin in therapeutic quantities and enable an effective concentration to be built up where they are needed.

Transvasin is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

The graph above is of an experiment to measure the effect of Transvasin on skin temperature on a subject. The red line plots the skin temperature before and at intervals after a single application of one inch of cream (0.924 grams) from a tube of Transvasin. The black line gives similar information with regard to the application of a plain vanishing cream used as a control. Skin temperatures were measured with an electro-thermo couple every five minutes for two hours. Photographs show the affected area before application; three minutes and thirty minutes later.

When a child needs a sedative

Whether for analgesic or anti-pyretic purposes, Angiers is the ideal form of aspirin and readily taken by the youngest patient.

The tiny pink tablets are sweet and orange flavoured, pleasant to suck or chew and easy to swallow. They are promptly effective since they disintegrate as rapidly in the stomach as they do in milk or water. Each tiny tablet contains exactly 1.25 grains of pure Acid Acetyl-salicylic with 1.50 grains of 'Di-Calcium Phosphate to ward off Salicylic-irritation of sensitive little stomachs.

MORE AND MORE DOCTORS are finding that the CARSAVERS PLAN

*solves the problem of financing
car purchase or replacement*

You start instalments—completely uncommitted—at a rate convenient to your income and requirements *at least 6 months beforehand* (2-3 years ahead if you wish) and acquire the vehicle of your choice, new or used, from any dealer at your convenience. Hire-purchase facilities (at rates which decrease automatically as your savings accumulate) then enable you to continue payments of *the same amount* for up to two years afterwards—or you may at any time withdraw your funds with interest.

Your car depreciates every month and will be scrap metal one day. Why dip into capital to stay on the road? Enquire *now* about this unique and extremely advantageous method of buying out of income. Don't wait until you need the car—it's then too late! Write or 'phone to-day, without obligation, to:

CITROZE

TRADE MARK

The New Economical Glucose Drink

CITROZE is a triple strength glucose-drink made with pure glucose and flavoured with whole fresh lemons. Because Citroze is a concentrate, it cuts down health drink expenses. A 26 fl. oz. bottle costs only 3/6 and makes four pints of ready-to-drink Citroze which complies with the regulations for a dextrose beverage. For an easily prepared hot toddy Citroze can also be diluted with hot water.

INGREDIENTS: 30% Dextrose monohydrate, sugar, lemon juice, citric acid and benzoic acid

for up-and-at-'em energy!

ANGINA PECTORIS

'MYCARDOL' is a long-acting nitrite used in the routine control of angina pectoris. It gives prolonged protection against severe attacks, improves exercise tolerance and reduces the need for repeated doses of trinitrin—in some cases eliminating it altogether. Low toxicity makes this drug especially suitable for continuous long-term symptomatic treatment.

pentaerythritol tetranitrate.

Packings: tablets of 30 mgm. in bottles of 100 and 1,000. The basic N.H.S. cost of one week's treatment (6 tablets daily) is 11½d.

A cough elixir for the relief of coughs associated with the upper respiratory tract

Over many years this elixir has proved to be one of the best of its kind in the treatment of troublesome and irritating coughs, and particularly acute and chronic bronchitis and cough associated with pulmonary tuberculosis. A $\frac{1}{4}$ grain of Codeine Phosphate in each fluid drachm has a mild analgesic effect and also helps to induce sleep. The cough reflex is depressed by the action of the Codeine and combined with Terpin Hydrate, Menthol and Pine Oil, together with other essential oils, the resulting elixir assists expectoration, is distinctly sedative and engenders a warming and soothing feeling immediately a dose has been taken.

ELIXIR OF TERPIN WITH CODEINE (WOOLLEY)

FORMULA: Codeine Phosphate B.P., $\frac{1}{4}$ grain. Terpin Hydrate B.P.C., $\frac{1}{4}$ grain. Menthol B.P., $\frac{5}{32}$ grain. Oil of Pimento B.P.C., $\frac{1}{24}$ minim. Eucalyptol B.P.C., $\frac{1}{16}$ minim. Glycerin B.P., 20 minims. Syrup B.P., 15 minims. Alcohol B.P. 90%, a sufficiency. Flavour and colour, a sufficiency. Water to 1 fluid drachm. **DOSE:** 1 to 2 teaspoonfuls diluted with water.

Mas cura la dieta que la lanceta

A good diet cures more
than the lancet.

(Spanish Proverb)

SINCE we all suffer at some time, many of us all the time, from such culinary curses of the age as harmful food processing—days-old vegetables—an emascu-
lated loaf—Supavite is good for everyone. But over and above that basic truism you will know many categories among your patients for whom a food supplement of the calibre and comprehensiveness of Supavite is more than good—is maybe vital. Old people with inadequate shopping and cooking facilities, women in pregnancy and lactation, men undergoing heavy physical stress, convalescents, patients who have no appetite or must diet, ailing children—Supavite is their manna in the wilderness. Any clinical or sub-clinical state involving (or likely to lead to) mild vitamin deficiency is a cry for Supavite, which contains not only the essential vitamins but also the trace-elements necessary both in themselves and for proper utilization of the vitamins.

Wall's Ice Cream is a well-balanced food, with valuable fat, carbohydrate and protein content. It is easily assimilated and of high calorific value. Very often patients with poor appetites readily accept and enjoy ice cream, and for this reason also, hospitals include ice cream in their invalid diet.

There is no more enjoyable way of taking nourishment than by eating good ice cream.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

UNIVERSITY COLLEGE HOSPITAL Ibadan, Nigeria Department of Surgery**1 SENIOR REGISTRAR (1 of 2 at present)****1 REGISTRAR (1 of 5)****1 SENIOR REGISTRAR OR REGISTRAR (E.N.T.)**

The Board of Management invite application from medical practitioners with the requisite post-graduate experience and qualifications for the above posts in the almost completed teaching hospital. The salaries offered for the posts are: Senior Registrar, £1,428 per annum, rising by three annual increments to £1,596 per annum, plus an inducement addition payable to an expatriate doctor of £300 per annum. Registrar, £1,164 per annum for the first year, rising to £1,212 per annum for the second year, plus an inducement addition payable to an expatriate doctor of £270 per annum. Successful candidates will be asked to assume duty about May 1, 1957. The Senior Registrar must hold the F.R.C.S. and have had sufficient experience to enable him to deputize for consultant. There is plenty of scope for operative experience. Senior Registrars will probably be asked to supervise the Casualty Department for six months of this time. This would be in conjunction with the traumatic in-patient work, which is very heavy. The Registrar will work in a team consisting of a Consultant, with or without Senior Registrar, and appropriate House Officers. There is ample scope for experience in General and Traumatic Surgery. The Registrar will also help with the supervising of Casualty in rotation. It is possible to arrange with the Anatomy and Physiology Department of University College for work for the Primary Fellowship. The Senior Registrar or Registrar (E.N.T.) should hold an F.R.C.S. and be sufficiently experienced to take charge in the absence, on leave, of the Senior Lecturer. The appointment will be initially for one tour of 12 months and will be renewable, by mutual agreement, for a further tour of 12 months. On satisfactory completion of the agreement a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8 1/3% of salary, excluding inducement allowance, and the officer appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. Free first-class passages are provided for expatriate doctors and their wives on first appointment and on completion of their agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for non-expatriate doctors. Free first-class passages will be provided on vacation leave. Successful candidates will be eligible for children's allowance in accordance with current regulations. Arrangements can be made to enable doctors to continue their National Health Service Superannuation Scheme contributions, and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than March 16, 1957, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope by the Adviser on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, Palace Street, London, S.W.1. UNIVERSITY COLLEGE HOSPITAL

Ibadan, Nigeria
Department of Medicine

SENIOR REGISTRAR**2 REGISTRARS (or Senior House Officers)**

The Board of Management invite applications from registered medical practitioners for the above appointments in the new teaching hospital of 500 beds, which will open for the reception of patients within the next two months. The building is on the most modern lines. The Department of Medicine contains 120 beds; there is also a well-equipped out-patients' clinic. There is great variety in the clinical conditions encountered and much room for original work, the departmental facilities for which are excellent. Candidates insufficiently experienced for Registrar may be offered an engagement in the grading of Senior House Officer. The salaries offered for the posts are: Senior Registrar, first year £1,428 per annum, second year £1,482 per annum, third year £1,542 per annum, fourth year £1,596 per annum. Registrar, first year £1,164 per annum, second year £1,212 per annum. Senior House Officer £1,116 per annum. In addition, an inducement allowance is payable to an expatriate doctor of £270 per annum on salary less than £1,285 per annum, or £300 where the salary exceeds £1,285 per annum. The appointment will be initially for one tour of 12 months and will be renewable by mutual agreement for a further tour of 12 months. On satisfactory completion of the agreement a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8 1/3% of salary, excluding inducement allowance, and an expatriate officer appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. Free first-class passages are provided for expatriate doctors and their wives on first appointment and on completion of their agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for non-expatriate doctors. Leave privileges for Nigerian Registrars follow closely those granted to expatriate doctors, while leave for Senior House Officers is on a lower scale. Arrangements can be made to enable doctors to continue their National Health Service Superannuation Scheme contributions, and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than March 16, 1957, on the appropriate forms, which will be forwarded, together with additional information, on receipt of foolscap envelope by the Adviser on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, Palace Street, London, S.W.1. UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****THE BERKELEY FELLOWSHIP**

(Founded in memory of the late Sir G. H. A. Comyns Berkeley and his wife, Ethel Rose Berkeley)

The Berkeley Fellowship was founded under the will of the late Sir G. H. A. Comyns Berkeley to provide an opportunity for research in medicine, or for visits to medical institutions or hospitals to a person elected jointly by the Master and Fellows of Gonville and Caius College, Cambridge, and the Council of the Middlesex Hospital Medical School. Under the terms of the bequest, medical centres in any part of the world may be visited, with the exception of Oxford or Cambridge.

Applications from graduates in medicine of the Middlesex Hospital Medical School are invited for the Fellowship. The period of tenure of the Fellowship and the emoluments will depend upon the circumstances of each case. A Fellowship will not normally be awarded for a period shorter than three months or longer than one year, but applications for renewal will be considered. The emolument may be paid as stipend or as grant to cover travel and other expenses necessarily incurred by the Fellow in the performance of his programme of work, or partly as stipend and partly as grant. The total emolument allowed will not normally exceed \$1,500 during one year's tenure.

Applications should reach the Dean of the Middlesex Hospital Medical School by April 30, 1957, and should include the following information:

- Name, address, and age.
- Qualifications and experience.
- Present appointment.
- Programme of work proposed, with estimate of necessary expenses.
- Other sources of financial assistance, including any stipend from present appointment, if continued during the tenure of the Fellowship.

The Arithmetic of Peptic Ulcer Treatment

The anticholinergic is 'Merbentyl'—free from side-effects.

The antacid element is a combination of Magnesium Oxide (quick-acting, laxative) with Aluminium Hydroxide (long-acting, astringent).

N.B. 'Kolantyl' makes unnecessary the separate administration of antacids and anticholinergics.

The demulcent is Methylcellulose—a protective coating to promote rapid healing.

The antilysozyme is Sodium Lauryl Sulphate—to inhibit lysozyme and pepsin over-activity.

* 'Merbentyl' brand diethylaminocarb. thoxybicyclohexyl hydrochloride.
